(Title of class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Brandywine Realty Trust Yes  No   
Brandywine Operating Partnership, L.P. Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Brandywine Realty Trust Yes  No   
Brandywine Operating Partnership, L.P. Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Brandywine Realty Trust Yes  No   
Brandywine Operating Partnership, L.P. Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Brandywine Realty Trust Yes  No   
Brandywine Operating Partnership, L.P. Yes  No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Brandywine Realty Trust:  
Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Brandywine Operating Partnership, L.P.:  
Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Brandywine Realty Trust Yes  No

Brandywine Operating Partnership, L.P. Yes  No

As of June 30, 2014, the aggregate market value of the Common Shares of Beneficial Interest held by non-affiliates of Brandywine Realty Trust was \$2,416,656,732 based upon the last reported sale price of \$15.60 per share on the New York Stock Exchange on June 30, 2014. An aggregate of 179,699,423 Common Shares of Beneficial Interest were outstanding as of February 17, 2015.

As of June 30, 2014 the aggregate market value of the 1,763,739 common units of limited partnership ("Units") held by non-affiliates of Brandywine Operating Partnership, L.P. was \$27,514,328 based upon the last reported sale price of \$15.60 per share on the New York Stock Exchange on June 30, 2014 of the Common Shares of Beneficial Interest of Brandywine Realty Trust, the sole general partner of Brandywine Operating Partnership, L.P. (For this computation, the Registrant has excluded the market value of all Units beneficially owned by Brandywine Realty Trust.)

Documents Incorporated By Reference

Portions of the proxy statement for the 2015 Annual Meeting of Shareholders of Brandywine Realty Trust are incorporated by reference into Part III of this Form 10-K.

## EXPLANATORY NOTE

This report combines the annual reports on Form 10-K for the year ended December 31, 2014 of Brandywine Realty Trust (the “Parent Company”) and Brandywine Operating Partnership, L.P. (the “Operating Partnership”). The Parent Company is a Maryland real estate investment trust, or REIT, that owns its assets and conducts its operations through the Operating Partnership, a Delaware limited partnership, and subsidiaries of the Operating Partnership. The Parent Company, the Operating Partnership and their consolidated subsidiaries are collectively referred to in this report as the “Company”. In addition, terms such as “we”, “us”, or “our” used in this report may refer to the Company, the Parent Company, or the Operating Partnership.

The Parent Company is the sole general partner of the Operating Partnership and as of December 31, 2014, owned a 99.0% interest in the Operating Partnership. The remaining 1.0% interest consists of common units of limited partnership interest issued by the Operating Partnership to third parties in exchange for contributions of properties to the Operating Partnership. As the sole general partner of the Operating Partnership, the Parent Company has full and complete authority over the Operating Partnership’s day-to-day operations and management.

As general partner with control of the Operating Partnership, the Parent Company consolidates the Operating Partnership for financial reporting purposes, and the Parent Company does not have significant assets other than its investment in the Operating Partnership. Therefore, the assets and liabilities of the Parent Company and the Operating Partnership are the same on their respective financial statements. The separate discussions of the Parent Company and the Operating Partnership in this report should be read in conjunction with each other to understand the results of the Company’s operations on a consolidated basis and how management operates the Company.

Management operates the Parent Company and the Operating Partnership as one enterprise. The management of the Parent Company consists of the same members as the management of the Operating Partnership. These members are officers of both the Parent Company and of the Operating Partnership.

The Company believes that combining the annual reports on Form 10-K of the Parent Company and the Operating Partnership into a single report will result in the following benefits:

- facilitate a better understanding by the investors of the Parent Company and the Operating Partnership by enabling them to view the business as a whole in the same manner as management views and operates the business;
- remove duplicative disclosures and provide a more straightforward presentation in light of the fact that a substantial portion of the disclosure applies to both the Parent Company and the Operating Partnership; and
- create time and cost efficiencies through the preparation of one combined report instead of two separate reports.

There are few differences between the Parent Company and the Operating Partnership, which are reflected in the footnote disclosures in this report. The Company believes it is important to understand the differences between the Parent Company and the Operating Partnership in the context of how these entities operate as an interrelated consolidated company. The Parent Company is a REIT, whose only material asset is its ownership of the partnership interests of the Operating Partnership. As a result, the Parent Company does not conduct business itself, other than acting as the sole general partner of the Operating Partnership, issuing public equity from time to time and guaranteeing the debt obligations of the Operating Partnership. The Operating Partnership holds substantially all the assets of the Company and directly or indirectly holds the ownership interests in the Company’s real estate ventures. The Operating Partnership conducts the operations of the Company’s business and is structured as a partnership with no publicly traded equity. Except for net proceeds from equity issuances by the Parent Company, which are contributed to the Operating Partnership in exchange for partnership units, the Operating Partnership generates the capital required by the Company’s business through the Operating Partnership’s operations, by the Operating Partnership’s direct or indirect incurrence of indebtedness or through the issuance of partnership units of the Operating Partnership or equity interests in subsidiaries of the Operating Partnership.

The equity and non-controlling interests in the Parent Company and the Operating Partnership’s equity are the main areas of difference between the consolidated financial statements of the Parent Company and the Operating Partnership. The common units of limited partnership interest in the Operating Partnership are accounted for as partners’ equity in the Operating Partnership’s financial statements while the common units of limited partnership interests held by parties other than the Parent Company are presented as non-controlling interests in the Parent Company’s financial statements. The differences between the Parent Company and the Operating Partnership’s equity relate to the differences in the equity issued at the Parent Company and Operating Partnership levels.

To help investors understand the significant differences between the Parent Company and the Operating Partnership, this report presents the following as separate notes or sections for each of the Parent Company and the Operating Partnership:

- Consolidated Financial Statements;
- Parent Company's and Operating Partnership's Equity

This report also includes separate Item 9A. (Controls and Procedures) disclosures and separate Exhibit 31 and 32 certifications for each of the Parent Company and the Operating Partnership in order to establish that the Chief Executive Officer and the Chief Financial Officer of each entity have made the requisite certifications and that the Parent Company and Operating Partnership are compliant with Rule 13a-15 or Rule 15d-15 of the Securities Exchange Act of 1934, as amended, and 18 U.S.C. § 1350.

In order to highlight the differences between the Parent Company and the Operating Partnership, the separate sections in this report for the Parent Company and the Operating Partnership specifically refer to the Parent Company and the Operating Partnership. In the sections that combine disclosures of the Parent Company and the Operating Partnership, this report refers to such disclosures as those of the Company. Although the Operating Partnership is generally the entity that directly or indirectly enters into contracts and real estate ventures and holds assets and debt, reference to the Company is appropriate because the business is one enterprise and the Parent Company operates the business through the Operating Partnership.

## Filing Format

This combined Form 10-K is being filed separately by Brandywine Realty Trust (the "Parent Company") and Brandywine Operating Partnership, L.P. (the "Operating Partnership").

### Forward-Looking Statements

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. This Annual Report on Form 10-K and other materials filed by us with the Securities and Exchange Commission (the "SEC") (as well as information included in oral or other written statements made by us) contain statements that are forward-looking, including statements relating to business and real estate development activities, acquisitions, dispositions, future capital expenditures, financing sources, governmental regulation (including environmental regulation) and competition. We intend such forward-looking statements to be covered by the safe-harbor provisions of the 1995 Act. The words "anticipate," "believe," "estimate," "expect," "intend," "will," "should" and similar expressions, as they relate to us, are intended to identify forward-looking statements. Although we believe that the expectations reflected in such forward-looking statements are based on reasonable assumptions, we can give no assurance that our expectations will be achieved. As forward-looking statements, these statements involve important risks, uncertainties and other factors that could cause actual results to differ materially from the expected results and, accordingly, such results may differ from those expressed in any forward-looking statements made by us or on our behalf. Factors that could cause actual results to differ materially from our expectations include, but are not limited to:

- the continuing impact of modest global economic growth, which is having and may have a negative effect on the following, among other things:
  - the fundamentals of our business, including overall market occupancy, demand for office space and rental rates;
  - the financial condition of our tenants, many of which are financial, legal and other professional firms, our lenders, counterparties to our derivative financial instruments and institutions that hold our cash balances and short-term investments, which may expose us to increased risks of default by these parties;
  - the availability of financing on attractive terms or at all, which may adversely impact our future interest expense and our ability to pursue acquisition and development opportunities and refinance existing debt; and
  - a decline in real estate asset valuations, which may limit our ability to dispose of assets at attractive prices or obtain or maintain debt financing secured by our properties or on an unsecured basis.
- changes in local real estate conditions (including changes in rental rates and the number of properties that compete with our properties);
- our failure to lease unoccupied space in accordance with our projections;
- our failure to re-lease occupied space upon expiration of leases;
- tenant defaults and the bankruptcy of major tenants;
- increases in interest rates;
- failure of interest rate hedging contracts to perform as expected and the effectiveness of such arrangements;
- failure of acquisitions to perform as expected;
- unanticipated costs associated with the acquisition, integration and operation of our acquisitions;
- unanticipated costs to complete, lease-up and operate our developments and redevelopments;
- unanticipated costs associated with land development, including building moratoriums and inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals, construction cost increases or overruns and construction delays;
- impairment charges;
- increased costs for, or lack of availability of, adequate insurance, including for terrorist acts or environmental liabilities;
- actual or threatened terrorist attacks;
- the impact on workplace and tenant space demands driven by technology, employee culture and commuting patterns;
- demand for tenant services beyond those traditionally provided by landlords;
- liability and clean-up costs under environmental or other laws;
- failure or bankruptcy of real estate venture partners;
- inability of real estate venture partners to fund venture obligations or perform under our real estate venture development agreements;
- failure to manage effectively our growth into new product types within our real estate venture arrangements;
- failure of dispositions to close in a timely manner;
- earthquakes and other natural disasters;
- the unforeseen impact of climate change and compliance costs relating to laws and regulations governing climate change;
- risks associated with federal, state and local tax audits;

- complex regulations relating to our status as a REIT and the adverse consequences of our failure to qualify as a REIT; and
- the impact of newly adopted accounting principles on our accounting policies and on period-to-period comparisons of financial results.

Given these uncertainties, and the other risks identified in the “Risk Factors” section and elsewhere in this Annual Report on Form 10-K, we caution readers not to place undue reliance on forward-looking statements. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events.

## PART I

### **Item 1. Business**

#### **Introduction**

We are a self-administered and self-managed REIT that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office, industrial, retail and mixed-use properties. As of December 31, 2014, we owned 200 properties that contain an aggregate of approximately 25.1 million net rentable square feet and consist of 167 office properties, 20 industrial facilities, five mixed-use properties, one retail property (193 core properties), two properties classified as held for sale, three development properties, one redevelopment property and one re-entitlement property (collectively, the “Properties”). In addition, as of December 31, 2014, we owned economic interests in 17 unconsolidated real estate ventures that own properties that contain approximately 6.7 million net rentable square feet (collectively, the “Real Estate Ventures”). As of December 31, 2014, we also owned 415 acres of undeveloped land, and held options to purchase approximately 63 additional acres of undeveloped land. As of December 31, 2014, the total potential development that these land parcels could support under current zoning, entitlements or combination thereof, amounted to 6.0 million square feet. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Richmond, Virginia; Wilmington, Delaware; Austin, Texas and Oakland, Concord, and Carlsbad, California. In addition to managing properties that we own, as of December 31, 2014, we were managing approximately 8.9 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures. Unless otherwise indicated, all references in this Form 10-K to square feet represent net rentable area. We do not have any foreign operations and our business is not seasonal. Our operations are not dependent on a single tenant or a few tenants and no single tenant accounted for more than 10% of our total 2014 revenue.

#### **Organization**

The Parent Company was organized and commenced its operations in 1986 as a Maryland REIT. The Parent Company owns its assets and conducts its operations through the Operating Partnership and subsidiaries of the Operating Partnership. The Operating Partnership was formed in 1996 as a Delaware limited partnership. The Parent Company controls the Operating Partnership as its sole general partner. As of December 31, 2014, the Parent Company owned a 99.0% interest in the Operating Partnership. The remaining 1.0% interest in the Operating Partnership consists of common units of limited partnership interest issued to the holders in exchange for contributions of properties to the Operating Partnership. Our structure as an “UPREIT” is designed, in part, to permit persons contributing properties to us to defer some or all of the tax liability they might otherwise incur in a sale of properties. Our executive offices are located at 555 East Lancaster Avenue, Suite 100, Radnor, Pennsylvania 19087 and our telephone number is (610) 325-5600. We have offices in Philadelphia, Pennsylvania; McLean, Virginia; Mount Laurel, New Jersey; Richmond, Virginia; Austin, Texas; and Carlsbad, California. We have an internet website at [www.brandywinerealty.com](http://www.brandywinerealty.com). We are not incorporating by reference into this Annual Report on Form 10-K any material from our website. The reference to our website is an inactive textual reference to the uniform resource locator (URL) and is for your reference only.

#### **2014 Transactions**

##### *Real Estate Acquisitions*

On February 19, 2014, we acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas for \$14.0 million. The land is fully entitled with a site plan and building permits in place allowing for the development of two four-story office buildings containing approximately 320,000 rentable square feet. The purchase price included an in-place lease for 75% of the first building. We capitalized \$8.4 million in construction in progress, recorded \$4.6 million in land inventory and recorded a deposit for a portion of the future development fee held in escrow of \$1.0 million. We funded the acquisition with available corporate funds. See “*Developments*” below for further discussion of construction progress.

### *Real Estate Dispositions*

On October 24, 2014, we sold the Valleybrooke Office Park, comprised of five properties consisting of 279,934 rentable square feet, located in Malvern, Pennsylvania for a sales price of \$37.9 million. During the third quarter of 2014, we recognized a \$1.8 million impairment loss on these properties. On October 24, 2014, we recorded a gain of \$0.2 million upon settlement.

On September 30, 2014, we sold an office building, commonly known as "Campus Pointe," containing 172,943 rentable square feet at 1880 Campus Commons Drive in Reston, Virginia for a sales price of \$42.5 million, resulting in a gain on sale of \$4.7 million after closing and other transaction related costs.

On April 16, 2014, we sold a 5.3 acre parcel of land located in Dallas, Texas for a sales price of \$1.6 million resulting in a nominal gain on sale of undepreciated real estate after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

On April 3, 2014, we contributed two three-story, Class A office buildings, commonly known as "Four Points Centre," containing an aggregate of approximately 192,396 net rentable square feet in Austin, Texas to an existing real estate venture (the "Austin Venture") that we formed in 2013 with G&I VII Austin Office LLC, an investment vehicle advised by DRA Advisors LLC ("DRA"). We contributed the property to the Austin Venture at an agreed upon value of \$41.5 million. In conjunction with the contribution: (i) the Austin Venture obtained a \$29.0 million mortgage loan; (ii) DRA contributed \$5.9 million in net cash to the capital of the Austin Venture; and (iii) the Austin Venture distributed \$34.4 million to us and credited us with a \$5.9 million capital contribution to the Austin Venture.

On March 27, 2014, we sold a 16.8 acre undeveloped parcel of land located in Austin, Texas for a sales price of \$3.5 million, resulting in \$1.2 million gain on sale of undepreciated real estate after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

### *Held for Sale*

On January 8, 2015, we sold two office properties, commonly known as "Atrium I," which includes 99,668 square feet of rentable space located in Mt Laurel, New Jersey and "Libertyview," which includes 121,737 square feet of rentable space located in Cherry Hill, New Jersey. As of December 31, 2014, we classified Atrium I and Libertyview as held for sale in accordance with applicable accounting standards for long lived assets.

The operating results of the property dispositions listed above remain classified within continuing operations for all periods presented.

### *Austin Venture - River Place*

On October 17, 2014, the Austin Venture acquired River Place, comprised of seven Class A office buildings containing 591,000 rentable square feet located in Austin, Texas for \$128.1 million. The transaction was funded through a combination of an \$88.0 million short-term loan, secured by a mortgage, that we made to the Austin Venture and cash capital contributions of \$18.9 million made by each of DRA and us to the Austin Venture. The loan agreement for our short-term loan had provided for financing from us through March 2015 at the following tiered interest rates; (i) 4.0% through December 31, 2014, (ii) 5.0% from January 1, 2015 through January 31, 2015, (iii) 7.0% from February 1, 2015 through February 28, 2015 and (iv) 9.0% from March 1, 2015 through March 31, 2015. On January 30, 2015, the Austin Venture closed on a mortgage loan with a non-affiliated institutional lender, and a portion of the proceeds of this loan was applied to repay in full our short-term loan.

### *Austin Venture - The Crossings*

On July 31, 2014, the Austin Venture acquired the Crossings at Lakeline, comprised of two three-story buildings containing an aggregate of 232,274 rentable square feet located in the Far Northwest submarket of Austin, Texas for \$48.2 million. The transaction was funded with \$34.5 million of proceeds of a 3.87% fixed rate mortgage loan from a non-affiliated institutional lender and \$12.8 million (net of \$0.9 million in purchase adjustments) of cash capital contributions, with \$6.4 million from each of DRA and us.

### *Austin Venture - Four Points Centre*

See discussion of Four Points Centre in the Dispositions section of Note 3, "Real Estate Investments."

We continually assess our portfolio in light of our strategic and economic considerations to determine whether to sell properties in the portfolio. Sales of properties, and determinations to hold properties for sale, may result in an impairment or other loss, and such loss could be material to our statement of operations.

## **Developments**

As of December 31, 2014, we owned 415 acres of undeveloped land, and held options to purchase approximately 63 additional acres of undeveloped land.

We are a party to a development agreement and related ground leases with the University of Pennsylvania covering two adjacent parcels of land. As described below under "evo at Cira Centre South Venture Development" (otherwise referred to as "evo at Cira"), on January 25, 2013, we contributed our development and ground lease rights in one of the land parcels to evo at Cira, a real estate venture, which has substantially completed construction of, and placed into service, a student housing tower on the parcel.

### *FMC Tower at Cira Centre South*

As to the other land parcel, on October 31, 2013, we determined to proceed with development of the FMC Tower at Cira Centre South (the "FMC Tower") (formerly the Cira Walnut Tower), designed as a trophy class, mixed-use office tower at 30th and Walnut Streets in Philadelphia, Pennsylvania. We anticipate the project cost to total \$385.0 million, of which \$47.6 million had been funded through December 31, 2014. We intend to fund remaining development costs through a combination of potential sources, including existing cash balances, availability under our unsecured line of credit, capital raised through one or more joint venture formations, proceeds from asset sales or equity and debt financing. The costs to complete the project will be funded over the construction period, which commenced in the second quarter of 2014 and is scheduled to conclude during the second quarter of 2016.

As of December 31, 2014, we had pre-leased an aggregate of 60% of the office square feet of the FMC Tower. The anchor tenant for approximately 280,000 square feet of office space under a 16-year lease is FMC Corporation, a diversified chemical company serving agricultural, consumer and industrial markets globally. In addition, we have pre-leased 100,000 square feet of office space to the University of Pennsylvania under a 20-year lease.

Our ground leases with the University of Pennsylvania have a term through July 2097, with a variable rent that would provide the University of Pennsylvania with a percentage of the cash flow or proceeds of specified capital events subject to receipt of a priority return on eligible investments.

### *Encino Trace*

See "Real Estate Acquisitions" above for our acquisition of Encino Trace on February 19, 2014. We commenced development of one of the buildings, which will contain 160,000 square feet, on the Encino Trace land during the first quarter 2014. As of December 31, 2014, the building was 75% pre-leased to an anchor tenant. During the second quarter 2014, we commenced construction of the second building that will contain 160,000 square feet. We anticipate completion of both buildings by the third quarter of 2015. Our total anticipated project costs for both buildings are approximately \$87.4 million, of which \$38.8 million had been funded as of December 31, 2014. We anticipate funding the remaining development costs from available corporate funds. We intend to contribute the properties to a real estate venture upon stabilization of the development.

### *Cira Green Roof*

During 2014, we began developing the Cira Green Roof, a one acre elevated urban park situated on the top of Cira South parking garage located directly between the FMC Tower and Cira Centre South. We anticipate this project will be completed during the second quarter of 2015. Our total anticipated project costs are approximately \$12.5 million with \$10.8 million funded as of December 31, 2014.

### *660 West Germantown Pike*

During June 2014, we placed into service a redevelopment office property known as 660 West Germantown Pike. This property contains 161,521 net rentable square feet and is located in Plymouth Meeting, Pennsylvania. We acquired this property in 2012 for \$9.1 million. Our total redevelopment costs were \$29.4 million (including the initial acquisition cost). This property was 100.0% leased as of December 31, 2014.

### *200 Radnor Chester Road*

Also in June 2014, we placed into service a development retail and restaurant complex containing 17,884 rentable square feet located at 200 Radnor Chester Road, in Radnor, Pennsylvania. We commenced construction during April 2013. Total development costs were \$7.5 million (including the land acquisition cost). This property was 100.0% leased at December 31, 2014.

### *1919 Market Street Venture*

On January 20, 2011, we acquired a one acre parcel of land in Philadelphia, Pennsylvania for \$9.3 million. We thereafter contributed the acquired land into a then newly-formed general partnership, referred to below as "1919 Ventures" in return for a 50.0% general partner interest, with the remaining 50.0% interest owned by an unaffiliated third party, who contributed cash in exchange for its interest. On October 15, 2014, we acquired the interest of the unaffiliated third party at fair value, which approximates carrying value. No remeasurement gain or loss on our previous investment was recorded at that time.

On October 21, 2014, we admitted an unaffiliated third party, LCOR/CalSTRS ("LCOR") into 1919 Ventures, for \$8.2 million representing a 50% interest and, reflecting an agreed upon \$16.4 million valuation of the land and improvements incurred by us on behalf of 1919 Ventures.

On October 27, 2014, 1919 Ventures announced a planned 29-story, 455,000 square foot contemporary glass tower development. The tower has been designed as a mixed-use development consisting of residential, retail and parking components. The residential component of the project will be comprised of 321 luxury apartments. The commercial space will consist of 24,000 square feet and is currently 90% pre-leased. The parking component will consist of a 215-car structured parking facility. Total project costs are estimated at \$148.1 million. A portion of the costs are being funded with proceeds of an \$88.9 million secured construction loan from an unaffiliated institutional lender, and the remaining \$59.2 million is expected to be funded with equity contributions from each of us and LCOR. As of December 31, 2014, there was no outstanding balance on the construction loan and equity contributions totaled \$13.4 million from each of us and LCOR.

### *4040 Wilson Venture Development*

On July 31, 2013, we formed 4040 Wilson LLC Venture ("4040 Wilson"), as a joint venture between us and Ashton Park Associates LLC ("Ashton Park"), an unaffiliated third party. We and Ashton Park own a 50% interest in 4040 Wilson. 4040 Wilson expects to construct a 426,900 square foot office building representing the final phase of the eight building, mixed-use, Liberty Center complex developed by the parent company of Ashton Park in the Ballston submarket of Arlington, Virginia. 4040 Wilson expects to develop the office building on a 1.3 acre land parcel contributed by Ashton Park to 4040 Wilson at an agreed upon valuation of \$36.0 million. The total estimated project costs are \$194.6 million, which we expect will be financed through approximately \$72.0 million of partner capital contributions (consisting of \$36.0 million in cash from the Company, of which \$26.8 million has been funded to date, and land with a value of \$36.0 million from Ashton Park), with the remaining balance funded by debt financing through a construction lender that has not yet been determined. 4040 Wilson has begun construction of the garage structure at an estimated cost of \$26.9 million. We expect groundbreaking on the building structure to commence upon achievement of certain pre-leasing levels, at which point 4040 Wilson expects to obtain debt financing for a portion of the project costs. Additional equity contributions (exclusive of the \$61.3 million funded at December 31, 2014) are expected to total \$9.2 million and will be funded by us over the remaining construction period.

### *The Parc at Plymouth Meeting Venture Development*

Our 50%-owned unconsolidated real estate venture with Toll Brothers, Inc., a residential home builder, owns a 20-acre parcel of land located in Plymouth Meeting, Pennsylvania, which we contributed to the venture upon its formation in 2012 at a negotiated valuation of \$15.5 million. This venture, known as "TB-BDN Plymouth Apartments, L.P.," commenced construction of a 398-unit multi-family complex in 2013 and we expect this development to be completed in the fourth quarter of 2015. We expect the project will cost approximately \$77.0 million, of which \$50.5 million had been funded as of December 31, 2014 through capital contributions to the venture consisting of \$15.5 million funded by us through our land contribution and \$15.5 million funded by Toll Brothers in cash and net of a \$3.0 million excess capital distribution made to each partner in December 2013. We expect to fund a substantial portion of the remaining costs through a \$56.0 million secured construction loan, of which \$29.5 million was funded as of December 31, 2014. The TB-BDN Plymouth Venture obtained this construction loan in December 2013. In addition to providing the lender a guaranty of 50% of costs overruns on the construction, we have provided the lender a payment guaranty on the loan covering \$3.2 million.

During the third quarter of 2014, a real estate venture (referred to below as evo at Cira) that we formed with two unaffiliated parties (Campus Crest Properties, LLC "Campus Crest" and HSRE-Campus Crest IXA, LLC "HSRE"), placed into service a 33-story, 850-bed student housing tower, known as evo at Cira Centre South, located in the University City submarket of Philadelphia, Pennsylvania. We and Campus Crest each own a 30% interest in evo at Cira and HSRE owns a 40% interest. evo at Cira developed the project on a one-acre parcel of land held under a long-term ground lease with the University of Pennsylvania, as ground lessor. We contributed to evo at Cira our tenancy rights under the long-term ground lease, together with associated development rights, at an agreed-upon value of \$8.5 million. The total estimated project costs are \$158.5 million, which are being financed through partner capital contributions totaling \$60.7 million, and through \$97.8 million of secured debt construction financing provided by unaffiliated institutional lenders. We and Campus Crest have each provided, in addition to customary non-recourse carve-out guarantees, a completion and cost overrun guaranty, as well as a payment guaranty, on the construction financing (with the share of the payment guaranty for each of us and Campus Crest being approximately \$24.7 million). As of December 31, 2014, we had funded 100.0% of our anticipated equity contributions.

### **Business Objective and Strategies for Growth**

Our business objective is to deploy capital effectively to maximize our return on investment and thereby maximize our total return to shareholders. To accomplish this objective we seek to:

- concentrate on urban town centers and central business districts in selected regions, and be the best of class owner and developer in those markets;
- maximize cash flow through leasing strategies designed to capture rental growth as rental rates increase and as leases are renewed;
- attain a high tenant retention rate by providing a full array of property management and maintenance services and tenant service programs responsive to the varying needs of our diverse tenant base;
- form joint venture opportunities with high-quality partners having attractive real estate holdings or significant financial resources;
- utilize our reputation as a full-service real estate development and management organization to identify acquisition and development opportunities that will expand our business and create long-term value;
- increase the economic diversification of our tenant base while maximizing economies of scale; and
- selectively reduce our portfolio over time, in non-core suburban properties that are not located in our core regions.

We also consider the following to be important objectives:

- to acquire and develop high-quality office properties at attractive yields in markets that we expect will experience economic growth and where we can achieve operating efficiencies;
- to monetize or deploy our land inventory for development of high-quality office properties, or rezone from office/industrial to residential, retail and hotel to align with market and demand shifts as appropriate; and
- to capitalize on our redevelopment expertise to selectively develop, redevelop and reposition properties in desirable locations that other organizations may not have the resources to pursue.

We expect to concentrate our real estate activities in markets where we believe that:

- current and projected market rents and absorption statistics justify construction activity;
- we can maximize market penetration by accumulating a critical mass of properties and thereby enhance operating efficiencies;
- barriers to entry (such as zoning restrictions, utility availability, infrastructure limitations, development moratoriums and limited developable land) will create supply constraints on office and industrial space; and
- there is potential for economic growth, particularly job growth and industry diversification.

## **Operating Strategy**

We currently expect to continue to operate in markets where we have a concentration advantage due to economies of scale. We believe that where possible, it is best to operate with a strong base of properties in order to benefit from the personnel allocation and the market strength associated with managing multiple properties in the same market. We also intend to selectively dispose of properties and redeploy capital if we determine a property cannot meet our long term earnings growth expectations. We believe that recycling capital is an important aspect of maintaining the overall quality of our portfolio.

Our broader strategy remains focused on continuing to enhance liquidity and strengthen our balance sheet through capital retention, debt reduction, targeted sales activity and management of our existing and prospective liabilities.

In the long term, we believe that we are well positioned in our current markets and have the expertise to take advantage of both development and acquisition opportunities, as warranted by market and economic conditions, in new markets that have healthy long-term fundamentals and strong growth projections. This capability, combined with what we believe is a conservative financial structure, should allow us to achieve disciplined growth. These abilities are integral to our strategy of having a diverse portfolio of assets, which will meet the needs of our tenants.

We use experienced on site construction superintendents, operating under the supervision of project managers and senior management, to control the construction process and mitigate the various risks associated with real estate development.

In order to fund developments, redevelopments and acquisitions, as well as refurbish and improve existing properties, we must use excess cash from operations after satisfying our dividend and other requirements. The availability of funds for new investments and maintenance of existing properties depends in large measure on capital markets and liquidity factors over which we can exert little control.

### **Policies With Respect To Certain Activities**

The following is a discussion of our investment, financing and other policies. These policies have been determined by our Board of Trustees and our Board of Trustees may revise these policies without a vote of shareholders.

#### *Investments in Real Estate or Interests in Real Estate*

We may develop, purchase or lease income-producing properties for long-term investment, expand and improve the properties presently owned or other properties purchased, or sell such properties, in whole or in part, as circumstances warrant. Although there is no limitation on the types of development activities that we may undertake, we expect that our office development activities will meet current market demand and will generally be on a build-to-suit basis for particular tenants where a significant portion of the building is pre-leased before construction begins. We continue to participate with other entities in property ownership through existing joint ventures or other types of co-ownership. Our equity investments may be subject to existing or future mortgage financing and other indebtedness that will have priority over our equity investments.

#### *Securities of or Interests in Entities Primarily Engaged in Real Estate Activities and Other Issuers*

Subject to the percentage of ownership limitations and gross income tests necessary for REIT qualification, we may invest in securities of other REITs, other entities engaged in real estate activities or securities of other issuers. We may enter into joint ventures or partnerships for the purpose of obtaining an equity interest in a particular property. We do not currently intend to invest in the securities of other issuers except in connection with joint ventures or acquisitions of indirect interests in properties.

#### *Investments in Real Estate Mortgages*

While our current portfolio consists of, and our business objectives emphasize, equity investments in commercial real estate, we may, at the discretion of management or our Board of Trustees, invest in other types of equity real estate investments, mortgages and other real estate interests. We do not presently intend to invest to a significant extent in mortgages or deeds of trust, but may invest in participating mortgages if we conclude that we may benefit from the cash flow or any appreciation in the value of the property securing a mortgage. From time to time, we provide seller financing to buyers of our properties. We do this when the buyer requires additional funds for the purchase and provision of seller financing will be beneficial to us and the buyer compared to a mortgage loan from a third party lender.

### *Dispositions*

Our disposition of properties is based upon management's periodic review of our portfolio and the determination by management or our Board of Trustees that a disposition would be in our best interests. We intend to use selective dispositions to reduce our ownership in non-core markets, fund our capital and refinancing needs.

### *Financing Policies*

A primary objective of our financing policy has been to manage our financial position to allow us to raise capital from a variety of sources at competitive rates. Our mortgages, credit facilities and unsecured debt securities contain restrictions on our ability to incur indebtedness. Our charter documents do not limit the indebtedness that we may incur. Our financing strategy is to maintain a strong and flexible financial position by limiting our debt to a prudent level and minimizing our variable interest rate exposure. We intend to finance future growth and future maturing debt with the most advantageous source of capital then available to us. These sources may include selling additional common or preferred equity and debt securities through public offerings or private placements, utilizing availability under our credit facilities or incurring additional indebtedness through secured or unsecured borrowings. To qualify as a REIT, we must distribute to our shareholders each year at least 90% of our net taxable income, excluding any net capital gain. This distribution requirement limits our ability to fund future capital needs, including for acquisitions and developments, from income from operations. Therefore, we expect to continue to rely on third party sources of capital to fund future capital needs.

### *Guarantees*

As of December 31, 2014, we have provided guarantees on behalf of certain of the real estate ventures, consisting of (i) a \$24.7 million payment guaranty on the construction loan for the project being undertaken by evo at Cira; (ii) a \$3.2 million payment guarantee on the construction loan for a project being undertaken by TB-BDN Plymouth Apartments; and (iii) a \$0.5 million payment guarantee on a loan provided to PJP VII. In addition, during construction undertaken by real estate ventures we have provided and expect to continue to provide cost overrun and completion guarantees, with rights of contribution among partners in the venture, as well as customary environmental indemnities and guarantees of customary exceptions to nonrecourse provisions in loan agreements.

### *Working Capital Reserves*

We maintain working capital reserves and access to borrowings in amounts that our management determines to be adequate to meet our normal contingencies.

### *Policies with Respect to Other Activities*

We expect to issue additional common and preferred equity in the future and may authorize our Operating Partnership to issue additional common and preferred units of limited partnership interest, including to persons who contribute their interests in properties to us in exchange for such units. We have not engaged in trading, underwriting or agency distribution or sale of securities of unaffiliated issuers and we do not intend to do so. We intend to make investments consistent with our qualification as a REIT, unless because of circumstances or changes in the Internal Revenue Code of 1986, as amended (or the Treasury Regulations), our Board of Trustees determines that it is no longer in our best interests to qualify as a REIT. We may make loans to third parties, including to joint ventures in which we participate and to buyers of our real estate. We intend to make investments in such a way that we will not be treated as an investment company under the Investment Company Act of 1940.

### **Management Activities**

We provide third-party real estate management services primarily through wholly-owned subsidiaries of the Operating Partnership (collectively, the "Management Companies"). As of December 31, 2014, the Management Companies were managing properties containing an aggregate of approximately 33.9 million net rentable square feet, of which approximately 25.0 million net rentable square feet related to properties owned by us and approximately 8.9 million net rentable square feet related to properties owned by third parties and unconsolidated Real Estate Ventures.

### **Geographic Segments**

During the year ended December 31, 2014, we were managing our portfolio within seven segments: (1) Pennsylvania Suburbs, (2) Philadelphia Central Business District ("CBD"), (3) Metropolitan Washington, D.C., (4) New Jersey/Delaware, (5) Richmond, Virginia, (6) Austin, Texas and (7) California. The Pennsylvania Suburbs segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and southern

Maryland. The New Jersey/Delaware segment includes properties in Burlington and Camden counties in New Jersey and New Castle county in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield, Goochland and Henrico counties and one property in Durham, North Carolina. The Austin, Texas segment includes properties in Austin. On April 3, 2014, we contributed Four Points Centre to the Austin Venture. After contributing this property, we do not wholly own any operating properties in Austin, Texas. The California segment includes properties in Oakland, Concord, and Carlsbad. Our corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions. See Note 18, "Segment Information," to our consolidated financial statements for information on selected assets and results of operations of our reportable segments for the three years ended December 31, 2014, 2013 and 2012.

### **Competition**

The real estate business is highly competitive. Our Properties compete for tenants with similar properties primarily on the basis of location, total occupancy costs (including base rent and operating expenses), services and amenities provided, and the design and condition of the improvements. We also face competition when attempting to acquire or develop real estate, including competition from domestic and foreign financial institutions, other REITs, life insurance companies, pension funds, partnerships and individual investors. Additionally, our ability to compete depends upon trends in the economies of our markets, investment alternatives, financial condition and operating results of current and prospective tenants, availability and cost of capital, construction and renovation costs, land availability, our ability to obtain necessary construction approvals, taxes, governmental regulations, legislation and population trends.

### **Insurance**

We maintain commercial general liability and "all risk" property insurance on our properties. We intend to obtain similar coverage for properties we acquire in the future. There are types of losses, generally of a catastrophic nature, such as losses from war, terrorism, environmental issues, floods, hurricanes and earthquakes that are subject to limitations in certain areas or which may be uninsurable risks. We exercise our discretion in determining amounts, coverage limits and deductibility provisions of insurance, with a view to maintaining appropriate insurance on our investments at a reasonable cost and on suitable terms. If we suffer a substantial loss, our insurance coverage may not be sufficient to pay the full current market value or current replacement cost of our lost investment. Inflation, changes in building codes and ordinances, environmental considerations and other factors also might make it impractical to use insurance proceeds to fully replace or restore a property after it has been damaged or destroyed.

### **Employees**

As of December 31, 2014, we had 424 full-time employees, including 21 union employees.

### **Government Regulations Relating to the Environment**

Many laws and governmental regulations relating to the environment apply to us and changes in these laws and regulations, or their interpretation by agencies and the courts, occur frequently and may adversely affect us.

*Existing conditions at some of our Properties.* Independent environmental consultants have conducted Phase I or similar environmental site assessments on our Properties. We generally obtain these assessments prior to the acquisition of a property and may later update them as required for subsequent financing of the property or as requested by a tenant. Site assessments are generally performed to ASTM standards then existing for Phase I site assessments, and typically include a historical review, a public records review, a visual inspection of the surveyed site, and the issuance of a written report. These assessments do not generally include any soil samplings or subsurface investigations. Depending on the age of the property, the Phase I may have included an assessment of asbestos-containing materials. For properties where asbestos-containing materials were identified or suspected, an operations and maintenance plan was generally prepared and implemented. See Note 2, "Summary of Significant Accounting Policies," to our consolidated financial statements for our evaluation in accordance with the accounting standard governing asset retirement obligations.

Historical operations at or near some of our Properties, including the operation of underground storage tanks, may have caused soil or groundwater contamination. We are not aware of any such condition, liability or concern by any other means that would give rise to material, uninsured environmental liability. However, the assessments may have failed to reveal all environmental conditions, liabilities or compliance concerns; there may be material environmental conditions, liabilities or compliance concerns that a review failed to detect or which arose at a property after the review was completed; future laws, ordinances or regulations may impose material additional environmental liability; and current environmental conditions at our Properties may be affected in the future by tenants, third parties or the condition of land or operations near our Properties, such as the presence of underground

storage tanks. We cannot be certain that costs of future environmental compliance will not affect our ability to make distributions to our shareholders.

*Use of hazardous materials by some of our tenants.* Some of our tenants handle hazardous substances and wastes on our Properties as part of their routine operations. Environmental laws and regulations may subject these tenants, and potentially us, to liability resulting from such activities. We generally require our tenants, in their leases, to comply with these environmental laws and regulations and to indemnify us for any related liabilities. These tenants are primarily involved in the life sciences and the light industrial and warehouse businesses. We are not aware of any material noncompliance, liability or claim relating to hazardous or toxic substances or petroleum products in connection with any of our Properties, and we do not believe that on-going activities by our tenants will have a material adverse effect on our operations.

*Costs related to government regulation and private litigation over environmental matters.* Under environmental laws and regulations, we may be liable for the costs of removal, remediation or disposal of hazardous or toxic substances present or released on our Properties. These laws could impose liability without regard to whether we are responsible for, or knew of, the presence or release of the hazardous materials. Government investigations and remediation actions may entail substantial costs and the presence or release of hazardous substances on a property could result in governmental cleanup actions or personal injury or similar claims by private plaintiffs.

*Potential environmental liabilities may exceed our environmental insurance coverage limits.* We carry what we believe to be sufficient environmental insurance to cover potential liability for soil and groundwater contamination, mold impact, and the presence of asbestos-containing materials at the affected sites identified in our environmental site assessments. Our insurance policies are subject to conditions, qualifications and limitations. Therefore, we cannot provide any assurance that our insurance coverage will be sufficient to cover all liabilities for losses.

*Potential environmental liabilities may adversely impact our ability to use or sell assets.* The presence of contamination or the failure to remediate contamination may impair our ability to sell or lease real estate or to borrow using the real estate as collateral.

### **Code of Conduct**

We maintain a Code of Business Conduct and Ethics applicable to our Board of Trustees and all of our officers and employees, including our principal executive officer, principal financial officer, principal accounting officer, controller and persons performing similar functions. A copy of our Code of Business Conduct and Ethics is available on our website, [www.brandywinerealty.com](http://www.brandywinerealty.com). In addition to being accessible through our website, copies of our Code of Business Conduct and Ethics can be obtained, free of charge, upon written request to Investor Relations, 555 East Lancaster Avenue, Suite 100, Radnor, PA 19087. Any amendments to or waivers of our Code of Business Conduct and Ethics that apply to our principal executive officer, principal financial officer, principal accounting officer, controller and persons performing similar functions and that relate to any matter enumerated in Item 406(b) of Regulation S-K promulgated by the SEC will be disclosed on our website.

### **Corporate Governance Principles and Board Committee Charters**

Our Corporate Governance Principles and the charters of the Executive Committee, Audit Committee, Compensation Committee and Corporate Governance Committee of the Board of Trustees of Brandywine Realty Trust and additional information regarding our corporate governance are available on our website, [www.brandywinerealty.com](http://www.brandywinerealty.com). In addition to being accessible through our website, copies of our Corporate Governance Principles and charters of our Board Committees can be obtained, free of charge, upon written request to Investor Relations, Brandywine Realty Trust, 555 East Lancaster Avenue, Suite 100, Radnor, PA 19087.

### **Availability of SEC Reports**

We file annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and other information with the SEC. Members of the public may read and copy materials that we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Members of the public may also obtain information on the Public Reference Room by calling the SEC at 1-800-732-0330. The SEC also maintains an Internet web site that contains reports, proxy and information statements and other information regarding issuers, including us, that file electronically with the SEC. The address of that site is <http://www.sec.gov>. Our annual reports on Form 10-K, quarterly reports on Form 10-Q and current reports on Form 8-K and other information filed by us with the SEC are available, without charge, on our Internet web site, <http://www.brandywinerealty.com> as soon as reasonably practicable after they are filed electronically with the SEC. Copies are also available, free of charge, upon written request to Investor Relations, Brandywine Realty Trust, 555 East Lancaster Avenue, Suite 100, Radnor, PA 19087.

## Item 1A. Risk Factors

Our business, financial condition, results from operations and ability to make distributions on our equity and to pay debt service on our indebtedness may be affected by the risk factors set forth below. All investors (including shareholders in the Parent Company and units in the Operating Partnership) should consider the following risk factors before deciding to purchase our securities. This section contains forward-looking statements. Please refer to the explanation of the qualifications and limitations on forward-looking statements beginning on page 7.

***Adverse economic and geopolitical conditions could have a material adverse effect on our results of operations, financial condition and our ability to pay distributions to you.***

Our business is affected by global, national and local economic conditions. Our portfolio consists primarily of office buildings (as compared to real estate companies with portfolios of multiple asset classes). Our economic performance and the value of our real estate assets, and consequently the value of our securities, are subject to the risk that if our properties do not generate revenues sufficient to meet our operating expenses, including debt service and capital expenditures, our cash flow and ability to pay distributions to our security holders will be adversely affected. The following factors, among others, may adversely affect the income generated by our properties and our performance generally:

- adverse changes in international, national or local economic and demographic conditions;
- increased vacancies or our inability to rent space on favorable terms, including market pressures to offer tenants rent abatements, increased tenant improvement packages, early termination rights, below market rental rates or below-market renewal options;
- significant job losses in the financial and professional services industries may occur, which may decrease demand for office space, causing market rental rates and property values to be negatively impacted;
- changes in interest rates, reduced availability of financing and reduced liquidity in the capital markets, which may adversely affect our ability or the ability of buyers and tenants of properties to obtain financing on favorable terms, or at all;
- reduced values of our properties would limit our ability to dispose of assets at attractive prices, limit our access to debt financing secured by our properties and reduce availability of unsecured loans;
- the value and liquidity of our short-term investments and cash deposits could be reduced as a result of a deterioration of the financial condition of the institutions that hold our cash deposits or the institutions or assets in which we have made short-term investments, the dislocation of the markets for our short-term investments, increased volatility in market rates for such investments or other factors;
- one or more lenders under our line of credit could refuse or be unable to fund their financing commitment to us and we may not be able to replace the financing commitment of any such lenders on favorable terms, or at all;
- declines in the financial condition of our tenants which would impact our ability to collect rents from our tenants.
- competition from other commercial office, industrial, retail, and mixed-use properties and commercial buildings, and increased supply of such buildings;
- increased operating costs, including insurance expense, utilities, real estate taxes, janitorial costs, state and local taxes, labor shortages and heightened security costs;
- civil disturbances, earthquakes and other natural disasters, or terrorist acts or acts of war which may result in uninsured or underinsured losses; and
- significant expenditures associated with each investment, such as debt service payments, real estate taxes, insurance and maintenance costs which are generally not reduced when circumstances cause a reduction in revenues from a property.

***Our performance is dependent upon the economic conditions of the markets in which our properties are located.***

Our results of operations will be significantly influenced by the economies and other conditions of the office market in which we operate, particularly in Pennsylvania, New Jersey, Delaware, Maryland, Virginia, Texas, and California. Like other real estate markets, these commercial real estate markets have been impacted by the ongoing economic recovery from the recent recession, and any adverse changes in economic conditions in the future in any of these economies or real estate markets could negatively affect cash available for distribution. Our financial performance and ability to make distributions to our shareholders will be particularly sensitive to the economic conditions in these markets. The local economic climate, which may be adversely impacted by business layoffs or downsizing, industry slowdowns, changing demographics and other factors, and local real estate conditions, such as oversupply of or reduced demand for office space, may affect revenues and the value of properties, including properties to be acquired or developed. We cannot assure you that these local economies will grow in the future.

***We face risks associated with the development of mixed-use commercial properties.***

We operate, are currently developing, and may in the future develop, properties either alone or through joint ventures with other persons that are known as “mixed-use” developments. This means that in addition to the development of office space, the project may also include space for residential, retail, hotel or other commercial purposes. We have limited experience in developing and managing non-office real estate. As a result, if a development project includes a non-office or non-retail use, we may seek to develop that component ourselves, sell the rights to that component to a third-party developer with experience in that use or we may seek to partner with such a developer. If we do not sell the rights or partner with such a developer, or if we choose to develop the other component ourselves, we would be exposed not only to those risks typically associated with the development of commercial real estate generally, but also to specific risks associated with the development and ownership of non-office and non-retail real estate. In addition, even if we sell the rights to develop certain components or elect to participate in the development through a joint venture, we may be exposed to the risks associated with the failure of the other party to complete the development as expected. These include the risk that the other party would default on its obligations necessitating that we complete the other component ourselves (including providing any necessary financing). In the case of residential properties, these risks also include competition for prospective residents from other operators whose properties may be perceived to offer a better location or better amenities or whose rent may be perceived as a better value given the quality, location and amenities that the resident seeks. Because we have limited experience with residential properties, we expect to retain third parties to manage our residential properties. If we decide to not sell or participate in a joint venture and instead hire a third party manager, we would be dependent on them and their key personnel who provide services to us and we may not find a suitable replacement if the management agreement is terminated, or if key personnel leave or otherwise become unavailable to us.

***We may suffer adverse consequences due to the financial difficulties, bankruptcy or insolvency of our tenants.***

The current economic conditions have caused some of our tenants to experience financial difficulties. If more of our tenants were to continue to experience financial difficulties, including bankruptcy, insolvency or a general downturn in their business, there could be an adverse effect on our financial performance and distributions to shareholders. We cannot assure you that any tenant that files for bankruptcy protection will continue to pay us rent. A bankruptcy filing by or relating to one of our tenants or a lease guarantor would bar efforts by us to collect pre-bankruptcy debts from that tenant or lease guarantor, or its property, unless we receive an order permitting us to do so from the bankruptcy court. In addition, we cannot evict a tenant solely because of bankruptcy. The bankruptcy of a tenant or lease guarantor could delay our efforts to collect past due balances under the relevant leases, and could ultimately preclude collection of these sums. If a lease is assumed by the tenant in bankruptcy, all pre-bankruptcy balances due under the lease must be paid to us in full. If, however, a lease is rejected by a tenant in bankruptcy, we would have only a general, unsecured claim for damages. Any such unsecured claim would only be paid to the extent that funds are available and only in the same percentage as is paid to all other holders of general, unsecured claims. Restrictions under the bankruptcy laws further limit the amount of any other claims that we can make if a lease is rejected. As a result, it is likely that we would recover substantially less than the full value of the remaining rent during the term. See Item 7., “*Management's Discussion and Analysis of Financial Condition and Results of Operations - Factors that May Influence Future Results of Operations - Tenant Credit Risk.*”

***An increase in interest rates would increase our interest costs on variable rate debt and could adversely impact our ability to refinance existing debt or sell assets on favorable terms or at all.***

Rising interest rates could limit our ability to refinance existing debt when it matures or significantly increase our future interest expense. From time to time, we enter into interest rate swap agreements and other interest rate hedging contracts. While these agreements are intended to lessen the impact of rising interest rates on us, they also expose us to the risk that the other parties to the agreements will not perform, we could incur significant costs associated with the settlement of the agreements, the agreements will be unenforceable and the underlying transactions will fail to qualify as highly-effective cash flow hedges under the applicable accounting guidance. In addition, an increase in interest rates could decrease the amounts third-parties are willing to pay for our assets, thereby limiting our ability to recycle capital and change our portfolio promptly in response to changes in economic or other conditions.

***Our degree of leverage could limit our ability to obtain additional financing or affect the market price of our equity shares or debt securities.***

Like other real estate companies which incur debt, we are subject to risks associated with debt financing, such as the insufficiency of cash flow to meet required debt service payment obligations and the inability to refinance existing indebtedness. If our debt cannot be paid, refinanced or extended at maturity, we may not be able to make distributions to shareholders at expected levels or at all. Furthermore, an increase in our interest expense could adversely affect our cash flow and ability to make distributions to shareholders. If we do not meet our debt service obligations, any properties securing such indebtedness could be foreclosed on, which would have a material adverse effect on our cash flow and ability to make distributions and, depending on the number of properties foreclosed on, could threaten our continued viability. Our degree of leverage could also make us more vulnerable to a downturn in business or the economy in general.

***The terms and covenants relating to our indebtedness could adversely impact our economic performance.***

Our credit facilities, term loans and the indenture governing our unsecured public debt securities contain (and any new or amended facility and term loans will contain) restrictions, requirements and other limitations on our ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios and minimum ratios of unencumbered assets to unsecured debt which we must maintain. Our ability to borrow under our credit facilities is subject to compliance with such financial and other covenants. In the event that we fail to satisfy these covenants, we would be in default under the credit facilities, the term loans and the indenture and may be required to repay such debt with capital from other sources. Under such circumstances, other sources of capital may not be available to us, or may be available only at unattractive terms. In addition, the mortgages on our properties, including mortgages encumbering our Real Estate Ventures, contain customary covenants such as those that limit our ability, without the prior consent of the lender, to further mortgage the applicable property or to discontinue insurance coverage. If we breach covenants in our secured debt agreements, the lenders can declare a default and take possession of the property securing the defaulted loan.

***A downgrading of our debt could subject us to higher borrowing costs.***

In the event that our unsecured debt is downgraded by Moody's Investor Services and Standard & Poor's from the current ratings, we would likely incur higher borrowing costs and the market prices of our common shares and debt securities might decline.

***We may experience increased operating costs, which might reduce our profitability.***

Our properties are subject to increases in operating expenses such as for cleaning, electricity, heating, ventilation and air conditioning, administrative costs and other costs associated with security, landscaping and repairs and maintenance of our properties. In general, our tenant leases allow us to pass through all or a portion of these costs to them. We cannot assure you, however, that tenants will actually bear the full burden of these higher costs, or that such increased costs will not lead them, or other prospective tenants, to seek office space elsewhere. If operating expenses increase, the availability of other comparable office space in our core geographic markets might limit our ability to increase rents; if operating expenses increase without a corresponding increase in revenues, our profitability could diminish and limit our ability to make distributions to shareholders.

***Our investment in property development or redevelopment may be more costly or difficult to complete than we anticipate.***

We intend to continue to develop properties where market conditions warrant such investment. Once made, these investments may not produce results in accordance with our expectations. Risks associated with our development and construction activities include:

- the unavailability of favorable financing alternatives in the private and public debt markets;
- having sufficient capital to pay development costs;
- dependence on the financial and professional services sector as part of our tenant base;
- construction costs exceeding original estimates due to rising interest rates, diminished availability of materials and labor, and increases in the costs of materials and labor;
- construction and lease-up delays resulting in increased debt service, fixed expenses and construction or renovation costs;
- expenditure of funds and devotion of management's time to projects that we do not complete;
- the unavailability or scarcity of utilities;
- occupancy rates and rents at newly completed properties may fluctuate depending on a number of factors, including market and economic conditions, resulting in lower than projected rental rates and a corresponding lower return on our investment;

- complications (including building moratoriums and anti-growth legislation) in obtaining necessary zoning, occupancy and other governmental permits; and
- increased use restrictions by local zoning or planning authorities limiting our ability to develop and impacting the size of developments.

***We face risks associated with property acquisitions.***

We have recently acquired properties, and may in the future continue to acquire properties and portfolios of properties, including large portfolios that would increase our size and potentially alter our capital structure. The success of such transactions is subject to a number of factors, including the risks that:

- we may not be able to obtain financing for such acquisitions on favorable terms;
- if we fail to accurately estimate occupancy levels, operating costs or costs of improvements to bring an acquired property or a development property up to the standards established for our intended market position, the performance of the property may be below expectations
- the actual costs of repositioning or redeveloping acquired properties may be higher than our estimates;
- the acquired properties may be located in new markets where we may have limited knowledge and understanding of the local economy, an absence of business relationships in the area or unfamiliarity with local governmental and permitting procedures; and
- we may not be able to efficiently integrate acquired properties, particularly portfolios of properties, into our organization and manage new properties in a way that allows us to realize cost savings and synergies.

***Acquired properties may subject us to known and unknown liabilities.***

Properties that we acquire may be subject to known and unknown liabilities for which we would have no recourse, or only limited recourse, to the former owners of such properties. As a result, if a liability were asserted against us based upon ownership of an acquired property, we might be required to pay significant sums to settle it, which could adversely affect our financial results and cash flow. Unknown liabilities relating to acquired properties could include:

- liabilities for clean-up of pre-existing disclosed or undisclosed environmental contamination;
- claims by tenants, vendors, municipalities or other persons arising on account of actions or omissions of the former owners of the properties; and
- liabilities incurred in the ordinary course of business.

***We have agreed not to sell certain of our properties and to maintain indebtedness subject to guarantees.***

We acquired in the past and in the future may acquire properties or portfolios of properties through tax deferred contribution transactions in exchange for partnership interests in our Operating Partnership. This acquisition structure has the effect, among other factors, of reducing the amount of tax depreciation we can deduct over the tax life of the acquired properties, and typically requires that we agree to protect the contributors' ability to defer recognition of taxable gain through restrictions on our ability to dispose of the acquired properties and/or the allocation of partnership debt to the contributors to maintain their tax bases. We agreed not to sell some of our properties for varying periods of time, in transactions that would trigger taxable income to the former owners, and we may enter into similar arrangements as a part of future property acquisitions. These agreements generally provide that we may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. Such transactions can be difficult to complete and can result in the property acquired in exchange for the disposed of property inheriting the tax attributes (including tax protection covenants) of the sold property. Violation of these tax protection agreements would impose significant costs on us. As a result, we are restricted with respect to decisions related to financing, encumbering, expanding or selling these properties. These restrictions on dispositions could limit our ability to sell an asset or pay down partnership debt during a specified time, or on terms, that would be favorable absent such restrictions.

We have also entered into agreements that provide prior owners of properties with the right to guarantee specific amounts of indebtedness and, in the event that the specific indebtedness that they guarantee is repaid or reduced, we would be required to provide substitute indebtedness for them to guarantee. These agreements may hinder actions that we may otherwise desire to take to repay or refinance guaranteed indebtedness because we would be required to make payments to the beneficiaries of such agreements if we violate these agreements.

***We may be unable to renew leases or re-lease space as leases expire; certain leases may expire early.***

If tenants do not renew their leases upon expiration, we may be unable to re-lease the space. Even if the tenants do renew their leases or if we can re-lease the space, the terms of renewal or re-leasing (including the cost of required renovations) may be less favorable than the current lease terms. Certain leases grant the tenants an early termination right upon payment of a termination penalty or if we fail to comply with certain material lease terms. Our inability to renew or release spaces and the early termination of certain leases could affect our ability to make distributions to shareholders. See Item 7., "Management's Discussion and Analysis of Financial Condition and Results of Operations - Factors that May Influence Future Results of Operations - Tenant Rollover Risk."

***We face significant competition from other real estate developers.***

We compete with real estate developers, operators and institutions for tenants and acquisition and development opportunities. Some of these competitors may have significantly greater financial resources than we have. Such competition may reduce the number of suitable investment opportunities available to us, may interfere with our ability to attract and retain tenants and may increase vacancies, which could result in increased supply and lower market rental rates, reducing our bargaining leverage and adversely affect our ability to improve our operating leverage. In addition, some of our competitors may be willing (e.g., because their properties may have vacancy rates higher than those for our properties) to make space available at lower rental rates or with higher tenant concession percentages than available space in our properties. We cannot assure you that this competition will not adversely affect our cash flow and our ability to make distributions to shareholders.

***Property ownership through joint ventures may limit our ability to act exclusively in our interest.***

We develop, acquire, and contribute properties in joint ventures with other persons or entities when we believe circumstances warrant the use of such structures. As of December 31, 2014, we held ownership interests in 17 unconsolidated Real Estate Ventures for an aggregate investment balance of \$223.8 million, of which \$225.0 million is included in net assets and \$1.2 million is included in other liabilities and represents the negative investment balance of one real estate venture. We could become engaged in a dispute with one or more of our joint venture partners that might affect our ability to operate a jointly-owned property. Moreover, our joint venture partners may, at any time, have business, economic or other objectives that are inconsistent with our objectives, including objectives that relate to the appropriate timing and terms of any sale or refinancing of a property. In some instances, our joint venture partners may have competing interests in our markets that could create conflicts of interest. If the objectives of our joint venture partners or the lenders to our joint ventures are inconsistent with our own objectives, we may not be able to act exclusively in our interests.

***Because real estate is illiquid, we may not be able to sell properties when in our best interest.***

Real estate investments generally, and in particular large office and industrial/flex properties like those that we own, often cannot be sold quickly. The capitalization rates at which properties may be sold could be higher than historic rates, thereby reducing our potential proceeds from sale. Consequently, we may not be able to alter our portfolio promptly in response to changes in economic or other conditions. In addition, the Internal Revenue Code limits our ability to sell properties that we have held for fewer than two years without potential adverse consequences to our shareholders. Furthermore, properties that we have developed and have owned for a significant period of time or that we acquired in exchange for partnership interests in the Operating Partnership often have a low tax basis. If we were to dispose of any of these properties in a taxable transaction, we may be required under provisions of the Internal Revenue Code applicable to REITs to distribute a significant amount of the taxable gain to our shareholders and this could, in turn, impact our cash flow. In some cases, tax protection agreements with third parties will prevent us from selling certain properties in a taxable transaction without incurring substantial costs. In addition, purchase options and rights of first refusal held by tenants or partners in joint ventures may also limit our ability to sell certain properties. All of these factors reduce our ability to respond to changes in the performance of our investments and could adversely affect our cash flow and ability to make distributions to shareholders as well as the ability of someone to purchase us, even if a purchase were in our shareholders' best interests.

***Some potential losses are not covered by insurance.***

We currently carry comprehensive "all-risk" property, and rental loss insurance and commercial general liability coverage on all of our properties. There are, however, types of losses, such as lease and other contract claims, biological, radiological and nuclear hazards and acts of war that generally are not insured. We cannot assure you that we will be able to renew insurance coverage in an adequate amount or at reasonable prices. In addition, insurance companies may no longer offer coverage against certain types of losses, such as losses due to earthquake, terrorist acts and mold, flood, or, if offered, these types of insurance may be prohibitively expensive. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a property, as well as the anticipated future revenue from the property. In such an event, we might nevertheless

remain obligated for any mortgage debt or other financial obligations related to the property. We cannot assure you that material losses in excess of insurance proceeds will not occur in the future. If any of our properties were to experience a catastrophic loss, it could seriously disrupt our operations, delay revenue and result in large expenses to repair or rebuild the property. Such events could adversely affect our cash flow and ability to make distributions to shareholders. If one or more of our insurance providers were to fail to pay a claim as a result of insolvency, bankruptcy or otherwise, the nonpayment of such claims could have an adverse effect on our financial condition and results of operations. In addition, if one or more of our insurance providers were to become subject to insolvency, bankruptcy or other proceedings and our insurance policies with the provider were terminated or cancelled as a result of those proceedings, we cannot guarantee that we would be able to find alternative coverage in adequate amounts or at reasonable prices. In such case, we could experience a lapse in any or adequate insurance coverage with respect to one or more properties and be exposed to potential losses relating to any claims that may arise during such period of lapsed or inadequate coverage.

***Terrorist attacks and other acts of violence or war may adversely impact our performance and may affect the markets on which our securities are traded.***

Terrorist attacks against our properties, or against the United States or our interests, may negatively impact our operations and the value of our securities. Attacks or armed conflicts could result in increased operating costs; for example, it might cost more in the future for building security, property and casualty insurance, and property maintenance. As a result of terrorist activities and other market conditions, the cost of insurance coverage for our properties could also increase. We might not be able to pass through the increased costs associated with such increased security measures and insurance to our tenants, which could reduce our profitability and cash flow. Furthermore, any terrorist attacks or armed conflicts could result in increased volatility in or damage to the United States and worldwide financial markets and economy. Such adverse economic conditions could affect the ability of our tenants to pay rent and our cost of capital, which could have a negative impact on our results.

***Our ability to make distributions is subject to various risks.***

Historically, we have paid quarterly distributions to our shareholders. Our ability to make distributions in the future will depend upon:

- the operational and financial performance of our properties;
- capital expenditures with respect to existing, developed and newly acquired properties;
- general and administrative costs associated with our operation as a publicly-held REIT;
- the amount of, and the interest rates on, our debt;
- capital needs of our Real Estate Ventures; and,
- the absence of significant expenditures relating to environmental and other regulatory matters.

Certain of these matters are beyond our control and any significant difference between our expectations and actual results could have a material adverse effect on our cash flow and our ability to make distributions to shareholders.

***Changes in the tax rates and regulatory requirements may adversely affect our cash flow.***

Because increases in income and service taxes are generally not passed through to tenants under leases, such increases may adversely affect our cash flow and ability to make expected distributions to shareholders. Our properties are also subject to various regulatory requirements, such as those relating to the environment, fire and safety. Our failure to comply with these requirements could result in the imposition of fines and damage awards and could result in a default under some of our tenant leases. Moreover, the costs to comply with any new or different regulations could adversely affect our cash flow and our ability to make distributions. We cannot assure you that these requirements will not change or that newly imposed requirements will not require significant expenditures in order to be compliant.

***Potential liability for environmental contamination could result in substantial costs.***

Under various federal, state and local laws, ordinances and regulations, we may be liable for the costs to investigate and remove or remediate hazardous or toxic substances on or in our properties, often regardless of whether we know of or are responsible for the presence of these substances. These costs may be substantial. While we do maintain environmental insurance, we cannot be assured that our insurance coverage will be sufficient to protect us from all of the aforesaid remediation costs. Also, if hazardous or toxic substances are present on a property, or if we fail to properly remediate such substances, our ability to sell or rent the property or to borrow using that property as collateral may be adversely affected.

Other laws and regulations govern indoor and outdoor air quality including those that can require the abatement or removal of asbestos-containing materials in the event of damage, demolition, renovation or remodeling and also govern emissions of and

exposure to asbestos fibers in the air. The maintenance and removal of lead paint and certain electrical equipment containing polychlorinated biphenyls (PCBs) and underground storage tanks are also regulated by federal and state laws. We are also subject to risks associated with human exposure to chemical or biological contaminants such as molds, pollens, viruses and bacteria which, above certain levels, can be alleged to be connected to allergic or other health effects and symptoms in susceptible individuals. We could incur fines for environmental compliance and be held liable for the costs of remedial action with respect to the foregoing regulated substances or tanks or related claims arising out of environmental contamination or human exposure to contamination at or from our properties.

Additionally, we develop, manage, lease and/or operate various properties for third parties. Consequently, we may be considered to have been or to be an operator of these properties and, therefore, potentially liable for removal or remediation costs or other potential costs that could relate to hazardous or toxic substances.

***An earthquake or other natural disasters could adversely affect our business.***

Some of our properties are located in California which is a high risk geographical area for earthquakes or other natural disasters. Depending upon its magnitude, an earthquake could severely damage our properties which would adversely affect our business. We maintain earthquake insurance for our California properties and the resulting business interruption. We cannot assure, however, that our insurance will be sufficient if there is a major earthquake.

***Data security breaches may cause damage to our business and reputation.***

In the ordinary course of our business we maintain sensitive data, including our proprietary business information and the information of our tenants and business partners, in our data centers and on our networks. Notwithstanding the security measures undertaken, our information technology may be vulnerable to attacks or breaches resulting in proprietary information being publicly disclosed, lost or stolen. There can be no assurance that our security efforts and measures will be effective or that attempted security breaches or disruptions would not be successful or damaging. Protected information, networks, systems and facilities remain vulnerable because the techniques used in such attempted security breaches evolve and may not be recognized or detected until launched against a target. Accordingly, we may be unable to anticipate these techniques or to implement adequate security barriers or other preventative measures.

Data and security breaches could:

- disrupt the proper functioning of our networks and systems and therefore our operations and/or those of our client tenants;
- result in misstated financial reports, violations of loan covenants, missed reporting deadlines, and/or missed permitting deadlines;
- result in our inability to properly monitor our compliance with the rules and regulations regarding our qualification as a REIT;
- result in the unauthorized access to, and destruction, loss, theft, misappropriation, or release of proprietary, confidential, sensitive, or otherwise valuable information of ours or others, which others could use to compete against us or for disruptive, destructive, or otherwise harmful purposes and outcomes;
- result in our inability to maintain the building systems relied upon by our client tenants for the efficient use of their leased space;
- require significant management attention and resources to remedy any damages that result;
- subject us to claims for breach of contract, damages, credits, penalties, or termination of leases or other agreements; and/or
- damage our reputation among our client tenants and investors generally.

***Americans with Disabilities Act compliance could be costly.***

The Americans with Disabilities Act of 1990, as amended (“ADA”), requires that all public accommodations and commercial facilities, including office buildings, meet certain federal requirements related to access and use by disabled persons. Compliance with ADA requirements could involve the removal of structural barriers from certain disabled persons’ entrances which could adversely affect our financial condition and results of operations. Other federal, state and local laws may require modifications to or restrict further renovations of our properties with respect to such accesses. Noncompliance with the ADA or similar or related laws or regulations could result in the United States government imposing fines or private litigants being awarded damages against us. In addition, changes to existing requirements or enactments of new requirements could require significant expenditures. Such costs may adversely affect our cash flow and ability to make distributions to shareholders.

***Failure to qualify as a REIT would subject us to U.S. federal income tax which would reduce the cash available for distribution to our shareholders.***

We operate our business to qualify to be taxed as a REIT for federal income tax purposes. We have not requested and do not plan to request a ruling from the IRS that we qualify as a REIT, and the statements in this Report are not binding on the IRS or any court. As a REIT, we generally will not be subject to federal income tax on the income that we distribute currently to our shareholders. Many of the REIT requirements, however, are highly technical and complex. The determination that we are a REIT requires an analysis of various factual matters and circumstances that may not be totally within our control. For example, to qualify as a REIT, at least 95% of our gross income must come from specific passive sources, such as rent, that are itemized in the REIT tax laws. In addition, to qualify as a REIT, we cannot own specified amounts of debt and equity securities of some issuers. We also are required to distribute to our shareholders with respect to each year at least 90% of our REIT taxable income (excluding net capital gains). The fact that we hold substantially all of our assets through the Operating Partnership and its subsidiaries and joint ventures further complicates the application of the REIT requirements for us. Even a technical or inadvertent mistake could jeopardize our REIT status and, given the highly complex nature of the rules governing REITs and the ongoing importance of factual determinations, we cannot provide any assurance that we will continue to qualify as a REIT. Furthermore, Congress and the IRS might make changes to the tax laws and regulations, and the courts might issue new rulings, that make it more difficult, or impossible, for us to remain qualified as a REIT. If we fail to qualify as a REIT for federal income tax purposes and are able to avail ourselves of one or more of the statutory savings provisions in order to maintain our REIT status, we would nevertheless be required to pay penalty taxes of \$50,000 or more for each such failure.

If we fail to qualify as a REIT for federal income tax purposes, and are unable to avail ourselves of certain savings provisions set forth in the Internal Revenue Code, we would be subject to federal income tax at regular corporate rates on all of our income. As a taxable corporation, we would not be allowed to take a deduction for distributions to shareholders in computing our taxable income or pass through long term capital gains to individual shareholders at favorable rates. We also could be subject to the federal alternative minimum tax and possibly increased state and local taxes. We would not be able to elect to be taxed as a REIT for four years following the year we first failed to qualify unless the IRS were to grant us relief under certain statutory provisions. If we failed to qualify as a REIT, we would have to pay significant income taxes, which would reduce our net earnings available for investment or distribution to our shareholders. This likely would have a significant adverse effect on our earnings and likely would adversely affect the value of our securities. In addition, we would no longer be required to pay any distributions to shareholders.

***Failure of the Operating Partnership (or a subsidiary partnership or joint venture) to be treated as a partnership would have serious adverse consequences to our shareholders.***

If the IRS were to successfully challenge the tax status of the Operating Partnership or any of its subsidiary partnerships or joint ventures for federal income tax purposes, the Operating Partnership or the affected subsidiary partnership or joint venture would be taxable as a corporation. In such event we would cease to qualify as a REIT and the imposition of a corporate tax on the Operating Partnership, subsidiary partnership or joint venture would reduce the amount of cash available for distribution from the Operating Partnership to us and ultimately to our shareholders.

***To maintain our REIT status, we may be forced to borrow funds on a short term basis during unfavorable market conditions.***

As a REIT, we are subject to certain distribution requirements, including the requirement to distribute 90% of our REIT taxable income. That may result in our having to make distributions at a disadvantageous time or to borrow funds at unfavorable rates. Compliance with this requirement may hinder our ability to operate solely on the basis of maximizing profits.

***We will pay some taxes even if we qualify as a REIT, which will reduce the cash available for distribution to our shareholders.***

Even if we qualify as a REIT for federal income tax purposes, we will be required to pay certain federal, state and local taxes on our income and property. For example, we will be subject to income tax to the extent we distribute less than 100% of our REIT taxable income, including capital gains. Additionally, we will be subject to a 4% nondeductible excise tax on the amount, if any, by which dividends paid by us in any calendar year are less than the sum of 85% of our ordinary income, 95% of our capital gain net income and 100% of our undistributed income from prior years. Moreover, if we have net income from "prohibited transactions," that income will be subject to a 100% penalty tax. In general, prohibited transactions are sales or other dispositions of property held primarily for sale to customers in the ordinary course of business. The determination as to whether a particular sale is a prohibited transaction depends on the facts and circumstances related to that sale. We cannot guarantee that sales of our properties would not be prohibited transactions unless we comply with certain statutory safe-harbor provisions.

In addition, any net taxable income earned directly by our taxable REIT subsidiaries, or through entities that are disregarded for federal income tax purposes as entities separate from our taxable REIT subsidiaries, will be subject to federal and possibly state corporate income tax. In this regard, several provisions of the laws applicable to REITs and their subsidiaries ensure that a taxable

REIT subsidiary will be subject to an appropriate level of federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct certain interest payments made to an affiliated REIT. In addition, the REIT has to pay a 100% penalty tax on some payments that it receives or on some deductions taken by a taxable REIT subsidiary if the economic arrangements between the REIT, the REIT's customers, and the taxable REIT subsidiary are not comparable to similar arrangements between unrelated parties. Finally, some state and local jurisdictions may tax some of our income even though as a REIT we are not subject to federal income tax on that income because not all states and localities follow the federal income tax treatment of REITs. To the extent that we and our affiliates are required to pay federal, state and local taxes, we will have less cash available for distributions to our shareholders.

***We face possible federal, state and local tax audits.***

Because we are organized and qualify as a REIT, we are generally not subject to federal income taxes, but are subject to certain state and local taxes. Certain entities through which we own real estate have undergone tax audits. There can be no assurance that future audits will not have a material adverse effect on our results of operations.

***Competition for skilled personnel could increase labor costs.***

We compete with various other companies in attracting and retaining qualified and skilled personnel. We depend on our ability to attract and retain skilled management personnel who are responsible for the day-to-day operations of our company. Competitive pressures may require that we enhance our pay and benefits package to compete effectively for such personnel. We may not be able to offset such added costs by increasing the rates we charge our tenants. If there is an increase in these costs or if we fail to attract and retain qualified and skilled personnel, our business and operating results could be harmed.

***We are dependent upon our key personnel.***

We are dependent upon our key personnel whose continued service is not guaranteed. We are dependent on our executive officers for strategic business direction and real estate experience. Loss of their services could adversely affect our operations.

Although we have an employment agreement with Gerard H. Sweeney, our President and Chief Executive Officer, this agreement does not restrict his ability to become employed by a competitor following the termination of his employment. We do not have key man life insurance coverage on our executive officers.

***Certain limitations will exist with respect to a third party's ability to acquire us or effectuate a change in control.***

*Limitations imposed to protect our REIT status.* In order to protect us against the loss of our REIT status, our Declaration of Trust limits any shareholder from owning more than 9.8% in value of our outstanding shares, subject to certain exceptions. The ownership limit may have the effect of precluding acquisition of control of us. If anyone acquires shares in excess of the ownership limit, we may:

- consider the transfer to be null and void;
- not reflect the transaction on our books;
- institute legal action to stop the transaction;
- not pay dividends or other distributions with respect to those shares;
- not recognize any voting rights for those shares; and
- consider the shares held in trust for the benefit of a person to whom such shares may be transferred.

*Limitation due to our ability to issue preferred shares.* Our Declaration of Trust authorizes our Board of Trustees to cause us to issue preferred shares, without limitation as to amount and without shareholder consent. Our Board of Trustees is able to establish the preferences and rights of any preferred shares issued and these shares could have the effect of delaying or preventing someone from taking control of us, even if a change in control were in our shareholders' best interests.

*Limitation imposed by the Maryland Business Combination Law.* The Maryland General Corporation Law, as applicable to Maryland REITs, establishes special restrictions against "business combinations" between a Maryland REIT and "interested shareholders" or their affiliates unless an exemption is applicable. An interested shareholder includes a person, who beneficially owns, and an affiliate or associate of the trust who, at any time within the two-year period prior to the date in question, was the beneficial owner of, ten percent or more of the voting power of our then-outstanding voting shares. Among other things, Maryland law prohibits (for a period of five years) a merger and certain other transactions between a Maryland REIT and an interested shareholder unless the board of trustees had approved the transaction before the party became an interested shareholder. The five-year period runs from the most recent date on which the interested shareholder became an interested shareholder. Thereafter, any such business combination must be recommended by the board of trustees and approved by two super-majority shareholder votes

unless, among other conditions, the common shareholders receive a minimum price for their shares and the consideration is received in cash or in the same form as previously paid by the interested shareholder for our shares or unless the board of trustees approved the transaction before the party in question became an interested shareholder. The business combination statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if the acquisition would be in our shareholders' best interests.

*Maryland Control Share Acquisition Act.* Maryland law provides that "control shares" of a REIT acquired in a "control share acquisition" shall have no voting rights except to the extent approved by a vote of two-thirds of the vote eligible to be cast on the matter under the Maryland Control Share Acquisition Act. Shares construed as "control shares" means that, if aggregated with all other shares previously acquired by the acquirer or in respect of which the acquirer is able to exercise or direct the exercise of voting power (except solely by virtue of a revocable proxy), would entitle the acquirer to exercise voting power in electing trustees within one of the following ranges of voting power: one-tenth or more but less than one-third, one-third or more but less than a majority or a majority or more of all voting power. Control shares do not include shares the acquiring person is then entitled to vote as a result of having previously obtained shareholder approval. A "control share acquisition" means the acquisition of control shares, subject to certain exceptions. If voting rights or control shares acquired in a control share acquisition are not approved at a shareholder's meeting, then subject to certain conditions and limitations the issuer may redeem any or all of the control shares for fair value. If voting rights of such control shares are approved at a shareholder's meeting and the acquirer becomes entitled to vote a majority of the shares entitled to vote, all other shareholders may exercise appraisal rights. Any control shares acquired in a control share acquisition which are not exempt under our Bylaws are subject to the Maryland Control Share Acquisition Act. Our Bylaws contain a provision exempting from the control share acquisition statute any and all acquisitions by any person of our shares. We cannot assure you that this provision will not be repealed, amended or eliminated by us at any time in the future.

*Maryland Unsolicited Takeover Act.* Subtitle 8 of Title 3 of the Maryland General Corporation Law permits our Board of Trustees, without shareholder approval, and regardless of what is currently in our charter or bylaws, to implement (i) a classified board; (ii) a two-thirds vote requirement for removing a trustee; (iii) a requirement that the number of trustees be fixed only by vote of the trustees; (iv) a requirement that a vacancy on the board be filled only by the remaining trustees and for the remainder of the full term of the class of trustees in which the vacancy occurred; and (v) a majority requirement for the calling by shareholders of a special meeting of shareholders. This statute could have the effect of discouraging offers to acquire us and of increasing the difficulty of consummating any such offers, even if the acquisition would be in our shareholders' best interests.

*Advance Notice Provisions for Shareholder Nominations and Proposals.* Our bylaws require advance notice for shareholders to nominate persons for election as trustees at, or to bring other business before, any meeting of our shareholders. This bylaw provision limits the ability of shareholders to make nominations of persons for election as trustees or to introduce other proposals unless we are notified in a timely manner prior to the meeting.

***Many factors can have an adverse effect on the market value of our securities.***

A number of factors might adversely affect the price of our securities, many of which are beyond our control. These factors include:

- increases in market interest rates, relative to the dividend yield on our shares. If market interest rates go up, prospective purchasers of our securities may require a higher yield. Higher market interest rates would not, however, result in more funds for us to distribute and, to the contrary, would likely increase our borrowing costs and potentially decrease funds available for distribution. Thus, higher market interest rates could cause the market price of our common shares to go down;
- anticipated benefit of an investment in our securities as compared to investment in securities of companies in other industries (including benefits associated with tax treatment of dividends and distributions);
- perception by market professionals of REITs generally and REITs comparable to us in particular;
- level of institutional investor interest in our securities;
- relatively low trading volumes in securities of REITs;
- our results of operations and financial condition; and
- investor confidence in the stock market generally.

The market value of our common shares is based primarily upon the market's perception of our growth potential and our current and potential future earnings and cash distributions. Consequently, our common shares may trade at prices that are higher or lower than our net asset value per common share. If our future earnings or cash distributions are less than expected, it is likely that the market price of our common shares will diminish.

***Additional issuances of equity securities may be dilutive to shareholders.***

The interests of our shareholders could be diluted if we issue additional equity securities to finance future developments or acquisitions or to repay indebtedness. Our Board of Trustees may authorize the issuance of additional equity securities without shareholder approval. Our ability to execute our business strategy depends upon our access to an appropriate blend of debt financing, including unsecured lines of credit and other forms of secured and unsecured debt, and equity financing, including the issuance of common and preferred equity.

***The issuance of preferred securities may adversely affect the rights of holders of our common shares.***

Because our Board of Trustees has the power to establish the preferences and rights of each class or series of preferred shares, we may afford the holders in any series or class of preferred shares preferences, distributions, powers and rights, voting or otherwise, senior to the rights of holders of common shares. Our Board of Trustees also has the power to establish the preferences and rights of each class or series of units in the Operating Partnership, and may afford the holders in any series or class of preferred units preferences, distributions, powers and rights, voting or otherwise, senior to the rights of holders of common units.

***If we fail to maintain an effective system of integrated internal control over financial reporting, we may not be able to accurately report our financial results.***

An effective system of internal control over financial reporting is necessary for us to provide reliable financial reports, prevent fraud and operate successfully as a public company. As part of our ongoing monitoring of internal controls, we may discover material weaknesses or significant deficiencies in our internal controls that we believe require remediation. If we discover such weaknesses, we will make efforts to improve our internal controls in a timely manner. Any system of internal controls, however well designed and operated, is based in part on certain assumptions and can only provide reasonable, not absolute, assurance that the objectives of the system are met. Any failure to maintain effective internal controls, or implement any necessary improvements in a timely manner, could have a materially adverse effect on our business and operating results, or cause us to not meet our reporting obligations, which could affect our ability to remain listed with the New York Stock Exchange. Ineffective internal controls could also cause investors to lose confidence in our reported financial information, which would likely have a negative effect on the trading price of our securities.

**Item 1B. Unresolved Staff Comments**

None.

**Item 2. Properties**

**Property Acquisitions**

On February 19, 2014, we acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas for \$14.0 million. The land is fully entitled with a site plan and building permits in place allowing for the development of two four-story office buildings containing approximately 320,000 rentable square feet. The purchase price included an in-place lease for 75% of the first building.

As of December 31, 2014, each of the two office buildings at Encino Trace was in development, and we had funded through such date \$38.8 million, inclusive of the \$14.0 million acquisition cost. Additional project costs (exclusive of the \$38.8 million funded at December 31, 2014) are expected to aggregate \$48.6 million and will be funded over the remaining construction period using available corporate funds. We anticipate completion of both buildings by the third quarter of 2015. We intend to contribute the properties to a real estate venture upon stabilization of the development.

## Development and Redevelopment Properties Placed in Service

We placed in service the following development and redevelopment properties during the year ended December 31, 2014:

Month Placed In Service	Activity Type	Property/Portfolio Name	Location	Number of Buildings	Square Footage	Budgeted Costs (in thousands)	Costs Incurred (in thousands)
Jun-14	Development	200 Radnor Chester Road	Radnor, PA	1	17,884	\$ 7,400	\$ 7,453
Jun-14	Redevelopment	660 West Germantown Pike	Plymouth Meeting, PA	1	161,521	29,000	29,418
<b>Total</b>				<b>2</b>	<b>179,405</b>	<b>\$ 36,400</b>	<b>\$ 36,871</b>

As of December 31, 2014, the following development properties remain under construction in progress and we were proceeding on the following activity:

Construction Commencement Date	Expected Completion	Activity Type	Property/Portfolio Name	Location	Number of Buildings	Square Footage	Estimated Costs (in thousands)	Costs Incurred (in thousands)
Q1 2014	Q2 2015 (Phase I) Q3 2015 (Phase II)	Development	5707 Southwest Parkway (Encino Trace)	Austin, TX	2	320,000	\$ 87,400	\$ 38,800
Q2 2014	Q2 2016	Development	30th & Walnut Streets (FMC Tower at Cira Centre South)	Philadelphia, PA	1	870,000	385,000	47,600
Q2 2014	Q2 2015	Development	2930 Chestnut St. (Cira Green Roof)	Philadelphia, PA	N/A	one acre	12,500	10,800
<b>Total</b>					<b>3</b>	<b>1,190,000</b>	<b>\$ 484,900</b>	<b>\$ 97,200</b>

As discussed above in Item 1 under the heading “2014 Transactions,” as of December 31, 2014, we were proceeding through four of our unconsolidated real estate ventures development projects at evo at Cira Centre South, the Parc at Plymouth Meeting, 1919 Market Street and 4040 Wilson.

## Property Sales

We sold the following office properties during the year ended December 31, 2014:

Month of Sale	Property/Portfolio Name	Location	# of Properties	Rentable Square Feet	Property/Portfolio Occupancy % at Date of Sale	Net Proceeds on Sale (in thousands)	Net gain (loss) on Sale (in thousands) (a)
Oct-14	100, 101, 200, 300 and 301 Lindenwood Drive (the Valleybrooke Properties) (b)	Malvern, PA	5	279,934	100.0%	\$ 37,156	\$ 203
Sept-14	1880 Campus Commons Drive (Campus Pointe)	Reston, VA	1	172,943	97.1%	41,476	4,698
Apr-14	11305 Four Points Drive (Four Points Centre) (c)	Austin, TX	2	192,396	99.2%	34,392	(255)
<b>Total Office Properties Sold</b>			<b>8</b>	<b>645,273</b>		<b>\$ 113,024</b>	<b>\$ 4,646</b>

(a) Includes closing and other transaction related costs.

(b) The total gain on property sales of \$0.2 million in the table above does not include the \$1.8 million loss on account of the provision for impairment on assets held for sale recorded during the twelve months ended December 31, 2014.

(c) Four Points Centre was contributed to the Austin Venture. The contribution, valued at \$41.5 million, was exchanged for a 50% interest in the property.

We sold the following land parcels during the year ended December 31, 2014 (a):

Month of Sale	Property/Portfolio Name	Location	# of Parcels	Acres	Property/Portfolio Occupancy % at Date of Sale	Net Proceeds on Sale (in thousands)	Net gain on Sale (in thousands) (b)
Apr-14	Westpoint II Land	Dallas, TX	1	5.3	N/A	\$ 1,505	\$ 12
Mar-14	Rob Roy Land	Austin, TX	1	16.8	N/A	3,350	1,172
<b>Total Land Sold</b>			<b>2</b>	<b>22.1</b>		<b>\$ 4,855</b>	<b>\$ 1,184</b>

(a) The above table does not include the contribution of the 1919 Market Land totaling one acre to 1919 Ventures on October 21, 2014. Net cash of \$8.2 million was distributed to us upon contribution. See Item I - "Developments" for further information regarding this contribution.

(b) Includes closing and other transaction related costs.

#### Held for Sale

On January 8, 2015, we sold two office properties, commonly known as "Atrium I," which includes 99,668 square feet of rentable space located in Mt Laurel, New Jersey and "Libertyview," which includes 121,737 square feet of rentable space located in Cherry Hill, New Jersey. As of December 31, 2014, we categorized Atrium I and Libertyview as held for sale pursuant to the related requirements provided for the classification as held for sale in accordance with applicable accounting standards for long lived assets.

## Properties

As of December 31, 2014, we owned 200 properties that contain an aggregate of approximately 25.1 million net rentable square feet and consist of 167 office properties, 20 industrial facilities, five mixed-use properties, one retail property (193 core properties), two properties classified as held for sale, three development properties, one redevelopment property and one re-entitlement property (collectively, the "Properties"). The properties are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Richmond, Virginia; Wilmington, Delaware; and Oakland, Concord, and Carlsbad, California. As of December 31, 2014, the properties were approximately 91.4% occupied by 1,381 tenants and had an average age of approximately 22.5 years. The office properties are a combination of urban, transit oriented and suburban office buildings containing an average of approximately 132,874 net rentable square feet. The industrial and mixed-use properties accommodate a variety of tenant uses, including light manufacturing, assembly, distribution and warehousing. We carry comprehensive liability, fire, extended coverage and rental loss insurance covering all of the properties, with policy specifications and insured limits which we believe are adequate.

The following table sets forth information with respect to our core properties at December 31, 2014:

	Location	State	Year Built/ Renovated	Net Rentable Square Feet	Percentage Leased as of December 31, 2014 (a)	Total Base Rent for the Twelve Months Ended December 31, 2014 (b) (000's)	Average Annualized Rental Rate as of December 31, 2014 (c)

- (a) Calculated by dividing net rentable square feet included in leases signed on or before December 31, 2014 at the property by the aggregate net rentable square feet of the property.
- (b) "Total Base Rent" for the twelve months ended December 31, 2014 represents base rents earned during such period, excluding tenant reimbursements, parking income, tenant inducements and deferred market rent adjustments, calculated in accordance with accounting principles generally accepted in the U.S., determined on a straight-line basis.
- (c) "Average Annualized Rental Rate" is calculated by taking the sum of the annualized current base rent as of December 31, 2014 plus the annualized current billable operating expense reimbursements excluding tenant electricity divided by the total square feet occupied as of December 31, 2014.
- (d) These properties are subject to a ground lease with a third party.
- (e) We hold our interest in Two Logan Square (100 North 18th Street - Philadelphia, Pennsylvania) through our ownership of second and third mortgages that are secured by this property and that are junior to a first mortgage held by a third party lender. Our ownership of these two mortgages currently provides us with all of the cash flows from Two Logan Square after the payment of operating expenses and debt service on the first mortgage.
- (f) These properties are industrial facilities.
- (g) These properties are mixed-use.
- (h) We contributed this property to an unconsolidated real estate venture. However, we continue to consolidate this property due to our continuing involvement resulting from our ongoing lease of space, and our 50% ownership interest in the real estate venture.
- (i) This is a 220-space parking garage facility.

The following table shows information regarding rental rates and lease expirations for the Properties at December 31, 2014 and assumes that none of the tenants exercises renewal options or termination rights, if any, at or prior to scheduled expirations:

Year of Lease Expiration December 31,	Number of Leases Expiring Within the Year	Rentable Square Footage Subject to Expiring Leases	Final Annualized Base Rent Under Expiring Leases (a)	Final Annualized Base Rent Per Square Foot Expiring Leases	Percentage of Total Final Annualized Base Rent Under Expiring Leases	Cumulative Total

- (a) "Final Annualized Base Rent" for each lease scheduled to expire represents the cash rental rate of base rents, excluding tenant reimbursements, in the final month prior to expiration multiplied by 12. Tenant reimbursements generally include payment of a portion of real estate taxes, operating expenses and common area maintenance and utility charges.
- (b) Relates to existing month-to-month tenancy leases and to expired leases, which converted to month-to-month tenancies until a written notice to vacate is provided by us or until a new lease agreement is agreed upon with the tenant.

At December 31, 2014, our Properties were leased to 1,381 tenants that are engaged in a variety of businesses. The following table sets forth information regarding leases at the Properties with the 20 tenants having the largest amounts of space leased based upon Annualized Base Rent as of December 31, 2014:

Tenant Name (a)	Number of Leases	Weighted Average Remaining Lease Term Months	Aggregate Leased Square Feet	Aggregate Leased Square Feet	Annualized Base Rent (in 000) (b)	Percentage of Aggregate Annualized Base Rent

(a) The identified tenant includes affiliates in certain circumstances.

(b) Annualized Base Rent represents the monthly base rent, excluding tenant reimbursements, for each lease in effect at December 31, 2014 multiplied by 12. Tenant reimbursements generally include payment of a portion of real estate taxes, operating expenses and common area maintenance and utility charges.

### Real Estate Ventures

As of December 31, 2014, we held ownership interests in 17 unconsolidated Real Estate Ventures for an aggregate investment balance of \$223.8 million, of which \$225.0 million is included in net assets and \$1.2 million is included in other liabilities and represents the negative investment balance of one real estate venture. We formed or acquired interests in these Real Estate Ventures with unaffiliated third parties to develop or manage office properties or to acquire land in anticipation of possible development of office or residential properties. As of December 31, 2014, 11 of the real estate ventures owned 65 office buildings that contain an aggregate of approximately 6.7 million net rentable square feet; one real estate ventures owned 3 acres of undeveloped parcels of land; four real estate ventures owned 22.6 acres of land under active development; one Real Estate Venture owned a residential tower that contains 345 apartment units and one real estate venture developed a hotel property that contains 137 rooms in Conshohocken, PA.

We account for our investments in these Real Estate Ventures using the equity method. For further information regarding Real Estate Ventures, see Note 4, "Investment in Unconsolidated Ventures," of our consolidated financial statements.

### Item 3. Legal Proceedings

We are involved from time to time in legal proceedings, including tenant disputes, employee disputes, disputes arising out of agreements to purchase or sell properties and disputes relating to state and local taxes. We generally consider these disputes to be routine to the conduct of our business and management believes that the final outcome of such proceedings will not have a material adverse effect on our financial position, results of operations or liquidity.

**Item 4. Mine Safety Disclosures**

Not applicable.

PART II

**Item 5. Market for Registrant’s Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities**

The common shares of Brandywine Realty Trust are traded on the New York Stock Exchange (“NYSE”) under the symbol “BDN.” There is no established trading market for units of partnership interests in the Operating Partnership. On February 17, 2015, there were 634 holders of record of our common shares and 31 holders of record (in addition to Brandywine Realty Trust) of Class A units of the Operating Partnership. On February 17, 2015, the last reported sales price of the common shares on the NYSE was \$16.25. The following table sets forth the quarterly high and low sales price per common share reported on the NYSE for the indicated periods and the distributions paid by us with respect to each such period.

	Share Price High	Share Price Low	Distributions Paid During Quarter
First Quarter 2013	\$ 14.85	\$ 12.18	\$ 0.15
Second Quarter 2013	\$ 15.94	\$ 12.61	\$ 0.15
Third Quarter 2013	\$ 14.56	\$ 12.45	\$ 0.15
Fourth Quarter 2013	\$ 14.35	\$ 12.67	\$ 0.15
First Quarter 2014	\$ 14.97	\$ 13.77	\$ 0.15
Second Quarter 2014	\$ 15.77	\$ 13.83	\$ 0.15
Third Quarter 2014	\$ 16.29	\$ 14.07	\$ 0.15
Fourth Quarter 2014	\$ 16.08	\$ 13.97	\$ 0.15

For each quarter in 2014 and 2013, the Operating Partnership paid a cash distribution per Class A unit in an amount equal to the dividend paid on a common share for each such quarter.

In order to maintain the status of Brandywine Realty Trust as a REIT, we must make annual distributions to shareholders of at least 90% of our taxable income (not including net capital gains). Future distributions will be declared at the discretion of our Board of Trustees and will depend on our actual cash flow, financial condition and capital requirements, the annual distribution requirements under the REIT provisions of the Internal Revenue Code and such other factors as our Board of Trustees deems relevant.

On December 9, 2014, our Board of Trustees declared a quarterly dividend distribution of \$0.15 per common share that was paid on January 20, 2015. On December 10, 2013, our Board of Trustees declared a quarterly dividend distribution of \$0.15 per common share that was paid on January 21, 2014. Our Board of Trustees has adopted a dividend policy designed such that our distributions are consistent with our normalized taxable income for 2015.

The following table provides information as of December 31, 2014, with respect to compensation plans (including individual compensation arrangements) under which our common shares are authorized for issuance:

Plan category	(a)  Number of securities to be issued upon exercise of outstanding options, warrants and rights	(b)  Weighted-average exercise price of outstanding options, warrants and rights	(c)  Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders (1)	2,684,795	\$ 15.55	4,304,006
Equity compensation plans not approved by security holders	—	—	—
Total	2,684,795	\$ 15.55	4,304,006

(1) Relates to our Amended and Restated 1997 Long-Term Incentive Plan (the “1997 Plan”) and 46,667 options awarded prior to adoption of the 1997 Plan. Under the 1997 Plan, as amended, the number of common shares remaining available for awards under the 1997 Plan was 4,304,006 as of December 31, 2014. There were no common share repurchases under our repurchase program during the fiscal quarter ended December 31, 2014. The number of common shares remaining available for repurchase under our share repurchase program as of December 31, 2014 was 539,200.

## SHARE PERFORMANCE GRAPH

The SEC requires us to present a chart comparing the cumulative total shareholder return on the common shares with the cumulative total shareholder return of (i) a broad equity index and (ii) a published industry or peer group index. The following chart compares the cumulative total shareholder return for the common shares with the cumulative shareholder return of companies on (i) the S&P 500 Index (ii) the Russell 2000 and (iii) the NAREIT ALL-REIT Total Return Index as provided by NAREIT for the period beginning December 31, 2009 and ending December 31, 2014 and assumes an investment of \$100, with reinvestment of all dividends, has been made in the common shares and in each index on December 31, 2009.

Index	Year Ended					
	12/31/2009	12/31/2010	12/31/2011	12/31/2012	12/31/2013	12/31/2014
Brandywine Realty Trust	100.00	107.62	93.05	125.94	152.23	179.99
S&P 500	100.00	115.06	117.49	136.30	180.44	205.14
Russell 2000	100.00	126.86	121.56	141.43	196.34	205.95
NAREIT All Equity REIT Index	100.00	127.95	138.55	165.84	170.58	218.38
NAREIT Equity Office Index	100.00	118.41	117.51	134.14	114.62	178.24

**Item 6. Selected Financial Data**

The following table sets forth selected financial and operating data and should be read in conjunction with the financial statements and related notes and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” included in this Annual Report on Form 10-K. The selected data have been revised to reflect disposition of all properties since January 1, 2010, which have been reclassified as discontinued operations for all periods presented in accordance with the accounting standard governing discontinued operations.

The following discussion should be read in conjunction with the consolidated financial statements appearing elsewhere herein and is based primarily on our consolidated financial statements for the years ended December 31, 2014, 2013 and 2012.

## **OVERVIEW**

We are a self-administered and self-managed REIT that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office, industrial, retail and mixed-use properties. As of December 31, 2014, we owned 200 properties that contain an aggregate of approximately 25.1 million net rentable square feet and consist of 167 office properties, 20 industrial facilities, five mixed-use properties, one retail property (193 core properties), two properties classified as held for sale, three development properties, one redevelopment property and one re-entitlement property (collectively, the "Properties"). In addition, as of December 31, 2014, we owned economic interests in 17 unconsolidated real estate ventures which own properties that contain approximately 6.7 million net rentable square feet (collectively, the "Real Estate Ventures"). As of December 31, 2014, we also owned 415 acres of undeveloped land, and held options to purchase approximately 63 additional acres of undeveloped land. As of December 31, 2014, the total potential development that these land parcels could support under current zoning, entitlements or combination thereof, amounted to 6.0 million square feet. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Richmond, Virginia; Wilmington, Delaware; Austin, Texas and Oakland, Concord, and Carlsbad, California. In addition to managing properties that we own, as of December 31, 2014, we were managing approximately 8.9 million net rentable square feet of office and industrial properties for third parties and the Real Estate Ventures. Unless otherwise indicated, all references in this Form 10-K to square feet represent rentable area. We do not have any foreign operations and our business is not seasonal. Our operations are not dependent on a single tenant or a few tenants and no single tenant accounted for more than 10% of our total 2014 revenue.

During the year ended December 31, 2014, we were managing our portfolio within seven segments: (1) Pennsylvania Suburbs, (2) Philadelphia CBD, (3) Metropolitan Washington, D.C., (4) New Jersey/Delaware, (5) Richmond, Virginia, (6) Austin, Texas and (7) California/Other. The Pennsylvania Suburbs segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and southern Maryland. The New Jersey/Delaware segment includes properties in Burlington and Camden counties in New Jersey and in New Castle county in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield, Goochland and Henrico counties and one property in Durham, North Carolina. The Austin, Texas segment includes properties in Austin. On April 3, 2014, we contributed Four Points Centre to the Austin Venture. After contributing this property, we do not wholly own any operating properties in Austin, Texas. For additional information, see Item 1., "*Business - 2014 Transactions*." The California segment includes properties in Oakland, Concord, and Carlsbad. Our corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions.

We generate cash and revenue from leases of space at our properties and, to a lesser extent, from the management of properties owned by third parties and from investments in the Real Estate Ventures. Factors that we evaluate when leasing space include rental rates, costs of tenant improvements, tenant creditworthiness, current and expected operating costs, the length of the lease term, vacancy levels and demand for office and industrial space. We also generate cash through sales of assets, including assets that we do not view as core to our portfolio, either because of location or expected growth potential, and assets that are commanding premium prices from third party investors.

### **Factors that May Influence Future Results of Operations**

#### *Global Market and Economic Conditions*

In the U.S., market and economic conditions have been improving, characterized by more availability to credit and modest growth. While recent economic data reflects modest growth, the cost and availability of credit may be adversely affected by illiquid credit markets and wider credit spreads. Volatility in the U.S. and international markets and economies may adversely affect our liquidity and financial condition, and the liquidity and financial condition of our tenants. The continuation of these market conditions may limit our ability, as well as the ability of our tenants, to timely refinance maturing liabilities and access capital markets to meet liquidity needs.

## *Real Estate Asset Valuation*

General economic conditions and the resulting impact on market conditions or a downturn in tenants' businesses may adversely affect the value of our assets. Challenging economic conditions in the U.S., declining demand for leased office, industrial, retail, or mixed use properties and/or a decrease in market rental rates and/or market values of real estate assets in our submarkets could have a negative impact on the value of our properties. If we were required under GAAP to write down the carrying value of any of our properties due to impairment, or if as a result of an early lease termination we were required to remove or dispose of material amounts of tenant improvements that are not reusable to another tenant, our financial condition and results of operations could be negatively affected.

## *Leasing Activity and Rental Rates*

The amount of net rental income generated by our properties depends principally on our ability to maintain the occupancy rates of currently leased space and to lease currently available space, newly developed or redeveloped properties and space available from unscheduled lease terminations. The amount of rental income we generate also depends on our ability to maintain or increase rental rates in our submarkets. Negative trends in one or more of these factors could adversely affect our rental income in future periods.

## *Equity Method Investment Valuation*

Our equity method investments, primarily our investment in unconsolidated Real Estate Ventures, may be adversely affected by changes in the real estate markets in which they operate. We report our equity method investments on the balance sheet at cost. As required under accounting rules, we periodically evaluate and assess our equity method investments for other than temporary impairment. We generally use a combination of comparable market sales and independent broker quotes in valuing our equity method investments. However, such sales and quoted data and other market information can vary, even for the same properties. To the extent that the real estate markets deteriorate or we are unable to lease our development projects, it could result in a decline in the fair value of our equity method investments that are other-than-temporary and, we may realize losses that never materialize or we may fail to recognize losses in the appropriate period. Rapidly changing conditions in the real estate markets in which we operate increase the complexity of valuing our equity method investments and our judgments and methodologies materially impact the valuation of the investments as reported in our financial statements.

## *Development and Redevelopment Programs*

Historically, a significant portion of our growth has come from our development and redevelopment efforts. We have a proactive planning process by which we continually evaluate the size, timing, costs and scope of our development and redevelopment programs and, as necessary, scale activity to reflect the economic conditions and the real estate fundamentals that exist in our strategic submarkets. We are currently proceeding on certain development and redevelopment projects, and we take a cautious and selective approach when determining if a certain development or redevelopment project will benefit our portfolio.

In addition, we may be unable to lease committed development or redevelopment properties at underwritten rental rates or within projected timeframes or complete development or redevelopment properties on schedule or within budgeted amounts, which could adversely affect our financial condition, results of operations and cash flow.

## *Financial and Operating Performance*

Our financial and operating performance is dependent upon the demand for office, industrial and other commercial space in our markets, our leasing results, our acquisition, disposition and development activity, our financing activity, our cash requirements and economic and market conditions, including prevailing interest rates.

Adverse changes in economic conditions could result in a reduction of the availability of financing and potentially in higher borrowing costs. Vacancy rates may increase, and rental rates may decline, through 2014 and possibly beyond as the current economic climate may negatively impacts tenants.

Overall economic conditions, including but not limited to high unemployment and deteriorating financial and credit markets, could have a dampening effect on the fundamentals of our business, including increases in past due accounts, tenant defaults, lower occupancy and reduced effective rents. These conditions would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition. We believe that the quality of our assets and our strong balance sheet will enable us to raise debt capital, if necessary, in various forms and from different sources, including traditional term or secured loans from banks, pension funds and life insurance companies. However, there can be no assurance that we will be able to borrow funds on terms that are economically attractive or at all.

We continued to seek revenue growth in fiscal year 2014 by increasing occupancy and rental rates. Occupancy in our core portfolio at December 31, 2014 was 91.4%, compared to 89.5% at December 31, 2013.

The table below summarizes selected operating and leasing statistics of our wholly owned operating properties for the year ended December 31, 2014:

	Year ended December 31, 2014	Year ended December 31, 2013
<b>Leasing Activity:</b>		
Total net rentable square feet owned (1)	23,285,890	23,973,578
Occupancy percentage (end of period)	91.4%	89.5%
Average occupancy percentage	89.2%	88.0%
New leases and expansions commenced (square feet)	2,015,711	1,753,986
Leases renewed (square feet)	1,707,178	1,589,504
Net absorption (square feet) (2)	503,612	289,271
Percentage change in rental rates per square foot (3)		
New and expansion rental rates	2.5%	7.1%
Renewal rental rates	11.8%	8.6%
Combined rental rates	8.5%	8.1%
Capital Costs Committed (4)		
Leasing commissions (per square foot)	\$7.50	\$3.38
Tenant Improvements (per square foot)	\$17.34	\$8.60
Weighted average lease term	8.2	5.9
Total capital per square foot per lease year	\$2.74	\$2.06

(1) For each period, includes all properties in the core portfolio (i.e. not under development or redevelopment), including properties that were sold during these periods.

(2) Includes leasing related to completed developments and redevelopments, as well as sold properties.

(3) Rental rates include base rent plus reimbursement for operating expenses and real estate taxes.

(4) Calculated on an average basis.

In seeking to increase revenue through our operating, financing and investment activities, we also seek to minimize operating risks, including (i) tenant rollover risk, (ii) tenant credit risk and (iii) development risk.

#### Tenant Rollover Risk:

We are subject to the risk that tenant leases, upon expiration, will not be renewed, that space may not be relet, or that the terms of renewal or reletting (including the cost of renovations) may be less favorable to us than the current lease terms. Leases that accounted for approximately 5.2% of our aggregate final annualized base rents as of December 31, 2014 (representing approximately 7.2% of the net rentable square feet of the properties) are scheduled to expire without penalty in 2015. We maintain an active dialogue with our tenants in an effort to maximize lease renewals. In our core portfolio the retention rate for the twelve month period ended December 31, 2014 is 71.4% compared to a retention rate of 68.3% for the twelve month period ended December 31, 2013. Rental rates on leases expiring during 2014 did not deviate significantly from market renewal rates in the regions in which we operate. If we are unable to renew leases or relet space under expiring leases, at anticipated rental rates, or if tenants terminate their leases early, our cash flow would be adversely impacted.

#### Tenant Credit Risk:

In the event of a tenant default, we may experience delays in enforcing our rights as a landlord and may incur substantial costs in protecting our investment. Our management regularly evaluates our accounts receivable reserve policy in light of our tenant base and general and local economic conditions. Our accounts receivable allowance was \$15.3 million or 9.1% of total receivables (including accrued rent receivable) as of December 31, 2014 compared to \$16.2 million or 10.3% of total receivables (including accrued rent receivable) as of December 31, 2013.

If economic conditions persist or deteriorate further, we may experience increases in past due accounts, defaults, lower occupancy and reduced effective rents. This condition would negatively affect our future net income and cash flows and could have a material adverse effect on our financial condition.

#### Development Risk:

##### *FMC Tower at Cira Centre South*

On October 31, 2013, we determined to proceed with development of the FMC Tower at Cira Centre South (the "FMC Tower") (formerly the Cira Walnut Tower), designed as a trophy class, mixed-use office tower at 30th and Walnut Streets in Philadelphia, Pennsylvania, a 49-story mixed-use office tower on a site ground leased from the University of Pennsylvania. We currently expect the FMC Tower to be ready for initial occupancy during the second quarter of 2016 and to include approximately 635,000 square feet of office space, 230,000 square feet of residential space consisting of 268 market rate rental apartment units, and 4,000 square feet of retail space, with an additional floor containing a full range of amenities.

We have reduced development risk by pre-leasing an aggregate of 60% of the office square feet of the FMC Tower. The anchor tenant for approximately 280,000 square feet of office space is FMC Corporation, a diversified chemical company serving agricultural, consumer and industrial markets globally. The lease with FMC Corporation has an initial term of sixteen (16) years from initial occupancy. In addition, we also pre-leased approximately 100,000 square feet of office space to the University of Pennsylvania under a 20-year lease.

We anticipate the project cost to total \$385.0 million, of which \$47.6 million has been funded through December 31, 2014. We intend to fund remaining development costs through a combination of potential sources, including existing cash balances, availability under our unsecured line of credit, capital raised through one or more joint venture formations, proceeds from asset sales or equity and debt financing. The costs to complete the project will be funded over the construction period, which commenced in the second quarter of 2014 and is scheduled to conclude during the second quarter of 2016.

We may joint venture or pre-sell the residential component of the FMC Tower. Pursuant to this objective, we have executed a property management agreement with a residential development and operating company that contemplates either outcome.

Our ground lease with the University of Pennsylvania has a term through July 2097, with a variable rent that would provide the University of Pennsylvania with a percentage of the cash flow or proceeds of specified capital events subject to receipt of a priority return on the Operating Partnership's investment.

##### *Encino Trace*

On February 19, 2014, we acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas known as Encino Trace for \$14.0 million, inclusive of land value of \$9.3 million or \$29.00 per buildable square foot. The land is fully entitled with a site plan and building permits in place allowing for the development of two 4-story office buildings containing approximately 320,000 rentable square feet. We commenced development of one of the buildings, which will contain 160,000 square feet, on the Encino Trace land during the first quarter 2014, and as of December 31, 2014, the building was 75% pre-leased to an anchor tenant. During the second quarter 2014, we commenced construction of the second building that will contain 160,000 square feet. We anticipate completion of both buildings by the third quarter of 2015. Our total anticipated project costs for both buildings are approximately \$87.4 million, of which \$38.8 million had been funded as of December 31, 2014. We anticipate funding the remaining development costs from available corporate funds. We intend to contribute the property to a real estate venture upon stabilization of the development.

##### *1919 Ventures*

On October 27, 2014, 1919 Ventures, a 50/50 joint venture between LCOR and us, announced a planned 29-story, 455,000 square foot contemporary glass tower development. The tower has been designed as a mixed-use development consisting of residential, retail and parking components. The residential component of the project will be comprised of 321 luxury apartments. The commercial space will consist of 24,000 square feet and is 90% pre-leased. The parking component will consist of a 215-car structured parking facility. Total project costs are estimated at \$148.1 million. A portion of the costs are being funded with proceeds of an \$88.9 million secured construction loan from an unaffiliated institutional lender, and the remaining \$59.2 million is expected to be funded with equity contributions from each of us and LCOR. As of December 31, 2014, there was no outstanding balance on the construction loan and equity contributions totaled \$13.4 million from each of us and LCOR.

4040 Wilson, a 50/50 joint venture between Ashton Park and us, expects to construct a 426,900 square foot office building representing the final phase of the eight building, mixed-use, Liberty Center complex developed by the parent company of Ashton Park in the Ballston submarket of Arlington, Virginia. 4040 Wilson expects to develop the office building on a 1.3 acre land parcel contributed by Ashton Park to 4040 Wilson at an agreed upon valuation of \$36.0 million. The total estimated project costs are \$194.6 million, which we expect will be financed through approximately \$72.0 million of partner capital contributions (consisting of \$36.0 million in cash from the Company and land with a value of \$36.0 million from Ashton Park, of which \$26.8 million has been funded to date) with the remaining balance funded by debt financing through a construction lender that has not yet been determined. 4040 Wilson has begun construction of the garage structure at an estimated cost of \$26.9 million. We expect groundbreaking on the building structure to commence upon achievement of certain of pre-leasing levels, at which point 4040 Wilson expects to obtain debt financing for a portion of the project costs. Additional equity contributions (exclusive of the \$61.3 million funded at December 31, 2014) are expected to total \$9.2 million and will be funded by us over the remaining construction period.

#### *Toll Brothers Venture - The Parc at Plymouth Meeting*

We are continuing the \$77.0 million development of The Parc at Plymouth Meeting, a 398-unit multi-family project in Plymouth Meeting, Pennsylvania, in a 50/50 joint venture with Toll Brothers which we expect to complete by the end of 2015. The partners fully funded \$31.0 million of initial project equity with our share fully satisfied by our contribution of the underlying land parcel. The remaining construction costs are being funded from a \$56.0 million construction facility whose closing in December 2013 resulted in a \$3.0 million return of capital to each partner. As of December 31, 2014, \$50.5 million had been spent on the development of which \$29.5 million has been funded by draws on the construction loan.

#### *Land Holdings*

As of December 31, 2014, we owned approximately 415 acres of undeveloped land, and held options to purchase approximately 63 additional acres of undeveloped land. As market conditions warrant, we will seek to opportunistically dispose of those parcels that we do not anticipate developing. For parcels of land that we ultimately develop, we will be subject to risks and costs associated with land development, including building moratoriums and the inability to obtain necessary zoning, land-use, building, occupancy and other required governmental approvals, construction cost increases or overruns and construction delays, and insufficient occupancy rates and rental rates. As of December 31, 2014, the total potential development that these land parcels could support amounted to 6.0 million square feet.

Development projects are subject to a variety of risks, including construction delays, construction cost overruns, inability to obtain financing on favorable terms, inability to lease space at projected rates, inability to enter into construction, development and other agreements on favorable terms, and unexpected environmental and other hazards. See Item 1A., "Risk Factors."

#### **CRITICAL ACCOUNTING POLICIES AND ESTIMATES**

Management's Discussion and Analysis of Financial Condition and Results of Operations discuss our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses for the reporting periods. Certain accounting policies are considered to be critical accounting policies, as they require management to make assumptions about matters that are highly uncertain at the time the estimate is made and changes in the accounting estimate are reasonably likely to occur from period to period. Management believes the following critical accounting policies reflect our more significant judgments and estimates used in the preparation of our consolidated financial statements. For a summary of all of our significant accounting policies, see Note 2, "Summary of Significant Accounting Policies," to our consolidated financial statements included elsewhere in this report.

#### Real Estate Investments

Real estate investments are carried at cost. We record acquisition of real estate investments treated as business combinations under the acquisition method of accounting and allocate the purchase price to land, buildings and intangible assets on a relative fair value basis. Depreciation is computed using the straight-line method over the useful lives of buildings and capital improvements (5 to 55 years) and over the shorter of the lease term or the life of the asset for tenant improvements. Direct construction costs related to the development of Properties and land holdings are capitalized as incurred. Capitalized costs include pre-construction costs essential to the development of the property, development and construction costs, interest, property taxes, insurance, salaries and other project costs during the period of development. Estimates and judgments are required in determining when capitalization

of certain costs such as interest should commence and cease. We expense routine repair and maintenance expenditures and capitalize those items that extend the useful lives of the underlying assets.

#### Purchase Price Allocation

We allocate the purchase price of properties to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) our estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancellable term of the lease (includes the below market fixed renewal period, if applicable). Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancellable terms of the respective leases. Capitalized below-market lease values are amortized as an increase of rental income over the remaining non-cancellable terms of the respective leases, including any fixed-rate renewal periods.

Other intangible assets also include amounts representing the value of tenant relationships and in-place leases based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the respective tenant. We estimate the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, include leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases and any fixed-rate bargain renewal periods. We estimate fair value through methods similar to those used by independent appraisers or by using independent appraisals. Factors that we consider in our analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. We also consider information obtained about each property as a result of our pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. In estimating carrying costs, we include real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from four to twelve months.

Characteristics that we consider in allocating value to our tenant relationships include the nature and extent of our business relationship with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of tenant relationship intangibles is amortized over the remaining initial lease term and expected renewals, but in no event longer than the remaining depreciable life of the building. The value of in-place leases is amortized over the remaining non-cancellable term of the respective leases and any fixed-rate renewal periods.

In the event that a tenant terminates its lease at or prior to the end of the lease term, the unamortized portion of each intangible, including market rate adjustments, in-place lease values and tenant relationship values, would be charged to expense.

#### Impairment or Disposal of Long-Lived Assets

We review our long-lived assets for impairment following the end of each quarter and when there is an event or change in circumstances that indicates an impairment in value. An impairment loss is recognized if the carrying amount of an asset is not recoverable and exceeds its fair value. In such case, an impairment loss is recognized in the amount of the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Since cash flows on properties considered to be "long-lived assets to be held and used" are considered on an undiscounted basis to determine whether an asset has been impaired, our established strategy of holding properties over the long term directly decreases the likelihood of recording an impairment loss. If our holding strategy were to change or if market conditions were to otherwise dictate an earlier sale date, then an impairment loss may be recognized and such loss could be material. If we determine that impairment has occurred, the affected assets must be reduced to their fair value.

The relevant accounting guidance for impairments requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as "held for sale," be presented as discontinued operations in all periods presented if the disposal represents a strategic shift that has, or will have, a major effect on our operations and financial results. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan). We generally consider assets to be "held for sale" when the transaction has been approved by our Board of Trustees, or by officers vested with authority to approve the transaction and there are no known significant contingencies relating to the sale of the property within one year of the consideration date and the consummation of the transaction is otherwise considered probable.

Following the classification of a property as "held for sale," no further depreciation is recorded on the assets, and the asset is written down to the lower of carrying value or fair market value.

We recorded a \$1.8 million provision for impairment on assets held for sale at September 30, 2014. These properties were sold on October 24, 2014, at which time we recorded a \$0.2 million gain. For further information regarding the impairment, see Item 1., "Business - Real Estate Dispositions." During our impairment review as of December 31, 2014, we determined that no additional impairment charges were necessary. Our impairment review of the years ended December 31, 2013 and 2012 determined that no impairment charges were necessary.

### Real Estate Ventures

When we obtain an economic interest in an entity, we evaluate the entity to determine if the entity is deemed a variable interest entity ("VIE"), and if we are deemed to be the primary beneficiary, in accordance with the accounting standard for the consolidation of variable interest entities. This accounting standard requires significant use of judgments and estimates in determining its application. If the entity is not deemed to be a VIE, and we serve as the general partner or managing member within the entity, we evaluate to determine if our presumed control as the general partner or managing member is overcome by the "kick out" rights and other substantive participating rights of the limited partners or non-managing members in accordance with the same accounting standard.

We consolidate (i) entities that are VIEs and of which we are deemed to be the primary beneficiary and (ii) entities that are non-VIEs which we control. Entities that we account for under the equity method (i.e., at cost, increased or decreased by our share of earnings or losses, less distributions) include (i) entities that are VIEs and of which we are not deemed the primary beneficiary (ii) entities that are non-VIEs which we do not control, but over which we have the ability to exercise significant influence and (iii) entities that are non-VIEs which we maintain an ownership interest through our general partner status, but in which the limited partners in the entity have the substantive ability to dissolve the entity or remove us without cause or have substantive participating rights. We continuously assess our determination of whether an entity is a VIE and who the primary beneficiary is, and whether or not the limited partners in an entity have substantive rights, including if certain events occur that are likely to cause a change in original determinations.

Under the equity method, investments in unconsolidated Real Estate Ventures are recorded initially at cost, as investments in Real Estate Ventures, and subsequently adjusted for equity in earnings, cash contributions, less distributions and impairments. For Real Estate Ventures that are constructing assets to commence planned principal operations, the Company capitalizes interest expense using its weighted average interest rate and its investment balance as a basis. Planned principal operations commence when a property is available to lease and at that point in time we cease capitalizing interest to our investment basis.

On a periodic basis, management assesses whether there are any indicators that the value of our investments in unconsolidated joint ventures may be impaired. An investment is impaired only if management's estimate of the value of the investment is less than the carrying value of the investment, and such decline in value is deemed to be other than temporary. To the extent impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment. Our estimates of value for each investment (particularly in commercial real estate joint ventures) are based on a number of assumptions that are subject to economic and market uncertainties including, among others, demand for space, competition for tenants, changes in market rental rates, and operating costs. These factors are difficult to predict and are subject to future events that may alter management's assumptions; accordingly, the values estimated by management in its impairment analyses may not be realized.

### Revenue Recognition

We recognize rental revenue on the straight-line basis from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases, which averages minimum rents over the terms of the leases. Lease incentives, which are included as reductions of rental revenue, are recognized on a straight-line basis over the term of the lease.

Our leases also typically provide for tenant reimbursement of a portion of common area maintenance expenses and other operating expenses to the extent that a tenant's pro rata share of expenses exceeds a base year level set in the lease or to the extent that the tenant has a lease on a triple net basis. For certain leases, we make significant assumptions and judgments in determining the lease term, including assumptions when the lease provides the tenant with an early termination option. The lease term impacts the period over which we determine and record minimum rents and also impacts the period over which we amortize lease-related costs.

In addition, our rental revenue is impacted by our determination of whether improvements to our properties, whether made by us or by the tenant, are landlord assets. The determination of whether an improvement is a landlord asset requires judgment. In making this judgment, our primary consideration is whether the improvement would be utilizable by another tenant upon move out of the improved space by the then-existing tenant. If we have funded an improvement that we determine not to be landlord assets, then we treat the costs of the improvement as lease incentives. If the tenant has funded the improvement that we determine

to be landlord assets, then we treat the costs of the improvement as deferred revenue and amortize this cost into revenue over the lease term.

Recoveries from tenants, consisting of amounts due from tenants for common area maintenance expenses, real estate taxes and other recoverable costs are recognized as revenue in the period during which the expenses are incurred.

Tenant reimbursements are recognized and presented in accordance with accounting guidance which requires that these reimbursements be recorded on a gross basis because we are generally the primary obligor with respect to the goods and services the purchase of which gives rise to the reimbursement obligation; because we have discretion in selecting the vendors and suppliers; and because we bear the credit risk in the event they do not reimburse us. We also receive payments from third parties for reimbursement of a portion of the payroll and payroll-related costs for certain of our personnel allocated to perform services for these third parties and we reflect these payments on a gross basis.

We recognize gains on sales of real estate at times and in amounts determined in accordance with the accounting guidance for sales of real estate. The guidance takes into account the terms of the transaction and any continuing involvement, including in the form of management, leasing of space or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, then we defer some or all of the gain recognition and account for the continued operations of the property by applying the finance, leasing, profit sharing, deposit, installment or cost recovery method, as appropriate, until the sales criteria are met.

We derive parking revenues from leases, monthly parking and transient parking. We recognize parking revenue as earned.

We receive leasing commission income, management fees and development fees from third parties.

Leasing commission income is earned based on a percentage of gross rental income upon a tenant signing a lease with a third party lessor. Property management fees are recorded and earned based on a percentage of collected rents at the properties under management, and not on a straight-line basis, because such fees are contingent upon the collection of rents. We record development fees as earned taking into account the risk associated with each project. Profit on development fees earned from joint venture projects is recognized as revenue to the extent of the third party partners' ownership interest.

## Income Taxes

### *Parent Company*

The Parent Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Internal Revenue Code"). In addition, the Parent Company may elect to treat one or more of its subsidiaries as REITs. In order to continue to qualify as a REIT, the Parent Company and each of its REIT subsidiaries are required to, among other things, distribute at least 90% of their REIT taxable income to their stockholders and meet certain tests regarding the nature of their income and assets. As REITs, the Parent Company and its REIT subsidiaries are not subject to federal income tax with respect to the portion of their income that meets certain criteria and is distributed annually to the stockholders. Accordingly, no provision for federal income taxes is included in the accompanying consolidated financial statements with respect to the operations of these REITs. The Parent Company and its REIT subsidiaries, if any, intend to continue to operate in a manner that allows them to continue to meet the requirements for taxation as REITs. Many of these requirements, however, are highly technical and complex. If the Parent Company or one of its REIT subsidiaries were to fail to meet these requirements, they would be subject to federal income tax.

The Parent Company may elect to treat one or more of its subsidiaries as a taxable REIT subsidiary, or TRS. In general, a TRS may perform additional services for our tenants and generally may engage in any real estate or non-real estate related business (except for the operation or management of health care facilities or lodging facilities or the provision to any person, under a franchise, license or otherwise, of rights to any brand name under which any lodging facility or health care facility is operated). A TRS is subject to corporate federal income tax. The Parent Company has elected to treat certain of its corporate subsidiaries as TRSs; these entities provide third party property management services and certain services to tenants that could not otherwise be provided.

### *Operating Partnership*

In general, the Operating Partnership is not subject to federal and state income taxes, and accordingly, no provision for income taxes has been made in the accompanying consolidated financial statements. The partners of the Operating Partnership are required to include their respective share of the Operating Partnership's profits or losses in their respective tax returns. The Operating Partnership's tax returns and the amount of allocable Partnership profits and losses are subject to examination by federal and state

taxing authorities. If such examination results in changes to the Operating Partnership profits or losses, then the tax liability of the partners would be changed accordingly.

The Operating Partnership may elect to treat one or several of its subsidiaries as REITs under Sections 856 through 860 of the Internal Revenue Code. Each subsidiary REIT has met or intends to meet the requirements for treatment as a REIT under Sections 856 through 860 of the Internal Revenue Code, and, accordingly, no provision has been made for federal and state income taxes in the accompanying consolidated financial statements. If any subsidiary REIT fails to qualify as a REIT in any taxable year, that subsidiary REIT will be subject to federal and state income taxes and may not be able to qualify as a REIT for the four subsequent taxable years. Also, each subsidiary REIT may be subject to certain local income taxes.

The Operating Partnership has elected to treat several of its subsidiaries as TRSs, which are subject to federal, state and local income tax.

#### Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts that represents an estimate of losses that may be incurred from the inability of tenants to make required payments. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, we evaluate specific accounts where we have determined that a tenant may have an inability to meet its financial obligations. In these situations, we use our judgment, based on the facts and circumstances, and record a specific reserve for that tenant against amounts due to reduce the receivable to the amount that we expect to collect. These reserves are re-evaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories. If the financial condition of our tenants were to deteriorate, additional allowances may be required. For accrued rent receivables, we consider the results of the evaluation of specific accounts as well as other factors including assigning risk factors to different industries based on our tenants' standard industrial classification. Considering various factors including assigning a risk factor to different industries, these percentages are based on historical collection and write-off experience adjusted for current market conditions.

#### Deferred Costs

We incur direct costs related to the financing, development and leasing of our properties. Management exercises judgment in determining whether such costs, particularly internal costs, meet the criteria for capitalization or must be expensed. Capitalized financing fees are amortized over the related loan term on a basis that approximates the effective interest method while capitalized leasing costs are amortized over the related lease term. Management re-evaluates the remaining useful lives of leasing costs as the creditworthiness of our tenants and economic and market conditions change.

## RESULTS OF OPERATIONS

The following discussion is based on our Consolidated Financial Statements for the years ended December 31, 2014, 2013 and 2012. We believe that presentation of our consolidated financial information, without a breakdown by segment, will effectively present important information useful to our investors.

Net operating income (“NOI”) as presented in the comparative analysis below is defined as revenue less property operating expenses, real estate taxes and third party management expenses. Property operating expenses that are included in determining NOI consist of costs that are necessary and allocable to our operating properties such as utilities, property-level salaries, repairs and maintenance, property insurance, management fees and bad debt expense. General and administrative expenses that are not reflected in NOI primarily consist of corporate-level salaries, amortization of share awards and professional fees that are incurred as part of corporate office management. NOI is a non-GAAP financial measure that we use internally to evaluate the operating performance of our real estate assets by segment, as presented in Note 18 to the Consolidated Financial Statements, and of our business as a whole. We believe NOI provides useful information to investors regarding our financial condition and results of operations because it reflects only those income and expense items that are incurred at the property level. While NOI is a relevant and widely used measure of operating performance of real estate investment trusts, it does not represent cash flow from operations or net income as defined by GAAP and should not be considered as an alternative to those measures in evaluating our liquidity or operating performance. NOI also does not reflect general and administrative expenses, interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. Trends in development and construction activities that could materially impact our results from operations are also not included in NOI. We believe that net income, as defined by GAAP, is the most appropriate earnings measure. See Note 18, “*Segment Information*,” to the Consolidated Financial Statements for a reconciliation of NOI to our consolidated net income (loss).

### Comparison of the Year Ended December 31, 2014 to the Year Ended December 31, 2013

The table below shows selected operating information for the “Same Store Property Portfolio” and the “Total Portfolio.” The Same Store Property Portfolio consists of 188 properties containing an aggregate of approximately 21.1 million net rentable square feet, and represents properties that we owned for the twelve-month periods ended December 31, 2014 and 2013. The Same Store Property Portfolio includes properties acquired or placed in service on or prior to January 1, 2013 and owned through December 31, 2014. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2013 or disposed prior to December 31, 2014. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the twelve-month periods ended December 31, 2014 and 2013) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the twelve-month periods ended December 31, 2014 and 2013 (in thousands).

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

**EXPLANATORY NOTES**

(a) Results include: Five assets completed/acquired and placed in service.

(b) Results include: Three developments, one redevelopment and one re-entitlement property.

(c) Represents certain revenues and expenses at the corporate level as well as various intercompany costs that are eliminated in consolidation and third-party management fees. Also includes six properties sold and eight properties that were contributed to an unconsolidated real estate venture in which we have a 50% ownership interest.

(d) Pertains to properties that are part of our core portfolio (i.e. not under development, redevelopment, or re-entitlement).

## *Total Revenue*

Cash rents from the Total Portfolio increased by \$27.1 million from 2013 to 2014, primarily attributable to:

- an increase of \$11.7 million in the Same Store Property Portfolio primarily due to a 2.2% increase in occupancy in 2014 compared to 2013;
- an increase of \$29.7 million related to the increase in our equity ownership interest and resulting consolidation of One Commerce Square and Two Commerce Square during the fourth quarter of 2013;
- an increase of \$3.2 million related to the development at 200 Radnor Chester Road and redevelopment property at 660 Germantown Avenue being placed into service;
- an increase of \$0.8 million related to a property that was purchased during the fourth quarter of 2013 and subsequently contributed to a real estate venture during the second quarter of 2014;
- an increase of \$1.5 million related to the acquisition of Six Tower Bridge during the second quarter of 2013;
- a decrease of \$0.8 million related to the sale of five office properties in Malvern, PA;
- a decrease of \$0.8 million related to the sale of an office property in Reston, Virginia; and
- a decrease of \$17.7 million related to the contribution of seven office properties in Austin, Texas to the Austin Venture during the fourth quarter of 2013.

Straight-line rents decreased by \$4.0 million from 2013 to 2014 on a consolidated basis which is primarily due to a \$5.1 million decrease which is a combination of free rent converting to cash rent subsequent to the twelve-month period ended December 31, 2013 at our Same Store Property Portfolio, and timing of revenue recognition under the straight-line method of accounting. An additional \$1.7 million decrease relates to the expiration of a single tenant's free rent period at 660 Germantown Pike subsequent to December 31, 2013. The decreases were offset by a \$3.0 million increase related to the increase in our equity ownership interest and resulting consolidation of One and Two Commerce Square in the fourth quarter of 2013 and a \$0.2 million increase relating to a development property placed into service during the second quarter of 2014.

Tenant reimbursements increased \$5.8 million from 2013 to 2014 which trended along with the increase in operating expenses over the same period. Expense recoveries increased to 37.0% during 2014 compared to 36.6% in 2013.

Termination fees at our Total Portfolio increased by \$3.5 million due to the timing and volume of early tenant move-outs during 2014 when compared to 2013.

Third party management fees, labor reimbursement and leasing income increased \$4.1 million from 2013 to 2014 which is primarily attributable to an increase of \$3.1 million in management fees and labor reimbursements from our Austin Venture which was formed during the fourth quarter of 2013. Leasing and construction management fees increased \$0.4 million at the Brandywine -AI real estate venture. In addition, development fee income increased \$0.2 million related to increased development activity at the evo at Cira Centre South real estate venture. Other net increases total \$0.4 million, none of which related significantly to a particular property.

Other income at our Total Portfolio decreased by \$1.0 million from 2013 to 2014, primarily due to lower real estate tax refunds received related to prior year tax assessment appeals.

## *Property Operating Expenses*

Property operating expenses across our Total Portfolio increased by \$16.9 million from 2013 to 2014, primarily attributable to: (i) an increase of \$20.3 million due to additional operating expenses from properties that we acquired and placed into service during 2013 and 2014, (ii) an increase of \$1.3 million in snow removal costs, (iii) an increase of \$1.3 million in utilities, (iv) a net increase of \$2.2 million in repairs and maintenance expenditures due to the timing of our tenants' needs and (v) a \$0.3 million increase to bad debt expense. These and other increases were offset by: (i) \$8.3 million decrease from the contribution of seven office properties in Austin, Texas to the Austin Venture during the fourth quarter of 2013 and (ii) \$0.2 million decrease from the sale of an office property in Reston, Virginia during the third quarter of 2014.

### *Real Estate Taxes*

Real estate taxes across our total portfolio decreased by \$3.8 million from 2013 to 2014, primarily attributable to: (i) a decrease of \$5.1 million from the contribution of seven office properties in Austin, Texas to the Austin Venture, (ii) a net decrease of \$3.3 million in the Same Store Property Portfolio and (iii) a decrease of \$0.6 million relating to development/redevelopment properties. The decreases in the Same Store Property Portfolio and development/redevelopment properties are due to successful tax appeals that reduced property assessments that occurred subsequent to December 31, 2013. These decreases were offset by \$5.1 million in increases due to properties we acquired subsequent to the second quarter of 2013.

### *General and Administrative Expenses*

General and administrative expenses across our Total Portfolio decreased by \$0.8 million from 2013 to 2014, primarily attributable to a \$2.0 million decrease in stock-based compensation costs compared to the prior year which is directly attributable to the timing of recognizing accelerated amortization of such compensation of our executive personnel meeting qualifying retirement provisions. Salary and benefits costs decreased \$0.2 million during 2014 compared to 2013. These decreases were offset by an increase of \$0.6 million of severance costs in 2014 compared to 2013. The remaining increase of \$0.8 million is due to additional professional fees incurred during 2014 compared to 2013.

### *Depreciation and Amortization*

Depreciation and amortization expense increased by \$11.5 million from 2013 to 2014, of which \$20.1 million is primarily attributable to properties we acquired and placed into service subsequent to the second quarter of 2013. Increases in depreciation expense to the Same Store Property Portfolio totaled \$5.9 million, as a result of the timing of tenant and capital improvement projects being completed and placed into service. Depreciation expense for the development/redevelopment properties increased \$0.4 million and reflects additional assets placed into service. These increases were offset by reductions in depreciation expense of \$10.9 million related to the contribution of seven office properties in Austin, Texas to the Austin Venture during the fourth quarter of 2013. During the second quarter of 2013, we re-entitled a property for residential and mixed-use development, and accordingly, we shortened the useful lives for this building to the expected demolition date and accelerated \$3.6 million of depreciation expense. Other net decreases to depreciation total \$0.4 million, none of which related significantly to a particular property.

### *Interest Income*

Interest income increased by \$2.9 million primarily due to \$1.5 million of interest income from a note receivable from an unaffiliated third party and \$0.7 million from a note receivable from an unconsolidated joint venture, as well as higher average balances in interest bearing cash equivalents during 2014 compared to 2013.

### *Interest Expense*

The increase in interest expense of \$2.4 million from 2013 to 2014 is primarily due to the following;

- \$6.5 million related to the issuance of \$250.0 million of our 4.10% Guaranteed Notes due 2024 and \$250.0 million of our 4.55% Guaranteed Notes due 2029; and
- \$9.5 million related to the fourth quarter 2013 increase in our ownership interest in One and Two Commerce Square and our consolidation of One Commerce Square mortgage debt having a principal balance at December 31, 2014 of \$123.2 million and an effective rate of 3.68% and Two Commerce Square mortgage debt having a principal balance of \$112.0 million at December 31, 2014 and an effective rate of 4.51%.

The increase of \$16.0 million in interest expense described above was primarily offset by the following decreases in interest expense during 2014 compared to 2013:

- \$3.7 million related to an increase in capitalized interest which is directly attributable to increased development activity compared to 2013;
- \$1.1 million due to the early repayment of the entire principal balance of our \$150.0 million three-year term loan due February 2015;
- \$0.7 million due to the early repayment of the remaining principal balance of our \$100.0 million four-year term loan due February 2016;
- \$0.2 million due to the fact that we did not have any borrowings on our Credit Facility during 2014;
- \$3.6 million due to repurchases of \$218.5 million of our 5.40% Guaranteed Notes due 2014;
- \$3.2 million due to repurchases of \$157.6 million of our 7.50% Guaranteed Notes due 2015; and
- \$1.1 million is due to debt principal amortization.

#### *Interest Expense - Deferred Financing Costs*

Interest expense - deferred financing costs increased \$0.5 million from 2013 to 2014, primarily due to the write-off of costs related to repurchases of debt during 2014, which included, (i) \$218.5 million of our 5.40% Guaranteed Notes due 2014, (ii) \$157.6 million of our 7.50% Guaranteed Notes due 2015, (iii) \$150.0 million three-year term loan due February 2015, and (iv) \$100.0 million four-year term loan due February 2016. Additional increases relate to the issuance of \$250.0 million of our 4.10% Guaranteed Notes due 2024 and \$250.0 million of our 4.55% Guaranteed Notes due 2029.

#### *Equity in Income of Real Estate Ventures*

The decrease in equity in income of Real Estate Ventures of \$4.4 million during 2013 to 2014 is primarily attributable to the following:

- \$1.5 million in preferred return income as a result of increasing our common ownership interest in, and consolidating of, the One and Two Commerce real estate ventures during December of 2013;
- \$0.4 million as a result of recognizing income during 2013 related to the exchange of our ownership interest in Two Tower Bridge to acquire the remaining ownership interest in Six Tower Bridge during the second quarter of 2013;
- \$0.9 million related to sales proceeds received in excess of our investment in the BDN Beacon real estate venture during 2013;
- \$0.4 million from our Broadmoor Austin real estate venture, as a lead tenant reduced the amount of leased space subsequent to December 31, 2013;
- \$0.4 million as a result of recognizing professional fees and interest expense incurred related to our investment in the Seven Tower Bridge real estate venture;
- \$0.5 million Four Tower Bridge due to decreased occupancy subsequent to December 31, 2013; and
- \$0.3 million due to net losses incurred at our remaining real estate ventures.

#### *Recognized Hedge Activity*

Recognized hedge activity increased \$0.8 million during 2014 due to the September 16, 2014 repayment of the entire \$150.0 million three-year term loan its scheduled February 2015 maturity. In connection with these repayments a \$0.8 million charge on the termination of associated interest rate swap contracts was incurred. There were no comparable charges incurred during 2013.

#### *Net Gain on Remeasurement of Investments in Real Estate Ventures*

The net gain on remeasurement of investments in real estate ventures was \$0.5 million during 2014 and \$6.9 million during 2013. The gain recognized during 2014 resulted from the final settlement of the increase in ownership interest of the One and Two Commerce partnerships. The 2013 net gains resulted from the Company taking control of Six Tower Bridge and One and Two Commerce Square during 2013 which required the remeasurement at fair value of our existing equity interest in each partnership.

### *Net Gain on Real Estate Venture Transactions*

The \$30.0 million decrease in gain on real estate venture transactions primarily results from contributing seven properties to the newly-formed Austin Venture and recognizing a \$25.9 million gain on sale during 2013. Additionally in 2013, a \$3.7 million increase in gain on real estate venture transactions is the result of the exchange of our remaining ownership in the Two Tower Bridge Venture for the remaining ownership interest in the Six Tower Bridge Venture. The \$0.4 million loss during 2014 relates primarily to the contribution of Four Points Centre to an unconsolidated real estate venture.

### *Loss on Early Extinguishment of Debt*

During 2014, we (i) repurchased \$218.5 million repurchase of our 5.40% Guaranteed Notes due 2014, (ii) repurchased \$157.6 million of our 7.50% Guaranteed Notes due 2015, (iii) repaid the entire \$150.0 million three-year term loan due February 2015 and (iv) repaid the entire \$100.0 million four-year term loan due February 2016, which resulted in a net loss on early extinguishment of debt of \$7.6 million.

During 2013, we repurchased (i) \$0.5 million of our 6.00% Guaranteed Notes due 2016, (ii) \$9.9 million of our 7.50% Guaranteed Notes due 2015, and (iii) \$20.8 million of our 5.40% Guaranteed Notes due 2014, which resulted in a net loss on early extinguishment of debt of \$2.1 million.

### *Discontinued Operations*

During 2014, there were no property sales classified as discontinued operations. The gain of \$0.9 million primarily relates to the settlement of a sale that occurred during the first quarter of 2013 for a portfolio of eight office properties located in Lawrenceville, New Jersey. See Note 3, "Real Estate Investments," for further information.

During 2013, we sold a portfolio of eight office properties located in Lawrenceville, New Jersey, one property located in San Diego, California, one property located in Carlsbad, California, one property located in Malvern, Pennsylvania one property located in Exton, Pennsylvania, one property located in King of Prussia, Pennsylvania, and one property in West Chester, Pennsylvania. These properties had total revenues of \$5.2 million, property operating expenses of \$2.5 million and \$1.9 million of depreciation and amortization expense. We recognized a net gain on sale related to these transactions of \$3.4 million.

### *Net Income*

Net income decreased by \$36.2 million from 2013 to 2014 as a result of the factors described above.

### *Earnings per Common Share*

Net income per share was \$0.00 during 2014 as compared to net income per share of \$0.23 during 2013 as a result of the factors described above.

## **RESULTS OF OPERATIONS**

### *Comparison of the Year Ended December 31, 2013 to the Year Ended December 31, 2012*

The table below shows selected operating information for the "Same Store Property Portfolio" and the "Total Portfolio." The Same Store Property Portfolio consists of 196 properties containing an aggregate of approximately 21.8 million net rentable square feet, and represents properties that we owned for the twelve-month periods ended December 31, 2013 and 2012. The Same Store Property Portfolio includes properties acquired or placed in service on or prior to January 1, 2012 and owned through December 31, 2013. The Total Portfolio includes the effects of other properties that were either placed into service, acquired or redeveloped after January 1, 2011 or disposed prior to December 31, 2012. A property is excluded from our Same Store Property Portfolio and moved into the redevelopment column in the period that we determine that a redevelopment would be the best use of the asset, and when said asset is taken out of service or is undergoing re-entitlement for a future development strategy. This table also includes a reconciliation from the Same Store Property Portfolio to the Total Portfolio net income (i.e., all properties owned by us during the twelve-month periods ended December 31, 2013 and 2012) by providing information for the properties which were acquired, placed into service, under development or redevelopment and administrative/elimination information for the twelve-month periods ended December 31, 2013 and 2012 (in thousands).

The Total Portfolio net income presented in the table is equal to the net income of the Parent Company and the Operating Partnership.

Comparison of Year Ended December 31, 2013 to the Year Ended December 31, 2012

	Same Store Property Portfolio			Recently Completed Properties		Development Properties		Other (Eliminations) (a)		Total Portfolio		
(dollars and square feet in thousands)	2013	2012	Increase/ (Decrease)	2013	2012	2013	2012	2013	2012	2013	2012	Increase/ (Decrease)

## EXPLANATORY NOTES

- (a) Results include: Four assets completed/acquired and placed in service.
- (b) Results include: One development, two redevelopments and one re-entitlement property
- (c) Represents certain revenues and expenses at the corporate level as well as various intercompany costs that are eliminated in consolidation and third-party management fees. This also includes seven properties that were contributed to an unconsolidated real estate venture in which we have a 50% ownership interest.
- (d) Pertains to properties that are part of our core portfolio (i.e. not under development, redevelopment, or re-entitlement).

### *Total Revenue*

Cash rents from the Total Portfolio increased by \$25.0 million from 2012 to 2013, primarily attributable to:

- \$14.9 million increase in rental income at our Same Store Portfolio which is a result of 190 basis points increase in occupancy and a 100 basis point increase in cash rental rates from 2012 to 2013;
- an increase of \$8.0 million at our development properties related to the acquisition of 1900 Market Street during the fourth quarter of 2012 and a portion of 660 Germantown Pike which was placed into service subsequent to the fourth quarter of 2012; and
- an increase of \$2.8 million related to the acquisition of One and Two Commerce Square during December of 2013 and Six Tower Bridge during the second quarter of 2013.

This increase is offset by a decrease of \$0.7 million as a result of contributing our Austin portfolio to a joint venture during the fourth quarter of 2013.

Straight-line rents decreased by \$2.2 million from 2012 to 2013, as a result of the following: a decrease of \$3.0 million at our Same Store Portfolio as a result of free rent turning to cash rent subsequent to the fourth quarter of 2012 and \$1.3 million related to the contribution of our Austin portfolio into a joint venture during the fourth quarter of 2013. This decrease was offset by \$1.8 million related to increases in straight line rent earned at our development properties and increases of \$0.3 million related to the acquisitions discussed above.

Tenant reimbursements increased \$2.0 million from 2012 to 2013 as a direct result of the \$10.3 million increase in operating expenses over the same period. Please see the "*Property Operating Expenses*" and "*Real Estate Taxes*" explanations below and note that certain costs, such as snow removal costs, carry a higher tenant reimbursement percentage.

Termination fees at our Total Portfolio increased by \$1.3 million due to timing and volume of tenant move-outs during 2013 when compared to 2012.

Other income at our Total Portfolio decreased by \$1.5 million during 2013 compared to 2012 as a result of real estate tax refunds received related to prior year's tax assessment appeals.

### *Property Operating Expenses*

Property operating expenses across our total portfolio increased by \$8.1 million from 2012 to 2013, mainly attributable to the following: (i) an increase of \$4.2 million as a result of acquiring 1900 Market Street, Six Tower Bridge, Commerce Square and Four Points Centre as discussed above, (ii) an increase of \$1.1 million related to our development properties that were placed into service during 2013, (iii) an increase in repairs and maintenance expenses of \$2.6 million, directly attributable the timing of tenant needs, (iv) an increase in snow removal costs of \$0.7 million as a result of more severe winter experienced in our Pennsylvania and New Jersey submarkets, (v) an increase in bad debt expense of \$0.7 million, and (vi) an increase in payroll expense of \$0.6 million. These increases were offset by lower utility costs of \$1.7 million.

### *Real Estate Taxes*

Real estate taxes across our total portfolio increased by \$2.2 million, primarily as a result of acquiring 1900 Market Street, Six Tower Bridge, One and Two Commerce Square and Four Points Centre as discussed above.

### *General and Administrative Expenses*

General and administrative expenses increased by \$2.2 million from 2012 to 2013, mainly attributable to a \$1.2 million increase in expenditures related to the acquisition activity discussed above. Stock compensation expense increased \$0.8 million due to the fact that we accelerated the amortization of such compensation of our executive personnel meeting qualifying retirement provisions.

Salary and benefits expense increased \$0.7 million in 2013. These increases were offset by a \$0.5 million decrease in professional fees and miscellaneous general and administrative expenses.

#### *Depreciation and Amortization*

Depreciation and amortization expense increased by \$8.6 million, mainly attributable to the four property acquisitions discussed above. In addition, we also accelerated depreciation expense related to Plaza 1000 at Main Street. We are in the process of re-entitling this property for residential and mixed-use development, and accordingly, we shortened the lives of the buildings and related assets to the estimated demolition date. In addition, a portion of 660 Germantown Pike was placed into service subsequent to 2012 resulting in additional depreciation expense during 2013.

#### *Interest Income*

Interest income decreased by \$2.0 million from 2012 to 2013 primarily due to the recognition of \$1.0 million of accrued interest income related to the payoff of the Trenton note receivable during 2012. The remaining decrease is due to a decrease in interest income earned on investments in available-for-sale securities that were outstanding during 2012. Interest income earned during 2013 primarily represents interest earned on our available cash balances (\$263.2 million as of December 31, 2013).

#### *Interest Expense*

The decrease in interest expense of \$11.0 million is primarily due to the following:

- a decrease of \$14.3 million as a result of the repurchases of debt subsequent to the third quarter of 2012, including (i) \$19.8 million of our 5.40% Guaranteed Notes due 2014, (ii) \$69.7 million of our 7.50% Guaranteed Notes due 2015, (iii) \$100.1 million of our 6.00% Guaranteed Notes due 2016; and (iv) \$150.0 million of term loan indebtedness;
- a decrease of \$4.7 million in mortgage interest expense which is directly related to the \$60.0 million decrease resulting from the repayment of two mortgage loans during the fourth quarter of 2012;
- a decrease of \$2.1 million related to our \$151.5 million 5.40% Guaranteed Notes that matured and were repaid in full during April 2012; and,
- an increase of \$0.6 million in capitalized interest resulting in a decrease in interest expense.

The decrease of \$21.7 million in interest expense described above was offset by an increase of \$10.7 million, of which \$9.7 million related to interest on our \$250.0 million 3.95% Guaranteed Notes due 2023 issued in the fourth quarter of 2012 and \$1.0 million relates to borrowings made during the first quarter of 2012 consisting of \$250.0 million of 6.00% Guaranteed Notes due 2016, \$150.0 million under the LIBOR + 1.75% Three-year Term Loan and \$200.0 million under the LIBOR + 1.90% Seven-year Term Loan.

#### *Interest Expense - Deferred Financing Costs*

Deferred financing costs decreased \$1.5 million during 2013 compared to 2012 mainly due to the write-off of costs related to repurchases of debt during 2012, which included, (i) \$19.8 million of our 5.40% Guaranteed Notes due 2014, (ii) \$69.7 million of our 7.50% Guaranteed Notes due 2015, and (iii) \$100.1 million of our 6.00% Guaranteed Notes due 2016, and (iv) \$150.0 million of term loan indebtedness.

#### *Equity in Income of Real Estate Ventures*

The increase in equity in income of Real Estate Ventures of \$0.9 million during the twelve-month period ended December 31, 2013 compared to the twelve-month period ended December 31, 2012 is primarily attributable to the following:

- \$0.4 million from the One and Two Commerce real estate ventures due to increased preferred return amounts from additional capital contributions;
- \$0.3 million from the Two Tower Bridge real estate venture due to the receipt of a distribution in excess of our investment basis;
- \$0.8 million from the Brandywine-AI real estate venture due to the full year activity of the Station Square properties in 2013 and only five months of operations in 2012; and
- \$0.4 million due to net income at our remaining real estate ventures.

These increases were partially offset by the following decreases:

- \$0.6 million from the BDN Beacon due to the sale of the real estate venture during 2013; and
- \$0.4 million from the DRA Austin real estate venture as a result of formation costs the real estate venture incurred during the twelve months ended December 31, 2013.

#### *Recognized Hedge Activity*

Recognized hedge activity decreased \$3.0 million during 2013 due to the recognition of \$3.0 million of early termination fees related to the termination of interest rate swap contracts. The interest rate swap contracts were terminated in connection with the repayment of our \$150.0 million fixed portion of our four-year term loan due February 1, 2016 during the fourth quarter of 2012 (see Note 7, "Debt Obligations," of the notes to the consolidated financial statements for further details of these transactions). There were no comparable charges incurred during 2013.

#### *Net Gain on Remeasurement of Investments in Real Estate Ventures*

The net gain on remeasurement of investments in real estate ventures was \$6.9 million during 2013 with no comparable gains recognized during 2012. These net gains resulted from our acquisition of control of Six Tower Bridge and One and Two Commerce Square during 2013 which required the remeasurement at fair value of our existing equity interest in each of the partnerships. See Note 3, "Real Estate Investments," and Note 4, "Investment in Unconsolidated Ventures," of our consolidated financial statements.

#### *Net Gain on Real Estate Venture Transactions*

The \$30.6 million increase in gain on real estate venture transactions is a result of contributing seven properties to the newly-formed Austin Venture and recognizing a \$25.9 million gain on sale during 2013. Additionally, a \$3.7 million increase in gain on real estate venture transactions is the result of the exchange of our remaining ownership in the Two Tower Bridge Venture for the remaining ownership interest in the Six Tower Bridge Venture, as discussed above and in Footnote 4 of our consolidated financial statements.

Loss on real estate venture formation of \$1.0 million incurred during 2012 was a result of our termination of an agreement with a third party broker that was entered into upon contributing two properties into a joint venture during December 2011. During the third quarter of 2012, we determined that it was in our best interest to terminate the contract in order to avoid additional commissions and fees on the future joint venture acquisitions, recognizing the fee as an additional cost of forming the real estate venture.

#### *Loss on Early Extinguishment of Debt*

During 2013, we repurchased (i) \$0.5 million of our 6.00% Guaranteed Notes due 2016, (ii) \$9.9 million of our 7.50% Guaranteed Notes due 2015, and (iii) \$20.8 million of our 5.40% Guaranteed Notes due 2014, which resulted in a net loss on early extinguishment of debt of \$2.1 million.

During 2012, we repurchased (i) \$150.0 million of term loan indebtedness, (ii) \$99.6 million of our 6.00% Guaranteed Notes due 2016, (iii) \$60.8 million of our 7.50% Guaranteed Notes due 2015, (iv) \$4.3 million of our 5.400% Guaranteed Notes due 2014, and (v) \$0.3 million of our 5.75% Guaranteed Notes due 2012, which resulted in a net loss on early extinguishment of debt of \$21.9 million. In addition, we prepaid the remaining balances on two of our existing mortgages, totaling \$58.4 million, for which we incurred associated prepayment penalties of \$0.1 million.

#### *Discontinued Operations*

During 2013, we sold a portfolio of eight office properties located in Lawrenceville, New Jersey, one property located in San Diego, California, one property located in Carlsbad, California, one property located in Malvern, Pennsylvania one property located in Exton, Pennsylvania, one property located in King of Prussia, Pennsylvania, and one property in West Chester, Pennsylvania. These properties had total revenues of \$5.2 million, property operating expenses of \$2.5 million and \$1.9 million of depreciation and amortization expense. We recognized a net gain on sale related to these transactions of \$3.4 million.

During 2012, we sold one property located in Moorestown, New Jersey, one property located in Herndon, Virginia, one property located in Carlsbad, California, and 11 properties located in Exton, Pennsylvania. 2012 discontinued operations were also reclassified for the properties sold during 2013. These properties had total revenues of \$31.4 million, property operating expenses of \$12.2 million, and \$10.2 million of depreciation and amortization expense. In addition, we recognized a deferred gain related to two properties located in Trenton, New Jersey that were sold during the fourth quarter of 2009. The gain was deferred as a result of a note receivable that we held from the buyer in the amount of \$22.5 million. The note receivable and accrued interest was paid in full during the second quarter of 2012, prior to its maturity date of October 2016. We recognized a net gain on sale related to these transactions of \$34.8 million during 2012.

#### *Net Income*

Net income increased by \$36.7 million from 2012 to 2013 as a result of the factors described above. Net income is significantly impacted by depreciation of operating properties and amortization of acquired intangibles. These non-cash charges do not directly affect our ability to pay dividends. Amortization of acquired intangibles will continue over the related lease terms or estimated duration of the tenant relationships.

#### *Earnings per Common Share*

Net income per share was \$0.23 during 2013 as compared to net loss per share of \$0.06 during 2012 as a result of the factors described above.

### **LIQUIDITY AND CAPITAL RESOURCES**

#### General

Our principal liquidity needs for the next twelve months are as follows:

- fund normal recurring expenses,
- fund capital expenditures, including capital and tenant improvements and leasing costs,
- fund repayment of certain debt instruments when they mature,
- fund current development and redevelopment costs,
- fund commitments to unconsolidated joint ventures, and
- fund distributions to shareholders to maintain REIT status.

As of December 31, 2014, the Parent Company owned a 99.0% interest in the Operating Partnership. The remaining interest of approximately 1.0% pertains to common limited partnership interests owned by non-affiliated investors who contributed property to the Operating Partnership in exchange for their interests. As the sole general partner of the Operating Partnership, the Parent Company has full and complete responsibility for the Operating Partnership's day-to-day operations and management. The Parent Company's source of funding for its dividend payments and other obligations is the distributions it receives from the Operating Partnership.

We believe that our liquidity needs will be satisfied through available cash balances and cash flows generated by operations, financing activities and selective property sales. Rental revenue, expense recoveries from tenants, and other income from operations are our principal sources of cash to pay operating expenses, debt service, recurring capital expenditures and the minimum distributions required to maintain our REIT qualification. We seek to increase cash flows from our properties by maintaining quality standards for our properties that promote high occupancy rates and permit increases in rental rates while reducing tenant turnover and controlling operating expenses. Our revenue also includes third-party fees generated by our property management, leasing, development and construction businesses. We believe that our revenue, together with proceeds from property sales and debt financings, will continue to provide funds for our short-term liquidity needs. However, material changes in our operating or financing activities may adversely affect our net cash flows. With uncertain economic conditions, vacancy rates may increase, effective rental rates on new and renewed leases may decrease and tenant installation costs, including concessions, may increase in most or all of our markets throughout 2015 and possibly beyond. As a result, our revenues and cash flows could be insufficient to cover operating expenses, including increased tenant installation costs, pay debt service or make distributions to shareholders over the short-term. If this situation were to occur, we expect that we would finance cash deficits through borrowings under our unsecured credit facility and other sources of debt and equity financings. In addition, a material adverse change in cash provided by operations could adversely affect our compliance with financial performance covenants under our unsecured credit facility, including unsecured term loans and unsecured notes. As of December 31, 2014, we were in compliance with all of our debt covenants and requirement obligations.

We use multiple financing sources to fund our long-term capital needs. When needed, we use borrowings under our unsecured credit facility for general business purposes, including to meet debt maturities and to fund distributions to shareholders as well as

development and acquisition costs and other expenses from time to time as necessary. In light of the continuing volatility in financial markets and economic uncertainties, it is possible, that one or more lenders under our unsecured revolving credit facility could fail to fund a borrowing request. Such an event could adversely affect our ability to access funds from our unsecured credit facility when needed to fund distributions or pay expenses.

Our ability to incur additional debt is dependent upon a number of factors, including our credit ratings, the value of our unencumbered assets, our degree of leverage and borrowing restrictions imposed by our lenders. If one or more rating agencies were to downgrade our unsecured credit rating, our access to the unsecured debt market would be more limited and the interest rate under our unsecured credit facility and unsecured term loans would increase.

The Parent Company unconditionally guarantees the Operating Partnership's secured and unsecured obligations, which, as of December 31, 2014, amounted to \$655.9 million and \$1,803.5 million, respectively.

We maintain a shelf registration statement that has registered the offering and sale of common shares, preferred shares, depositary shares, warrants and unsecured debt securities. Subject to our ongoing compliance with securities laws, and if warranted by market conditions, we may offer and sell equity and debt securities from time to time under the shelf registration statement.

The Parent Company, other than acting as the sole general partner of the Operating Partnership, also issues equity from time to time, the proceeds of which it contributes to the Operating Partnership in exchange for additional interests in the Operating Partnership, and guarantees debt obligations of the Operating Partnership. The Parent Company's ability to sell common shares and preferred shares is dependent on, among other things, general market conditions for REITs, market perceptions about the Company as a whole and the current trading price of the Parent Company's shares.

On August 1, 2014, the Parent Company completed an underwritten offering of 21,850,000 common shares. The Parent Company contributed the net proceeds from the sale of shares, amounting to \$335.0 million after deducting underwriting discounts and commissions and other offering expenses, to the Operating Partnership in exchange for partnership units of the Operating Partnership. The Operating Partnership intends to continue to use the net proceeds for working capital, capital expenditures and other general corporate purposes, which may include acquisitions, developments and the repayment, repurchase and refinancing of debt.

On May 15, 2014, the Company amended its Amended and Restated Declaration of Trust to increase the Company's total number of shares of beneficial interest from 220,000,000 to 420,000,000 shares, with the number of authorized common shares of beneficial interest increased from 200,000,000 to 400,000,000 and the number of authorized preferred shares of beneficial interest remaining unchanged at 20,000,000.

The Operating Partnership also considers net sales of selected properties as another source of managing its liquidity. During 2014, we sold seven properties, including one property contributed to the Austin Venture, containing 0.6 million in net rentable square feet and 22.1 acres of land for aggregate net cash proceeds of \$117.9 million. Also during 2014, we purchased 54.1 acres of land and improvements for aggregate net cash of \$14.0 million.

#### Cash Flows

The following discussion of our cash flows is based on the consolidated statements of cash flows and is not meant to be a comprehensive discussion of the changes in our cash flows for the years presented.

As of December 31, 2014 and 2013, we maintained cash and cash equivalents of \$257.5 million and \$263.2 million, respectively. The following are the changes in cash flow from our activities for the years ended December 31, 2014, 2013 and 2012 (in thousands):

<b>Activity</b>	<b>2014</b>	<b>2013</b>	<b>2012</b>
Operating	\$ 188,999	\$ 183,484	\$ 159,110
Investing	(270,785)	104,708	(74,864)
Financing	76,081	(26,534)	(83,107)
Net cash flows	\$ (5,705)	\$ 261,658	\$ 1,139

Our principal source of cash flows is from the operation of our properties. We do not restate our cash flows for discontinued operations.

The net increase of \$5.5 million in cash from operating activities during 2014 compared to 2013 is primarily attributable to the timing of cash receipts and cash expenditures in the normal course of operations.

The decrease in net cash from investing activities of \$375.5 million during 2014 compared to 2013 is primarily attributable to the following:

- a decrease of \$304.6 million of net proceeds from 21 property sales during 2013, compared to the contribution of one office property to the Austin Venture, the sale of two land parcels and the sale of six office properties during 2014 (see Note 3, "Real Estate Investments," to the Consolidated Financial Statements for details);
- a decrease of \$17.0 million from the sale of our interest in an unconsolidated real estate venture during 2013, compared to no such sales during 2014 (see Note 4, "Investment in Unconsolidated Ventures," to the Consolidated Financial Statements for details);
- an increase in capital expenditures for development, tenant and building improvements and leasing commissions of \$109.3 million during 2014 compared to 2013 primarily attributed to the development of FMC at Cira Centre South and Encino Trace in 2014;
- the reimbursement of \$2.0 million in pre-formation development costs of an unconsolidated real estate venture during 2013 with no comparable reimbursements during 2014;
- a decrease in 2014 of \$88.0 million from a short-term loan to the Austin Venture, which was repaid to us on January 30, 2015 (See Note 4, "Investment In Unconsolidated Ventures," for further information regarding this acquisition), with no comparable loan during 2013;
- an increase in net investment in real estate ventures of \$13.0 million during 2014 reflecting net contributions of; (i) \$25.2 million to the Austin Venture, (ii) \$13.3 million to 4040 Wilson, (iii) \$5.2 million to 1919 Ventures and (iv) \$2.4 million to other real estate ventures, offset in 2013 by (i) contributions to 4040 Wilson totaling \$13.5 million, (ii) contributions to the evo at Cira Centre South venture of \$13.4 million, (iii) contributions to fund our share of One and Two Commerce Square ventures' operations totaling \$6.6 million and (iv) other net distributions of \$0.4 million.
- a decrease in advances for purchase of tenant assets, net of repayments of \$0.4 million during 2014 when compared to 2013; and
- a decrease of \$1.6 million in escrow cash due to timing of payments.

The decrease in net cash from investing activities was partially offset by the following transactions:

- a decrease of \$143.2 million in funds used to acquire operating properties, attributable to the 2013 acquisitions of One and Two Commerce Square for \$70.0 million, Four Points Centre for \$46.1 million and the ground leases at Cira Centre and Three Logan Square totaling \$45.3 million compared to the 2014 purchase of a development project in Austin, Texas known as Encino Trace for \$13.9 million, the purchase of 50% of the partnership interest in the land parcel and improvements for 1919 Ventures totaling \$6.0 million and the settlement of the One and Two Commerce Square partnership interest redemption agreement for \$1.6 million. (see Note 3, "Real Estate Investments," and Note 4, "Investment In Unconsolidated Ventures," to the Consolidated Financial Statements for details);
- an increase of from the contribution of a land parcel to 1919 Ventures for net proceeds of \$8.2 million during 2014 with no comparable contributions during 2013;
- an increase in cash distributions from unconsolidated Real Estate Ventures of \$2.3 million during 2014 compared to 2013; and
- an increase of \$6.8 million in payments on the mortgage note receivable during 2014 compared to 2013.

The net increase of \$102.6 million in cash from financing activities during 2014 compared to 2013 is mainly due to the following:

- the receipt of \$496.5 million in net proceeds from the issuance of \$250.0 million of our 4.10% Guaranteed Notes due 2024 and \$250.0 million of our 4.55% Guaranteed Notes due 2029;
- the receipt of \$335.0 million in net proceeds from the issuance of 21,850,000 common shares by the Parent Company during 2014 compared to the receipt of \$181.5 million in proceeds from the issuance 12,650,000 common shares during 2013; and
- a decrease of \$69.0 million in net borrowings under the unsecured Credit Facility from 2013 to 2014, as there were no draws on our line of credit for 2014.

The net increase in cash from financing activities described above was offset by the following:

- an increase of \$2.1 million in repayments of mortgage notes payable during 2014 compared to 2013, which is primarily attributable to our consolidation of the mortgage notes secured by One and Two Commerce Square upon the increase in our common ownership interest in One and Two Commerce Square from 25% to 99%;
- an increase in repayments of unsecured notes of \$352.4 million during 2014, primarily relating to the \$383.8 million redemption of the 5.40% Guaranteed Notes due November 1, 2014 and the 7.50% Guaranteed Notes due May 15, 2015 compared to \$31.4 million of unsecured note repayments during 2013;

- an increase in repayments of unsecured term loans of \$250.8 million during 2014 relating to the repayment of the entire principal balance of the \$150.0 million three-year term loan due February 2015, the \$100.0 million four-year term loan due February 2016 and \$0.8 million to terminate the interest rate hedge associated with the \$150.0 million three-year term loan;
- an increase in debt financing costs of \$3.4 million during 2014 compared to 2013;
- a decrease in stock option exercise proceeds of \$0.2 million for 2014 compared to 2013; and
- distributions paid by the Parent Company to its shareholders and on non-controlling interests of \$105.8 million during 2014 compared to \$98.5 million during 2013.

## Capitalization

### Indebtedness

The table below summarizes our indebtedness under our mortgage notes payable, our unsecured notes and our unsecured credit facility at December 31, 2014 and December 31, 2013:

	<u>December 31, 2014</u>	<u>December 31, 2013</u>
	(dollars in thousands)	
<b>Balance:</b>		
Fixed rate	\$ 2,459,463	\$ 2,499,465
Variable rate — unhedged	—	100,000
Total	<u>\$ 2,459,463</u>	<u>\$ 2,599,465</u>
<b>Percent of Total Debt:</b>		
Fixed rate	100.0%	96.2%
Variable rate — unhedged	—%	3.8%
Total	<u>100%</u>	<u>100%</u>
<b>Weighted-average interest rate at period end:</b>		
Fixed rate	5.0%	5.2%
Variable rate — unhedged	—%	1.9%
Total	5.0%	5.0%
<b>Weighted-average maturity in years:</b>		
Fixed rate	7.1	5.6
Variable rate — unhedged	0.0	2.1
Total	7.1	5.5

The variable rate debt shown above generally bear interest and carry terms based on a London Interbank Offered Rate (“LIBOR”) selected by us.

Scheduled principal payments and related weighted average annual effective interest rates for our debt as of December 31, 2014 are as follows (in thousands):

Period	Scheduled amortization	Principal maturities	Total	Weighted average interest rate of maturing debt
2015	\$ 13,669	\$ 88,361	\$ 102,030	5.49%
2016	9,924	357,779	367,703	5.61%
2017	9,906	320,417	330,323	5.63%
2018	11,954	325,000	336,954	5.19%
2019	13,155	200,000	213,155	3.81%
2020	13,915	—	13,915	6.64%
2021	14,719	—	14,719	6.64%
2022	15,571	—	15,571	6.65%
2023	14,666	351,236	365,902	4.27%
2024	14,933	250,000	264,933	4.39%
Thereafter	105,648	328,610	434,258	4.97%
<b>Totals</b>	<b>\$ 238,060</b>	<b>\$ 2,221,403</b>	<b>\$ 2,459,463</b>	<b>4.97%</b>

#### *Unsecured Credit Facility and Term Loan*

We maintain a \$600.0 million four-year unsecured revolving credit facility (the "Credit Facility") maturing February 1, 2016 and an unsecured seven-year term loan (the "Term Loan") in the amount of \$200.0 million maturing February 1, 2019.

We have the option to increase the amounts available to be advanced under the Credit Facility, subject to customary conditions and limitations, by obtaining additional commitments from our current lenders and other financial institutions. We also have the option to extend the maturity date of the Credit Facility. The Term Loan is subject to a prepayment penalty of 1% through February 1, 2015 with no penalty thereafter.

The spread to LIBOR for LIBOR-based loans under the Credit Facility will depend on our unsecured senior debt credit rating. Based on our current credit rating, the spread for such loans will be 150 and 190 basis points under the Credit Facility and the Term Loan, respectively. At our option, advances under the Credit Facility and Term Loan may also bear interest at a per annum floating rate equal to the higher of the prime rate or the federal funds rate plus 0.50% per annum. The Credit Facility contains a competitive bid option that allows banks that are part of the lender consortium to bid to make loans to us at a reduced rate. We executed hedging transactions that fix the rate on the Term Loan at a 3.62% average for its full term. The hedge commenced on February 1, 2012 and the rate is inclusive of the LIBOR spread based on our current investment grade rating.

The Credit Facility and Term Loan contain financial and operating covenants and restrictions, including covenants that relate to our incurrence of additional debt; granting liens; consummation of mergers and consolidations; the disposition of assets and interests in subsidiaries; the making of loans and investments; and the payment of dividends. The restriction on dividends permits us to pay dividends to the greater of (i) an amount required for us to retain our qualification as a REIT and (ii) 95% of our funds from operations. The Credit Facility and Term Loan include financial covenants that require us to maintain an interest coverage ratio, a fixed charge coverage ratio, an unsecured debt ratio and an unencumbered cash flow ratio above specified levels; to maintain a minimum net worth above an amount determined on a specified formula; and to maintain a leverage ratio and a secured debt ratio below certain maximum levels. Another financial covenant limits the ratio of our unsecured debt to the value of our unencumbered properties.

We were in compliance with all financial and non-financial covenants under the Credit Facility and our credit agreements as of December 31, 2014. We continuously monitor our compliance with all covenants. Certain covenants restrict our ability to obtain alternative sources of capital. While we believe that we will remain in compliance with our covenants, a slow-down in the economy and a decrease in availability of debt financing could result in non-compliance with covenants.

On September 16, 2014, the Operating Partnership repaid the entire \$150.0 million three-year term loan and \$100.0 million four-year term loan prior to their scheduled February 2015 and 2016 maturities, respectively. In connection with these repayments, the Operating Partnership accelerated \$0.3 million of deferred financing amortization expense and also incurred a \$0.8 million charge on the termination of associated interest rate swap contracts, as reflected in the Operating Partnership's consolidated statements of operations.

The Operating Partnership is the issuer of our unsecured notes which are fully and unconditionally guaranteed by the Parent Company. During the year-ended December 31, 2014, we repurchased \$376.2 million of our outstanding unsecured notes in a series of transactions which are summarized in the table below (in thousands):

Notes	Principal	Repurchase Amount (a)	Gain (Loss) on Early Extinguishment of Debt (b)	Acceleration of Deferred Financing Amortization
2014 5.40% Notes	\$ 218,549	\$ 219,404	\$ (855)	\$ 9
2015 7.50% Notes	157,625	164,364	(6,739)	143
	<u>\$ 376,174</u>	<u>\$ 383,768</u>	<u>\$ (7,594)</u>	<u>\$ 152</u>

(a) Includes cash losses with respect to redemption of debt.

(b) Includes unamortized balance of the original issue discount.

The indenture under which the Operating Partnership issued its unsecured notes contains financial covenants, including (i) a leverage ratio not to exceed 60%, (ii) a secured debt leverage ratio not to exceed 40%, (iii) a debt service coverage ratio of greater than 1.5 to 1.0 and (iv) an unencumbered asset value of not less than 150% of unsecured debt. The Operating Partnership is in compliance with all covenants as of December 31, 2014.

On September 16, 2014, the Operating Partnership closed on an underwritten offering of \$250.0 million in aggregate principal amount of its 4.10% Guaranteed Notes due 2024 (the "2024 Notes") and \$250.0 million in aggregate principal amount of its 4.55% Guaranteed Notes due 2029 (the "2029 Notes"). The 2024 notes were priced at 99.388% of their face amount with a yield to maturity of 4.175%, representing a spread at the time of pricing of 1.70%. The 2029 notes were priced at 99.191% of their face amount with a yield to maturity of 4.625%, representing a spread at the time of pricing of 2.15%. The Notes are reflected net of discount of \$1.5 million and \$2.0 million, respectively, in the consolidated balance sheet as of December 31, 2014. The Operating Partnership used a portion of the net proceeds from this offering, aggregating \$492.9 million after deduction for underwriting discounts and offering expenses, to fund its repurchase, through a tender offer, of a portion of the Operating Partnership's 5.40% Guaranteed Notes due November 1, 2014 (the "2014 Notes") and 7.50% Guaranteed Notes due May 15, 2015 (the "2015 Notes").

On September 16, 2014, in connection with the aforementioned offering, the Operating Partnership funded tender offers for \$75.1 million of its 5.40% Guaranteed Notes due November 1, 2014, and \$42.7 million of its 7.50% Guaranteed Notes due May 15, 2015. The Operating Partnership funded the total tender offer consideration of \$117.8 million from net proceeds of the offering of 2029 Notes and 2024 Notes, with the Operating Partnership recognizing a \$2.6 million loss on early extinguishment of debt related to the total repurchase.

On September 16, 2014, the Operating Partnership gave notice of redemption, in full, of the \$143.5 million of 2014 Notes that remained outstanding following completion of the tender offer. The Operating Partnership completed the redemption of the 2014 Notes on October 16, 2014 at a cash redemption price of \$1,026.88 per \$1,000 principal amount of the 2014 Notes (inclusive of accrued interest to the redemption date). Also on September 16, 2014, the Company gave notice of redemption, in full, of the \$114.9 million of 2015 Notes that remained outstanding following completion of the tender offer. The Company completed the redemption of the 2015 Notes on October 16, 2014 at a cash redemption price of \$1,070.24 per \$1,000 principal amount of the 2015 Notes (inclusive of accrued interest to the redemption date).

The Operating Partnership has mortgage loans that are collateralized by certain of its Properties. Payments on mortgage loans are generally due in monthly installments of principal and interest, or interest only. The Operating Partnership intends to refinance or repay its mortgage loans as they mature through the use of proceeds from selective Property sales and secured or unsecured borrowings. However, in the current and expected future economic environment one or more of these sources may not be available on attractive terms or at all.

The charter documents of the Parent Company and Operating Partnership do not limit the amount or form of indebtedness that the Operating Partnership may incur, and its policies on debt incurrence are solely within the discretion of the Parent Company's Board of Trustees, subject to the financial covenants in the Credit Facility, indenture and other credit agreements.

### Equity

On December 9, 2014, the Parent Company declared a distribution of \$0.15 per common share, totaling \$27.2 million, which it paid on January 20, 2015 to its shareholders of record as of January 6, 2015. In addition, the Parent Company declared a distribution on its Series E Preferred Shares to holders of record as of December 30, 2014. These shares are entitled to a preferential return of 6.90% per annum on the \$25.00 per share liquidation preference. Distributions paid on January 15, 2015 to holders of Series E Preferred Shares totaled \$1.7 million. To fund this distribution, on December 9, 2014, the Operating Partnership declared distributions on its Series E-Linked Preferred Mirror Units to holders of record as of December 30, 2014. These units are entitled to a preferential return of 6.90% per annum on the \$25.00 per unit liquidation preference. Distributions paid on January 15, 2015 to holders of Series E-Linked Preferred Mirror Units totaled \$1.7 million. In order to maintain its qualification as a REIT, the Parent Company is required to, among other things, pay dividends to its shareholders of at least 90% of its REIT taxable income. During the year ended December 31, 2014, the Parent Company paid dividends in excess of the 90% criterion.

On August 1, 2014, the Parent Company completed an underwritten offering of 21,850,000 common shares. The Parent Company contributed the net proceeds from the sale of shares, amounting to \$335.0 million after deducting underwriting discounts and commissions and other offering expenses, to the Operating Partnership in exchange for partnership units of the Operating Partnership. The Operating Partnership intends to continue to use the net proceeds for working capital, capital expenditures and other general corporate purposes, which may include acquisitions, developments and the repayment, repurchase and refinancing of debt.

The Parent Company maintains a share repurchase program under which its Board of Trustees has authorized the Parent Company to repurchase common shares from time to time in accordance with the limits set by the Board of Trustees. As of December 31, 2014, there were 539,200 shares available for repurchase under this program. The Parent Company's Board of Trustees has not limited the duration of the program and the program may be terminated at any time.

The Parent Company did not repurchase any shares during 2014 and accordingly, the Operating Partnership did not repurchase any units in connection with the Parent Company's share repurchase program.

The Parent Company also maintains a continuous offering program (the "Offering Program"), under which we may sell up to an aggregate amount of 16,000,000 common shares until November 5, 2016 in at the market offerings. This program was put in place on November 5, 2013 in replacement of a prior continuous equity offering program that expired on March 10, 2013 (the "Prior Offering Program"). During the year ended December 31, 2014, we did not sell any shares under either the Offering Program or the Prior Offering Program.

### Inflation

A majority of our leases provide for tenant reimbursement of real estate taxes and operating expenses either on a triple net basis or over a base amount. In addition, many of our office leases provide for fixed base rent increases. We believe that inflationary increases in expenses will be partially offset by expense reimbursement and contractual rent increases.

## Commitments and Contingencies

The following table outlines the timing of payment requirements related to our contractual commitments as of December 31, 2014:

	<b>Payments by Period (in thousands)</b>				
	<b>Total</b>	<b>Less than 1 Year</b>	<b>1-3 Years</b>	<b>3-5 Years</b>	<b>More than 5 Years</b>
Mortgage notes payable (a)	\$ 655,934	\$ 102,030	\$ 248,107	\$ 25,109	\$ 280,688
Unsecured term loan	200,000	—	—	200,000	—
Unsecured debt (a)	1,603,529	—	449,919	325,000	828,610
Ground leases (b)	64,004	1,378	2,756	2,756	57,114
Development contracts (c)	402,067	251,115	150,952	—	—
Interest expense (d)	711,795	118,266	176,417	111,539	305,573
Other liabilities (e)	20,896	547	3,015	4,698	12,636
	<u>\$ 3,658,225</u>	<u>\$ 473,336</u>	<u>\$ 1,031,166</u>	<u>\$ 669,102</u>	<u>\$ 1,484,621</u>

(a) Amounts do not include unamortized discounts and/or premiums.

(b) Future minimum rental payments under the terms of all non-cancelable ground leases under which we are the lessee are expensed on a straight-line basis regardless of when payments are due. The table also does not include the future minimum rental payments related to two ground leases in Philadelphia, Pennsylvania. These ground leases are discussed below.

(c) Represents contractual obligations for development projects and does not contemplate all costs expected to be incurred for such developments. For information regarding our developments, see Item 1. "Business - Developments."

(d) Variable rate debt future interest expense commitments are calculated using December 31, 2014 interest rates.

(e) Other liabilities consists of (i) our deferred compensation liability, (ii) the liability investment balance related to Coppell Associates real estate venture located in Austin, Texas and (iii) the interest accretion on the existing transfer tax liability on Two Logan Square in Philadelphia, Pennsylvania.

The above table does not include amounts related to the 4040 Wilson LLC Venture development of the Liberty Center Complex, the TB-BDN Plymouth Venture development of the Parc at Plymouth Meeting or the 1919 Ventures development of the property located at 20th and Market Street in Philadelphia, Pennsylvania. For further discussion of these developments, see Item 1., "Business - Developments."

As of December 31, 2014, we were obligated to pay a maximum of \$86.3 million for tenant improvements not yet completed, which is not included in the above table. We expect that most of the obligations will be paid within one year.

The ground leases, entered into in Philadelphia, Pennsylvania, provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the properties after certain returns are achieved by us. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payment by us of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts or any reimbursed expenses.

As part of the Operating Partnership's September 2004 acquisition of a portfolio of properties from the Rubenstein Company (which we refer to as the "TRC acquisition"), the Operating Partnership acquired its interest in Two Logan Square, a 708,844 square foot office building in Philadelphia, primarily through its ownership of a second and third mortgage secured by this property. This property is consolidated as the borrower is a variable interest entity and the Operating Partnership, through its ownership of the second and third mortgages, is the primary beneficiary. The Operating Partnership currently does not expect to take title to Two Logan Square until, at the earliest, September 2019. If the Operating Partnership takes fee title to Two Logan Square upon a foreclosure of its mortgage, the Operating Partnership has agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$2.9 million. On the TRC acquisition date, the Operating Partnership recorded a liability of \$0.7 million and this amount will accrete up to \$2.9 million through September 2019. As of December 31, 2014, the Operating Partnership has a balance of \$1.8 million for this liability on its consolidated balance sheet.

The Operating Partnership was audited by the IRS for its 2004 tax year. The audit concerned the tax treatment of the TRC acquisition in September 2004 in which the Operating Partnership acquired a portfolio of properties through the acquisition of a limited partnership. On December 17, 2010, the Operating Partnership received notice that the IRS proposed an adjustment to the allocation of recourse liabilities allocated to the contributor of the properties. The Operating Partnership appealed the proposed adjustment

and during the second quarter of 2013 entered into a settlement agreement with the IRS which will not result in a material liability for the Operating Partnership for federal income taxes. The contributor of partnership interests in the 2004 transaction has agreed not to assert a claim against the Operating Partnership under the tax protection agreement entered into as part of the transaction.

As part our 2006 merger with Prentiss Properties Trust, our 2004 TRC acquisition and several of our other transactions, it agreed not to sell certain of the properties we acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, we agreed not to sell acquired properties for periods up to 15 years from the date of the TRC acquisition as follows at December 31, 2014: One Rodney Square and 130/150/170 Radnor Financial Center (January, 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January, 2020). In the Prentiss acquisition, we assumed the obligation of Prentiss not to sell Concord Airport Plaza before March, 2018. Our agreements generally provide that we may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. If we were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, we would be required to make significant payments to the parties who sold the applicable property to us for tax liabilities attributed to them. Similarly, as part of our 2013 acquisition of substantially all of the equity interests in the partnerships that own One and Two Commerce Square, we agreed, for the benefit of affiliates of the holder of the 1% residual ownership interest in these properties, to not sell these two properties in certain taxable transactions prior to October 20, 2021 without the holder's consent.

In connection with the development of the IRS Philadelphia Campus and the Cira South Garage, during 2008, the Operating Partnership entered into a historic tax credit and new markets tax credit arrangement, respectively. The Operating Partnership is required to be in compliance with various laws, regulations and contractual provisions that apply to its historic and new market tax credit arrangements. Non-compliance with applicable requirements could result in projected tax benefits not being realized and therefore, require a refund to US Bancorp or a reduction of investor capital contributions, which are reported as deferred income in the Operating Partnership's consolidated balance sheet, until such time as its obligation to deliver tax benefits is relieved. The remaining compliance periods for its tax credit arrangements runs through 2015. The Operating Partnership does not anticipate that any material refunds or reductions of investor capital contributions will be required in connection with these arrangements.

We invest in properties and regularly incur capital expenditures in the ordinary course of business to maintain the properties. We believe that such expenditures enhance our competitiveness. We also enter into construction, utility and service contracts in the ordinary course of its business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

#### *Guarantees*

As of December 31, 2014, we had provided guarantees on behalf of certain of the real estate ventures, consisting of (i) a \$24.7 million payment guaranty on the construction loan for the project being undertaken by evo at Cira; (ii) a \$3.2 million payment guarantee on the construction loan for a project being undertaken by TB-BDN Plymouth Apartments; and (iii) a \$0.5 million payment guarantee on a loan provided to PJP VII. In addition, during construction undertaken by real estate ventures we have provided, and expect to continue to provide, cost overrun and completion guarantees, with rights of contribution among partners in ventures, as well as customary environmental indemnities and guarantees of customary exceptions to nonrecourse provisions in loan agreements.

As part of our acquisition of properties from time to time in tax-deferred transactions, we have agreed to provide certain of the prior owners of the acquired properties with the right to guarantee our indebtedness. If we were to seek to repay the indebtedness guaranteed by the prior owner before the expiration of the applicable agreement, we would be required to provide the prior owner an opportunity to guarantee qualifying replacement debt. These debt maintenance agreements may limit our ability to refinance indebtedness on terms that will be favorable to us. As part of our 2013 acquisition of substantially all of the equity interests in the partnerships that own One and Two Commerce Square, we agreed, for the benefit of affiliates of the holder of the 1% residual ownership interest in these properties, to maintain qualifying mortgage debt through October 20, 2021, in the amounts of not less than \$125.0 million on One Commerce Square and \$100.0 million on Two Commerce Square. Similarly, we have agreements in place with other contributors of assets to us that obligate us to maintain debt available for them to guaranty.

#### *Interest Rate Risk and Sensitivity Analysis*

The analysis below presents the sensitivity of the market value of the Operating Partnership's financial instruments to selected changes in market rates. The range of changes chosen reflects its view of changes which are reasonably possible over a one-year period. Market values are the present value of projected future cash flows based on the market rates chosen.

Our financial instruments consist of both fixed and variable rate debt. As of December 31, 2014, our consolidated debt consisted of \$655.9 million of mortgage loans and \$1,524.9 million of unsecured notes, all of which are fixed rate borrowings. We also have

variable rate debt consisting of \$78.6 million in trust preferred securities and \$200.0 million of unsecured term loans all of which are swapped to fixed rates. All financial instruments were entered into for other than trading purposes and the net market value of these financial instruments is referred to as the net financial position. Changes in interest rates have different impacts on the fixed and variable rate portions of our debt portfolio. A change in interest rates on the fixed portion of the debt portfolio impacts the net financial instrument position, but has no impact on interest incurred or cash flows. A change in interest rates on the variable portion of the debt portfolio impacts the interest incurred and cash flows, but does not impact the net financial instrument position.

If market rates of interest increase by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would decrease by approximately \$28.8 million. If market rates of interest decrease by 100 basis points, the fair value of our outstanding fixed-rate mortgage debt would increase by approximately \$31.4 million.

As of December 31, 2014, based on prevailing interest rates and credit spreads, the fair value of our \$1,518.1 million of unsecured notes was \$1,593.2 million. For sensitivity purposes, a 100 basis point change in the discount rate equates to a change in the total fair value of our debt of approximately \$15.2 million at December 31, 2014.

From time to time or as the need arises, we use derivative instruments to manage interest rate risk exposures and not for speculative purposes. The total carrying value of our variable rate debt (including variable swapped to fixed) was approximately \$278.6 million and \$528.6 million at December 31, 2014 and December 31, 2013, respectively. The total fair value of our debt was approximately \$257.2 million and \$526.7 million at December 31, 2014 and December 31, 2013, respectively. For sensitivity purposes, if market rates of interest increase by 100 basis points the fair value of our variable rate debt would decrease by approximately \$16.2 million at December 31, 2014. If market rates of interest decrease by 100 basis points the fair value of our outstanding variable rate debt would increase by approximately \$18.3 million.

These amounts were determined solely by considering the impact of hypothetical interest rates on our financial instruments. Due to the uncertainty of specific actions it may undertake to minimize possible effects of market interest rate increases, this analysis assumes no changes in our financial structure.

#### Funds from Operations (FFO)

Pursuant to the revised definition of FFO adopted by the Board of Governors of the National Association of Real Estate Investment Trusts ("NAREIT"), we calculate FFO by adjusting net income/(loss) attributable to common unit holders (computed in accordance with GAAP) for gains (or losses) from sales of properties, impairment losses on depreciable consolidated real estate, impairment losses on investments in unconsolidated joint ventures driven by a measurable decrease in the fair value of depreciable real estate held by the unconsolidated Real Estate Ventures, real estate related depreciation and amortization, and after similar adjustments for unconsolidated Real Estate Ventures. FFO is a non-GAAP financial measure. The Operating Partnership believes that the use of FFO combined with the required U.S. GAAP presentations, has been beneficial in improving the understanding of operating results of REITs among the investing public and making comparisons of REITs' operating results more meaningful. The Operating Partnership considers FFO to be a useful measure for reviewing comparative operating and financial performance because, by excluding gains or losses related to sales of previously depreciated operating real estate assets and real estate depreciation and amortization, FFO can help the investing public compare the operating performance of a company's real estate between periods or as compared to other companies. The Operating Partnership's computation of FFO may not be comparable to FFO reported by other REITs or real estate companies that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently.

The Operating Partnership considers net income, as defined by U.S. GAAP, to be the most comparable earnings measure to FFO. While FFO and FFO per unit are relevant and widely used measures of operating performance of REITs, FFO does not represent cash flow from operations or net income as defined by U.S. GAAP and should not be considered as alternatives to those measures in evaluating the Company's liquidity or operating performance. The Operating Partnership believes that to further understand our performance, FFO should be compared with its reported net income (loss) attributable to common unit holders and considered in addition to cash flows in accordance with GAAP, as presented in our consolidated financial statements.

The following table presents a reconciliation of net income (loss) attributable to common unit holders to FFO for the years ended December 31, 2014 and 2013:

	Years ended	
	December 31, 2014	December 31, 2013
	(amounts in thousands, except share information)	
<b>Net income (loss) attributable to common unitholders</b>	<b>\$ (263)</b>	<b>\$ 35,926</b>
Add (deduct):		
Amount allocated to unvested restricted unitholders	349	363
Net (gain) loss on real estate venture transactions	417	(29,604)
Net gain on disposition of real estate	(4,901)	—
Net gain on disposition of discontinued operations	(900)	(3,382)
Net gain from remeasurement of investments in real estate ventures	(458)	(6,866)
Provision for impairment on assets held for sale	1,765	—
Depreciation and amortization:		
Real property — continuing operations	163,218	160,665
Leasing costs including acquired intangibles — continuing operations	45,159	36,217
Real property — discontinued operations	—	1,922
Leasing costs including acquired intangibles — discontinued operations	—	3
Company's share of unconsolidated real estate ventures	24,292	15,959
Partners' share of consolidated joint ventures	(225)	—
<b>Funds from operations</b>	<b>\$ 228,453</b>	<b>\$ 211,203</b>
Funds from operations allocable to unvested restricted shareholders	(791)	(830)
<b>Funds from operations available to common share and unit holders (FFO)</b>	<b>\$ 227,662</b>	<b>\$ 210,373</b>
<b>Weighted-average shares/units outstanding — fully diluted</b>	<b>169,411,616</b>	<b>156,203,398</b>

**Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

See discussion in "Management's Discussion and Analysis of Financial Condition and Results of Operations," included in Item 7 herein.

**Item 8. Financial Statements and Supplementary Data**

The financial statements and supplementary financial data of the Parent Company and the Operating Partnership and the reports thereon of PricewaterhouseCoopers LLP, an independent registered public accounting firm, with respect thereto are listed under Items 15(a) and 15(b) and filed as part of this Annual Report on Form 10-K. See Item 15., "Exhibits and Financial Statement Schedules."

**Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure**

None

## **Item 9A. Controls and Procedures**

### **Controls and Procedures (Parent Company)**

#### ***Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures***

Under the supervision and with the participation of the Parent Company's management, including its principal executive officer and principal financial officer, the Parent Company's management conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based on this evaluation, the principal executive officer and the principal financial officer of the Parent Company concluded that the Parent Company's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

#### ***Management's Report on Internal Control Over Financial Reporting***

The management of the Parent Company is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f).

Under the supervision and with the participation of the Parent Company's management, including its principal executive officer and principal financial officer, the Parent Company's management conducted an evaluation of the effectiveness of the Parent Company's internal control over financial reporting based on the framework in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. Based on this evaluation under the framework in *Internal Control — Integrated Framework*, the Parent Company's management concluded that the Parent Company's internal control over financial reporting was effective as of December 31, 2014.

The effectiveness of the Parent Company's internal control over financial reporting as of December 31, 2014 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in its report which is included herein.

#### ***Changes in Internal Control over Financial Reporting***

There have not been any changes in the Parent Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Parent Company's internal control over financial reporting.

### **Controls and Procedures (Operating Partnership)**

#### ***Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures***

Under the supervision and with the participation of the Operating Partnership's management, including its principal executive officer and principal financial officer, the Operating Partnership's management conducted an evaluation of its disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on this evaluation, the principal executive officer and the principal financial officer of Operating Partnership concluded that the Operating Partnership's disclosure controls and procedures were effective as of the end of the period covered by this annual report.

#### ***Management's Report on Internal Control Over Financial Reporting***

The management of the Operating Partnership is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f).

Under the supervision and with the participation of the Operating Partnership's management, including its principal executive officer and principal financial officer, the Operating Partnership's management conducted an evaluation of the effectiveness of the Operating Partnership's internal control over financial reporting based on the framework in *Internal Control — Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission in 2013. Based on this evaluation under the framework in *Internal Control — Integrated Framework*, the Operating Partnership's management concluded that the Operating Partnership's internal control over financial reporting was effective as of December 31, 2014.

The effectiveness of the Operating Partnership's internal control over financial reporting as of December 31, 2014 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in its report which is included herein.

***Changes in Internal Control over Financial Reporting.***

There have not been any changes in the Operating Partnership's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fourth fiscal quarter to which this report relates that have materially affected, or are reasonably likely to materially affect, the Operating Partnership's internal control over financial reporting.

**Item 9B. Other Information**

None.

**PART III**

**Item 10. Directors, Executive Officers and Corporate Governance**

### 3. Exhibits

Exhibits Nos.	Description
3.1.1	Amended and Restated Declaration of Trust of Brandywine Realty Trust (amended and restated as of May 12, 1997) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated June 9, 1997 and incorporated herein by reference)
3.1.2	Articles of Amendment to Declaration of Trust of Brandywine Realty Trust (September 4, 1997) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated September 10, 1997 and incorporated herein by reference)
3.1.3	Articles of Amendment to Declaration of Trust of Brandywine Realty Trust (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated June 3, 1998 and incorporated herein by reference)
3.1.4	Articles Supplementary to Declaration of Trust of Brandywine Realty Trust (September 28, 1998) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 13, 1998 and incorporated herein by reference)
3.1.5	Articles of Amendment to Declaration of Trust of Brandywine Realty Trust (March 19, 1999) (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 1998 and incorporated herein by reference)
3.1.6	Articles Supplementary to Declaration of Trust of Brandywine Realty Trust (April 19, 1999) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 26, 1999 and incorporated herein by reference)
3.1.7	Articles Supplementary to Declaration of Trust of Brandywine Realty Trust (December 30, 2003) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated December 29, 2003 and incorporated herein by reference)
3.1.8	Articles Supplementary to Declaration of Trust of Brandywine Realty Trust (February 5, 2004) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated February 5, 2004 and incorporated herein by reference)
3.1.9	Articles of Amendment to Declaration of Trust of Brandywine Realty Trust (October 3, 2005) (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 4, 2005 and incorporated herein by reference)
3.1.10	Articles Supplementary to Declaration of Trust of Brandywine Realty Trust (April 6, 2012) classifying and designating Series E Cumulative Redeemable Preferred Shares of Beneficial Interest, par value \$0.01 per share and liquidation preference \$25 per share, of Brandywine Realty Trust (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated April 6, 2012 and incorporated herein by reference)
3.1.11	Articles of Amendment to Declaration of Trust of Brandywine Realty Trust (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K filed on May 21, 2014 and incorporated herein by reference)
3.2.1	Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (the "Operating Partnership") (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated December 17, 1997 and incorporated herein by reference)
3.2.2	First Amendment to Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated December 17, 1997 and incorporated herein by reference)

- 3.2.3 Second Amendment to the Amended and Restated Agreement of Limited Partnership Agreement of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 13, 1998 and incorporated herein by reference)
- 3.2.4 Third Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated May 14, 1998 and incorporated herein by reference)
- 3.2.5 Fourth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 13, 1998 and incorporated herein by reference)
- 3.2.6 Fifth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 13, 1998 and incorporated herein by reference)
- 3.2.7 Sixth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 13, 1998 and incorporated herein by reference)
- 3.2.8 Seventh Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.9 Eighth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.10 Ninth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.11 Tenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.12 Eleventh Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.13 Twelfth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 10-K for the fiscal year ended December 31, 2003 and incorporated herein by reference)
- 3.2.14 Thirteenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated September 21, 2004 and incorporated herein by reference)
- 3.2.15 Fourteenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated January 10, 2006 and incorporated herein by reference)
- 3.2.16 Fifteenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated August 18, 2006 and incorporated herein by reference)

- 3.2.17 Sixteenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated August 9, 2010 and incorporated herein by reference)
- 3.2.18 Seventeenth Amendment to the Amended and Restated Agreement of Limited Partnership of Brandywine Operating Partnership, L.P. (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 11, 2012 and incorporated herein by reference)
- 3.2.19 List of partners of Brandywine Operating Partnership, L.P.
- 3.3 Amended and Restated Bylaws of Brandywine Realty Trust (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated June 4, 2010 and incorporated herein by reference)
- 4.1 Form of 7.50% Series C Cumulative Redeemable Preferred Share Certificate (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated December 29, 2003 and incorporated herein by reference)
- 4.2 Form of 7.375% Series D Cumulative Redeemable Preferred Share Certificate (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated February 5, 2004 and incorporated herein by reference)
- 4.3 Form of 6.90% Series E Cumulative Redeemable Preferred Shares Certificate (previously filed as an exhibit to Brandywine Realty Trust's Form 8-A dated April 6, 2012 and incorporated herein by reference)
- 4.4.1 Indenture dated October 22, 2004 by and among Brandywine Operating Partnership, L.P., Brandywine Realty Trust, certain subsidiaries of Brandywine Operating Partnership, L.P. named therein and The Bank of New York Mellon, as Trustee (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 22, 2004 and incorporated herein by reference)
- 4.4.2 First Supplemental Indenture dated as of May 25, 2005 by and among Brandywine Operating Partnership, L.P., Brandywine Realty Trust, certain subsidiaries of Brandywine Operating Partnership, L.P. named therein and The Bank of New York Mellon, as Trustee (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated May 26, 2005 and incorporated herein by reference)
- 4.4.3 Second Supplemental Indenture dated as of October 4, 2006 by and among Brandywine Operating Partnership, L.P., Brandywine Realty Trust and The Bank of New York Mellon, as Trustee (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 4, 2006 and incorporated herein by reference)
- 4.4.4 Third Supplemental Indenture dated as of April 5, 2011 by and among Brandywine Operating Partnership, L.P., Brandywine Realty Trust and The Bank of New York Mellon, as Trustee (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 5, 2011 and incorporated herein by reference)
- 4.5 Form of \$250,000,000 5.40% Guaranteed Note due 2014 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated October 22, 2004 and incorporated herein by reference)
- 4.6 Form of \$250,000,000 aggregate principal amount of 6.00% Guaranteed Note due 2016 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated March 28, 2006 and incorporated herein by reference)
- 4.7 Form of \$300,000,000 aggregate principal amount of 5.70% Guaranteed Notes due 2017 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 30, 2007 and incorporated herein by reference)
- 4.8 Form of \$250,000,000 aggregate principal amount of 7.50% Guaranteed Notes due 2015 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated September 25, 2009 and incorporated herein by reference)

- 4.9 Form of \$325,000,000 aggregate principal amount of 4.95% Guaranteed Notes due 2018 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated April 5, 2011 and incorporated herein by reference)
- 4.10 Form of \$250,000,000 aggregate principal amount of 3.95% Guaranteed Notes due 2023 (previously filed as an exhibit to Brandywine Realty Trust's Form 8-K dated December 18, 2012 and incorporated herein by reference)

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees and Shareholders of Brandywine Realty Trust:

In our opinion, the consolidated financial statements listed in the accompanying index appearing under Item 15(a) present fairly, in all material respects, the financial position of Brandywine Realty Trust and its subsidiaries (the "Company") at December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the accompanying index appearing under Item 15(a) present fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 2013. The Company's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Company's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Company changed the manner in which it accounts for discontinued operations and disclosures of components of an entity in 2014.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## Report of Independent Registered Public Accounting Firm

To the Partners of Brandywine Operating Partnership, L.P.:

In our opinion, the consolidated financial statements listed in the accompanying index appearing under Item 15(b) present fairly, in all material respects, the financial position of Brandywine Operating Partnership, L.P. and its subsidiaries (the "Partnership") at December 31, 2014 and 2013, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedules listed in the accompanying index appearing under Item 15(b) presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. Also in our opinion, the Partnership maintained, in all material respects, effective internal control over financial reporting as of December 31, 2014, based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in 2013. The Partnership's management is responsible for these financial statements and financial statement schedules, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Report on Internal Control over Financial Reporting under Item 9A. Our responsibility is to express opinions on these financial statements, on the financial statement schedules, and on the Partnership's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

As discussed in Note 2 to the consolidated financial statements, the Partnership changed the manner in which it accounts for discontinued operations and disclosures of components of an entity in 2014.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

## **1. ORGANIZATION OF THE PARENT COMPANY AND THE OPERATING PARTNERSHIP**

The Parent Company is a self-administered and self-managed real estate investment trust (“REIT”) that provides leasing, property management, development, redevelopment, acquisition and other tenant-related services for a portfolio of office and industrial properties. The Parent Company owns its assets and conducts its operations through the Operating Partnership and subsidiaries of the Operating Partnership. The Parent Company is the sole general partner of the Operating Partnership and, as of December 31, 2014, owned a 99.0% interest in the Operating Partnership. The Parent Company’s common shares of beneficial interest are publicly traded on the New York Stock Exchange under the ticker symbol “BDN”.

As of December 31, 2014, the Company owned 200 properties, consisting of 167 office properties, 20 industrial facilities, five mixed-use properties, one retail property (193 core properties), three development properties, two properties classified as held for sale, one redevelopment property and one re-entitlement property (collectively, the “Properties”) containing an aggregate of approximately 25.1 million net rentable square feet. In addition, as of December 31, 2014, the Company owned economic interests in 17 unconsolidated real estate ventures that contain approximately 6.7 million net rentable square feet (collectively, the “Real Estate Ventures”). As of December 31, 2014, the Company also owned 415 acres of undeveloped land, and held options to purchase approximately 63 additional acres of undeveloped land. As of December 31, 2014, the total potential development that these land parcels could support, under current zoning, entitlements or combination thereof, amounted to an estimated 6.0 million square feet. The Properties and the properties owned by the Real Estate Ventures are located in or near Philadelphia, Pennsylvania; Metropolitan Washington, D.C.; Southern New Jersey; Richmond, Virginia; Wilmington, Delaware; Austin, Texas and Oakland, Concord and Carlsbad, California. In addition to managing properties that the Company owns, as of December 31, 2014, the Company was managing approximately 8.9 million net rentable square feet of office and industrial properties for third parties and Real Estate Ventures.

All references to building square footage, acres, occupancy percentage and the number of buildings are unaudited.

The Company conducts its third-party real estate management services business primarily through six management companies (collectively, the “Management Companies”): Brandywine Realty Services Corporation (“BRSCO”), BTRS, Inc. (“BTRS”), Brandywine Properties I Limited, Inc. (“BPI”), BDN Brokerage, LLC (“BBL”), Brandywine Properties Management, L.P. (“BPM”) and Brandywine Brokerage Services, LLC (“BBS”). Each of BRSCO, BTRS and BPI is a taxable REIT subsidiary. As of December 31, 2014, the Operating Partnership owns, directly and indirectly, 100% of each of BRSCO, BTRS, BPI, BBL, BPM and BBS. As of December 31, 2014, the Management Companies were managing properties containing an aggregate of approximately 33.9 million net rentable square feet, of which approximately 25.0 million net rentable square feet related to Properties owned by the Company and approximately 8.9 million net rentable square feet related to properties owned by third parties and Real Estate Ventures.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

### Reclassifications

Reclassifications are related to the treatment of sold properties as discontinued operations on the statement of operations for all periods presented. See *Recent Accounting Pronouncements* below for revisions to the accounting guidance for discontinued operations.

### Principles of Consolidation

When the Company obtains an economic interest in an entity, the Company evaluates the entity to determine if the entity is deemed a variable interest entity (“VIE”), and if the Company is deemed to be the primary beneficiary, in accordance with the accounting standard for the consolidation of variable interest entities. The accounting standard for the consolidation of VIEs requires the Company to qualitatively assess if the Company was the primary beneficiary of the VIEs based on whether the Company had (i) the power to direct those matters that most significantly impacted the activities of the VIE and (ii) the obligation to absorb losses or the right to receive benefits of the VIE that could potentially be significant to the VIE. For entities determined to be VIEs, but for which the Company is not the primary beneficiary, the Company’s maximum exposure to loss is the carrying amount of its investments. As of December 31, 2014, the Company has provided guarantees on behalf of certain real estate ventures, consisting of (i) a \$24.7 million payment guaranty on the construction loan for the project being undertaken by evo at Cira; (ii) a \$3.2 million payment guarantee on the construction loan for a project being undertaken by TB-BDN Plymouth Apartments; and (iii) a \$0.5 million payment guarantee on a loan provided to PJP VII.

When an entity is not deemed to be a VIE, the Company considers the provisions of the same accounting standard to determine whether a general partner/managing member, or the general partners/managing members as a group, controls a limited partnership or similar entity when the limited partners/non-managing members have certain rights. The Company consolidates (i) entities that are VIEs and of which the Company is deemed to be the primary beneficiary and (ii) entities that are non-VIEs and controlled by the Company and in which the limited partners neither have the ability to dissolve the entity or remove the Company without cause nor any substantive participating rights. Entities that the Company accounts for under the equity method (i.e., at cost, increased or decreased by the Company's share of earnings or losses, plus contributions, less distributions) include (i) entities that are VIEs and of which the Company is not deemed to be the primary beneficiary (ii) entities that are non-VIEs which the Company does not control, but over which the Company has the ability to exercise significant influence and (iii) entities that are non-VIEs for which the Company maintains an ownership interest through its general partner/managing member status, but the limited partners/non-managing members in the entity have the substantive ability to dissolve the entity or remove the Company without cause or have substantive participating rights. Currently there are no real estate ventures that a limited partner/non-managing member has the unilateral right to dissolve. The Company continuously assesses its determination of whether an entity is a VIE and who the primary beneficiary is, and whether or not the limited partners/non-managing members in an entity have substantive rights, more particularly if certain events occur that are likely to cause a change in the original determinations. The Company's assessment includes a review of applicable documents such as, but not limited to, applicable partnership agreements, LLC and other real estate venture agreements and management and leasing agreements to determine whether the Company has control to direct the business activities of the entities. The portion of the consolidated entities that is not owned by the Company is presented as non-controlling interest as of and during the periods consolidated. All intercompany accounts and transactions have been eliminated in consolidation.

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Management makes significant estimates regarding revenue, valuation of real estate and related intangible assets and liabilities, impairment of long-lived assets, allowance for doubtful accounts and deferred costs.

#### Operating Properties

Operating properties are carried at historical cost less accumulated depreciation and impairment losses. The cost of operating properties reflects their purchase price or development cost. Acquisition costs related to business combinations are expensed as incurred, whereas the costs related to asset acquisitions are capitalized as incurred. Costs incurred for the renovation and betterment of an operating property are capitalized to the Company's investment in that property. Ordinary repairs and maintenance are expensed as incurred. Major replacements and betterments, which improve or extend the life of the asset, are capitalized and depreciated over their estimated useful lives. Fully-depreciated assets are removed from the accounts.

#### Purchase Price Allocation

The Company allocates the purchase price of properties considered to be business combinations to net tangible and identified intangible assets acquired based on fair values. Above-market and below-market in-place lease values for acquired properties are recorded based on the present value (using an interest rate which reflects the risks associated with the leases acquired) of the difference between (i) the contractual amounts to be paid pursuant to the in-place leases and (ii) the Company's estimate of the fair market lease rates for the corresponding in-place leases, measured over a period equal to the remaining non-cancelable term of the lease (including the below market fixed renewal period, if applicable). Capitalized above-market lease values are amortized as a reduction of rental income over the remaining non-cancelable terms of the respective leases. Capitalized below-market lease values are amortized as an increase to rental income over the remaining non-cancelable terms of the respective leases, including any below market fixed-rate renewal periods.

Other intangible assets also include in-place leases based on the Company's evaluation of the specific characteristics of each tenant's lease and the Company's overall relationship with the respective tenant. The Company estimates the cost to execute leases with terms similar to the remaining lease terms of the in-place leases, including leasing commissions, legal and other related expenses. This intangible asset is amortized to expense over the remaining term of the respective leases and any fixed-rate bargain renewal periods. Company estimates of value are made using methods similar to those used by independent appraisers or by using independent appraisals. Factors considered by the Company in this analysis include an estimate of the carrying costs during the expected lease-up periods considering current market conditions and costs to execute similar leases. In estimating carrying costs, the Company includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, which primarily range from four to twelve months. The Company also considers information

obtained about each property as a result of its pre-acquisition due diligence, marketing and leasing activities in estimating the fair value of the tangible and intangible assets acquired. The Company also uses the information obtained as a result of its pre-acquisition due diligence as part of its consideration of the accounting standard governing asset retirement obligations and when necessary, will record a conditional asset retirement obligation as part of its purchase price. Though the Company considers the value of tenant relationships, the amounts are determined on a tenant-specific basis. On certain of our acquisitions this intangible has been deemed immaterial. In these instances no related intangible value is assigned.

In the event that a tenant terminates its lease, the unamortized portion of each intangible, including in-place lease values and tenant relationship values, is charged to expense and market rate adjustments (above or below) are recorded to revenue.

#### Depreciation and Amortization

The costs of buildings and improvements are depreciated using the straight-line method based on the following useful lives: buildings and improvements (5 to 55 years) and tenant improvements (the shorter of (i) the life of the asset, 1 to 16 years, or (ii) the lease term).

#### Construction in Progress

Project costs directly associated with the development and construction of a real estate project are capitalized as construction in progress. Construction in progress also includes costs related to ongoing tenant improvement projects. In addition, interest, real estate taxes and other expenses that are directly associated with the Company's development activities are capitalized until the property is placed in service. Internal direct costs are capitalized to projects in which qualifying expenditures are being incurred. Internal direct construction costs totaling \$5.2 million in 2014, \$3.7 million in 2013, \$4.7 million in 2012 and interest totaling \$4.8 million in 2014, \$2.6 million in 2013, and \$2.6 million in 2012 were capitalized related to development of certain properties and land holdings. The increase in capitalized costs is due to the development activity. See Item 1., "Business - Developments," for further discussion.

During the years ended December 31, 2014, 2013 and 2012, the Company's internal direct construction costs are comprised entirely of capitalized salaries. The following table shows the amount of compensation costs (including bonuses and benefits) capitalized for the years presented (in thousands):

	December 31,		
	2014	2013	2012
Development	\$ 1,749	\$ 156	\$ 57
Redevelopment	184	194	353
Tenant Improvements	3,261	3,323	4,259
Total	<u>\$ 5,194</u>	<u>\$ 3,673</u>	<u>\$ 4,669</u>

#### Impairment or Disposal of Long-Lived Assets

The Company reviews its long-lived assets for impairment following the end of each quarter and when there is an event or change in circumstances that indicates an impairment in value. An impairment loss is recognized if the carrying amount of an asset is not recoverable and exceeds its fair value. In such case, an impairment loss is recognized in the amount of the excess of the carrying amount of the asset over its fair value. The evaluation of anticipated cash flows is highly subjective and is based in part on assumptions regarding future occupancy, rental rates and capital requirements that could differ materially from actual results in future periods. Since cash flows on properties considered to be "long-lived assets to be held and used" are considered on an undiscounted basis to determine whether an asset has been impaired, the Company's established strategy of holding properties over the long term directly decreases the likelihood of recording an impairment loss. If the Company's holding strategy were to change or if market conditions were to otherwise dictate an earlier sale date, then an impairment loss may be recognized and such loss could be material. If the Company determines that impairment has occurred, the affected assets must be reduced to their fair value.

The Company generally consider assets to be "held for sale" when the transaction has been approved by our Board of Trustees, or by officers vested with authority to approve the transaction and there are no known significant contingencies relating to the sale of the property within one year of the consideration date and the consummation of the transaction is otherwise considered probable.

Following the classification of a property as "held for sale," no further depreciation is recorded on the assets, and the asset is written down to the lower of carrying value or fair market value.

The relevant accounting guidance for impairments requires that qualifying assets and liabilities and the results of operations that have been sold, or otherwise qualify as “held for sale,” be presented as discontinued operations in all periods presented if the disposal represents a strategic shift that has, or will have, a major effect on the Company's operations and financial results. The components of the property's net income that is reflected as discontinued operations include the net gain (or loss) upon the disposition of the property held for sale, operating results, depreciation and interest expense (if the property is subject to a secured loan).

The Company recorded a provision for impairment on assets held for sale during the twelve months ended December 31, 2014 of \$1.8 million. These properties were sold on October 24, 2014, at which time the Company recorded a \$0.2 million gain. For further information regarding the impairment, see Note 3, "Real Estate Investments." During its impairment review as of December 31, 2014, the Company determined that no additional impairment charges were necessary. The Company determined during its impairment review of the years ended December 31, 2013 and 2012, that no impairment charges were necessary.

#### Cash and Cash Equivalents

Cash and cash equivalents are highly-liquid investments with original maturities of three months or less. The Company maintains cash equivalents in financial institutions in excess of insured limits, but believes this risk is mitigated by only investing in or through major financial institutions.

#### Restricted Cash

Restricted cash consists of cash held as collateral to provide credit enhancement for the Company's mortgage debt, cash for property taxes, capital expenditures and tenant improvements.

#### Accounts Receivable and Accrued Rent Receivable

Leases with tenants are accounted for as operating leases. Minimum annual rentals under tenant leases are recognized on a straight-line basis over the term of the related lease. The cumulative difference between lease revenue recognized under the straight-line method and contractual lease payment terms is recorded as “accrued rent receivable, net” on the accompanying balance sheets. Included in current tenant receivables are tenant reimbursements which are comprised of amounts recoverable from tenants for common area maintenance expenses and certain other recoverable expenses that are recognized as revenue in the period in which the related expenses are incurred. As of December 31, 2014 and 2013, no tenant represented more than 10% of accounts receivable and accrued rent receivable.

Tenant receivables and accrued rent receivables are carried net of the allowances for doubtful accounts of \$2.0 million and \$13.4 million in 2014, respectively and \$3.2 million and \$13.0 million in 2013, respectively. The allowance is an estimate based on two calculations that are combined to determine the total amount reserved. First, the Company evaluates specific accounts where it has determined that a tenant may have an inability to meet its financial obligations. In these situations, the Company uses its judgment, based on the facts and circumstances, and records a specific reserve for that tenant against amounts due to reduce the receivable to the amount that the Company expects to collect. These reserves are reevaluated and adjusted as additional information becomes available. Second, a reserve is established for all tenants based on a range of percentages applied to receivable aging categories for tenant receivables. For accrued rent receivables, the Company considers the results of the evaluation of specific accounts and also considers other factors including assigning risk factors to different industries based on its tenants SIC classification. Considering various factors including assigning a risk factor to different industries, these percentages are based on historical collection and write-off experience adjusted for current market conditions, which requires management's judgments.

#### Investments in Unconsolidated Real Estate Ventures

The Company accounts for its investments in unconsolidated Real Estate Ventures under the equity method of accounting as it is not the primary beneficiary (for VIEs) and the Company exercises significant influence, but does not control these entities under the provisions of the entities' governing agreements pursuant to the accounting standard for the consolidation of VIEs. When the Company determines that its investment in an unconsolidated Real Estate Venture does not constitute a VIE, the Company utilizes the voting interest model under the accounting standard for consolidation to determine whether to consolidate the venture.

Under the equity method, investments in unconsolidated Real Estate Ventures are recorded initially at cost, as investments in Real Estate Ventures, and subsequently adjusted for equity in earnings, cash contributions, less distributions and impairments. For Real Estate Ventures that are constructing assets to commence planned principal operations, the Company capitalizes interest expense using its weighted average interest rate of consolidated debt and its investment balance as a basis. Planned principal operations commence when a property is available to lease and at that point in time the Company ceases capitalizing interest to its investment

basis. During the twelve months ended December 31, 2014 and 2013 the Company capitalized interest expense of \$2.0 million and \$0.6 million, respectively.

On a periodic basis, management also assesses whether there are any indicators that the value of the Company's investments in unconsolidated Real Estate Ventures may be other than temporarily impaired. An investment is impaired only if the value of the investment, as estimated by management, is less than the carrying value of the investment and the decline is other than temporary. To the extent that an impairment has occurred, the loss shall be measured as the excess of the carrying amount of the investment over the fair value of the investment, as estimated by management. The determination as to whether an impairment exists requires significant management judgment about the fair value of its ownership interest. Fair value is determined through various valuation techniques, including but not limited to, discounted cash flow models, quoted market values and third party appraisals.

When the Company acquires an interest in or contributes assets to a real estate venture project, the difference between the Company's cost basis in the investment and the value of the real estate venture or asset contributed is amortized over the life of the related assets, intangibles and liabilities and such adjustment is included in the Company's share of equity in income of unconsolidated Real Estate Ventures. For purposes of cash flow presentation, distributions from unconsolidated Real Estate Ventures are presented as part of operating activities when they are considered as return on investments. Distributions in excess of the Company's share in the cumulative unconsolidated Real Estate Ventures' earnings are considered as return of investments and are presented as part of investing activities in accordance with the accounting standard for cash flow presentation.

#### Deferred Costs

Costs incurred in connection with property leasing are capitalized as deferred leasing costs. Deferred leasing costs consist primarily of leasing commissions and internal leasing costs that are amortized using the straight-line method over the life of the respective lease which generally ranges from 1 to 15 years. Management re-evaluates the remaining useful lives of leasing costs as economic and market conditions change.

Costs incurred in connection with debt financing are capitalized as deferred financing costs and charged to interest expense over the terms of the related debt agreements. Deferred financing costs consist primarily of loan fees which are amortized over the related loan term on a basis that approximates the effective interest method. Deferred financing costs are accelerated, when debt is extinguished, as part of interest expense- amortization of deferred financing costs within the Company's consolidated statements of operations. Original issue discounts are recognized as part of the gain or loss on extinguishment of debt, as appropriate.

#### Notes Receivable

The Company accounts for notes receivable on its balance sheet at amortized cost, net of allowance for loan losses. Interest income is recognized over the term of the notes receivable and is calculated based on the terms on the contractual terms of each note agreement.

Notes receivable are placed on nonaccrual status when management determines, after considering economic and business conditions and collection efforts, that the loans are impaired or collection of interest is doubtful. Uncollectible interest previously accrued is recognized as bad debt expense. Interest income on nonaccrual loans is recognized only to the extent that cash payments are received.

On October 17, 2014, the Austin Venture acquired River Place and funded \$88.0 million of the purchase price with a short-term loan, secured by a mortgage. The short-term financing was provided by the Company and the Austin Venture is currently seeking permanent financing. The debt agreement for the short-term loan provides financing through March 2015 at the following tiered interest rates; (i) 4.0% through December 31, 2014, (ii) 5.0% from January 1, 2015 through January 31, 2015, (iii) 7.0% from February 1, 2015 through February 28, 2015 and (iv) 9.0% from March 1, 2015 through March 31, 2015. The Austin Venture may repay the short-term loan at any time without penalty. During 2014 the Company recognized \$0.7 million of interest income relating to this note. See Note 21, "Subsequent Events," for repayment of this note.

As of December 31, 2013, notes receivable included a purchase money mortgage with a 20-year amortization period bearing interest at 8.5%, which was valued at \$7.0 million. The borrower had previously defaulted on the note. As a result, a forbearance agreement dated October 2011, as amended by a second forbearance agreement dated July 9, 2013, was entered into between the Company and the borrower, outlining the repayment terms of the outstanding debt and capping interest at \$1.5 million. The Company has determined that the loan modifications represent a troubled debt restructuring due to the fact that the borrower was considered to be in a financial difficulty when it defaulted on the mortgage debt, and that a concession was granted in the form of the forbearance agreements. In accordance with relevant the accounting guidance for troubled debt restructuring, this note remained in a non-accrual status through 2014 and as such, interest is recorded to income as received. During the twelve months ended

December 31, 2014, the borrower fully repaid the principal balance of \$7.0 million. As to the interest accrued on the notes, \$1.5 million has been received in cash and recognized as interest income during the fourth quarter of 2014.

During 2012, the \$23.5 million seven year purchase money mortgage note receivable (balance as of the payment date, including accrued but unpaid interest), which related to the 2009 sale of two Trenton properties, was paid in full prior to its scheduled maturity of October 2016. The Company also recognized a \$12.9 million deferred gain and \$1.0 million of interest income at the time of payment, in accordance with the accounting standard for installment sales.

#### Revenue Recognition

Rental revenue is recognized on the straight-line basis, which averages minimum rents over the terms of the leases from the later of the date of the commencement of the lease or the date of acquisition of the property subject to existing leases. The straight-line rent adjustment increased revenue by approximately \$13.7 million in 2014, \$17.7 million in 2013 and \$21.1 million in 2012. Deferred rents on the balance sheet represent rental revenue received prior to their due dates and amounts paid by the tenant for certain improvements considered to be landlord assets that will remain as the Company's property at the end of the tenant's lease term. The amortization of the amounts paid by the tenant for such improvements is calculated on a straight-line basis over the term of the tenant's lease and is a component of straight-line rental income and increased revenue by \$2.4 million in each of 2014, 2013 and 2012. Lease incentives, which are included as reductions of rental revenue in the accompanying consolidated statements of operations, are recognized on a straight-line basis over the term of the lease. Lease incentives decreased revenue by \$1.5 million in 2014, \$0.7 million in 2013, and \$0.8 million in 2012.

The Company's leases also typically provide for tenant reimbursement of a portion of common area maintenance expenses and other operating expenses to the extent that a tenant's pro rata share of expenses exceeds a base year level set in the lease or to the extent that the tenant has a lease on a triple net basis. For certain leases, the Company makes significant assumptions and judgments in determining the lease term, including assumptions when the lease provides the tenant with an early termination option. The lease term impacts the period over which the Company determines and records minimum rents and also impacts the period over which the Company amortizes lease-related costs.

In addition, the Company's rental revenue is impacted by the Company's determination of whether improvements to the properties, whether made by the Company or by the tenant, are landlord assets. The determination of whether an improvement is a landlord asset requires judgment. In making this judgment, our primary consideration is whether the improvement would be utilizable by another tenant upon move out of the improved space by the then-existing tenant. If the Company has funded an improvement that it determines not to be landlord assets, then it treats the costs of the improvement as lease incentives. If the tenant has funded the improvement that the Company determines to be landlord assets, then the Company treats the costs of the improvement as deferred revenue and amortize this cost into revenue over the lease term.

Recoveries from tenants, consisting of amounts due from tenants for common area maintenance expenses, real estate taxes and other recoverable costs are recognized as revenue in the period during which the expenses are incurred.

Tenant reimbursements are recognized and presented in accordance with accounting guidance which requires that these reimbursements be recorded on a gross basis because the Company is generally the primary obligor with respect to the goods and services the purchase of which gives rise to the reimbursement obligation; because the Company has discretion in selecting the vendors and suppliers; and because the Company bears the credit risk in the event they do not reimburse the Company. The Company also receives payments from third parties for reimbursement of a portion of the payroll and payroll-related costs for certain of the Company's personnel allocated to perform services for these third parties and reflects these payments on a gross basis.

The Company recognizes gains on sales of real estate at times and in amounts determined in accordance with the accounting guidance for sales of real estate. The guidance takes into account the terms of the transaction and any continuing involvement, including in the form of management, leasing of space or financial assistance associated with the properties. If the sales criteria for the full accrual method are not met, then the Company defers some or all of the gain recognition and account for the continued operations of the property by applying the finance, leasing, profit sharing, deposit, installment or cost recovery method, as appropriate, until the sales criteria are met.

The Company derives parking revenues from leases, monthly parking and transient parking. The Company recognizes parking revenue as earned.

The Company receives leasing commission income, management fees and development fees from third parties.

Leasing commission income is earned based on a percentage of gross rental income upon a tenant signing a lease with a third party lessor. Property management fees are recorded and earned based on a percentage of collected rents at the properties under management, and not on a straight-line basis, because such fees are contingent upon the collection of rents. The Company records development fees as earned taking into account the risk associated with each project. Profit on development fees earned from joint venture projects is recognized as revenue to the extent of the third party partners' ownership interest.

No tenant represented greater than 10% of the Company's rental revenue in 2014, 2013 or 2012.

### Income Taxes

#### *Parent Company*

The Parent Company has elected to be treated as a REIT under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). In order to continue to qualify as a REIT, the Parent Company is required to, among other things, distribute at least 90% of its annual REIT taxable income to its shareholders and meet certain tests regarding the nature of its income and assets. As a REIT, the Parent Company is not subject to federal and state income taxes with respect to the portion of its income that meets certain criteria and is distributed annually to its shareholders. Accordingly, no provision for federal and state income taxes is included in the accompanying consolidated financial statements with respect to the operations of the Parent Company. The Parent Company intends to continue to operate in a manner that allows it to meet the requirements for taxation as a REIT. If the Parent Company fails to qualify as a REIT in any taxable year, it will be subject to federal and state income taxes and may not be able to qualify as a REIT for the four subsequent tax years. The Parent Company is subject to certain local income taxes. Provision for such taxes has been included in general and administrative expenses in the Parent Company's Consolidated Statements of Operations and Comprehensive Income.

The tax basis of the Parent Company's assets was \$3.7 billion and \$4.0 billion for the years ended December 31, 2014 and 2013, respectively.

The Parent Company is subject to a 4% federal excise tax if sufficient taxable income is not distributed within prescribed time limits. The excise tax equals 4% of the annual amount, if any, by which the sum of (a) 85% of the Parent Company's ordinary income and (b) 95% of the Parent Company's net capital gain exceeds cash distributions and certain taxes paid by the Parent Company. No excise tax was incurred in 2014, 2013, or 2012.

The Parent Company has elected to treat several of its subsidiaries as taxable REIT subsidiaries (each a "TRS"). A TRS is subject to federal, state and local income tax. In general, a TRS may perform non-customary services for tenants, hold assets that the Parent Company, as a REIT, cannot hold directly and generally may engage in any real estate or non-real estate related business. The Company's taxable REIT subsidiaries did not have significant tax provisions or deferred income tax items as of December 31, 2014 and 2013.

#### *Operating Partnership*

In general, the Operating Partnership is not subject to federal and state income taxes, and accordingly, no provision for income taxes has been made in the accompanying consolidated financial statements. The partners of the Operating Partnership are required to include their respective share of the Operating Partnership's profits or losses in their respective tax returns. The Operating Partnership's tax returns and the amount of allocable Partnership profits and losses are subject to examination by federal and state taxing authorities. If such examination results in changes to the Operating Partnership profits or losses, then the tax liability of the partners would be changed accordingly.

The tax basis of the Operating Partnership's assets was \$3.7 billion and \$4.0 billion for the years ended December 31, 2014 and 2013, respectively.

The Operating Partnership may elect to treat one or more of its subsidiaries as REITs under Sections 856 through 860 of the Code. Each subsidiary REIT has met the requirements for treatment as a REIT under Sections 856 through 860 of the Code, and, accordingly, no provision has been made for federal and state income taxes in the accompanying consolidated financial statements. If any subsidiary REIT fails to qualify as a REIT in any taxable year, that subsidiary REIT will be subject to federal and state income taxes and may not be able to qualify as a REIT for the four subsequent taxable years. Also, each subsidiary REIT may be subject to certain local income taxes.

The Operating Partnership has elected to treat several of its subsidiaries as TRSs, which are subject to federal, state and local income tax.

### Earnings Per Share

Basic earnings per share ("EPS") is computed by dividing net income available to common shareholders, as adjusted for unallocated earnings, if any, of certain securities, by the weighted average number of shares of common stock outstanding during the year. Diluted EPS reflects the potential dilution that could occur from shares issuable in connection with awards under share-based compensation plans, including upon the exercise of stock options, and conversion of the noncontrolling interests in the Operating Partnership.

### Earnings Per Unit

Basic EPS is computed by dividing net income available to common unitholders, as adjusted for unallocated earnings, if any, of certain securities issued by the Operating Partnership, by the weighted average number of common unit equivalents outstanding during the year. Diluted EPS reflects the potential dilution that could occur from shares issuable in connection with awards under share-based compensation plans, including upon the exercise of stock options.

### Stock-Based Compensation Plans

The Parent Company maintains a shareholder-approved equity-incentive plan known as the Amended and Restated 1997 Long-Term Incentive Plan (the "1997 Plan"). The 1997 Plan is administered by the Compensation Committee of the Parent Company's Board of Trustees. Under the 1997 Plan, the Compensation Committee is authorized to award equity and equity-based awards, including incentive stock options, non-qualified stock options, restricted shares and performance-based shares. On June 2, 2010, the Parent Company's shareholders approved amendments to the 1997 Plan that, among other things, increased the number of common shares available for future awards under the 1997 Plan by 6,000,000 (of which 3,600,000 shares are available solely for options and share appreciation rights). As of December 31, 2014, 4,304,006 common shares remained available for future awards under the 1997 Plan (including 2,684,795 shares available solely for options and share appreciation rights). Through December 31, 2014 all options awarded under the 1997 Plan had a one to ten-year term.

The Company incurred stock-based compensation expense of \$6.1 million during 2014, of which \$1.7 million was capitalized as part of the Company's review of employee salaries eligible for capitalization. The Company incurred stock-based compensation expense of \$8.3 million and \$8.6 million during 2013 and 2012, of which \$1.4 million and \$2.6 million, respectively, were also capitalized. The expensed amounts are included in general and administrative expense on the Company's consolidated income statement in the respective periods.

### Comprehensive Income

Comprehensive income is recorded in accordance with the provisions of the accounting standard for comprehensive income. The accounting standard establishes standards for reporting comprehensive income and its components in the financial statements. Comprehensive income includes the effective portions of changes in the fair value of derivatives.

### Accounting for Derivative Instruments and Hedging Activities

The Company accounts for its derivative instruments and hedging activities in accordance with the accounting standard for derivative and hedging activities. The accounting standard requires the Company to measure every derivative instrument (including certain derivative instruments embedded in other contracts) at fair value and record them in the balance sheet as either an asset or liability. See disclosures below related to the accounting standard for fair value measurements and disclosures.

For derivatives designated as cash flow hedges, the effective portions of changes in the fair value of the derivative are reported in other comprehensive income while the ineffective portions are recognized in earnings.

The Company actively manages its ratio of fixed-to-floating rate debt. To manage its fixed and floating rate debt in a cost-effective manner, the Company, from time to time, enters into interest rate swap agreements as cash flow hedges, under which it agrees to exchange various combinations of fixed and/or variable interest rates based on agreed upon notional amounts.

### Fair Value Measurements

The Company estimates the fair value of its derivatives in accordance with the accounting standard for fair value measurements and disclosures. The accounting standard defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. It also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three

levels of inputs that may be used to measure fair value. Financial assets and liabilities recorded on the consolidated balance sheets are categorized based on the inputs to the valuation techniques as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals; and
- Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity or information.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

#### Recent Accounting Pronouncements

In August 2014, the Financial Accounting Standards Board ("FASB") issued guidance regarding an Entity's Ability to Continue as a Going Concern, which requires management to assess a company's ability to continue as a going concern and to provide related footnote disclosures in certain circumstances. Before this new standard, there was minimal guidance in U.S. GAAP specific to going concern. Under the new standard, disclosures are required when conditions give rise to substantial doubt about a company's ability to continue as a going concern within one year from the financial statement issuance date. The guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with early adoption permitted. The Company has not yet determined the impact, if any, that the adoption of this guidance will have on its consolidated financial statements.

In May 2014 FASB issued guidance requiring revenue to be recognized in an amount that reflects the consideration expected to be received in exchange for goods and services. The guidance requires the disclosure of sufficient quantitative and qualitative information for financial statement users to understand the nature, amount, timing and uncertainty of revenue and associated cash flows arising from contracts with customers. The guidance is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period, with early adoption precluded. The Company has not yet determined the impact, if any, that the adoption of this guidance will have on its consolidated financial position or results of operations.

In April 2014 the FASB issued revised guidance on discontinued operations and disclosures of disposals of components of an entity. The update revises the definition to include only disposals involving a strategic shift that has a major effect on the entity's operations and financial results when the disposal asset or group meets the existing criterion for treatment as held for sale. Examples of a strategic shift include the withdrawal from a major geographic area, line of business, equity method investment or any other major parts of a business, as applicable. A component of the entity comprises operations and cash flows that can be clearly distinguished, operationally and for financial reporting purposes, from the rest of the entity. In addition, the revised standard no longer precludes presentation as a discontinued operation if there are operations and cash flows of the component that have not been eliminated from the reporting entity's ongoing operations, or if there is significant continuing involvement with a component after its disposal.

The amendments require additional disclosures about discontinued operations including: the major classes of net income or loss where net income is otherwise presented, the operating and investing cash flows of discontinued operations where net income is otherwise presented, depreciation, amortization, capital expenditures and significant operating and investing non-cash items of the discontinued operation for the periods in which net income is otherwise presented and, if there is a non-controlling interest, the related allocation to the parent company.

Application is prospective, and required for periods beginning on or after December 15, 2014. This update should not be applied to assets classified as held for sale before the effective date even if the component of an entity is disposed of after the effective date. Early adoption is permitted for disposals or assets held for sale that have not been reported in the financial statements previously issued or available for issuance. The Company has elected to early adopt this standard as of January 1, 2014. All properties sold or determined held for sale prior to January 1, 2014 are classified as discontinued operations for all periods presented.

### 3. REAL ESTATE INVESTMENTS

As of December 31, 2014 and 2013 the gross carrying value of the Company's Properties was as follows (in thousands):

	2014	2013
Land	\$ 669,635	\$ 680,513
Building and improvements	3,409,303	3,504,060
Tenant improvements	524,754	484,716
	<u>4,603,692</u>	<u>4,669,289</u>
Assets held for sale - real estate investments (a)	27,436	—
Total	<u>\$ 4,631,128</u>	<u>\$ 4,669,289</u>

(a) Real estate investments related to assets held for sale above represents gross real estate assets and does not include accumulated depreciation or other assets on the balance sheets of the properties held for sale.

#### Acquisitions and Dispositions

##### 2014

##### Acquisitions

On February 19, 2014, the Company acquired 54.1 acres of undeveloped land known as Encino Trace in Austin, Texas for \$14.0 million. The land is fully entitled with a site plan and building permits in place allowing for the development of two four-story office buildings containing approximately 320,000 net rentable square feet. The purchase price included an in-place lease for 75% of the first building. The Company capitalized \$8.4 million in construction in progress, recorded \$4.6 million in land inventory and recorded a deposit for a portion of the future development fee held in escrow of \$1.0 million. The Company funded the acquisition with available corporate funds.

As of December 31, 2014, each of the two office buildings at Encino Trace was in development, and the Company had funded, through such date, \$38.8 million, inclusive of the \$14.0 million acquisition cost. During the second quarter of 2014, the Company reclassified the \$4.6 million remaining in land inventory to construction in progress in connection with commencement of development of the second building.

##### Dispositions

On October 24, 2014, the Company sold the Valleybrooke Office Park, comprised of five properties consisting of 279,934 rentable square feet located in Malvern, Pennsylvania for a sales price of \$37.9 million. During the third quarter of 2014, the Company recorded a \$1.8 million impairment loss on these properties. On October 24, 2014, the Company recorded a gain of approximately \$0.2 million upon settlement.

On September 30, 2014, the Company sold an office building, commonly known as "Campus Pointe," containing 172,943 rentable square feet at 1880 Campus Commons Drive in Reston, Virginia for a sales price of \$42.5 million resulting in a gain on sale of real estate of \$4.7 million after closing and other transaction related costs.

On April 16, 2014, the Company sold a 5.3 acre parcel of land located in Dallas, Texas for a sales price of \$1.6 million resulting in a nominal gain on sale after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

On April 3, 2014, the Company contributed two three-story, Class A office buildings, commonly known as "Four Points Centre," containing an aggregate of approximately 192,396 net rentable square feet in Austin, Texas to an existing real estate venture (the "Austin Venture") that the Company formed in 2013 with G&I VII Austin Office LLC, an investment vehicle advised by DRA Advisors LLC ("DRA"). The Company contributed the properties to the Austin Venture at an agreed upon value of \$41.5 million. In conjunction with the contribution: (i) the Austin Venture obtained a \$29.0 million mortgage loan; (ii) DRA contributed \$5.9 million in net cash to the capital of the Austin Venture; and (iii) the Austin Venture distributed \$34.4 million to the Company and credited the Company with a \$5.9 million capital contribution to the Austin Venture. The Company incurred a \$0.2 million loss on the contribution, driven primarily by closing costs.

On March 27, 2014, the Company sold a 16.8 acre undeveloped parcel of land located in Austin, Texas for a sales price of \$3.5 million resulting in a \$1.2 million gain on sale of undepreciated real estate after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

## Held for Sale

Subsequent to December 31, 2014, the Company sold two office properties, commonly known as "Atrium I," which includes 99,668 square feet of rentable space located in Mt Laurel, New Jersey and "Libertyview," which includes 121,737 square feet of rentable space located in Cherry Hill, New Jersey. See Note 21, "Subsequent Events," for further information regarding this disposition. As of December 31, 2014, the Company classified Atrium I and Libertyview as held for sale in accordance with applicable accounting standard for long lived assets. Accordingly, at December 31, 2014, the properties were required to be measured at the lower of their carrying value or the estimated fair value less costs to sell. No provision for impairment was recognized at December 31, 2014, as the estimated fair value of the properties (based on the executed agreement in place at December 31, 2014) less costs to sell exceeded the carrying value of the properties.

The disposal of the properties referenced above does not represent a strategic shift that has a major effect on our operations and financial results. Accordingly, the operating results of these properties remain classified within continuing operations for all periods presented.

## 2013

### Acquisitions

#### One and Two Commerce Square

On December 19, 2013, the Company acquired 99% of the common interests in the One and Two Common Square partnerships ("Commerce Square"), the entities which own two 41-story Trophy-class office towers in Philadelphia, Pennsylvania, from Parkway. The office towers contain 1,896,142 of net rentable square feet and were 86.7% occupied as of December 31, 2013. The Company acquired Commerce Square for an aggregate purchase price of \$331.8 million and funded the acquisition via assumption of \$237.1 million of existing mortgage debt and a \$73.1 million cash payment from available corporate funds.

The Company previously accounted for our non-controlling interest in Commerce Square under the equity method of accounting. As a result of acquiring a 99% common interest in the partnerships the Company obtained control of Commerce Square and our existing investment balance was remeasured based on the fair value of the underlying properties acquired and the existing distribution provisions under the relevant partnership agreements. Accordingly, a loss on remeasurement of \$1.0 million was recorded as a result of this transaction.

The Company has treated this transaction as a business combination and allocated the purchase price to the tangible and intangible assets and liabilities. As discussed in Note 2, the Company utilized a number of sources in making estimates of fair values for purposes of allocating the purchase price to tangible and intangibles assets acquired and intangible liabilities assumed. The purchase price is allocated as follows:

	December 19, 2013
Building, land and improvements	\$ 255,705
Intangible assets acquired	85,036
Below market lease liabilities assumed	(8,637)
	<u>\$ 332,104</u>
Mortgage debt assumed - at fair value (a)	(238,082)
Return of existing equity method investment	(30,424)
Net working capital assumed	10,423
Non-controlling interest	(946)
Total cash payment at settlement	<u>\$ 73,075</u>

(a) Principal outstanding on assumed mortgage debt at December 19, 2013 was \$237.1 million.

Intangible assets acquired and intangible liabilities assumed consist of the following (in thousands):

	December 19, 2013	Weighted Average Amortization Period (in years)
<b>Intangible assets:</b>		
In-place lease value	\$ 80,916	7.9
Above market tenant leases acquired	4,120	6.9
Total	\$ 85,036	
<b>Intangible liabilities:</b>		
Below market leases acquired	\$ (8,637)	6.5

In connection with the acquisition of One Commerce Square, the Company assumed a \$125.1 million existing non-recourse first mortgage with a fixed interest rate of 5.67% and a maturity date of January 6, 2016. In accordance with generally accepted accounting principles, the mortgage was recorded at \$130.2 million to reflect the fair value.

In connection with the acquisition of Two Commerce Square, the Company assumed a \$112.0 million existing non-recourse first mortgage with a fixed interest rate of 3.96% and a maturity date of April 5, 2023. In accordance with generally accepted accounting principles, the mortgage was recorded at \$107.9 million to reflect the fair value.

The Company recognized \$0.9 million of acquisition related costs which are included as part of general and administrative expenses of the Company's consolidated statement of operations.

#### Four Points Centre

On December 19, 2013, the Company acquired two three-story, Class A office buildings totaling 192,396 of net rentable square feet known as Four Points Centre, together with 22.3 acres of nearby parcels of land in Austin, Texas known for an aggregate \$47.3 million. This property was 99.2% occupied as of December 31, 2013. The Company funded the acquisition price with available corporate funds, while recognizing \$0.1 million of acquisition related costs, which are included as part of general and administrative expenses in the Company's consolidated statements of operations. The acquisition has been treated as a business combination and the total purchase price was allocated as follows: \$36.0 million to building, \$5.8 million to land, \$6.5 million to intangible assets and \$1.0 million to below market lease liabilities assumed.

#### Six Tower Bridge

On June 19, 2013, the Company acquired the remaining ownership interest in the real estate venture known as "Six Tower Bridge" that it did not then already own. See Note 4, "Investments in Unconsolidated Real Estate Ventures," for further discussion.

The unaudited pro forma information below summarizes the Company's combined results of operations for the years ended December 31, 2014 and 2013 as though the acquisition of One and Two Commerce Square, Four Points Centre and Six Tower Bridge were completed on January 1, 2012. The supplemental pro forma operating data is not necessarily indicative of what the actual results of operations would have been assuming the transaction had been completed as set forth above, nor do they purport to represent the Company's results of operations for future periods (in thousands except for per share amounts).

	December 31,	
	2013	2012
Pro forma revenue	\$ 610,979	\$ 592,753
Pro forma income (loss) from continuing operations	21,805	(60,011)
Pro forma net income (loss) available to common shareholders	25,957	(16,970)
<b>Earnings per common share from continuing operations:</b>		
Basic -- as reported	\$ 0.20	\$ (0.36)
Basic -- as pro forma	\$ 0.14	\$ (0.42)
<hr/>		
Diluted -- as reported	\$ 0.20	\$ (0.36)
Diluted -- as pro forma	\$ 0.14	\$ (0.42)
<hr/>		
<b>Earnings per common share:</b>		
Basic -- as reported	\$ 0.23	\$ (0.06)
Basic -- as pro forma	\$ 0.17	\$ (0.12)
<hr/>		
Diluted -- as reported	\$ 0.23	\$ (0.06)
Diluted -- as pro forma	\$ 0.17	\$ (0.12)

Included in the consolidated statements of income for the year ended December 31, 2013 are total revenues of \$3.4 million and a net loss attributable to common shareholders of \$0.2 million from acquisitions made during 2013.

#### Cira Centre

On November 19, 2013, the Company acquired a 0.8 acre land parcel underlying Cira Centre in Philadelphia, Pennsylvania for \$24.6 million. The purchase terminates a long term ground lease agreement entered into during the development of Cira Centre. The Company has accounted for the transaction as an asset acquisition. Prior to the acquisition date, the Company recorded ground rent expense on a straight-line basis, resulting in accrued rent liability of \$12.1 million. The accounting guidance for leases requires that an asset purchased which was previously subject to an operating lease cannot result in a gain, accordingly, the basis of the acquired land was reduced by the accrued rent liability and no income was recognized at acquisition. The Company capitalized \$1.4 million of acquisition related costs as part of the basis in the operating land.

#### Three Logan Square

On April 25, 2013, the Company exercised its purchase option under the long term ground lease agreement it held through its acquisition of Three Logan Square on August 5, 2010 and acquired the 1.8 acre land parcel underlying Three Logan Square in Philadelphia, Pennsylvania for \$20.8 million. The Company has accounted for the transaction as an asset acquisition. A portion of the original purchase price of Three Logan Square was allocated to a below market ground lease intangible asset. As the sum of the purchase price of the land plus the \$4.3 million remaining unamortized balance for the intangible asset approximates the fair value of the land as unencumbered by the ground lease, the remaining intangible asset balance was reclassified to land upon exercise of the purchase option. The Company funded the cost of the acquisition with available corporate funds and capitalized \$0.1 million of acquisition related costs as part of the basis in the operating land.

## Dispositions

On December 19, 2013, the Company sold a 50,000 net rentable square feet office property located in King of Prussia, Pennsylvania known as 875 First Avenue, for a sales price of \$3.8 million resulting in a \$0.1 million gain on sale after closing and other transaction related costs.

On October 17, 2013, the Company sold a 39,330 net rentable square feet office property located in West Chester, Pennsylvania known as 1336 Enterprise Drive, for a sales price of \$2.6 million resulting in a \$0.2 million gain on sale after closing and other transaction related costs.

On October 16, 2013 the Austin portfolio was contributed to a newly formed real estate venture. For additional information, see Note 4, "*Investments in Unconsolidated Ventures*," to our consolidated financial statements.

On August 5, 2013, the Company sold an eight-acre parcel of land located in Richmond, Virginia known as Dabney Land East, for a sales price of \$0.5 million resulting in a \$0.1 million loss on sale after closing and other transaction related costs. The land parcel was undeveloped as of the date of sale.

On June 28, 2013, the Company sold 16870 West Bernardo Drive, a 68,708 net rentable square feet office property located in San Diego, California, for a sales price of \$18.0 million resulting in a \$0.9 million loss on sale after closing and other transaction related costs.

On June 28, 2013, the Company sold 100 Arrandale Boulevard, a 34,931 net rentable square feet office property located in Exton, Pennsylvania, for a sales price of \$3.5 million resulting in a \$0.4 million loss on sale after closing and other transaction related costs.

On June 19, 2013, the Company sold 1700 Paoli Pike, a 28,000 net rentable square feet office property located in Malvern, Pennsylvania known as 100 Applebrook, for a sales price of \$2.7 million resulting in a \$0.4 million loss on sale after closing and other transaction related costs.

On June 14, 2013, the Company sold Pacific View Plaza, a 51,695 net rentable square feet office property located in Carlsbad, California, for a sales price of \$10.3 million resulting in a \$0.5 million loss on sale after closing and other transaction related costs.

On February 25, 2013, the Company sold a portfolio of eight office properties containing 800,546 square feet in Lawrenceville, New Jersey, known as "Princeton Pike Corporate Center," for an aggregate sales price of \$121.0 million resulting in a \$5.3 million gain on sale after closing and other transaction related costs.

The sales of these properties, with the exception of the Austin portfolio and Dabney Land East, are included in discontinued operations.

## 2012

### Dispositions

On July 18, 2012, the Company sold a portfolio of 11 flex/office properties, totaling 466,719 square feet, in Exton, Pennsylvania, collectively known as "Oaklands Corporate Center," for a sales price of \$52.7 million resulting in a \$9.9 million gain on sale after closing and other transaction related costs.

On June 22, 2012, the Company sold Pacific Ridge Corporate Center, a 121,381 net rentable square feet, two-building office property located in Carlsbad, California, for a sales price of \$29.0 million resulting in a \$2.8 million loss on sale after closing and other transaction related costs.

On March 22, 2012, the Company sold South Lake at Dulles Corner, a 268,240 net rentable square feet office property located in Herndon, Virginia, for a sales price of \$91.1 million resulting in a \$14.5 million gain on sale after closing and other transaction related costs.

On January 17, 2012, the Company sold 304 Harper Drive, a 32,978 net rentable square feet office property located in Moorestown, New Jersey, for a sales price of \$3.0 million resulting in a \$0.2 million gain on sale after closing and other transaction related costs.

#### **4. INVESTMENT IN UNCONSOLIDATED VENTURES**

As of December 31, 2014, the Company held ownership interests in 17 unconsolidated Real Estate Ventures for an aggregate investment balance of \$223.8 million, of which \$225.0 million is included in net assets and \$1.2 million is included in other liabilities and represents the negative investment balance of one real estate venture. The Company formed or acquired interests in these ventures with unaffiliated parties to develop or manage office properties or to acquire land in anticipation of possible development of office or residential properties. As of December 31, 2014, eleven of the real estate ventures owned 65 office buildings that contain an aggregate of approximately 6.7 million net rentable square feet; one real estate venture owned 3 acres of undeveloped parcels of land; four real estate ventures owned 22.6 acres of land under active development; one Real Estate Venture owned a residential tower that contains 345 apartment units and one real estate venture developed a hotel property that contains 137 rooms in Conshohocken, PA.

The Company accounts for its unconsolidated interests in its Real Estate Ventures using the equity method. The Company's unconsolidated interests range from 20% to 65%, subject to specified priority allocations of distributable cash in certain of the Real Estate Ventures.

The amounts reflected in the following tables (except for the Company's share of equity and income) are based on the historical financial information of the individual Real Estate Ventures. The Company does not record operating losses of the Real Estate Ventures in excess of its investment balance unless the Company is liable for the obligations of the Real Estate Venture or is otherwise committed to provide financial support to the Real Estate Venture.

The Company's investment in Real Estate Ventures as of December 31, 2014 and the Company's share of the Real Estate Ventures' income (loss) for the year ended December 31, 2014 was as follows (in thousands):

	Ownership Percentage (a)	Carrying Amount	Company's Share of 2014 Real Estate Venture Income (Loss)	Real Estate Venture Debt at 100%	Current Interest Rate	Debt Maturity
<b>Office Properties</b>						
Broadmoor Austin Associates (b)	50%	\$ 65,407	\$ (460)	\$ 53,516	7.04%	Apr 2023

		<u>\$ 223,790</u>	<u>\$ (790)</u>	<u>\$ 965,077</u>		

- (a) Ownership percentage represents the Company's entitlement to residual distributions after payments of priority returns, where applicable.
- (b) The basis differences associated with these ventures are allocated between cost and the underlying equity in the net assets of the investee and is accounted for as if the entity were consolidated (i.e., allocated to the Company's relative share of assets and liabilities with an adjustment to recognize equity in earnings for the appropriate depreciation/amortization).
- (c) The debt for these properties is comprised of three fixed rate mortgages: (1) \$39.3 million with a 4.40% fixed interest rate due January 1, 2019, (2) \$28.0 million with a 4.65% fixed interest rate due January 1, 2022, and (3) \$66.5 million with a 3.22% fixed interest rate due August 1, 2019, resulting in a time weighted average rate of 3.93%.
- (d) The debt for these properties includes five mortgages: (1) \$34.0 million that was swapped to a 1.59% fixed rate (or an all-in fixed rate of 3.52% incorporating the 1.93% spread) due November 1, 2018, (2) \$56.0 million that was swapped to a 1.49% fixed rate (or an all-in rate of 3.19% incorporating the 1.70% spread) due October 15, 2018, (3) \$140.6 million that was swapped to a 1.43% fixed rate (for an all-in fixed rate of 3.44% incorporating the 2.01% spread) due November 1, 2018, (4) \$29.0 million with a 4.50% fixed interest rate due April 6, 2019, and (5) \$34.5 million with a 3.87% fixed interest rate due August 6, 2019, resulting in a time and dollar weighted average rate of 3.57%. Also, includes an \$88.0 million bridge loan from BDN Austin Properties, LLC, a subsidiary of Brandywine, carrying a 4.00% fixed interest rate until December 31, 2014 and increased to 5.00% through January 31, 2015. See Note 21, "Subsequent Events," for repayment of this note.

F- 34

- (e) Proceeds received by the Company from the sale of an 80% ownership stake in the properties exceeded the historical cost of those properties. No investment in the real estate venture was reflected on the balance sheet at formation.
- (f) Carrying amount represents the negative investment balance of the venture and is included in other liabilities.
- (g) The stated rate for the construction loan is LIBOR + 2.25%. The interest rate spread decreases to 2.00% upon receipt of certificate of occupancy. It is further reduced to 1.75% upon stabilization. To fulfill interest rate protection requirements an interest rate cap was purchased at 4.50%.
- (h) Comprised of two fixed rate mortgages totaling \$8.0 million that mature on March 1, 2017 and accrue interest at a current rate of 7.00%, a \$1.0 million 3.00% fixed rate loan through its September 1, 2025 maturity, a \$2.0 million 4.00% fixed rate loan with interest only through its February 7, 2016 maturity and a \$3.9 million 3.00% fixed rate loan with interest only beginning March 11, 2018 through its March 11, 2020 maturity, resulting in a time and dollar weighted average rate of 3.78%.
- (i) The ownership interest in this property was disposed of prior to December 31, 2014.

The following is a summary of the financial position of the Real Estate Ventures as of December 31, 2014 and December 31, 2013 (in thousands):

	December 31, 2014	December 31, 2013
Net property	\$ 1,281,282	\$ 965,475
Other assets	195,121	164,152
Other liabilities	68,481	49,442
Debt	965,077	699,860
Equity	442,845	380,325

- (b)
- Company's share of equity (Company's basis) (a) 225,004 180,512
- (a) This amount includes the effect of the basis difference between the Company's historical cost basis and the basis recorded at the Real Estate Venture level, which is typically amortized over the life of the related assets and liabilities. Basis differentials occur from the impairment of investments, purchases of third party interests in existing Real Estate Ventures and upon the transfer of assets that were previously owned by the Company into a Real Estate Venture. In addition, certain acquisition, transaction and other costs may not be reflected in the net assets at the Real Estate Venture level.
- (b) Does not include the negative investment balance of one real estate venture totaling \$1.2 million as of December 31, 2014, which is included in other liabilities.

The following is a summary of results of operations of the Real Estate Ventures in which the Company had interests as of December 31, 2014, 2013 and 2012 (in thousands):

	Years ended December 31,		
	2014	2013	2012
Revenue	\$ 147,236	\$ 102,919	\$ 164,013
Operating expenses	(61,268)	(40,436)	(70,775)
Interest expense, net	(36,511)	(26,529)	(41,633)
Depreciation and amortization	(57,109)	(35,138)	(50,241)
Net income (loss)	(7,652)	816	1,364
Company's share of income (loss) (Company's basis)	(790)	3,664	2,741

As of December 31, 2014, the aggregate principal payments of recourse and non-recourse debt payable to third-parties are as follows (in thousands):

2015	\$ 279,351
2016	133,809
2017	44,465
2018	231,030
2019	182,522
Thereafter	93,900
	<u>\$ 965,077</u>

### 1919 Ventures

On January 20, 2011, the Company acquired a one acre parcel of land in Philadelphia, Pennsylvania for \$9.3 million. The Company thereafter contributed the acquired land into a then newly-formed general partnership, referred to below as "1919 Ventures" in return for a 50.0% general partner interest, with the remaining 50.0% interest owned by an unaffiliated third party, who contributed cash in exchange for its interest. On October 15, 2014, the Company acquired the interest of the unaffiliated third party at fair value, which approximates carrying value. No remeasurement gain or loss on our previous investment was recorded at that time.

On October 21, 2014, the Company admitted an unaffiliated third party, LCOR/CalSTRS ("LCOR") into 1919 Ventures, for \$8.2 million, reflecting an agreed upon \$16.4 million valuation of the land and improvements incurred by the Company on behalf of 1919 Ventures. After giving effect to settlement date contributions, distributions and credits, the Company and LCOR had each made, as of October 21, 2014, an additional \$5.2 million capital contribution to 1919 Ventures for closing costs and development.

As of December 31, 2014, there was no outstanding balance on the construction loan and equity contributions totaled \$13.4 million from each of us and LCOR.

Based upon the facts and circumstances at formation of 1919 Ventures, the Company determined that 1919 Ventures is a VIE in accordance with the accounting standard for the consolidation of VIEs since the equity investment at risk is not sufficient to permit the entity to finance its activities without additional financial support. The initial equity contributed to this entity was not sufficient to fully finance the real estate construction as development costs are funded by the partners throughout the construction period. The Company determined that it was not the primary beneficiary of this VIE based on the fact that the Company has shared control of this entity along with the entity's partner and therefore does not have controlling financial interests in this VIE.

### Austin Venture

On October 16, 2013, the Company contributed a portfolio of seven office properties containing an aggregate of 1,398,826 rentable square feet located in Austin, Texas (the "Austin Properties") to a newly-formed joint venture (the "Austin Venture") with G&I VII Austin Office LLC ("DRA"). DRA and the Company, based on arm's-length negotiation, agreed to an aggregate gross sales price of \$330.0 million subject to an obligation on the Company's part to fund the first \$5.2 million of post-closing capital expenditures, of which \$0.8 million was funded by the Company during 2013 and the remaining \$4.4 million was funded by the Company during the twelve months ended December 31, 2014.

DRA owns a 50% interest in the Austin Venture and the Company owns a 50% interest in the Austin Venture, subject to the Company's right to receive up to an additional 10% of distributions.

At the closing the Austin Venture obtained third party debt financing of approximately \$230.6 million secured by mortgages on the Austin Properties and used proceeds of this financing together with \$49.7 million of cash contributions by DRA (less \$1.9 million of closing costs and \$6.9 million of closing prorations and lender holdbacks) to fund a \$271.5 million distribution to the Company. The Company agreed to fund the first \$5.2 million of post-closing capital expenditures on behalf of the Austin Venture, resulting in net proceeds of \$266.3 million after funding the Company's capital expenditure obligation. As part of the transaction, the Company's subsidiary management company executed an agreement with the Austin Venture to provide property management and leasing services to the Austin Venture in exchange for a market-based fee.

On April 3, 2014, the Company contributed two three-story, Class A office buildings, commonly known as "Four Points Centre," containing an aggregate of 192,396 net rentable square feet in Austin, Texas to the Austin Venture. See Note 3, "*Real Estate Investments*," for further information on the contribution.

On July 31, 2014, the Austin Venture acquired the Crossings at Lakeline, comprised of two three-story buildings containing an aggregate of 232,274 rentable square feet located in Austin, TX for \$48.2 million. The transaction was funded with \$34.5 million of proceeds of a 3.87% fixed rate mortgage loan from a non-affiliated institutional lender and \$12.8 million (net of \$0.9 million in purchase adjustments) of cash capital contributions, with \$6.4 million made by each of DRA and the Company. The Austin Venture expensed approximately \$0.1 million of transaction costs to acquire the property, net of \$0.6 million credit from the seller.

On October 17, 2014, the Austin Venture acquired River Place, comprised of seven Class A office buildings containing 590,881 rentable square feet located in Austin, Texas for \$128.1 million. The transaction was funded through a combination of an \$88.0 million short-term loan, secured by a mortgage, made by the Company to the Austin Venture and cash capital contributions of \$18.9 million made by each of DRA and the Company to the Austin Venture. The short-term financing was provided by the Company and the Austin Venture was seeking permanent financing as of December 31, 2014. The Company accounted the short-term financing as a note receivable. See Note 2, "*Summary of Significant Accounting Policies*," for the Company's accounting treatment. The debt agreement for the short-term loan provides financing through March 2015 at the following tiered interest

rates; (i) 4.0% through December 31, 2014, (ii) 5.0% from January 1, 2015 through January 31, 2015, (iii) 7.0% from February 1, 2015 through February 28, 2015 and (iv) 9.0% from March 1, 2015 through March 31, 2015. The Austin Venture may repay the short-term loan at any time without penalty. See Note 21, "Subsequent Events," for repayment of the short-term financing. The Austin Venture expensed approximately \$0.2 million of transaction costs to acquire the property.

The Company and DRA, utilizing additional equity funding of up to \$100.0 million per partner, of which approximately \$69.0 million remained unfunded at December 31, 2014, intend to jointly pursue additional office opportunities in targeted Austin sub-markets that meet certain investment criteria.

Based upon the facts and circumstances at formation of the Austin Venture, the Company determined that the Austin Venture is not a VIE in accordance with the accounting standard for the consolidation of VIEs. As a result, the Company used the voting interest model under the accounting standard for consolidation in order to determine whether to consolidate the Austin Venture. Based upon each member's substantive participating rights over the activities of the Austin Venture under the operating and related agreements of the Austin Venture, it is not consolidated by the Company, and is accounted for under the equity method of accounting. As a result, the Company measured its equity interest at fair value based on the fair value of the Austin Properties and the distribution provisions of the real estate venture agreement. Since the Company retains a non-controlling interest in the Austin Properties and there are no other facts and circumstances that preclude the consummation of a sale, the contribution qualifies as a partial sale of real estate under the relevant guidance for sales of real estate. Accordingly, during the fourth quarter of 2013, the Company recorded a gain of approximately \$25.9 million, which is reflected in "Net gain (loss) on real estate venture transactions" on the accompanying statement of operations.

The reconsideration event caused by the \$88.0 million short-term financing extended from the Company to the Austin Venture did not change this conclusion reached above at formation, as the Austin Venture has sufficient equity at risk, to support the operations of the venture. The equity at risk does not lack decision making rights. There have been no changes to the operating agreement as a result of the Austin Venture entering into the loan agreement with the Company. In addition, the Company concluded that the financing did not change the allocation of the economic benefits of the venture and remains proportionate to the equity ownership and voting rights.

#### 4040 Wilson Venture

On July 31, 2013, the Company formed 4040 Wilson LLC Venture ("4040 Wilson"), a joint venture between the Company and Ashton Park Associates LLC ("Ashton Park"), an unaffiliated third party. Each of the Company and Ashton Park owns a 50% interest in 4040 Wilson. 4040 Wilson expects to construct a 426,900 square foot office representing the final phase of the eight building, mixed-use, Liberty Center complex developed by the parent company of Ashton Park in the Ballston submarket of Arlington, Virginia. 4040 Wilson expects to develop the office building on a 1.3-acre land parcel contributed by Ashton Park to 4040 Wilson at an agreed upon value of \$36.0 million. The total estimated project costs are \$194.6 million, which the Company expects will be financed through approximately \$72.0 million of partner capital contributions (consisting of land with a value of \$36.0 million from Ashton Park and \$36.0 million in cash from the Company, of which \$26.8 million has been funded to date) with the remaining balance funded by debt financing. As part of the 4040 Wilson venture, the Company has agreed to guarantee 100% of any lender mandated recourse. As of December 31, 2014, the Company had not provided any guarantees in respect of 4040 Wilson.

Based upon the facts and circumstances at formation of 4040 Wilson, the Company determined that 4040 Wilson is a VIE in accordance with the accounting standard for the consolidation of VIEs. As a result, the Company used the variable interest model under the accounting standard for consolidation in order to determine whether to consolidate 4040 Wilson. Based upon each member's shared power over the activities of 4040 Wilson under the operating and related agreements of 4040 Wilson, and the Company's lack of control over the development and construction phases of the project, 4040 Wilson is not consolidated by the Company, and is accounted for under the equity method of accounting.

### Two and Six Tower Bridge Exchange Transaction

On June 19, 2013, the Company acquired, from an unaffiliated third party, the third party's ownership interest in the Six Tower Bridge real estate venture through a nonmonetary exchange for the Company's ownership interest in the Two Tower Bridge real estate venture. The Six Tower Bridge real estate venture owns an unencumbered office property in Conshohocken, PA. The Company previously accounted for its noncontrolling interest in Six Tower Bridge using the equity method. As a result of the exchange transaction, the Company obtained control of the Six Tower Bridge property and the Company's existing equity interest was remeasured at fair value based on the fair value of the underlying property and the distribution provisions of the real estate venture agreement. Accordingly, during 2013, the Company recorded a gain of approximately \$7.8 million, which is reflected in "Net gain from remeasurement of investments in a real estate ventures" on the accompanying statement of operations. Following the acquisition, the Class A office property in Conshohocken, PA is wholly owned by the Company with an unencumbered fair value of \$24.5 million. The Company accounted for this transaction as a business combination and allocated the fair value as follows: \$14.8 million to building, \$6.9 million to land, \$3.3 million to intangible assets and \$0.5 million to below market lease liabilities assumed.

As mentioned above, the Company exchanged its non-controlling interest in Two Tower Bridge real estate venture in a nonmonetary transaction with an unaffiliated third party for the third party's interest in the Six Tower Bridge real estate venture. The investment in Two Tower Bridge had a fair value of \$3.6 million on the date of the exchange transaction based on the fair value of the venture's equity and the distribution provisions of the real estate venture agreement. Based on this fair value and the carrying value for the Company's investment of \$(0.1) million, during 2013 the Company recognized a gain on exchange of interests in real estate ventures of \$3.7 million, which is reflected in "Net gain (loss) on real estate venture transactions" on the accompanying statement of operations.

### evo at Cira Centre South Venture

On January 25, 2013, the Company formed HSRE-Campus Crest IX Real Estate Venture ("evo at Cira"), a joint venture among the Company and two unaffiliated third parties: Campus Crest Properties, LLC ("Campus Crest") and HSRE-Campus Crest IXA, LLC ("HSRE"). evo at Cira has commenced construction of a 33-story, 850-bed student housing tower located in the University City submarket of Philadelphia, Pennsylvania. Each of the Company and Campus Crest owns a 30% interest in evo at Cira and HSRE owns a 40% interest. evo at Cira is developing the project on a one-acre land parcel held under a long-term ground lease with a third party lessor. The Company contributed to evo at Cira its tenancy rights under a long-term ground lease, together with associated development rights, at an agreed-upon value of \$8.5 million. The total estimated project costs are \$158.5 million, which will be financed through partner capital contributions totaling \$60.7 million, with the remaining \$97.8 million being financed through construction facilities provided by unaffiliated institutional lenders. As of December 31, 2014, the Company had funded 100% of its share of the equity contributions.

In connection with the development of evo at Cira, each of the Company and Campus Crest provided, in addition to customary non-recourse carve-out guarantees, a completion and cost overrun guaranty, as well as a payment guaranty, on the construction financing (with the Company's share of the payment guaranty being approximately \$24.7 million).

The Company's historical cost basis in the development rights that it contributed to the evo at Cira was \$4.0 million, thus creating a \$4.5 million basis difference at December 31, 2013 between the Company's initial outside investment basis and its \$8.5 million initial equity basis. As this basis difference is not related to a physical land parcel, but rather to development rights to construct evo at Cira, the Company will accrete the basis difference as a reduction of depreciation expense over the life of evo at Cira's assets.

Based upon the facts and circumstances at evo at Cira formation, the Company determined that evo at Cira is a VIE in accordance with the accounting standard for the consolidation of VIEs. As a result, the Company used the variable interest model under the accounting standard for consolidation in order to determine whether to consolidate the evo at Cira. Based upon each member's shared power over the activities of evo at Cira under the operating and related agreements of evo at Cira, and the Company's lack of exclusive control over the development and construction phases of the project, evo at Cira is not consolidated by the Company, and is accounted for under the equity method of accounting. Accordingly, the land parcel and associated development rights contributed by the Company to evo at Cira were deconsolidated by the Company upon formation of evo at Cira.

During the third quarter of 2014, evo at Cira placed into service the student housing tower. At December 31, 2014, the project was substantially complete.

## BDN Beacon Venture

On March 26, 2013, the Company sold its entire 20% ownership interest in an unconsolidated real estate venture known as BDN Beacon Venture LLC (the "Beacon Venture"). The carrying amount of the Company's investment in the Beacon Venture amounted to \$17.0 million at the sale date, with the Company's proceeds effectively matching the carrying amount.

## Guarantees

As of December 31, 2014, the Company has provided guarantees on behalf of certain real estate ventures, consisting of (i) a \$24.7 million payment guaranty on the construction loan for the project being undertaken by evo at Cira; (ii) a \$3.2 million payment guarantee on the construction loan for a project being undertaken by TB-BDN Plymouth Apartments; and (iii) a \$0.5 million payment guarantee on a loan provided to PJP VII. In addition, during construction undertaken by real estate ventures the Company provided and expects to continue to provide cost overrun and completion guarantees, with rights of contribution among partners in the venture, as well as customary environmental indemnities and guarantees of customary exceptions to nonrecourse provisions in loan agreements.

## 5. DEFERRED COSTS

As of December 31, 2014 and 2013, the Company's deferred costs were comprised of the following (in thousands):

	December 31, 2014		
	Total Cost	Accumulated Amortization	Deferred Costs, net
Leasing Costs	\$ 164,081	\$ (64,065)	\$ 100,016
Financing Costs	40,401	(15,193)	25,208
Total	<u>\$ 204,482</u>	<u>\$ (79,258)</u>	<u>\$ 125,224</u>
	December 31, 2013		
	Total Cost	Accumulated Amortization	Deferred Costs, net
Leasing Costs	\$ 155,885	\$ (58,805)	\$ 97,080
Financing Costs	40,317	(14,443)	25,874
Total	<u>\$ 196,202</u>	<u>\$ (73,248)</u>	<u>\$ 122,954</u>

During the years ended December 31, 2014, 2013 and 2012, the Company capitalized internal direct leasing costs of \$7.1 million, \$7.5 million, and \$7.5 million, respectively, in accordance with the accounting standard for the capitalization of leasing costs.

## 6. INTANGIBLE ASSETS

As of December 31, 2014 and 2013, the Company's intangible assets were comprised of the following (in thousands):

	December 31, 2014		
	Total Cost	Accumulated Amortization	Intangible Assets, net
In-place lease value	\$ 129,411	\$ (42,068)	\$ 87,343
Tenant relationship value	34,172	(26,344)	7,828
Above market leases acquired	5,641	(1,409)	4,232
Total	<u>\$ 169,224</u>	<u>\$ (69,821)</u>	<u>\$ 99,403</u>
Below market leases acquired	<u>\$ 53,049</u>	<u>\$ (27,039)</u>	<u>\$ 26,010</u>

December 31, 2013

	Total Cost	Accumulated Amortization	Intangible Assets, net
In-place lease value	\$ 150,782	\$ (35,607)	\$ 115,175
Tenant relationship value	38,692	(26,868)	11,824
Above market leases acquired	6,673	(1,343)	5,330
Total	<u>\$ 196,147</u>	<u>\$ (63,818)</u>	<u>\$ 132,329</u>
Below market leases acquired	<u>\$ 81,991</u>	<u>\$ (47,547)</u>	<u>\$ 34,444</u>

For the years ended December 31, 2014, 2013, and 2012, the Company wrote-off through the acceleration of amortization approximately \$0.8 million, \$1.6 million and \$1.4 million, respectively, of intangible assets as a result of tenant move-outs prior to the end of the associated lease term. For the years ended December 31, 2014, December 31, 2013, and December 31, 2012 the Company accelerated amortization of a nominal amount of intangible liabilities as a result of tenant move-outs.

As of December 31, 2014, the Company's annual amortization for its intangible assets/liabilities was as follows (in thousands, and assuming no early lease terminations):

	Assets	Liabilities
2015	\$ 21,363	\$ 5,212
2016	16,898	3,253
2017	15,148	2,664
2018	11,399	2,241
2019	10,086	1,909
Thereafter	24,509	10,731
Total	<u>\$ 99,403</u>	<u>\$ 26,010</u>

## 7. DEBT OBLIGATIONS

The following table sets forth information regarding the Company's consolidated debt obligations outstanding at December 31, 2014 and 2013 (in thousands):

	December 31, 2014	December 31, 2013	Effective Interest Rate	Maturity Date
<b>MORTGAGE DEBT:</b>

Principal balance outstanding	1,803,529	1,929,703		
plus: original issue premium (discount), net	(6,811)	(4,473)		
Total unsecured indebtedness	\$ 1,796,718	\$ 1,925,230		
Total Debt Obligations	\$ 2,451,308	\$ 2,595,381		

(a) This loan was assumed upon acquisition of the related properties on December 19, 2013. The interest rate reflects the market rate at the time of acquisition.

(b) Represents the full debt amount of a property in a consolidated joint venture for which the Company maintains a 50% interest.

(c) On September 16, 2014, the Company repaid all balances outstanding under its \$150.0 million three-year term loan and its \$100.0 million four-year term loan prior to the scheduled maturity dates of February 1, 2015 and February 1, 2016, respectively.

(d) London Interbank Offered Rate ("LIBOR").

(e) On September 16, 2014, the Company closed on an underwritten offering of \$250.0 million 4.10% Guaranteed Notes due 2024 (the "2024 Notes") and \$250.0 million 4.55% Guaranteed Notes due 2029 (the "2029 Notes"). The Company used the net proceeds, together with cash on hand, to redeem the remaining outstanding balance of its 5.40% Guaranteed Notes due November 1, 2014 (the "2014 Notes") and its 7.50% Guaranteed Notes due May 15, 2015 (the "2015 Notes"). (See further discussion below).

During 2014, 2013, and 2012, the Company's weighted-average effective interest rate on its mortgage notes payable was 5.72%, 5.73%, and 6.65%, respectively. As of December 31, 2014 and 2013, the net carrying value of the Company's Properties that are encumbered by mortgage indebtedness was \$655.9 million and \$669.8 million, respectively.

On September 16, 2014, the Company closed on an underwritten offering of its 2024 Notes and 2029 Notes (as defined above). The 2024 Notes were priced at 99.388% of their face amount with a yield to maturity of 4.175%, representing a spread at the time of pricing of 1.70%. The 2029 Notes were priced at 99.191% of their face amount with a yield to maturity of 4.625%, representing a spread at the time of pricing of 2.15%. The 2024 Notes and 2029 Notes have been reflected net of discounts of \$1.5 million and \$2.0 million, respectively, in the consolidated balance sheet as of December 31, 2014.

The Company used a portion of the net proceeds from the sale of the 2024 Notes and 2029 Notes, aggregating \$492.9 million after the deduction for underwriting discounts and offering expenses, to fund its repurchase, through a tender offer, of a portion of 2014 Notes and 2015 Notes (as defined above). Specifically, on September 16, 2014, the Company funded, under the tender offer, \$75.1 million in respect of the 2014 Notes and \$42.7 million in respect of the 2015 Notes. The Company recognized a \$2.6 million loss on early extinguishment of debt related to the total repurchase.

On September 16, 2014, the Company repaid the entire \$150.0 million three-year term loan and \$100.0 million four-year term loan prior to their scheduled February 2015 and 2016 maturities, respectively. In connection with these repayments, the Company accelerated \$0.3 million of deferred financing amortization expense and also incurred a \$0.8 million charge on the termination of associated interest rate swap contracts, as reflected in the Company's consolidated statements of operations. See Note 9, "Risk Management and Use of Financial Instruments," for further information related to the termination of the interest rate swap contracts.

On September 16, 2014, the Company gave notice of redemption, in full, of the \$143.5 million of 2014 Notes that remained outstanding following completion of the tender offer. The Company completed the redemption of the 2014 Notes on October 16, 2014 at a cash redemption price of \$1,026.88 per \$1,000 principal amount of the 2014 Notes (inclusive of accrued interest to the redemption date). Also on September 16, 2014, the Company gave notice of redemption, in full, of the \$114.9 million of 2015 Notes that remained outstanding following completion of the tender offer. The Company completed the redemption of the 2015 Notes on October 16, 2014 at a cash redemption price of \$1,070.24 per \$1,000 principal amount of the 2015 Notes (inclusive of accrued interest to the redemption date). The Company recognized a \$5.0 million loss on early extinguishment of debt related to total repurchase.

The following table provides additional information on the Company's repurchase of \$376.2 million in aggregate principal amount of its outstanding unsecured notes (consisting of the 2014 Notes and 2015 Notes, as indicated above) during the twelve months ended December 31, 2014 (in thousands):

Notes	Principal	Repurchase Amount (a)	Gain (Loss) on Early Extinguishment of Debt (b)	Acceleration of Deferred Financing Amortization
2014 5.40% Notes	\$ 218,549	\$ 219,404	\$ (855)	\$ 9
2015 7.50% Notes	157,625	164,364	(6,739)	143
	<u>\$ 376,174</u>	<u>\$ 383,768</u>	<u>\$ (7,594)</u>	<u>\$ 152</u>

During the year-ended December 31, 2013, the Company repurchased \$29.3 million of its outstanding unsecured Notes in a series of transactions that are summarized in the following table (in thousands):

Notes	Principal	Repurchase Amount (a)	Gain (Loss) on Early Extinguishment of Debt (b)	Acceleration of Deferred Financing Amortization
2014 5.40% Notes	\$ 19,830	\$ 20,853	\$ (1,020)	\$ 16
2015 7.50% Notes	8,910	9,945	(1,036)	23
2016 6.00% Notes	510	571	(63)	1
	<u>\$ 29,250</u>	<u>\$ 31,369</u>	<u>\$ (2,119)</u>	<u>\$ 40</u>

During the year-ended December 31, 2012, the Company repurchased \$165.0 million of its outstanding unsecured Notes in a series of transactions that are summarized in the following table (in thousands):

Notes	Principal	Repurchase Amount (a) (c)	Gain (Loss) on Early Extinguishment of Debt (b)	Acceleration of Deferred Financing Amortization
2012 5.75% Notes	\$ 301	\$ 303	\$ (2)	\$ —
2014 5.40% Notes	4,302	4,566	(264)	8
2015 7.50% Notes	60,794	69,497	(8,712)	183
2016 6.00% Notes	99,571	112,541	(13,024)	260
	<u>\$ 164,968</u>	<u>\$ 186,907</u>	<u>\$ (22,002)</u>	<u>\$ 451</u>

(a) Includes cash losses with respect to redemption of debt.

(b) Includes unamortized balance of the original issue discount.

(c) Does not include \$151.2 million of 5.75% Guaranteed Notes due 2012 that matured.

The Parent Company unconditionally guarantees the unsecured debt obligations of the Operating Partnership (or is a co-borrower with the Operating Partnership) but does not by itself incur unsecured indebtedness. The Parent Company has no material assets other than its investment in the Operating Partnership.

The Company utilizes its \$600.0 million four-year unsecured revolving credit facility (the "Credit Facility") for general business purposes, including funding costs of acquisitions, developments and redevelopments and repayment of other debt. The scheduled maturity date of the Credit Facility in place at December 31, 2014 is February 1, 2016. The per annum variable interest rate on the outstanding balances is LIBOR plus 1.50%. The interest rate and facility fee are subject to adjustment upon a change in the Company's unsecured debt ratings. There were no outstanding borrowings under the credit facility during the year-ended December 31, 2014. For the year-ended December 31, 2013, the weighted-average interest rate associated with the Credit Facility was 0.29%. As of December 31, 2014, the Company did not have any outstanding borrowings on its Credit Facility, with \$4.3 million in letters of credit outstanding, leaving \$595.7 million of unused availability under the Credit Facility.

The Company has the option to increase the amounts available to be advanced under the Credit Facility, subject to customary conditions and limitations, by obtaining additional commitments from the current lenders and other financial institutions. The Company also has the option to extend the maturity date of the Credit Facility. The unsecured \$200.0 million seven-year term loan (the "Term Loan") is subject to a prepayment penalty of 1.00% through February 1, 2015 with no penalty thereafter.

The spread to LIBOR for LIBOR-based loans under the Credit Facility will depend on our unsecured senior debt credit rating. Based on the Company's current credit rating, the spread will be 150 basis points under the Credit Facility and 190 basis points under the seven-year term loan, respectively. At our option, advances under the Credit Facility and Term Loan may also bear interest at a per annum floating rate equal to the higher of the prime rate or the federal funds rate plus 0.50% per annum. The Credit Facility contains a competitive bid option that allows banks that are part of the lender consortium to bid to make loans to us at a reduced rate. The Company executed a hedging transaction that fix the rate on the Term Loan at a 3.623% average for its full term. The hedge commenced on February 1, 2012 and the rate is inclusive of the LIBOR spread based on our current investment grade rating. See Note 9, "Risk Management and Use of Financial Instruments," for details of the interest rate swaps entered into as of December 31, 2014.

The Credit Facility and Term Loan contain financial and operating covenants and restrictions. The Company was in compliance with all such restrictions and financial covenants as of December 31, 2014. The Credit Facility restricts the Company's dividend distributions to the greater of 95% of funds from operations or the minimum amount necessary for the Company to maintain its status as a REIT.

As of December 31, 2014, the Company's aggregate scheduled principal payments of debt obligations, excluding amortization of discounts and premiums, were as follows (in thousands):

2015	\$	102,030
2016		367,703
2017		330,323
2018		336,954
2019		213,155
Thereafter		1,109,298
Total principal payments		<u>2,459,463</u>
Net unamortized premiums/(discounts)		(8,155)
Outstanding indebtedness	\$	<u><u>2,451,308</u></u>

## **8. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The Company determined the fair values disclosed below using available market information and discounted cash flow analyses as of December 31, 2014 and 2013, respectively. The discount rate used in calculating fair value is the sum of the current risk free rate and the risk premium on the date of measurement of the instruments or obligations. Considerable judgment is necessary to interpret market data and to develop the related estimates of fair value. Accordingly, the estimates presented are not necessarily indicative of the amounts that the Company could realize upon disposition. The use of different estimation methodologies may have a material effect on the estimated fair value amounts shown. The Company believes that the carrying amounts reflected in the consolidated balance sheets at December 31, 2014 and 2013 approximate the fair values for cash and cash equivalents, accounts receivable, other assets, accounts payable and accrued expenses.

The following are financial instruments for which the Company's estimates of fair value differ from the carrying amounts (in thousands):

	December 31, 2014		December 31, 2013	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Mortgage notes payable	\$ 654,590	\$ 707,241	\$ 670,151	\$ 715,244
Unsecured notes payable	\$ 1,518,108	\$ 1,593,212	\$ 1,396,620	\$ 1,471,041
Variable rate debt	\$ 278,610	\$ 257,188	\$ 528,610	\$ 526,693
Notes receivable (a)	\$ 88,000	\$ 87,692	\$ 7,026	\$ 7,759

(a) See Note 2, "Summary of Significant Accounting Policies - Notes Receivable," for further discussion.

The fair value of the Company's unsecured notes payable is categorized at a Level 2 basis (as provided by the accounting standard for Fair Value Measurements and Disclosures). This is because the Company valued these instruments using quoted market prices as of December 31, 2014 and 2013. For the fair value of the Company's unsecured notes, the Company uses a discount rate based on the indicative new issue pricing provided by lenders.

The fair value of the Company's mortgage notes payable, variable rate debt and notes receivable are all categorized at a Level 3 basis (as provided by the accounting standard for Fair Value Measurements and Disclosures). The fair value of the variable rate debt was estimated using a discounted cash flow analysis valuation on the borrowing rates currently available to the Company for loans with similar terms and maturities, as applicable. The fair value of the mortgage debt was determined by discounting the future contractual interest and principal payments by a blended market rate for loans with similar terms, maturities and loan-to-value. The fair value of the notes receivable was determined by using the expected cash flows of the notes receivable, and discounting those cash flows using the market rate of interest for mortgage notes with a comparable level of risk. These financial instruments have been categorized as Level 3 because the Company considers the rates used in the valuation techniques to be unobservable inputs.

For the Company's mortgage loans, the Company uses an estimate based on its knowledge of the mortgage market. The weighted average discount rate for the combined variable rate debt and mortgage loans used as to calculate fair value as of December 31, 2014 was 4.256%. An increase in the discount rate used in the discounted cash flow model would result in a decrease to the fair value of the Company's long-term debt. Conversely, a decrease in the discount rate used in the discounted cash flow model would result in an increase to the fair value of the Company's long-term debt.

Disclosure about the fair value of financial instruments is based upon pertinent information available to management as of December 31, 2014 and December 31, 2013. Although management is not aware of any factors that would significantly affect the fair value amounts, such amounts have not been comprehensively revalued for purposes of these financial statements since December 31, 2014, and current estimates of fair value may differ from the amounts presented herein.

## **9. RISK MANAGEMENT AND USE OF FINANCIAL INSTRUMENTS**

### **Risk Management**

In the course of its ongoing business operations, the Company encounters economic risk. There are three main components of economic risk: interest rate risk, credit risk and market risk. The Company is subject to interest rate risk on its interest-bearing liabilities. Credit risk is primarily the risk of inability or unwillingness of tenants to make contractually required payments and of counterparties on derivatives contracts to fulfill their obligations. Market risk is the risk of declines in the value of Company properties due to changes in rental rates, interest rates, supply and demand of similar products and other market factors affecting the valuation of properties.

### **Risks and Uncertainties**

In the U.S., market and economic conditions have been improving, resulting in an increase of the volume of real estate transactions in the market. If the economy deteriorates, vacancy rates may increase through 2015 and possibly beyond. The financial markets also have an effect on the Company's Real Estate Venture partners and contractual counter parties, including counter parties in derivative contracts.

The Company's Credit Facility, term loans and the indenture governing its unsecured public debt securities (See Note 7, "Debt Obligations") contain restrictions, requirements and other limitations on the ability to incur indebtedness, including total debt to asset ratios, secured debt to total asset ratios, debt service coverage ratios and minimum ratios of unencumbered assets to unsecured debt which it must maintain. The ability to borrow under the Credit Facility is subject to compliance with such financial and other

covenants. In the event that the Company fails to satisfy these covenants, it would be in default under the Credit Facility, the term loans and the indenture and may be required to repay such debt with capital from other sources. Under such circumstances, other sources of capital may not be available, or may be available only on unattractive terms.

Availability of borrowings under the Credit Facility is subject to a traditional material adverse effect clause. Each time the Company borrows it must represent to the lenders that there have been no events of a nature which would have a material adverse effect on the business, assets, operations, condition (financial or otherwise) or prospects of the Company taken as a whole or which could negatively affect the ability of the Company to perform its obligations under the Credit Facility. While the Company believes that there are currently no material adverse effect events, it is possible that such an event could arise which would limit the Company's borrowings under the Credit Facility. If an event occurs which is considered to have a material adverse effect, the lenders could consider the Company in default under the terms of the Credit Facility and any borrowings under the Credit Facility would become unavailable. If the Company is unable to obtain a waiver, this would have a material adverse effect on the Company's financial position and results of operations.

The Company was in compliance with all financial covenants as of December 31, 2014. Management continuously monitors the Company's compliance with and anticipated compliance with the covenants. Certain of the covenants restrict management's ability to obtain alternative sources of capital. While the Company currently believes it will remain in compliance with its covenants, in the event that the economy deteriorates in the future, the Company may not be able to remain in compliance with such covenants, in which case a default would result absent a lender waiver.

#### Use of Derivative Financial Instruments

The Company's use of derivative instruments is limited to the utilization of interest rate agreements or other instruments to manage interest rate risk exposures and not for speculative purposes. The principal objective of such arrangements is to minimize the risks and/or costs associated with the Company's operating and financial structure, as well as to hedge specific transactions. The counterparties to these arrangements are major financial institutions with which the Company and its affiliates may also have other financial relationships. The Company is potentially exposed to credit loss in the event of non-performance by these counterparties. However, because of the high credit ratings of the counterparties, the Company does not anticipate that any of the counterparties will fail to meet these obligations as they come due. The Company does not hedge credit or property value market risks through derivative financial instruments.

The Company formally assesses, both at inception of a hedge and on an on-going basis, whether each derivative is highly-effective in offsetting changes in cash flows of the hedged item. If management determines that a derivative is not highly-effective as a hedge or if a derivative ceases to be a highly-effective hedge, the Company will discontinue hedge accounting prospectively. The related ineffectiveness would be charged to the consolidated statement of operations.

The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves.

To comply with the provisions of the accounting standard for fair value measurements and disclosures, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements. In adjusting the fair value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

The following table summarizes the terms and fair values of the Company's derivative financial instruments as of December 31, 2014 and December 31, 2013. The notional amounts provide an indication of the extent of the Company's involvement in these instruments at that time, but do not represent exposure to credit, interest rate or market risks (amounts presented in thousands and included in other liabilities on the Company's consolidated balance sheets).

Hedge Product	Hedge Type	Designation	Notional Amount		Strike	Trade Date	Maturity Date	Fair value		
			12/31/2014	12/31/2013				12/31/2014	12/31/2013	
<b>Assets/(Liabilities)</b>										
Swap	Interest Rate	Cash Flow	(a)	\$ 25,774	\$ 25,774	3.300%	December 22, 2011	January 30, 2021	\$ (334)	\$ 549
Swap	Interest Rate	Cash Flow	(a)	25,774	25,774	3.090%	January 6, 2012	October 30, 2019	(254)	218
Swap	Interest Rate	Cash Flow	(a)	200,000	200,000	3.623%	December 6-13, 2011	February 1, 2019	(2,649)	(545)
Swap	Interest Rate	Cash Flow	(a)	27,062	27,062	2.750%	December 21, 2011	September 30, 2017	(253)	(311)
Swap	Interest Rate	Cash Flow	(a), (b)	—	77,000	2.703%	December 9-13, 2011	February 1, 2016	—	(887)
Swap	Interest Rate	Cash Flow	(a), (b)	—	50,000	2.470%	December 13, 2011	February 1, 2015	—	(283)
Swap	Interest Rate	Cash Flow	(a), (b)	—	23,000	2.513%	December 7-12, 2011	May 1, 2015	—	(162)
				<u>\$ 278,610</u>	<u>\$ 428,610</u>				<u>\$ (3,490)</u>	<u>\$ (1,421)</u>

(a) Hedging unsecured variable rate debt.

(b) On September 16, 2014, the Company repaid the entire \$150.0 million swapped to fixed portion of its previously mentioned three-year term loan (See Note 7, "Debt Obligations"), consisting of \$150.0 million interest rate swaps maturing through February 1, 2016 (shown above). In connection with the repayment, the Company terminated associated hedging contracts, incurring a \$0.8 million charge upon termination.

The Company measures its derivative instruments at fair value and records them in the balance sheet as either an asset or liability. As of December 31, 2014, all interest rate swaps are included in other liabilities on the Company's consolidated balance sheet.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

#### Concentration of Credit Risk

Concentrations of credit risk arise for the Company when multiple tenants of the Company are engaged in similar business activities, or are located in the same geographic region, or have similar economic features that impact in a similar manner their ability to meet contractual obligations, including those to the Company. The Company regularly monitors its tenant base to assess potential concentrations of credit risk. Management believes the current credit risk portfolio is reasonably well diversified and does not contain an unusual concentration of credit risk. No tenant accounted for 10% or more of the Company's rents during 2014, 2013 and 2012. Conditions in the general economy and the global credit markets have had a significant adverse effect on numerous industries. The Company has tenants concentrated in various industries that may be experiencing adverse effects from the current economic conditions and the Company could be adversely affected if such tenants were to default under their leases.

#### **10. DISCONTINUED OPERATIONS**

The Company had no property dispositions classified as discontinued operations during the year ended December 31, 2014. There was nominal income before gain on sales recognized during 2014 relating to properties classified into discontinued operations in prior periods and a \$0.9 million gain relating to the post closing activity for the sale of the Princeton Pike Corporate Center completed in the first quarter of 2013.

For the years ended December 31, 2014, 2013 and 2012, income from discontinued operations relates to an aggregate of 28 properties containing approximately 2.0 million net rentable square feet that the Company has sold since January 1, 2012.

The following table summarizes revenue and expense information for the properties sold which qualify for discontinued operations reporting since January 1, 2012 (in thousands):

	Years ended December 31,		
	2014	2013	2012
<b>Revenue:</b>			
Rents	\$ —	\$ 4,754	\$ 28,678
Tenant reimbursements	26	355	2,353
Termination fees	—	—	11
Other	—	123	378
Total revenue	26	5,232	31,420
<b>Expenses:</b>			
Property operating expenses	8	1,839	8,687
Real estate taxes	—	649	3,468
Depreciation and amortization	—	1,921	10,208
Total operating expenses	8	4,409	22,363
<b>Other income:</b>			
Interest income	—	2	7
Income from discontinued operations before gain on sale of interests in real estate	18	825	9,064
Net gain on disposition of discontinued operations	900	3,382	34,774
Income from discontinued operations	\$ 918	\$ 4,207	\$ 43,838

Discontinued operations have not been segregated in the consolidated statements of cash flows. Therefore, amounts for certain captions will not agree with respective data in the consolidated statements of operations.

#### **11. LIMITED PARTNERS' NON-CONTROLLING INTERESTS IN THE PARENT COMPANY**

Non-controlling interests in the Parent Company's financial statements relate to redeemable common limited partnership interests in the Operating Partnership held by parties other than the Parent Company and properties which are consolidated but not wholly owned.

##### *Operating Partnership*

The aggregate book value of the non-controlling interests associated with the redeemable common limited partnership interests that were consolidated in the accompanying consolidated balance sheet of the Parent Company as of December 31, 2014 and December 31, 2013, was \$17.5 million and \$20.3 million, respectively. Under the applicable accounting guidance, the redemption value of limited partnership units are carried at, on a limited partner basis, the greater of historical cost adjusted for the allocation of income and distributions or fair value. The Parent Company believes that the aggregate settlement value of these interests (based on the number of units outstanding and the closing price of the common shares on the balance sheet date) was approximately \$24.5 million and \$24.8 million, respectively, as of December 31, 2014 and December 31, 2013.

## 12. BENEFICIARIES' EQUITY OF THE PARENT COMPANY

### *Earnings per Share (EPS)*

The following tables detail the number of shares and net income used to calculate basic and diluted earnings per share (in thousands, except share and per share amounts; results may not add due to rounding):

	Year ended December 31,					
	2014		2013		2012	
	Basic	Diluted	Basic	Diluted	Basic	Diluted
<b>Numerator</b>						
Income (loss) from continuing operations	\$ 6,024	\$ 6,024	\$ 38,982	\$ 38,982	\$ (37,309)	\$ (37,309)

Net (income) loss from continuing operations attributable to non-controlling interests	(1)	(1)	(357)	(357)	863	863
Amount allocable to unvested restricted shareholders	(349)	(349)	(363)	(363)	(376)	(376)
Preferred share dividends	(6,900)	(6,900)	(6,900)	(6,900)	(10,405)	(10,405)
Preferred share redemption charge	—	—	—	—	(4,052)	(4,052)
Income (loss) from continuing operations available to common shareholders	(1,182)	(1,182)	31,362	31,362	(51,279)	(51,279)
Income from discontinued operations	918	918	4,207	4,207	43,838	43,838
Discontinued operations attributable to non-controlling interests	(10)	(10)	(55)	(55)	(797)	(797)
Discontinued operations attributable to common shareholders	908	908	4,152	4,152	43,041	43,041
Net income (loss) attributable to common shareholders	\$ (274)	\$ (274)	\$ 35,514	\$ 35,514	\$ (8,238)	\$ (8,238)
<b>Denominator</b>						
Weighted-average shares outstanding	166,202,649	166,202,649	153,140,458	153,140,458	143,257,097	143,257,097
Contingent securities/Share based compensation	—	—	—	1,273,853	—	—
Total weighted-average shares outstanding	166,202,649	166,202,649	153,140,458	154,414,311	143,257,097	143,257,097
Earnings per Common Share:						
Income (loss) from continuing operations attributable to common shareholders	\$ (0.01)	\$ (0.01)	\$ 0.20	\$ 0.20	\$ (0.36)	\$ (0.36)
Discontinued operations attributable to common shareholders	0.01	0.01	0.03	0.03	0.30	0.30
Net income (loss) attributable to common shareholders	\$ —	\$ —	\$ 0.23	\$ 0.23	\$ (0.06)	\$ (0.06)

The contingent securities/share based compensation impact is calculated using the treasury stock method and relates to employee awards settled in shares of the Parent Company. The effect of these securities is anti-dilutive for periods that the Parent Company incurs a net loss from continuing operations available to common shareholders and therefore is excluded from the dilutive earnings per share calculation in such periods.

Redeemable common limited partnership units, totaling 1,535,102 in 2014, 1,763,739 in 2013, and 1,845,737 in 2012, were excluded from the diluted earnings per share computations because they are not dilutive.

Unvested restricted shares are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per share. For the years ended December 31, 2014, 2013 and 2012, earnings representing nonforfeitable dividends were allocated to the unvested restricted shares issued to the Company's executives and other employees under the 1997 Plan.

### Common and Preferred Shares

On December 9, 2014, the Parent Company declared a distribution of \$0.15 per common share, totaling \$27.2 million, which was paid on January 20, 2015 to shareholders of record as of January 6, 2015. On December 9, 2014, the Parent Company declared distributions on its Series E Preferred Shares to holders of record as of December 30, 2014. These shares are entitled to a preferential return of 6.90% per annum on the \$25.00 per share liquidation preference. Distributions paid on January 15, 2015 to holders of Series E Preferred Shares totaled \$1.7 million.

On August 1, 2014, the Parent Company completed an underwritten offering of 21,850,000 common shares. The Parent Company contributed the net proceeds from the sale of the common shares, amounting to \$335.0 million after deducting underwriting discounts and commissions and other offering expenses, to the Operating Partnership in exchange for partnership units of the Operating Partnership. The Operating Partnership intends to use the net proceeds for working capital, capital expenditures and other general corporate purposes, which may include acquisitions, developments and the repayment, repurchase and refinancing of debt.

On November 5, 2013, the Parent Company commenced a continuous equity offering program (the "Offering Program"), under which it may sell, in at-the-market offerings, up to an aggregate amount of 16,000,000 common shares until November 5, 2016. This Offering Program replaced a prior continuous equity offering program which expired on March 10, 2013. The Parent Company may sell common shares in amounts and at times to be determined by the Parent Company. Actual sales will depend on a variety of factors to be determined by the Parent Company, including, among others, market conditions, the trading price of the Company's common shares of beneficial interest and determinations by the Parent Company of the appropriate sources of funding. In conjunction with the Offering Program, the Parent Company engages sales agents who receive compensation, in aggregate, of up to 2% of the gross sales price per share sold. From inception of the Offering Program through December 31, 2014, the Parent Company has not sold any shares under the program, resulting in 16,000,000 remaining shares available for sale.

On April 10, 2013, the Parent Company closed a public offering of 12,650,000 common shares, inclusive of 1,650,000 common shares issued upon exercise by the underwriters of the option granted to them to purchase additional shares. The Parent Company contributed the net proceeds from the sale of shares, amounting to \$181.5 million after deducting underwriting discounts and commissions and other offering expenses, to the Operating Partnership in exchange for partnership units of the Operating Partnership. The Operating Partnership continues to use the net proceeds for working capital, capital expenditures and other general corporate purposes, which may include acquisitions, developments and the repayment, repurchase and refinancing of debt.

### Common Share Repurchases

The Parent Company maintains a share repurchase program under which it may repurchase its common shares from time to time in accordance with limits set by the Board of Trustees.

The Parent Company did not repurchase any shares under the share repurchase program during the year-ended December 31, 2014. As of December 31, 2014, the Parent Company may purchase an additional 539,200 shares under the program.

Repurchases may be made from time to time in the open market or in privately negotiated transactions, subject to market conditions and compliance with legal requirements. The share repurchase program does not contain any time limitation and does not obligate the Parent Company to repurchase any shares. The Parent Company may discontinue the program at any time.

### 13. PARTNERS' EQUITY OF THE OPERATING PARTNERSHIP

#### Earnings per Common Partnership Unit

The following tables detail the number of units and net income used to calculate basic and diluted earnings per common partnership unit (in thousands, except unit and per unit amounts; results may not add due to rounding):

	Year ended December 31,					
	2014		2013		2012	
	Basic	Diluted	Basic	Diluted	Basic	Diluted
<b>Numerator</b>						
Income (loss) from continuing operations	\$ 6,024	\$ 6,024	\$ 38,982	\$ 38,982	\$ (37,309)	\$ (37,309)
Amount allocable to unvested restricted unitholders	(349)	(349)	(363)	(363)	(376)	(376)
Preferred unit dividends	(6,900)	(6,900)	(6,900)	(6,900)	(10,405)	(10,405)
Net loss attributable to non-controlling interests	44	44	—	—	—	—
Preferred unit redemption charge	—	—	—	—	(4,052)	(4,052)
Income (loss) from continuing operations available to common unitholders	(1,181)	(1,181)	31,719	31,719	(52,142)	(52,142)
Discontinued operations attributable to common unitholders	918	918	4,207	4,207	43,838	43,838
Net income (loss) attributable to common unitholders	\$ (263)	\$ (263)	\$ 35,926	\$ 35,926	\$ (8,304)	\$ (8,304)
<b>Denominator</b>						
Weighted-average units outstanding	167,942,246	167,942,246	154,929,545	154,929,545	145,883,217	145,883,217
Contingent securities/Unit based compensation	—	—	—	1,273,853	—	—
Total weighted-average units outstanding	167,942,246	167,942,246	154,929,545	156,203,398	145,883,217	145,883,217
<b>Earnings per Common Partnership Unit:</b>						
Income (loss) from continuing operations attributable to common unitholders	\$ (0.01)	\$ (0.01)	\$ 0.20	\$ 0.20	\$ (0.36)	\$ (0.36)
Discontinued operations attributable to common unitholders	0.01	0.01	0.03	0.03	0.30	0.30
Net income (loss) attributable to common unitholders	\$ —	\$ —	\$ 0.23	\$ 0.23	\$ (0.06)	\$ (0.06)

Unvested restricted units are considered participating securities which require the use of the two-class method for the computation of basic and diluted earnings per unit. For the years ended December 31, 2014, 2013 and 2012, earnings representing nonforfeitable dividends were allocated to the unvested restricted units issued to the Parent Company's executives and other employees under the Parent Company's shareholder-approved long-term incentive plan.

#### Common Partnership Units and Preferred Mirror Units

The Operating Partnership issues partnership units to the Parent Company in exchange for the contribution of the net proceeds of any equity security issuance by the Parent Company. The number and terms of such partnership units correspond to the number and terms of the related equity securities issued by the Parent Company. In addition, the Operating Partnership may also issue separate classes of partnership units. Historically, the Operating Partnership has had the following types of partnership units outstanding (i) Preferred Partnership Units which have been issued to parties other than the Parent Company (ii) Preferred Mirror Partnership Units which have been issued to the Parent Company and (iii) Common Partnership Units which include both interests held by the Parent Company and those held by other limited partners.

#### Preferred Mirror Partnership Units

In exchange for the proceeds received in corresponding offerings by the Parent Company of preferred units of beneficial interest, the Operating Partnership has issued to the Parent Company a corresponding amount of Preferred Mirror Partnership Units with terms consistent with that of the preferred securities issued by the Parent Company.

### Common Partnership Units (Redeemable and General)

The Operating Partnership has two classes of Common Partnership Units: (i) Class A Limited Partnership Interest which are held by both the Parent Company and outside third parties and (ii) General Partnership Interests which are held by the Parent Company (collectively, the Class A Limited Partnership Interest, and General Partnership Interests are referred to as "Common Partnership Units"). The holders of the Common Partnership Units are entitled to share in cash distributions from, and in profits and losses of, the Operating Partnership, in proportion to their respective percentage interests, subject to preferential distributions on the preferred mirror units and the preferred units.

The Common Partnership Units held by the Parent Company (comprised of both General Partnership Units and Class A Limited Partnership Units) are presented as partner's equity in the consolidated financial statements. Class A Limited Partnership Interest held by parties other than the Parent Company are redeemable at the option of the holder for a like number of common shares of the Parent Company, or cash, or a combination thereof, at the election of the Parent Company. Because the form of settlement of these redemption rights are not within the control of the Operating Partnership, these Common Partnership Units have been excluded from partner's equity and are presented as redeemable limited partnership units measured at the potential cash redemption value as of the end of the periods presented based on the closing market price of the Parent Company's common shares at December 31, 2014, 2013 and 2012, which was \$15.98, \$14.09, \$12.19, respectively. As of December 31, 2014 and 2013, 1,535,102 and 1,763,739 of Class A Units, respectively, were outstanding and owned by outside limited partners of the Operating Partnership.

On December 9, 2014, the Operating Partnership declared a distribution of \$0.15 per common unit, totaling \$27.2 million, which was paid on January 20, 2015 to unitholders of record as of January 6, 2015. On December 9, 2014, the Operating Partnership declared distributions on its Series E Preferred Units to holders of record as of December 30, 2014. These units are entitled to a preferential return of 6.90% per annum on the \$25.00 per share liquidation preference. Distributions paid on January 15, 2015 to holders of Series E Preferred Shares totaled \$1.7 million.

On November 5, 2013, the Parent Company commenced a continuous equity offering program (the "Offering Program"), under which it may sell, in at-the-market offerings, up to an aggregate amount of 16,000,000 common shares until November 5, 2013. This Offering Program replaced a prior continuous equity offering program which expired on March 10, 2013. The Parent Company may sell common shares in amounts and at times to be determined by the Parent Company. Actual sales will depend on a variety of factors to be determined by the Parent Company, including, among others, market conditions, the trading price of the Company's common shares of beneficial interest and determinations by the Parent Company of the appropriate sources of funding. In conjunction with the Offering Program, the Parent Company engages sales agents who receive compensation, in aggregate, of up to 2% of the gross sales price per share sold. From inception of the Offering Program through December 31, 2014 the Parent Company has not sold any shares under the program, resulting in 16,000,000 remaining shares available for sale. Generally, the Parent Company contributes the net proceeds from the sales to the Operating Partnership, which the Operating Partnership in turn uses for general corporate purposes.

### Common Unit Repurchases

The Parent Company did not repurchase any shares under its share repurchase program during the year-ended December 31, 2014 and accordingly, during the year-ended December 31, 2014, the Operating Partnership did not repurchase any units in connection with the Parent Company's share repurchase program.

## **14. SHARE BASED COMPENSATION, 401(k) PLAN AND DEFERRED COMPENSATION**

### Stock Options

At December 31, 2014, options exercisable for 2,684,795 common shares were outstanding under the Parent Company's shareholder approved equity incentive plan (referred to as the "Equity Incentive Plan"). During the year ended December 31, 2014, the Company recognized compensation expense related to unvested options that was nominal. For the years ended December 31, 2013 and 2012, the Company recognized compensation expense related to unvested options of \$0.7 million, and \$1.6 million, respectively. During the year ended December 31, 2014, the Company also capitalized a nominal amount of compensation expense as part of the Company's review of employee salaries eligible for capitalization. For the years ended December 31, 2013 and 2012, the Company capitalized \$0.1 million and \$0.5 million, respectively.

Option activity as of December 31, 2014 and changes during the year-ended December 31, 2014 were as follows:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding at January 1, 2014	2,983,569	\$ 15.50	5.15	\$ —
Exercised	(184,116)	\$ 11.65		671,008
Forfeited/Expired	(114,658)	\$ 20.61		
Outstanding at December 31, 2014	2,684,795	\$ 15.55	4.10	\$ 1,152,891
Vested/Exercisable at December 31, 2014	2,684,795	\$ 15.55	4.10	\$ 1,152,891

#### 401(k) Plan

The Company sponsors a 401(k) defined contribution plan for its employees. Each employee may contribute up to 100% of annual compensation, subject to specific limitations under the Internal Revenue Code. At its discretion, the Company can make matching contributions equal to a percentage of the employee's elective contribution and profit sharing contributions. Employees automatically vest in employer contributions. The Company contributions were \$0.4 million in each of 2014, 2013 and 2012.

#### Restricted Share Awards

As of December 31, 2014, 540,066 restricted shares were outstanding under the Equity Incentive Plan and vest over three years from the initial grant dates. The remaining compensation expense to be recognized at December 31, 2014 was approximately \$2.4 million, and is expected to be recognized over a weighted average remaining vesting period of 1.4 years. During 2014, the Company recognized compensation expense related to outstanding restricted shares of \$2.7 million, of which \$0.6 million was capitalized as part of the Company's review of employee salaries eligible for capitalization. For the years ended December 31, 2013 and 2012, the Company recognized \$3.2 million (of which \$0.6 million was capitalized) and \$3.4 million (of which \$0.9 million was capitalized), respectively, of compensation expense included in general and administrative expense in the respective periods related to outstanding restricted shares.

The following table summarizes the Company's restricted share activity during the year-ended December 31, 2014:

	Shares	Weighted Average Grant Date Fair value
Non-vested at January 1, 2014	563,713	\$ 12.56
Granted	229,119	14.47
Vested	(234,169)	13.44
Forfeited	(18,597)	12.67
Non-vested at December 31, 2014	540,066	\$ 12.21

On March 11, 2014 and March 12, 2014, the Compensation Committee of the Company's Board of Trustees awarded restricted shares, of which 131,641 cliff vest after three years from the grant date. Of these shares, 2,396 were canceled, leaving 129,245 unvested as of December 31, 2014. The remaining 69,794 shares vest ratably over three years, of which 3,839 were canceled, leaving 65,955 unvested. In addition, on May 29, 2014, 27,684 restricted shares were granted and will vest ratably over three years. Restricted shares that cliff vest are subject to acceleration upon a change in control or if the recipient of the award were to die, become disabled or, in certain cases, retire in a qualifying retirement. Qualifying retirement generally means the recipient's voluntary termination of employment after reaching at least age 57 and accumulating at least 15 years of service with the Company. In accordance with the accounting standard for stock-based compensation, the Company amortizes stock-based compensation costs through the qualifying retirement dates for those executives who meet the conditions for qualifying retirement during the scheduled vesting period.

Restricted Performance Share Units Plan

The Compensation Committee of the Parent Company's Board of Trustees has granted performance share-based awards (referred to as Restricted Performance Share Units, or RPSUs) to officers of the Parent Company. The RPSUs are settled in common shares, with the number of common shares issuable in settlement determined based on the Company's total shareholder return over specified measurement periods compared to total shareholder returns of comparative groups over the measurement periods. The table below presents certain information as to RPSU awards.

	<b>RPSU Grant</b>				
	<b>3/1/2012</b>	<b>2/25/2013</b>	<b>3/11/2014</b>	<b>3/12/2014</b>	<b>Total</b>
<i>(Amounts below in shares, unless otherwise noted)</i>					
Non-vested at January 1, 2014	242,122	231,093	—	—	473,215
Units Granted	—	—	134,284	61,720	196,004
Units Canceled	(34,739)	(31,516)	(3,567)	—	(69,822)
Non-vested at December 31, 2014	<u>207,383</u>	<u>199,577</u>	<u>130,717</u>	<u>61,720</u>	<u>599,397</u>
Measurement Period Commencement Date	1/1/2012	1/1/2013	1/1/2014	1/1/2014	
Measurement Period End Date	12/31/2014	12/31/2015	12/31/2016	12/31/2016	
Units Granted	265,222	231,093	134,284	61,720	
Fair Value of Units on Grant Date (in thousands)	\$ 4,273	\$ 4,137	\$ 2,624	\$ 1,225	

The Company values each RPSU on its grant date using a Monte Carlo simulation. The fair values of each award are being amortized over the three year cliff vesting period. The vesting of RPSUs is subject to acceleration upon a change in control or if the recipient of the award were to die, become disabled or retire in a qualifying retirement prior to the vesting date. In accordance with the accounting standard for stock-based compensation, the Company amortizes stock-based compensation costs through the qualifying retirement date for those executives who meet the conditions for qualifying retirement during the schedule vesting period.

For the year ended December 31, 2014, the Company recognized total compensation expense for the 2014, 2013 and 2012 RPSU awards of \$3.2 million, of which \$1.1 million was capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation. For the year ended December 31, 2013, the Company recognized total compensation expense for the 2013, 2012 and 2011 RPSU awards of \$4.4 million, of which \$0.8 million was capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation. For the year ended December 31, 2012, the Company recognized total compensation expense for the 2012, 2011 and 2010 RPSU awards of \$3.5 million, of which \$1.2 million was capitalized consistent with the Company's policies for capitalizing eligible portions of employee compensation.

The remaining compensation expense to be recognized at December 31, 2014 was approximately \$2.1 million, and is expected to be recognized over a weighted average remaining vesting period of 1.0 year.

The Company issued 150,829 common shares on March 1, 2014 in settlement of RPSUs that had been awarded on March 2, 2011 (with a three-year measurement period ended December 31, 2013). Holders of these RPSUs also received a cash dividend of \$0.15 per share for these common shares on February 7, 2014.

Employee Share Purchase Plan

The Parent Company's shareholders approved the 2007 Non-Qualified Employee Share Purchase Plan (the "ESPP"), which is intended to provide eligible employees with a convenient means to purchase common shares of the Parent Company through payroll deductions and voluntary cash purchases at an amount equal to 85% of the average closing price per share for a specified period. Under the plan document, the maximum participant contribution for the 2014 plan year is limited to the lesser of 20% of compensation or \$50,000. The ESPP allows the Parent Company to make open market purchases, which reflects all purchases made under the plan to date. In addition, the number of shares separately reserved for issuance under the ESPP is 1.25 million. During the year-ended December 31, 2014, 2013 and 2012, employees made purchases under the ESPP of \$0.4 million and the Company recognized \$0.1 million of compensation expense related to the ESPP. Compensation expense represents the 15% discount on the purchase price. The Board of Trustees of the Parent Company may terminate the ESPP at its sole discretion at any time.

## Deferred Compensation

In January 2005, the Parent Company adopted a Deferred Compensation Plan (the “Plan”) that allows trustees and certain key employees to voluntarily defer compensation. Compensation expense is recorded for the deferred compensation and a related liability is recognized. Participants may elect designated benchmark investment options for the notional investment of their deferred compensation. The deferred compensation obligation is adjusted for deemed income or loss related to the investments selected. At the time the participants defer compensation, the Company records a liability, which is included in the Company’s consolidated balance sheet. The liability is adjusted for changes in the market value of the participant-selected investments at the end of each accounting period, and the impact of adjusting the liability is recorded as an increase or decrease to compensation cost.

The Company has purchased mutual funds which can be utilized as a funding source for the Company’s obligations under the Plan. Participants in the Plan have no interest in any assets set aside by the Company to meet its obligations under the Plan. For the year ended December 31, 2014, the Company recorded a nominal amount of deferred compensation costs, net of investments in the company-owned policies and mutual funds. For the years ended December 31, 2013 and 2012 the Company recorded net increases in compensation costs of \$0.2 million and \$0.3 million, respectively, net of investments in the company-owned policies and mutual funds.

Participants in the Plan may elect to have all or a portion of their deferred compensation invested in the Company’s common shares. The Company holds these shares in a rabbi trust, which is subject to the claims of the Company’s creditors in the event of the Company’s bankruptcy or insolvency. The Plan does not permit diversification of a participant’s deferral allocated to the Company common shares and deferrals allocated to Company common shares can only be settled with a fixed number of shares. In accordance with the accounting standard for deferred compensation arrangements where amounts earned are held in a rabbi trust and invested, the deferred compensation obligation associated with the Company’s common shares is classified as a component of shareholder’s equity and the related shares are treated as shares to be issued and are included in total shares outstanding. At December 31, 2014 and 2013, 0.4 million and 0.3 million of such shares, respectively, were included in total shares outstanding. Subsequent changes in the fair value of the common shares are not reflected in operations or shareholders’ equity of the Company.

## **16. TAX CREDIT TRANSACTIONS**

### Historic Tax Credit Transaction

On November 17, 2008, the Company closed a transaction with US Bancorp (“USB”) related to the historic rehabilitation of the IRS Philadelphia Campus, a 862,692 square foot office building that is 100% leased to the IRS. On August 27, 2010, the Company completed the development of the IRS Philadelphia Campus and the IRS lease commenced. In connection with this completed development project, USB contributed to the Company \$64.1 million of total project costs.

In exchange for its contributions to the development of the IRS Philadelphia Campus, USB is entitled to substantially all of the benefits derived from the tax rehabilitation credits available under section 47 of the Internal Revenue Code. USB does not have a material interest in the underlying economics of the property. This transaction includes a put/call provision whereby the Company may be obligated or entitled to repurchase USB’s interest in the IRS Philadelphia Campus. The Company believes the put will be

exercised and the amount attributed to that puttable non-controlling interest obligation is included in other liabilities and is being accreted to the expected fixed put price.

Based on the contractual arrangements that obligate the Company to deliver tax benefits and provide other guarantees to USB and that entitle the Company through fee arrangements to receive substantially all available cash flow from the IRS Philadelphia Campus, the Company concluded that the IRS Philadelphia Campus should be consolidated. The Company also concluded that capital contributions received from USB, in substance, are consideration that the Company receives in exchange for its obligation to deliver tax credits and other tax benefits to USB. These receipts other than the amounts allocated to the put obligation will be recognized as revenue in the consolidated financial statements beginning when the obligation to USB is relieved which occurs upon delivery of the expected tax benefits net of any associated costs. The tax credit is subject to 20% recapture per year beginning one year after the completion of the IRS Philadelphia Campus. The total remaining USB contributions presented within the Company's consolidated balance sheet amounted to \$15.1 million as of December 31, 2014 and \$26.8 million as of December 31, 2013. The contributions were recorded net of the amounts allocated to non-controlling interest for 2014 and 2013, as described above, of \$3.0 million and \$2.8 million at the end of the years ended December 31, 2014 and December 31, 2013, respectively, with the remaining balance being presented within deferred income. Beginning in September 2011 to September 2015, the Company recognized and will recognize the cash received as revenue net of allocated expenses over the five year credit recapture period as defined in the Internal Revenue Code within other income (expense) in its consolidated statements of operations. During the years-ended December 31, 2014 and 2013, the Company recognized \$11.9 million of the cash received as revenue, net of \$0.5 million of allocated expenses within other income (expense) in its consolidated statements of operations.

Direct and incremental costs incurred in structuring the transaction are deferred and will be recognized as expense in the consolidated financial statements upon the recognition of the related revenue as discussed above. The deferred costs at December 31, 2014 and December 31, 2013 are \$0.5 million and \$1.0 million, respectively, and are included in other assets in the Company's consolidated balance sheet. Amounts included in interest expense related to the accretion of the non-controlling interest liability and the 2% return expected to be paid to USB on its non-controlling interest aggregates to \$1.4 million, for the years ended December 31, 2014 and 2013, respectively, and \$1.3 million for the year ended December 31, 2012.

#### New Markets Tax Credit Transaction

On December 30, 2008, the Company entered into a transaction with USB related to the Cira South Garage in Philadelphia, Pennsylvania and expects to receive a net benefit of \$8.0 million under a qualified New Markets Tax Credit Program ("NMTC"). The NMTC was provided for in the Community Renewal Tax Relief Act of 2000 (the "Act") and is intended to induce investment capital in under-served and impoverished areas of the United States. The Act permits taxpayers (whether companies or individuals) to claim credits against their Federal income taxes for up to 39% of qualified investments in qualified, active low-income businesses or ventures.

USB contributed \$13.3 million into the development of the Cira South Garage and as such it is entitled to substantially all of the benefits derived from the tax credit, but it does not have a material interest in the underlying economics of the Cira South Garage. This transaction also includes a put/call provision whereby the Company may be obligated or entitled to repurchase USB's interest. The Company believes the put will be exercised and an amount attributed to that obligation is included in other liabilities and is being accreted to the expected fixed put price. The said put price is insignificant.

Based on the contractual arrangements that obligate the Company to deliver tax benefits and provide various other guarantees to USB, the Company concluded that the investment entities established to facilitate the NMTC transaction should be consolidated. The USB contribution of \$13.3 million is included in deferred income on the Company's consolidated balance sheets at each of the years ended December 31, 2014 and December 31, 2013. The USB contribution other than the amount allocated to the put obligation will be recognized as income in the consolidated financial statements when the tax benefits are delivered without risk of recapture to the tax credit investors and the Company's obligation is relieved. The Company anticipates that it will recognize the net cash received as revenue within other income/expense in the year ended December 31, 2015. The NMTC is subject to 100% recapture for a period of seven years as provided in the Internal Revenue Code. The Company expects that the put/call provision will be exercised in 2017.

Direct and incremental costs incurred in structuring the transaction are deferred and will be recognized as expense in the consolidated financial statements upon the recognition of the related revenue as discussed above. The deferred cost at each of the years ended December 31, 2014 and December 31, 2013 is \$5.3 million, and is included in other assets in the Company's consolidated balance sheet.

**17. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)**

The following table details the components of accumulated other comprehensive income (loss) of the Parent Company and the Operating Partnership as of and for the three years ended December 31, 2014 (in thousands):

<i>Parent Company</i>	Cash Flow Hedges
Balance at January 1, 2012	\$ (6,079)
Change during year	(7,338)
Non-controlling interest — consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments	187
Settlement of interest rate swaps	(2,985)
Reclassification adjustments for (gains)/losses reclassified into operations	297
Balance at December 31, 2012	\$ (15,918)
Change during year	12,789
Non-controlling interest — consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments	(152)
Reclassification adjustments for (gains)/losses reclassified into operations	286
Balance at December 31, 2013	\$ (2,995)
Change during year	(1,190)
Non-controlling interest — consolidated real estate venture partner's share of unrealized (gains)/losses on derivative financial instruments	18
Settlement of interest rate swaps	(828)
Reclassification adjustments for (gains)/losses reclassified into operations	388
Balance at December 31, 2014	<u>\$ (4,607)</u>
<i>Operating Partnership</i>	Cash Flow Hedges
Balance at January 1, 2012	\$ (6,426)
Change during year	(7,338)
Reclassification adjustments for (gains)/losses reclassified into operations	297
Settlement of interest rate swaps	(2,985)
Balance at December 31, 2012	\$ (16,452)
Change during year	12,789
Reclassification adjustments for (gains)/losses reclassified into operations	286
Balance at December 31, 2013	\$ (3,377)
Change during year	(1,190)
Settlement of interest rate swaps	(828)
Reclassification adjustments for (gains)/losses reclassified into operations	388
Balance at December 31, 2014	<u>\$ (5,007)</u>

Over time, the unrealized gains and losses held in Accumulated Other Comprehensive Income ("AOCI") will be reclassified to interest expense when the related hedged items are recognized in earnings. The current balance held in AOCI is expected to be

reclassified to interest expense for realized losses on forecasted debt transactions over the related term of the debt obligation, as applicable.

## 18. SEGMENT INFORMATION

During the year ended December 31, 2014, the Company was managing its portfolio within seven segments: (1) Pennsylvania, (2) Philadelphia Central Business District (CBD), (3) Metropolitan Washington, D.C., (4) New Jersey/Delaware, (5) Richmond, Virginia, (6) Austin, Texas and (7) California. The Pennsylvania segment includes properties in Chester, Delaware, and Montgomery counties in the Philadelphia suburbs. The Philadelphia CBD segment includes properties located in the City of Philadelphia in Pennsylvania. The Metropolitan Washington, D.C. segment includes properties in Northern Virginia and southern Maryland. The New Jersey/Delaware segment includes properties in Burlington and Camden counties in New Jersey and in New Castle county in the state of Delaware. The Richmond, Virginia segment includes properties primarily in Albemarle, Chesterfield, Goochland and Henrico counties and one property in Durham, North Carolina. The Austin, Texas segment includes properties in Austin. On April 3, 2014, the Company contributed Four Points Centre to the Austin Venture. After contributing this property, the Company does not wholly own any operating properties in Austin, Texas (For additional information, see Note 4, "Investment In Unconsolidated Ventures"). The California segment includes properties in Oakland, Concord, and Carlsbad. The corporate group is responsible for cash and investment management, development of certain real estate properties during the construction period, and certain other general support functions. Land held for development and construction in progress are transferred to operating properties by region upon completion of the associated construction or project.

The following tables provide selected asset information and results of operations of the Company's reportable segments for the three years ended December 31, 2014, 2013 and 2012 (in thousands):

### Real estate investments, at cost:

	December 31, 2014		December 31, 2013		December 31, 2012	
Philadelphia CBD (a)	\$	1,338,655	\$	1,300,666	\$	988,590
Pennsylvania Suburbs		1,178,470		1,199,105		1,178,730

New Jersey/Delaware		392,581		414,716		546,644
Richmond, Virginia		317,076		310,397		309,923
California		193,258		192,584		223,736
Austin, Texas (b)		—		36,856		285,346
	\$	4,603,692	\$	4,669,289	\$	4,726,169
Assets held for sale (c)		27,436		—		—
Operating Properties	\$	4,631,128	\$	4,669,289	\$	4,726,169
Corporate						
Construction-in-progress	\$	201,360	\$	74,174	\$	48,950
Land inventory	\$	90,603	\$	93,351	\$	102,439

(a) On December 19, 2013, the Company acquired 99% of the common interests in the One and Two Common Square partnerships. See Note 3, "Real Estate Investments," for further information on the acquisition.

(b) On April 3, 2014, the Company contributed two three-story, Class A office buildings, containing an aggregate of 192,396 net rentable square feet, known as Four Points Centre in Austin, Texas to the Austin Venture. See Note 3, "Real Estate Investments," for further information on the contribution.

F- 57

(c) On December 31, 2014, the Company was actively marketing for sale of its Atrium I and Libertyview properties, comprised of two office properties located in the New Jersey/Delaware segment. As of December 31, 2014 the properties were classified as held for sale on the consolidated balance sheet. See Note 3, "Real Estate Investments," for further information. The sale is not classified as a significant disposition under the accounting guidance for discontinued operations. Accordingly, the real estate investments remained in the New Jersey/Delaware segment as of December 31, 2014.

	Years ended

- (a) On April 3, 2014, the Company contributed two three-story, Class A office buildings, containing an aggregate of 192,396 net rentable square feet, known as Four Points Centre in Austin, Texas to the Austin Venture. See Note 3, "Real Estate Investments," for further information on the contribution. Accordingly, the Company's 50% interest in the financial results of this property for the period subsequent to April 3, 2014 is reported as a component of 'Equity in income (loss) of real estate ventures' in the Company's consolidated statements of operations and, as a result, no longer included as a component of net operating income.
- (b) Includes property operating expense, real estate taxes and third party management expense.

- (a) During the fourth quarter of 2014, the Company made an additional \$5.2 million capital contribution to 1919 Ventures. See Note 4, "Investment In Unconsolidated Ventures," for further information on this transaction.
- (b) Investment in real estate ventures does not include the \$1.2 million negative investment balance in one real estate venture as of December 31, 2014, which is included in other liabilities.

- (c) On April 3, 2014, the Company contributed Four Points Centre to an unconsolidated real estate venture. On July 31, 2014, the Austin Venture completed the acquisition of the Crossings at Lakeline. On October 17, 2014, the Austin Venture acquired River Place. See Note 4, "Investment In Unconsolidated Ventures," for further information on these acquisitions.

Net operating income (“NOI”) is defined as total revenue less property operating expenses, real estate taxes and third party management expenses. Segment NOI includes revenue, real estate taxes and property operating expenses directly related to operation and management of the properties owned and managed within the respective geographical region. Segment NOI excludes property level depreciation and amortization, revenue and expenses directly associated with third party real estate management services, expenses associated with corporate administrative support services, and inter-company eliminations. NOI also does not reflect general and administrative expenses, interest expenses, real estate impairment losses, depreciation and amortization costs, capital expenditures and leasing costs. Trends in development and construction activities that could materially impact the Company’s results from operations are also not reflected in NOI. All companies may not calculate NOI in the same manner. NOI is the measure that is used by the Company to evaluate the operating performance of its real estate assets by segment. The Company also believes that NOI provides useful information to investors regarding its financial condition and results of operations because it reflects only those income and expenses recorded at the property level. The Company believes that net income, as defined by GAAP, is the most appropriate earnings measure. The following is a reconciliation of consolidated NOI to consolidated net income (loss), as defined by GAAP:

	Years Ended December 31,		
	2014	2013	2012
Consolidated net operating income	\$ 361,017	\$ 340,441	\$ 324,831
Less:			
Interest expense	(124,329)	(121,937)	(132,939)
Interest expense - amortization of deferred financing costs	(5,148)	(4,676)	(6,208)
Interest expense - financing obligation	(1,144)	(972)	(850)
Depreciation and amortization	(208,569)	(197,021)	(188,382)
General and administrative expenses	(26,779)	(27,628)	(25,413)
Plus:			
Interest income	3,974	1,044	3,008
Historic tax credit transaction income	11,853	11,853	11,840
Recognized hedge activity	(828)	—	(2,985)
Equity in income (loss) of real estate ventures	(790)	3,664	2,741
Net gain from remeasurement of investments in real estate ventures	458	6,866	—
Net gain on sales of interests in real estate	4,901	—	—
Net gain (loss) on sale of undepreciated real estate	1,184	(137)	—
Net (loss) gain on real estate venture transactions	(417)	29,604	(950)
Provision for impairment on assets held for sale	(1,765)	—	—
Loss on early extinguishment of debt	(7,594)	(2,119)	(22,002)
Income (loss) from continuing operations	6,024	38,982	(37,309)
Income from discontinued operations	918	4,207	43,838
Net income	\$ 6,942	\$ 43,189	\$ 6,529

## **19. OPERATING LEASES**

The Company leases properties to tenants under operating leases with various expiration dates extending to 2030. Minimum future rentals on non-cancelable leases at December 31, 2014 are as follows (in thousands):

Year	Minimum Rent
2015	\$ 461,215
2016	443,383
2017	411,288
2018	362,370
2019	315,196
Thereafter	1,515,750

Total minimum future rentals presented above do not include amounts to be received as tenant reimbursements for operating costs.

## **20. COMMITMENTS AND CONTINGENCIES**

### Legal Proceedings

The Company is involved from time to time in litigation on various matters, including disputes with tenants and disputes arising out of agreements to purchase or sell properties. Given the nature of the Company's business activities, these lawsuits are considered routine to the conduct of its business. The result of any particular lawsuit cannot be predicted, because of the very nature of litigation, the litigation process and its adversarial nature, and the jury system. The Company will establish reserves for specific legal proceedings when we determine that the likelihood of an unfavorable outcome is probable and when the amount of loss is reasonably estimable. The Company does not expect that the liabilities, if any, that may ultimately result from such legal actions will have a material adverse effect on the consolidated financial position, results of operations or cash flows of the Company.

### Letters-of-Credit

Under certain mortgages, the Company has funded required leasing and capital reserve accounts for the benefit of the mortgage lenders with letters-of-credit. There were no associated letters-of-credit at December 31, 2014 and December 31, 2013. Certain of the tenant rents at properties that secure these mortgage loans are deposited into the loan servicer's depository accounts, which are used to fund debt service, operating expenses, capital expenditures and the escrow and reserve accounts, as necessary. Any excess cash is included in cash and cash equivalents.

### Environmental

As an owner of real estate, the Company is subject to various environmental laws of federal, state, and local governments. The Company's compliance with existing laws has not had a material adverse effect on its financial condition and results of operations, and the Company does not believe it will have a material adverse effect in the future. However, the Company cannot predict the impact of unforeseen environmental contingencies or new or changed laws or regulations on its current Properties or on properties that the Company may acquire.

### Ground Rent

Future minimum rental payments under the terms of all non-cancellable ground leases under which the Company is the lessee are expensed on a straight-line basis regardless of when payments are due. The Company's ground leases have remaining lease terms ranging from 7 to 75 years. Minimum future rental payments on non-cancelable leases at December 31, 2014 are as follows (in thousands):

Year	Minimum Rent
2015	\$ 1,378
2016	1,378
2017	1,378
2018	1,378
2019	1,378
Thereafter	57,114
Total	\$ 64,004

The Company obtained ground tenancy rights related to two properties in Philadelphia, Pennsylvania, which provide for contingent rent participation by the lessor in certain capital transactions and net operating cash flows of the properties after certain returns are achieved by the Company. Such amounts, if any, will be reflected as contingent rent when incurred. The leases also provide for payment by the Company of certain operating costs relating to the land, primarily real estate taxes. The above schedule of future minimum rental payments does not include any contingent rent amounts or any reimbursed expenses.

### Other Commitments or Contingencies

As part of the Company's September 2004 acquisition of a portfolio of properties from The Rubenstein Company (which the Company refers to as the "TRC acquisition"), the Company acquired its interest in Two Logan Square, a 708,844 square foot office building in Philadelphia, primarily through its ownership of a second and third mortgage secured by this property. This property is consolidated, as the borrower is a variable interest entity and the Company, through its ownership of the second and third mortgages, is the primary beneficiary. The Company currently does not expect to take title to Two Logan Square until, at the earliest, September 2019. If the Company takes fee title to Two Logan Square upon a foreclosure of its mortgage, the Company has agreed to pay an unaffiliated third party that holds a residual interest in the fee owner of this property an amount equal to \$2.9 million. On the TRC acquisition date, the Company recorded a liability of \$0.7 million and this amount will accrete up to \$2.9 million through September 2019. As of December 31, 2014, the Company had a balance of \$1.8 million for this liability in its consolidated balance sheet.

The Company was audited by the Internal Revenue Service (the "IRS") for its 2004 tax year. The audit concerned the tax treatment of the TRC acquisition in September 2004 in which the Company acquired a portfolio of properties through the acquisition of a limited partnership. On December 17, 2010, the Company received notice that the IRS proposed an adjustment to the allocation of recourse liabilities allocated to the contributor of the properties. The Company appealed the proposed adjustment and during the second quarter of 2013 entered into a settlement agreement with the IRS which will not result in a material liability for the Company for federal income taxes. The contributor of partnership interests in the 2004 transaction has agreed not to assert a claim against the Company under the tax protection agreement entered into as part of the transaction.

As part of the Company's 2006 merger with Prentiss Properties Trust ("Prentiss"), the 2004 TRC acquisition and several of our other transactions, the Company agreed not to sell certain of the properties it acquired in transactions that would trigger taxable income to the former owners. In the case of the TRC acquisition, the Company agreed not to sell acquired properties in non-exempt transactions for periods up to 15 years from the date of the TRC acquisition as follows at December 31, 2014: One Rodney Square and 130/150/170 Radnor Financial Center (January, 2015); and One Logan Square, Two Logan Square and Radnor Corporate Center (January, 2020). In the Prentiss acquisition, the Company assumed the obligation of Prentiss not to sell Concord Airport Plaza before March, 2018. The Company's agreements generally provide that it may dispose of the subject properties only in transactions that qualify as tax-free exchanges under Section 1031 of the Internal Revenue Code or in other tax deferred transactions. If the Company were to sell a restricted property before expiration of the restricted period in a non-exempt transaction, the Company may be required to make significant payments to the parties who sold the applicable property on account of tax liabilities attributed to them. Similarly, as part of the 2013 acquisition of substantially all of the equity interests in the partnerships that own One and Two Commerce Square, the Company agreed, for the benefit of affiliates of the holder of the 1% residual ownership interest in these properties, to not sell these two properties in certain taxable transactions prior to October 20, 2021 without the holder's consent.

As part of the Company's acquisition of properties from time to time in tax-deferred transactions, the Company has agreed to provide certain of the prior owners of the acquired properties with the right to guarantee the Company's indebtedness. If the Company were to seek to repay the indebtedness guaranteed by the prior owner before the expiration of the applicable agreement, the Company would be required to provide the prior owner an opportunity to guaranty qualifying replacement debt. These debt maintenance agreements may limit the Company's ability to refinance indebtedness on terms favorable to the Company. As part of our 2013 acquisition of substantially all of the equity interests in the partnerships that own One and Two Commerce Square, the Company agreed, for the benefit of affiliates of the holder of the 1% residual ownership interest in these properties, to maintain qualifying mortgage debt through October 20, 2021, in the amounts of not less than \$125.0 million on One Commerce Square and \$100.0 million on Two Commerce Square. Similarly, the Company has agreements in place with other contributors of assets that obligate it to maintain debt available for them to guaranty.

In connection with the development of the IRS Philadelphia Campus and the Cira South Garage, during 2008, the Company entered into a historic tax credit and new markets tax credit arrangement, respectively. The Company is required to be in compliance with various laws, regulations and contractual provisions that apply to its historic and new market tax credit arrangements. Non-compliance with applicable requirements could result in projected tax benefits not being realized and therefore, require a refund to US Bancorp or a reduction of investor capital contributions, which are reported as deferred income in the Company's consolidated balance sheet, until such time as its obligation to deliver tax benefits is relieved. The remaining compliance periods for its tax credit arrangements runs through 2015. The Company does not anticipate that any material refunds or reductions of investor capital contributions will be required in connection with these arrangements.

The Company invests in its properties and regularly incurs capital expenditures in the ordinary course to maintain the properties. The Company believes that such expenditures enhance its competitiveness. The Company also enters into construction, utility and service contracts in the ordinary course of business which may extend beyond one year. These contracts typically provide for cancellation with insignificant or no cancellation penalties.

## **21. SUBSEQUENT EVENTS**

On January 30, 2015, the Austin Venture closed on a mortgage loan with a non-affiliated institutional lender, and the proceeds of this loan were applied to repay in full our \$88.0 million short-term loan related to the acquisition of River Place. See Note 4, "*Investment In Unconsolidated Ventures*," for further information regarding this acquisition.

On January 8, 2015, the Company sold two office properties known as Atrium I, which includes 99,668 square feet of rentable space located in Mt Laurel, New Jersey and Libertyview, which includes 121,737 square feet of rentable space located in Cherry Hill, New Jersey, for a total sales price of \$28.3 million resulting in a gain on sale of \$9.0 million after closing and other transaction related costs.

The Company has evaluated subsequent events through the date the financial statements were issued.

**22. SUMMARY OF QUARTERLY RESULTS (UNAUDITED)**

The following is a summary of quarterly financial information as of and for the years ended December 31, 2014 and 2013 (in thousands, except per share data):

	1st Quarter	2nd Quarter	3rd Quarter	4th Quarter
<b>2014</b>				
Total revenue	\$ 152,114	\$ 150,500	\$ 146,558	\$ 147,810
Net income (loss)	(2,245)	2,174	8,882	(1,869)
Net income (loss) allocated to Common Shares	(4,041)	385	6,967	(3,585)
Basic earnings (loss) per Common Share	\$ (0.03)	\$ —	\$ 0.04	\$ (0.02)
Diluted earnings (loss) per Common Share	\$ (0.03)	\$ —	\$ 0.04	\$ (0.02)
<b>2013</b>				
Total revenue	\$ 139,554	\$ 140,664	\$ 143,354	\$ 138,658
Net income	3,919	7,180	11,088	21,002
Net income allocated to Common Shares	2,058	5,308	9,173	18,975
Basic earnings per Common Share	\$ 0.01	\$ 0.03	\$ 0.06	\$ 0.12
Diluted earnings per Common Share	\$ 0.01	\$ 0.03	\$ 0.06	\$ 0.12

The summation of quarterly earnings per share amounts do not necessarily equal the full year amounts due to rounding. The above information was updated to reclassify amounts previously reported to reflect discontinued operations. See Note 2, "Summary Of Significant Accounting Policies," and Note 10, "Discontinued Operations."

Brandywine Realty Trust and Brandywine Operating Partnership, L.P.  
Schedule II  
Valuation and Qualifying Accounts  
(in thousands)

Description	Balance at Beginning of Year	Additions	Deductions (1)	Balance at End of Year
<b>Allowance for doubtful accounts:</b>				
Year-ended December 31, 2014	\$ 16,248	\$ 790	\$ 1,691	\$ 15,347
Year-ended December 31, 2013	\$ 16,646	\$ 1,384	\$ 1,782	\$ 16,248
Year-ended December 31, 2012	\$ 15,485	\$ 1,891	\$ 730	\$ 16,646

(1) Deductions represent amounts that the Company had fully reserved for in prior years and pursuit of collection of such amounts was ceased during the year.

(a) Excludes the effect of any net interest premium / (discount).

(b) Reconciliation of Real Estate:

The following table reconciles the real estate investments from January 1, 2012 to December 31, 2014 (in thousands):

	2014	2013	2012
Balance at beginning of year	\$ 4,669,289	\$ 4,726,169	\$ 4,793,080
Additions:			
Acquisitions	—	347,510	50,579
Capital expenditures and assets placed into service	132,149	109,740	90,619
Less:			
Dispositions	(126,471)	(474,275)	(168,408)
Retirements	(43,839)	(39,855)	(39,701)
Balance at end of year	<u>\$ 4,631,128</u>	<u>\$ 4,669,289</u>	<u>\$ 4,726,169</u>
Less:			
Assets held for sale (e)	27,436	—	—
Per consolidated balance sheet	<u>\$ 4,603,692</u>	<u>\$ 4,669,289</u>	<u>\$ 4,726,169</u>

The aggregate cost for federal income tax purposes is \$3.7 billion as of December 31, 2014.

(c) Reconciliation of Accumulated Depreciation:

The following table reconciles the accumulated depreciation on real estate investments from January 1, 2012 to December 31, 2014 (in thousands):

	2014	2013	2012
Balance at beginning of year	\$ 983,808	\$ 954,665	\$ 865,710
Additions:			
Depreciation expense — continuing operations	160,641	150,236	154,095
Depreciation expense — discontinued operations	—	9,164	2,143
Less:			
Dispositions	(22,459)	(91,890)	(28,270)
Retirements	(42,994)	(38,367)	(39,013)
Balance at end of year	<u>\$ 1,078,996</u>	<u>\$ 983,808</u>	<u>\$ 954,665</u>
Less:			
Assets held for sale (e)	(11,167)	—	—
Per consolidated balance sheet	<u>\$ 1,067,829</u>	<u>\$ 983,808</u>	<u>\$ 954,665</u>

(d) This property was contributed to an unconsolidated real estate venture, however, the Company will continue to consolidate this property due to its continuing involvement in this property resulting from its ongoing lease at this property and its 50% ownership interest in the venture. Please see Note 3, "Real Estate Investments," to the consolidated financial statements for additional information.

(e) The office properties known as Atrium I, located at 1000 Atrium Way in Mt Laurel, New Jersey and Libertyview, located 457 Haddonfield Road in Cherry Hill, New Jersey, were categorized as held for sale as of December 31, 2014. For further information see Note 3, "Real Estate Investments."

**CERTIFICATION PURSUANT TO  
RULES 13a-14(a) AND 15d-14(a) UNDER THE SECURITIES  
EXCHANGE ACT OF 1934, AS AMENDED**

I, Gerard H. Sweeney, certify that:

1. I have reviewed this annual report on Form 10-K of Brandywine Realty Trust;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15(d)-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

## MATERIAL FEDERAL INCOME TAX CONSIDERATIONS

The following discussion describes the material U.S. federal income tax considerations relating to the purchase, ownership and disposition of Brandywine's common shares, preferred shares and debt securities and debt securities of Brandywine Operating Partnership, and the qualification and taxation of Brandywine Realty Trust as a REIT.

Because this is a summary that is intended to address only material U.S. federal income tax considerations relating to the ownership and disposition of Brandywine's common shares, preferred shares or debt securities that will apply to all holders, this summary may not contain all the information that may be important to you. As you review this discussion, you should keep in mind that:

- the tax consequences to you may vary depending on your particular tax situation;
- special rules that are not discussed below may apply to you if, for example, you are a tax-exempt organization, a broker-dealer, a non-U.S. person, a trust, an estate, a regulated investment company, a REIT, a financial institution, an insurance company, a holder of debt securities or shares through a partnership or other pass-through entity, an entity treated as a U.S. corporation by virtue of the inversion rules, or otherwise subject to special tax treatment under the Code;
- this summary does not address state, local or non-U.S. tax considerations;
- this summary deals only with our shareholders and debt holders that hold common shares, preferred shares or debt securities as "capital assets" within the meaning of Section 1221 of the Code; and
- this discussion is not intended to be, and should not be construed as, tax advice.

You are urged both to review the following discussion and to consult with your own tax advisor to determine the effect of ownership and disposition of our common shares, preferred shares or debt securities on your individual tax situation, including any state, local or non-U.S. tax consequences.

The information in this summary is based on the Code, current, temporary and proposed Treasury regulations, the legislative history of the Code, current administrative interpretations and practices of the Internal Revenue Service (the "IRS"), including its practices and policies as endorsed in private letter rulings, which are not binding on the IRS, and existing court decisions. Future legislation, regulations, administrative interpretations and court decisions could change current law or adversely affect existing interpretations of current law. Any change could apply retroactively. We have not obtained any rulings from the IRS concerning the status of Brandywine as a REIT or of the Operating Partnership as a partnership. Therefore, it is possible that the IRS could challenge the statements in this summary, which do not bind the IRS or the courts, and that a court could agree with the IRS.

### Taxation of the Company

#### *Qualification of Brandywine as a REIT*

Brandywine first elected to be taxed as a REIT for the taxable year ended December 31, 1986. A REIT generally is not subject to federal income tax on the income that it distributes to its shareholders if it meets the applicable REIT distribution requirements and other requirements for qualification.

We believe that we are organized and have operated in such a manner so as to qualify as a REIT, but there can be no assurance that we have qualified or will remain qualified as a REIT.

Qualification and taxation as a REIT depends on our ability to meet, on a continuing basis, through actual operating results, distribution levels, and diversity of stock ownership, various qualification requirements imposed upon REITs by the Code. Our ability to qualify as a REIT also requires that we satisfy certain asset tests, some of which depend upon the fair market values of assets directly or indirectly owned by us. Such values may not be susceptible to a precise determination. While we intend to continue to operate in a manner that will allow us to qualify as a REIT, no assurance can be given that the actual results of our operations for any taxable year will satisfy such requirements for qualification and taxation as a REIT.

### *Taxation of Brandywine as a REIT*

If we qualify for taxation as a REIT, we generally will not be subject to federal corporate income taxes on that portion of our ordinary income or capital gain that we distribute currently to our shareholders, because the REIT provisions of the Code generally allow a REIT a deduction for distributions paid to its shareholders. This deduction substantially eliminates the “double taxation” on earnings (taxation at both the corporate level and shareholder level) that generally results from investment in a corporation. However, even if we qualify for taxation as a REIT, we will be subject to federal income tax as follows:

- We will be taxed at regular corporate rates on any undistributed REIT taxable income, including undistributed net capital gains;
- Under certain circumstances, we may be subject to the “alternative minimum tax” on our items of tax preference, if any;
- If we have net income from prohibited transactions (which are, in general, certain sales or other dispositions of property, other than foreclosure property, held primarily for sale to customers in the ordinary course of business) such income will be subject to a 100% tax. See “-Sale of Partnership Property;”
- If we elect to treat property that we acquire in connection with a foreclosure of a mortgage loan or leasehold as “foreclosure property,” we may thereby avoid the 100% tax on gain from a resale of that property (if the sale would otherwise constitute a prohibited transaction), but the income from the sale or operation of the property (and any other non-qualifying income from foreclosure property) may be subject to corporate income tax at the highest applicable rate (currently 35%);
- If we should fail to satisfy the 75% gross income test or the 95% gross income test (as discussed below), and nonetheless have maintained our qualification as a REIT because certain other requirements have been met, we will be subject to a 100% tax on the net income attributable to the greater of the amount by which we fail the 75% or 95% test, multiplied by a fraction intended to reflect our profitability;
- If we fail to satisfy any of the REIT asset tests, as described below, by larger than a de minimis amount, but our failure is due to reasonable cause and not due to willful negligence and we nonetheless maintain our REIT qualification because of specified cure provisions, we will be required to pay a tax equal to the greater of \$50,000 or 35% of the net income generated by the non-qualifying assets during the period in which we failed to satisfy the asset tests;
- If we fail to satisfy any provision of the Code that would result in our failure to qualify as a REIT (other than a gross income or asset test requirement) and that violation is due to reasonable cause and not due to willful negligence, we may retain our REIT qualification, but we will be required to pay a penalty of \$50,000 for each such failure;
- We may be required to pay monetary penalties to the IRS in certain circumstances, including if we fail to meet record-keeping requirements intended to monitor our compliance with rules relating to the composition of our shareholders, as described below in “Requirements for Qualification as a REIT;”
- If we should fail to distribute during each calendar year at least the sum of (a) 85% of our REIT ordinary income for such year, (b) 95% of our REIT capital gain net income for such year, and (c) any undistributed taxable income from prior years, we would be subject to a 4% excise tax on the excess of such required distribution over the sum of (i) the amounts actually distributed plus (ii) retained amounts on which corporate level tax is paid by us;
- We may elect to retain and pay income tax on our net long-term capital gain. In that case, a shareholder would include its proportionate share of our undistributed long-term capital gain in its income and would be allowed a credit for its proportionate share of the tax we paid;
- A 100% excise tax may be imposed on some items of income and expense that are directly or constructively paid between us, our tenants and/or our taxable REIT subsidiaries if and to the extent that the Internal Revenue Service successfully adjusts the reported amounts of these items;
- If we acquire appreciated assets from a C corporation (a corporation generally subject to corporate level tax) in a transaction in which the adjusted tax basis of the assets in our hands is determined by reference to the adjusted tax basis of the assets in the hands of the C corporation, we may be subject to tax on such appreciation at the highest corporate income tax rate then applicable if we subsequently recognize gain on a disposition of such assets during the ten-year period following their acquisition from the C corporation, unless the C corporation elects to treat the assets as if they were sold for their fair market value at the time of our acquisition; and
- Income earned by any of our taxable REIT subsidiaries will be subject to tax at regular corporate rates.

### **Requirements for Qualification as a REIT**

We elected to be taxable as a REIT for U.S. federal income tax purposes for our taxable year ended December 31, 1986. In order to have so qualified, we must have met and continue to meet the requirements discussed below, relating to our organization, sources of income, nature of assets and distributions of income to shareholders.

The Code defines a REIT as a corporation, trust or association:

1. that is managed by one or more trustees or directors;
2. the beneficial ownership of which is evidenced by transferable shares or by transferable certificates of beneficial interest;
3. that would be taxable as a domestic corporation but for the special Code provisions applicable to REITs;
4. that is neither a financial institution nor an insurance company subject to certain provisions of the Code;
5. the beneficial ownership of which is held by 100 or more persons;
6. in which, during the last half of each taxable year, not more than 50% in value of the outstanding shares is owned, directly or indirectly, by five or fewer individuals (as defined in the Code to include specified entities), after applying certain attribution rules;
7. that makes an election to be taxable as a REIT, or has made this election for a previous taxable year which has not been revoked or terminated, and satisfies all relevant filing and other administrative requirements established by the IRS that must be met to elect and maintain REIT status;
8. that uses a calendar year for federal income tax purposes and complies with the record keeping requirements of the Code and the Treasury Regulations; and
9. that meets other applicable tests, described below, regarding the nature of its income and assets and the amount of its distributions.

Conditions (1) through (4) must be satisfied during the entire taxable year, and condition (5) must be satisfied during at least 335 days of a taxable year of 12 months, or during a proportionate part of a taxable year of less than 12 months.

We have previously issued common shares in sufficient proportions to allow us to satisfy requirements (5) and (6) (the "100 Shareholder" and "five-or-fewer" requirements). In addition, our Declaration of Trust provides restrictions regarding the transfer of our shares that are intended to assist us in continuing to satisfy the requirements described in conditions (5) and (6) above. However, these restrictions may not ensure that we will, in all cases, be able to satisfy the requirements described in conditions (5) and (6) above. In addition, we have not obtained a ruling from the Internal Revenue Service as to whether the provisions of our Declaration of Trust concerning restrictions on transfer and conversion of common shares to "Excess Shares" will allow us to satisfy conditions (5) and (6). If we fail to satisfy such share ownership requirements, our status as a REIT will terminate. However, for taxable years beginning on or after January 1, 2005, if the failure to meet the share ownership requirements is due to reasonable cause and not due to willful neglect, we may avoid termination of our REIT status by paying a penalty of \$50,000.

To monitor compliance with the share ownership requirements, we are required to maintain records regarding the actual ownership of our shares. To do so, we must demand written statements each year from the record holders of certain percentages of our shares in which the record holders are to disclose the actual owners of the shares (the persons required to include in gross income the dividends paid by us). A list of those persons failing or refusing to comply with this demand must be maintained as part of our records. Failure by us to comply with these record-keeping requirements could subject us to monetary penalties. If we satisfy these requirements and have no reason to know that condition (6) is not satisfied, we will be deemed to have satisfied such condition. A shareholder that fails or refuses to comply with the demand is required by Treasury Regulations to submit a statement with its tax return disclosing the actual ownership of the shares and other information.

### **Qualified REIT Subsidiaries**

The Code provides that a corporation that is a "qualified REIT subsidiary" shall not be treated as a separate corporation, and all assets, liabilities and items of income, deduction and credit of a "qualified REIT subsidiary" shall be treated as assets, liabilities and items of income, deduction and credit of the REIT. A "qualified REIT subsidiary" is a corporation, all of the capital stock of which is owned by the REIT, that has not elected to be a "taxable REIT subsidiary" (discussed below). In applying the requirements described herein, all of our "qualified REIT subsidiaries" will be ignored, and all assets, liabilities and items of income, deduction and credit of such subsidiaries will be treated as our assets, liabilities and items of income, deduction and credit. These subsidiaries, therefore, will not be subject to federal corporate income taxation, although they may be subject to state and local taxation.

### ***Taxable REIT Subsidiaries***

A REIT may generally jointly elect with a subsidiary corporation, whether or not wholly owned, to treat the subsidiary as a “taxable REIT subsidiary.” In addition, if a taxable REIT subsidiary owns, directly or indirectly, securities representing 35% or more of the vote or value of a subsidiary corporation, that subsidiary will also be treated as a taxable REIT subsidiary. A taxable REIT subsidiary is a corporation subject to U.S. federal income tax, and state and local income tax where applicable, as a regular “C” corporation.

Generally, a taxable REIT subsidiary of ours can perform some impermissible tenant services without causing us to receive impermissible tenant services income under the REIT income tests. However, several provisions regarding the arrangements between a REIT and its taxable REIT subsidiaries ensure that a taxable REIT subsidiary will be subject to an appropriate level of United States federal income taxation. For example, a taxable REIT subsidiary is limited in its ability to deduct interest payments in excess of a certain amount made to us. In addition, we will be obligated to pay a 100% penalty tax on some payments that we receive or on certain expenses deducted by the taxable REIT subsidiary if the economic arrangements among us, our tenants, and/or the taxable REIT subsidiary are not comparable to similar arrangements among unrelated parties. A taxable REIT subsidiary may also engage in other activities that, if conducted by us other than through a taxable REIT subsidiary, could result in the receipt of non-qualified income or the ownership of non-qualified assets.

### ***Ownership of Partnership Interests by a REIT***

A REIT that is a partner in a partnership is deemed to own its proportionate share of the assets of the partnership and is deemed to receive the income of the partnership attributable to such share. In addition, the character of the assets and gross income of the partnership retains the same character in the hands of the REIT. Accordingly, our proportionate share of the assets, liabilities and items of income of the Operating Partnership are treated as assets, liabilities and items of income of ours for purposes of applying the requirements described herein. Brandywine has control over the Operating Partnership and most of the partnership and limited liability company subsidiaries of the Operating Partnership and intends to operate them in a manner that is consistent with the requirements for qualification of Brandywine as a REIT.

### ***Income Tests***

In order to qualify as a REIT, Brandywine must generally satisfy two gross income requirements on an annual basis. First, at least 75% of our gross income (excluding gross income from prohibited transactions) for each taxable year must be derived directly or indirectly from investments relating to real property or mortgages on real property, including “rents from real property,” dividends received from other REITs, interest income derived from mortgage loans secured by real property (including certain types of mortgage-backed securities), and gains from the sale of real estate assets, as well as income from certain kinds of temporary investments. Second, at least 95% of our gross income (excluding gross income from prohibited transactions) for each taxable year must be derived from the same items which qualify under the 75% gross income test, and from dividends, interest and gain from the sale or disposition of securities, which need not have any relation to real property.

Rents received by a REIT will qualify as “rents from real property” in satisfying the gross income requirements described above only if several conditions are met.

- The amount of rent must not be based in whole or in part on the income or profits of any person. However, an amount received or accrued generally will not be excluded from the term “rents from real property” solely by reason of being based on a fixed percentage or percentages of gross receipts or sales.
- Rents received from a tenant will not qualify as “rents from real property” in satisfying the gross income tests if the REIT, or a direct or indirect owner of 10% or more of the REIT, directly or constructively, owns 10% or more of such tenant (a “Related Party Tenant”). However, rental payments from a taxable REIT subsidiary will qualify as rents from real property even if we own more than 10% of the total value or combined voting power of the taxable REIT subsidiary if at least 90% of the property is leased to unrelated tenants and the rent paid by the taxable REIT subsidiary is substantially comparable to the rent paid by the unrelated tenants for comparable space.
- Rent attributable to personal property leased in connection with a lease of real property will not qualify as “rents from real property” if such rent exceeds 15% of the total rent received under the lease.
- the REIT generally must not operate or manage the property or furnish or render services to tenants, except through an “independent contractor” who is adequately compensated and from whom the REIT derives no income, or through a taxable REIT subsidiary. The “independent contractor”

requirement, however, does not apply to the extent the services provided by the REIT are “usually or customarily rendered” in connection with the rental of space for occupancy only, and are not otherwise considered “rendered to the occupant.” In addition, a de minimis rule applies with respect to non-customary services. Specifically, if the value of the non-customary service income with respect to a property (valued at no less than 150% of the direct costs of performing such services) is 1% or less of the total income derived from the property, then all rental income except the non-customary service income will qualify as “rents from real property.” A taxable REIT subsidiary may provide services (including non-customary services) to a REIT’s tenants without “tainting” any of the rental income received by the REIT, and will be able to manage or operate properties for third parties and generally engage in other activities unrelated to real estate.

We do not anticipate receiving rent that is based in whole or in part on the income or profits of any person (except by reason of being based on a fixed percentage or percentages of gross receipts or sales consistent with the rules described above). We also do not anticipate receiving more than a de minimis amount of rents from any Related Party Tenant or rents attributable to personal property leased in connection with real property that will exceed 15% of the total rents received with respect to such real property.

We provide services to our properties that we own through the Operating Partnership, and we believe that all of such services will be considered “usually or customarily rendered” in connection with the rental of space for occupancy only so that the provision of such services will not jeopardize the qualification of rent from the properties as “rents from real property.” In the case of any services that are not “usual and customary” under the foregoing rules, we intend to employ an “independent contractor” or a taxable REIT subsidiary to provide such services.

The Operating Partnership may receive certain types of income that will not qualify under the 75% or 95% gross income tests. In particular, dividends received from a taxable REIT subsidiary will not qualify under the 75% test. We believe, however, that the aggregate amount of such items and other non-qualifying income in any taxable year will not cause Brandywine to exceed the limits on non-qualifying income under either the 75% or 95% gross income tests.

If Brandywine fails to satisfy one or both of the 75% or 95% gross income tests for any taxable year, Brandywine may nevertheless qualify as a REIT for such year if it is entitled to relief under certain provisions of the Code. These relief provisions will be generally available if (1) the failure to meet such tests was due to reasonable cause and not due to willful neglect, (2) we have attached a schedule of the sources of our income to our return, and (3) any incorrect information on the schedule was not due to fraud with intent to evade tax. In addition, for taxable years beginning on or after January 1, 2005, we must also file a disclosure schedule with the IRS after we determine that we have not satisfied one of the gross income tests. It is not possible, however, to state whether in all circumstances Brandywine would be entitled to the benefit of these relief provisions. As discussed above in “Taxation of Brandywine as a REIT,” even if these relief provisions apply, a tax would be imposed based on the non-qualifying income.

#### **Asset Tests**

At the close of each quarter of each taxable year, Brandywine must satisfy the following four tests relating to the nature of our assets:

First, at least 75% of the value of our total assets must be represented by some combination of “real estate assets,” cash or cash items, U.S. government securities, and, under some circumstances, stock or debt instruments purchased with new capital. For this purpose, “real estate assets” include interests in real property, such as land, buildings, leasehold interests in real property, stock of other REITs, and certain kinds of mortgage-backed securities and mortgage loans. Assets that do not qualify for purposes of the 75% test are subject to the additional asset tests described below, while securities that do qualify for purposes of the 75% test are generally not subject to the additional asset tests.

Second, the value of any one issuer’s securities we own may not exceed 5% of the value of our total assets.

Third, we may not own more than 10% of the vote or value of any one issuer’s outstanding securities. The 5% and 10% tests do not apply to our interests in the Operating Partnership, non-corporate subsidiaries, taxable REIT subsidiaries and any qualified REIT subsidiaries, and the 10% value test does not apply with respect to certain “straight debt” securities.

Effective for taxable years beginning after December 31, 2000, the safe harbor under which certain types of securities are disregarded for purposes of the 10% value limitation includes (1) straight debt securities (including straight debt securities that provides for certain contingent payments); (2) any loan to an individual or an estate; (3) any rental agreement described in

Section 467 of the Code, other than with a “related person”; (4) any obligation to pay rents from real property; (5) certain securities issued by a State or any political subdivision thereof, or the Commonwealth of Puerto Rico; (6) any security issued by a REIT; and (7) any other arrangement that, as determined by the Secretary of the Treasury, is excepted from the definition of a security. In addition, for purposes of applying the 10% value limitation, (a) a REIT’s interest as a partner in a partnership is not considered a security; (b) any debt instrument issued by a partnership is not treated as a security if at least 75% of the partnership’s gross income is from sources that would qualify for the 75% REIT gross income test, and (c) any debt instrument issued by a partnership is not treated as a security to the extent of the REIT’s interest as a partner in the partnership.

Fourth, not more than 25% (20% for taxable years ending on or before December 31, 2008) of the value of our assets may be represented by securities of one or more taxable REIT subsidiaries.

We may own, directly or indirectly, common shares of certain entities that have elected or will elect to be treated as a real estate investment trusts (“Captive REITs”). Provided that each of the Captive REITs continues to qualify as a REIT (including satisfaction of the ownership, income, asset and distribution tests discussed herein) the common shares of the Captive REITs will qualify as real estate assets under the 75% test. However, if any Captive REIT fails to qualify as a REIT in any year, then the common shares of such Captive REIT will not qualify as real estate assets under the 75% test. In addition, if we own, directly or indirectly, more than 10% of the common shares of each Captive REIT, Brandywine would not satisfy the 10% test if any Captive REIT were to fail to qualify as a REIT. Accordingly, Brandywine’s qualification as a REIT depends upon the ability of any more than 10% owned Captive REIT to continue to qualify as a REIT.

After initially meeting the asset tests at the close of any quarter, Brandywine will not lose its status as a REIT for failure to satisfy the asset tests at the end of a later quarter solely by reason of changes in asset values. If the failure to satisfy the asset tests results from an acquisition of securities or other property during a quarter, the failure can be cured by disposition of sufficient non-qualifying assets within 30 days after the close of that quarter. We intend to maintain adequate records of the value of our assets to ensure compliance with the asset tests, and to take such other action within 30 days after the close of any quarter as may be required to cure any noncompliance. However, there can be no assurance that such other action will always be successful. If we fail to cure any noncompliance with the asset tests within such time period, our status as a REIT would be lost.

For taxable years beginning on or after January 1, 2005, the Code provides relief from certain failures to satisfy the REIT asset tests. If the failure relates to the 5% test or 10% test, and if the failure is de minimis (does not exceed the lesser of \$10 million or 1% of our assets as of the end of the quarter), we may avoid the loss of our REIT status by disposing of sufficient assets to cure the failure within 6 months after the end of the quarter in which the failure was identified. For failures to meet the asset tests that are more than a de minimis amount, we may avoid the loss of our REIT status if: the failure was due to reasonable cause, we file a disclosure schedule at the end of the quarter in which the failure was identified, we dispose of sufficient assets to cure the failure within 6 months after the end of the quarter, and we pay a tax equal to the greater of \$50,000 or the highest corporate tax rate multiplied by the net income generated by the non-qualifying assets.

#### **Annual Distribution Requirements**

In order to qualify as a REIT, Brandywine is required to distribute dividends (other than capital gain dividends) to our shareholders in an amount at least equal to (1) the sum of (a) 90% of its “REIT taxable income” (computed without regard to the dividends paid deduction and the REIT’s net capital gain or loss) and (b) 90% of the net income (after tax), if any, from foreclosure property, minus (2) certain “excess” non-cash income as defined in the Code. These distributions must be paid in the taxable year to which they relate, or in the following taxable year if such distributions are declared in October, November or December of the taxable year, are payable to shareholders of record on a specified date in any such month, and are actually paid before the end of January of the following year. Such distributions are treated as both paid by us and received by our shareholders on December 31 of the year in which they are declared.

In addition, at our election, a distribution for a taxable year may be declared before we timely file our tax return for the year provided we pay such distribution with or before our first regular dividend payment after such declaration, and such payment is made during the 12-month period following the close of such taxable year. Such distributions are taxable to our shareholders in the year in which paid, even though the distributions relate to our prior taxable year for purposes of the 90% distribution requirement.

In order for distributions to be counted towards our distribution requirement, and to provide a tax deduction to us, they must not be “preferential dividends.” A dividend is not a preferential dividend if it is *pro rata* among all outstanding shares within a particular class and is in accordance with the preferences among our different classes of shares as set forth in our organizational documents.

To the extent that we distribute at least 90%, but less than 100%, of our net taxable income, we will be subject to tax at ordinary corporate tax rates on the retained portion. In addition, we may elect to retain, rather than distribute our net long-term capital gains and pay tax on such gains. In this case, we would elect to have our shareholders include their proportionate share of such undistributed long-term capital gains in their income and receive a corresponding credit for their proportionate share of the tax paid by us. Our shareholders would then increase their adjusted basis in our shares by the difference between the amount included in their long-term capital gains and the tax deemed paid with respect to their shares.

If we should fail to distribute during each calendar year (or, in the case of distributions with declaration and record dates falling in the last three months of the calendar year, by the end of January following such calendar year) at least the sum of (1) 85% of our REIT ordinary income for such year, (2) 95% of our REIT net capital gain income for such year and (3) any undistributed taxable income from prior periods, we would be subject to a 4% excise tax on the excess of such required distribution over the sum of (a) the amounts actually distributed plus (b) retained amounts on which corporate level tax is paid by us.

Brandywine intends to make timely distributions sufficient to satisfy the annual distribution requirements. In this regard, the limited partnership agreement of the Operating Partnership authorizes Brandywine, as general partner, to operate the partnership in a manner that will enable it to satisfy the REIT requirements and avoid the imposition of any federal income or excise tax liability. It is possible that we, from time to time, may not have sufficient cash or other liquid assets to meet the 90% distribution requirement. This could arise, for example, when there is an expenditure of cash for nondeductible items such as principal amortization or capital expenditures. In addition, because we may deduct capital losses only to the extent of our capital gains, our REIT taxable income may exceed our economic income. In order to meet the 90% distribution requirement, we may borrow or may cause the Operating Partnership to arrange for short-term or possibly long-term borrowing to permit the payment of required distributions, or we may pay dividends in the form of taxable in-kind distributions of property, including potentially, our shares.

Under certain circumstances, Brandywine may be able to rectify a failure to meet the distribution requirement for a given year by paying “deficiency dividends” to shareholders in a later year that may be included in Brandywine’s deduction for distributions paid for the earlier year. Thus, Brandywine may be able to avoid losing its REIT qualification or being taxed on amounts distributed as deficiency dividends. However, Brandywine will be required to pay to the IRS interest and a penalty based upon the amount of any deduction taken for deficiency dividends.

### ***Failure to Qualify***

For taxable years beginning on or after January 1, 2005, the Code provides relief for many failures to satisfy the REIT requirements. In addition to the relief provisions for failures to satisfy the income and asset tests (discussed above), the Code provides additional relief for other failures to satisfy REIT requirements. If the failure is due to reasonable cause and not due to willful neglect, and we elect to pay a penalty of \$50,000 for each failure, we can avoid the loss of our REIT status.

If Brandywine fails to qualify for taxation as a REIT in any taxable year and the relief provisions do not apply, it will be subject to tax (including any applicable corporate alternative minimum tax) on its taxable income at regular corporate rates. Distributions to shareholders in any year in which Brandywine fails to qualify will not be deductible to us. In such event, to the extent of Brandywine’s current and accumulated earnings and profits, all distributions to shareholders will be taxable to them as dividends, and, subject to certain limitations of the Code, corporate distributees may be eligible for the dividends received deduction. Under current law, such dividends will generally be taxable to individual shareholders at the 20% rate for qualified dividends provided that applicable holding period requirements are met. Unless entitled to relief under specific statutory provisions, Brandywine also will be disqualified from taxation as a REIT for the four taxable years following the year during which qualification was lost. It is not possible to state whether in all circumstances Brandywine would be entitled to such statutory relief.

### ***Prohibited Transactions***

Net income derived from a prohibited transaction is subject to a 100% tax. The term “prohibited transaction” generally includes a sale or other disposition of property (other than foreclosure property) that is held primarily for sale to customers in the ordinary course of a trade or business. Under existing law, whether property is held as inventory or primarily for sale to customers in the ordinary course of a trade or business is a question of fact that depends on all the facts and circumstances of a particular transaction. We intend to hold properties for investment with a view to long-term appreciation, to engage in the business of acquiring, developing, owning and operating properties, and to make occasional sales of properties as are consistent with our investment objectives. No assurance can be given that any property that we sell will not be treated as property held for sale to customers, or that we can comply with certain safe-harbor provisions of the Code that would prevent

the imposition of the 100% tax. The 100% tax does not apply to gains from the sale of property that is held through a taxable REIT subsidiary or other taxable corporation, although such income will be subject to tax in the hands of that corporation at regular corporate tax rates.

### ***Foreclosure Property***

Foreclosure property is real property (including interests in real property) and any personal property incident to such real property (1) that is acquired by a REIT as a result of the REIT having bid on the property at foreclosure, or having otherwise reduced the property to ownership or possession by agreement or process of law, after there was a default (or default was imminent) on a lease of the property or a mortgage loan held by the REIT and secured by the property, (2) for which the related loan or lease was made, entered into or acquired by the REIT at a time when default was not imminent or anticipated and (3) for which such REIT makes an election to treat the property as foreclosure property. REITs generally are subject to tax at the maximum corporate rate (currently 35%) on any net income from foreclosure property, including any gain from the disposition of the foreclosure property, other than income that would otherwise be qualifying income for purposes of the 75% gross income test. Any gain from the sale of property for which a foreclosure property election has been made will not be subject to the 100% tax on gains from prohibited transactions described above, even if the property is held primarily for sale to customers in the ordinary course of a trade or business.

### ***Hedging***

We may enter into hedging transactions with respect to one or more of our assets or liabilities. Hedging transactions could take a variety of forms, including interest rate swaps or cap agreements, options, futures contracts, forward rate agreements or similar financial instruments. Except to the extent provided by Treasury Regulations, any income from a hedging transaction (i) made in the normal course of our business primarily to manage risk of interest rate or price changes or currency fluctuations with respect to borrowings made or to be made, or ordinary obligations incurred or to be incurred by us to acquire or own real estate assets or (ii) entered into after July 30, 2008 primarily to manage the risk of currency fluctuations with respect to any item of income or gain that would be qualifying income under the 75% or 95% income tests (or any property which generates such income or gain), which is clearly identified as such before the close of the day on which it was acquired, originated or entered into, including gain from the disposition of such a transaction, will not constitute gross income for purposes of the 95% gross income test and, in respect of hedges entered into after July 30, 2008, the 75% gross income test. To the extent we enter into other types of hedging transactions, the income from those transactions is likely to be treated as non-qualifying income for purposes of both the 75% and 95% gross income tests. We intend to structure any hedging transactions in a manner that does not jeopardize our ability to qualify as a REIT.

### ***Tax Aspect of Investments in the Operating Partnership and Subsidiary Partnerships***

The following discussion summarizes certain Federal income tax considerations applicable to Brandywine's investment in the Operating Partnership and the Operating Partnership's investments in subsidiary partnerships, limited liability companies, and joint ventures (referred to collectively as the "Subsidiary Partnerships").

#### **General**

We may hold investments through entities that are classified as partnerships for U.S. federal income tax purposes, including our interest in the Operating Partnership and the equity interests in Subsidiary Partnerships. In general, partnerships are "pass-through" entities that are not subject to U.S. federal income tax. Rather, partners are allocated their proportionate shares of the items of income, gain, loss, deduction and credit of a partnership, and are subject to tax on these items without regard to whether the partners receive a distribution from the partnership. We will include in our income our proportionate share of these partnership items for purposes of the various REIT income tests and in the computation of our REIT taxable income. Moreover, for purposes of the REIT asset tests, we will include our proportionate share of assets held by subsidiary partnerships. Consequently, to the extent that we hold an equity interest in a partnership, the partnership's assets and operations may affect our ability to qualify as a REIT.

#### **Classification of the Operating Partnership and Subsidiary Partnerships as Partnerships**

The investment by us in partnerships involves special tax considerations, including the possibility of a challenge by the IRS to the status of the Operating Partnership or any of our Subsidiary Partnerships as a partnership, as opposed to an association taxable as a corporation, for U.S. federal income tax purposes. If any of these entities were treated as an association for U.S. federal income tax purposes, it would be taxable as a corporation and, therefore, could be subject to an entity-level tax on its income. In such a situation, the character of our assets and items of our gross income would change and could preclude

us from satisfying the REIT asset tests or the REIT income tests as discussed in "-- Taxation of the Company -- Asset Tests" and "-- Income Tests" above, and in turn could prevent us from qualifying as a REIT. See "-- Taxation of the Company -- Failure to Qualify," above, for a discussion of the effect of our failure to meet these tests for a taxable year. In addition, any change in the status of any of our subsidiary partnerships for tax purposes might be treated as a taxable event, in which case we could have taxable income that is subject to the REIT distribution requirements without receiving any cash.

Treasury Regulations that apply for tax periods beginning on or after January 1, 1997 provide that a domestic business entity not otherwise organized as a corporation (an "Eligible Entity") may elect to be treated as a partnership or disregarded entity for federal income tax purposes. Unless it elects otherwise, an Eligible Entity in existence prior to January 1, 1997, will have the same classification for federal income tax purposes that it claimed under the entity classification Treasury Regulations in effect prior to this date. In addition, an Eligible Entity that did not exist or did not claim a classification prior to January 1, 1997 will be classified as a partnership or disregarded entity for federal income tax purposes unless it elects otherwise. The Operating Partnership and the Subsidiary Partnerships (other than those Subsidiary Partnerships that have elected to be treated as taxable REIT subsidiaries) intend to claim classification as partnerships or disregarded entities under these Treasury Regulations. As a result, we believe that the Operating Partnership and such Subsidiary Partnerships (other than those Subsidiary Partnerships that have elected to be treated as taxable REIT subsidiaries) will be classified as partnerships or disregarded entities for federal income tax purposes. We have not requested and do not intend to request a ruling from the IRS that the Operating Partnership or Subsidiary Partnerships will be classified as partnerships for federal income tax purposes.

### **Partnership Allocations**

Although a partnership agreement will generally determine the allocation of income and losses among partners, such allocations will be disregarded for tax purposes if they do not comply with the provisions of Section 704(b) of the Code and the Treasury Regulations promulgated thereunder, which require that partnership allocations respect the economic arrangement of the partners. If an allocation is not recognized for Federal income tax purposes, the item subject to the allocation will be reallocated in accordance with the partners' interests in the partnership, which will be determined by taking into account all of the facts and circumstances relating to the economic arrangement of the partners with respect to such item. The Operating Partnership's allocations of taxable income and loss are intended to comply with the requirements of Section 704(b) of the Code and the Treasury Regulations promulgated thereunder.

### ***Tax Allocations With Respect to Contributed Properties***

Pursuant to Section 704(c) of the Code, items of income, gain, loss and deduction attributable to appreciated or depreciated property that is contributed to a partnership in exchange for an interest in the partnership must be allocated for federal income tax purposes in a manner such that the contributor is charged with or benefits from the unrealized gain or unrealized loss associated with the property at the time of the contribution. The amount of such unrealized gain or unrealized loss is generally equal to the difference between the fair market value of the contributed property at the time of contribution and the adjusted tax basis of such property at the time of contribution. Such allocations are solely for federal income tax purposes and do not affect other economic or legal arrangements among the partners.

Our Operating Partnership has entered into transactions involving the contribution to the Operating Partnership of appreciated property, and the Operating Partnership may enter into such transactions in the future. The partnership agreement of the Operating Partnership requires allocations of income, gain, loss and deduction attributable to contributed property to be made in a manner that is consistent with Section 704(c) of the Code. Treasury Regulations issued under Section 704(c) give partnerships a choice of several methods of allocating taxable income with respect to contributed properties. Depending upon the method chosen, (1) our tax depreciation deductions attributable to those properties may be lower than they would have been if our Operating Partnership had acquired those properties for cash and (2) in the event of a sale of such properties, we could be allocated gain in excess of our corresponding economic or book gain. These allocations may cause us to recognize taxable income in excess of cash proceeds received by us, which might adversely affect our ability to comply with the REIT distribution requirements or result in our shareholders recognizing additional dividend income without an increase in distributions.

### ***Depreciation***

The Operating Partnership's assets include a substantial amount of appreciated property contributed by its partners. Assets contributed to a partnership in a tax-free transaction generally retain the same depreciation method and recovery period as they had in the hands of the partner who contributed them to the partnership. Accordingly, a substantial amount of the Operating Partnership's depreciation deductions for its real property are based on the historic tax depreciation schedules for the properties prior to their contribution to the Operating Partnership. The properties are being depreciated over a range of 15 to 40

years using various methods of depreciation which were determined at the time that each item of depreciable property was placed in service. Any depreciable real property purchased by the Partnership is currently depreciated over 40 years. In certain instances where a partnership interest rather than real property is contributed to the Partnership, the real property may not carry over its recovery period but rather may, similarly, be subject to the lengthier recovery period.

### ***Basis in Operating Partnership Interest***

Our adjusted tax basis in each of the partnerships in which we have an interest generally (1) will be equal to the amount of cash and the basis of any other property contributed to such partnership by us, (2) will be increased by (a) our allocable share of such partnership's income and (b) our allocable share of any indebtedness of such partnership, and (3) will be reduced, but not below zero, by our allocable share of (a) such partnership's loss and (b) the amount of cash and the tax basis of any property distributed to us and by constructive distributions resulting from a reduction in our share of indebtedness of such partnership.

If our allocable share of the loss (or portion thereof) of any partnership in which we have an interest would reduce the adjusted tax basis of our partnership interest in such partnership below zero, the recognition of such loss will be deferred until such time as the recognition of such loss (or portion thereof) would not reduce our adjusted tax basis below zero. To the extent that distributions to us from a partnership, or any decrease in our share of the nonrecourse indebtedness of a partnership (each such decrease being considered a constructive cash distribution to the partners), would reduce our adjusted tax basis below zero, such distributions (including such constructive distributions) would constitute taxable income to us. Such distributions and constructive distributions normally would be characterized as long-term capital gain if our interest in such partnership has been held for longer than the long-term capital gain holding period (currently 12 months).

### **Sale of Partnership Property**

Generally, any gain realized by a partnership on the sale of property held by the partnership for more than 12 months will be long-term capital gain, except for any portion of such gain that is treated as depreciation or cost recovery recapture. However, under requirements applicable to REITs under the Code, our share as a partner of any gain realized by the Operating Partnership on the sale of any property held as inventory or other property held primarily for sale to customers in the ordinary course of a trade or business will be treated as income from a prohibited transaction that is subject to a 100% penalty tax. See "-Taxation of the Company - Prohibited Transactions."

### **Taxation of Shareholders**

As used herein, a "U.S. Shareholder" means a beneficial owner of our common shares or preferred shares, who is, for U.S. federal income tax purposes:

- a citizen or resident of the U.S. as defined in section 7701(b) of the Code,
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S. or any state thereof or the District of Columbia,
- an estate the income of which is subject to U.S. federal income taxation regardless of its source or
- a trust if it (a) is subject to the primary supervision of a court within the U.S. and one or more U.S. persons have the authority to control all substantial decisions of the trust or (b) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

As used herein, a "non-U.S. Shareholder" means a beneficial owner of our common shares or preferred shares that is not a "U.S. Shareholder" and that is not a partnership (or other entity treated as a partnership for U.S. federal income tax purposes).

If a partnership holds common shares or preferred shares, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding common shares or preferred shares, you should consult your tax advisors.

## **Taxation of Taxable U.S. Shareholders**

### **Taxation of Ordinary Dividends on Shares**

As long as Brandywine qualifies as a REIT, distributions made to Brandywine's taxable U.S. Shareholders out of current or accumulated earnings and profits (and not designated as capital gain dividends) ("Ordinary Dividends") will be dividends taxable to such U.S. Shareholders as ordinary income and will not be eligible for the dividends received deduction for corporations. Dividends received from REITs are generally not eligible for taxation at the preferential rates for qualified dividends received by individual shareholders. We may designate a distribution as qualified dividend income to the extent of (1) qualified dividend income we receive during the current year (for example, dividends received from our taxable REIT subsidiaries), plus (2) income on which we have been subject to corporate level tax during the prior year (for example, undistributed REIT taxable income), plus (3) any income attributable to the sale of a built in gain asset that was acquired from a C corporation in a carry-over basis transaction less the tax paid on that income. To the extent that we designate a dividend as qualified dividend income, an individual will be taxable at preferential rates (20% maximum federal rate) on such qualified dividend income provided certain holding period requirements are met. However, we expect that ordinary dividends paid by Brandywine generally will not be eligible for treatment as qualified dividend income to any significant extent.

### **Capital Gain Distributions**

Distributions that are designated as long-term capital gain dividends will be taxed as long-term capital gains (to the extent they do not exceed our actual net capital gain for the taxable year) without regard to the period for which the U.S. Shareholder has held its shares of beneficial interest. In general, U.S. Shareholders will be taxable on long term capital gains at a maximum rate of 20%, except that the portion of such gain that is attributable to depreciation recapture will be taxable at the maximum rate of 25%. However, corporate shareholders may be required to treat up to 20% of certain capital gain dividends as ordinary income.

We may elect under the applicable provisions of the Code to retain and pay tax on our net capital gains. In such event U.S. Shareholders will be taxable on the U.S. Shareholders' proportionate share of such undistributed capital gains. Each U.S. Shareholder would then receive a credit, for use on their return, in the amount of the U.S. Shareholders' proportionate share of the capital gains tax paid by us. If the credit results in an amount owed to a U.S. Shareholder, such U.S. Shareholder would receive a refund. A U.S. Shareholder's basis in our shares will be increased by the amount of the shareholder's allocable share of any retained capital gains less the shareholder's allocable share of the tax paid by us on such capital gains.

### **Non-Dividend Distributions**

Distributions in excess of current and accumulated earnings and profits ("Non-Dividend Distributions") will not be taxable to a U.S. Shareholder to the extent that they do not exceed the adjusted basis of the shareholder's shares, but rather will reduce the adjusted basis of such shares. To the extent that Non-Dividend Distributions exceed the adjusted basis of a U.S. Shareholder's shares, such distributions will be included in income as long-term capital gain (or short-term capital gain if the shares have been held for 12 months or less) assuming the shares are a capital asset in the hands of the shareholder. In determining the extent to which a distribution on our shares constitutes a dividend for tax purposes, the earnings and profits of Brandywine will be allocated first to distributions with respect to the preferred shares and second to distributions with respect to common shares. Therefore, depending on our earnings and profits, distributions with respect to the preferred shares (as compared to distributions with respect to our common shares) are more likely to be treated as dividends than as a return of capital or a distribution in excess of basis.

### **Dividends Paid in Common Shares**

A recent IRS revenue procedure allows us to satisfy the REIT distribution requirements with respect to certain taxable years by distributing up to 90% of our dividends in the form of common shares rather than cash. In the event that we pay a portion of a dividend in common shares, taxable U.S. Shareholders would be required to pay tax on the full amount of the dividend (including the fair market value of any common shares received) and the amount of the tax may exceed the amount of cash received.

### **Timing of Distributions**

Any distribution declared by us in October, November or December of any year payable to a shareholder of record on a specified date in any such month shall be treated as both paid by Brandywine and received by the shareholder on December 31 of such year, provided that the distribution is actually paid by Brandywine not later than the end of January of the following calendar year. Shareholders may not include in their individual income tax returns any of Brandywine's losses.

### **Sale or Exchange of Common and Preferred Shares**

In general, a U.S. Shareholder will recognize capital gain or loss on the disposition of common or preferred shares equal to the difference between the sales price for such shares and the adjusted tax basis for such shares. In general, a U.S. Shareholder's adjusted tax basis will equal the U.S. Shareholder's acquisition cost, increased by the U.S. Shareholder's allocable share of any retained capital gains, less the U.S. Shareholder's allocable share of the tax paid by us on such retained capital gains, and reduced by Non-Dividend Distributions.

In general, capital gains recognized by individuals and other non-corporate U.S. Shareholders upon the sale or disposition of shares of our shares will be subject to a maximum U.S. federal income tax rate of 20%, if our shares are held for more than 12 months, and will be taxed at ordinary income rates (of up to 39.6% ) if our shares are held for 12 months or less. Gains recognized by U.S. Shareholders that are corporations are subject to U.S. federal income tax at a maximum rate of 35%, whether or not classified as long-term capital gains.

Capital losses recognized by a U.S. Shareholder upon the disposition of our shares held for more than one year at the time of disposition will be considered long-term capital losses, and are generally available only to offset capital gain income of the U.S. Shareholder but not ordinary income (except in the case of individuals, who may offset up to \$3,000 of ordinary income each year). However, any loss upon a sale or exchange of shares by a U.S. Shareholder who has held such shares for six months or less (after applying certain holding period rules) will be treated as a long-term capital loss to the extent such shareholder has received distributions from us required to be treated as long-term capital gain.

If a U.S. Shareholder recognizes a loss upon a subsequent disposition of our shares in an amount that exceeds a prescribed threshold, it is possible that the provisions of Treasury Regulations involving "reportable transactions" could apply, with a resulting requirement to separately disclose the loss generating transactions to the IRS. While these regulations are directed towards "tax shelters," they are written broadly, and apply to transactions that would not typically be considered tax shelters. Significant penalties apply for failure to comply with these requirements. You should consult your tax advisors concerning any possible disclosure obligation with respect to the receipt or disposition of our shares, or transactions that might be undertaken directly or indirectly by us. Moreover, you should be aware that we and other participants in transactions involving us (including our advisors) might be subject to disclosure or other requirements pursuant to these regulations.

### **Passive Activity Losses and Investment Interest Limitations**

Distributions from us and gain from the disposition of shares will not be treated as passive activity income and, therefore, U.S. Shareholders will not be able to apply any "passive losses" against such income. Distributions from us (to the extent they do not constitute a return of capital or capital gain dividends) will generally be treated as investment income for purposes of the investment interest limitation. A shareholder may elect to treat capital gain dividends and capital gains from the disposition of shares as investment income for purposes of the investment interest limitation, but in such event a shareholder will be taxed at ordinary income rates on such amounts.

### **Redemption of Preferred Shares**

Our preferred shares are redeemable by us under certain circumstances. A redemption of preferred shares will be treated under Section 302 of the Code as a distribution taxable as a dividend (to the extent of our current and accumulated earnings and profits) at ordinary income rates, unless the redemption satisfies one of the tests set forth in Section 302(b) of the Code and is therefore treated as a sale or exchange of the redeemed shares. The redemption will be treated as a sale or exchange if it (i) is "substantially disproportionate" with respect to the holder, (ii) results in a "complete termination" of the holder's share interest in our company, or (iii) is "not essentially equivalent to a dividend with respect to the holder, all within the meaning of Section 302(b) of the Code.

In determining whether any of these tests has been met, there must be taken into account not only any preferred shares owned by the holder, but also such holder's ownership of our common shares, other series of preferred shares and any options to acquire any of the foregoing. The holder also must take into account any such securities (including options) which are

considered to be owned by such holder by reason of the constructive ownership rules set forth in Sections 318 and 302(c) of the Code. If a particular holder owns (actually or constructively) no common shares or an insubstantial percentage of common shares or preferred shares, based upon current law, it is probable that the redemption of the preferred shares from such holder would be considered “not essentially equivalent to a dividend.” However, because the determination as to whether any of the alternative tests of Section 302(b) of the Code will be satisfied with respect to any particular holder of preferred shares depends upon the facts and circumstances at the time the determination must be made, prospective holders of preferred shares are advised to consult their own tax advisors to determine such tax treatment.

If a redemption of preferred shares is not treated as a distribution taxable as a dividend to a particular holder, it will be treated as a taxable sale or exchange by that holder. As a result, the holder will recognize gain or loss for federal income tax purposes in an amount equal to the difference between (i) the amount of cash and the fair market value of any property received (less any portion thereof attributable to accumulated and declared but unpaid dividends, which will be taxable as a dividend to the extent of our current and accumulated earnings and profits) and (ii) the holder’s adjusted tax basis in the shares. Such gain or loss will be capital gain or loss if the shares were held as a capital asset, and will be long-term gain or loss if such shares were held for more than one year.

If the redemption is treated as a distribution taxable as a dividend, the amount of the distribution will be measured by the amount of cash and the fair market value of any property received by the holder. The holder’s adjusted tax basis in the preferred shares redeemed will be transferred to any other shareholdings of the holder in Brandywine. If the holder of the preferred shares owns no other shares, under certain circumstances, such basis may be transferred to a related person, or it may be lost entirely.

### **Information Reporting and Backup Withholding Applicable to U.S. Shareholders**

In general, Brandywine will report to its U.S. Shareholders and the IRS the amount of distributions paid (unless the U.S. Shareholder is an exempt recipient) during each calendar year, and the amount of tax withheld, if any. Under the backup withholding rules, a shareholder may be subject to backup withholding at the rate of 28% with respect to distributions paid unless such shareholder (a) comes within certain exempt categories and, when required, demonstrates this fact, or (b) provides a taxpayer identification number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules. A shareholder that does not provide us with the shareholder's correct taxpayer identification number may also be subject to penalties imposed by the IRS. In addition, we may be required to withhold a portion of capital gain distributions to any shareholders who fail to certify their non-foreign status to Brandywine. See “-Taxation of non-U.S. Shareholders.” Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against the shareholder’s income tax liability, provided the required information is furnished to the IRS.

### ***Taxation of Tax-Exempt Shareholders***

U.S. tax-exempt entities, including qualified employee pension and profit sharing trusts and individual retirement accounts, generally are exempt from U.S. federal income taxation. However, they are subject to taxation on their unrelated business taxable income or UBTI. Distributions by us to a shareholder that is a tax-exempt entity should generally not constitute UBTI, as defined in Section 512(a) of the Code provided that the tax-exempt entity has not financed the acquisition of its shares with “acquisition indebtedness” within the meaning of the Code and the shares are not otherwise used in an unrelated trade or business of the tax-exempt entity. Tax-exempt U.S. Shareholders that are social clubs, voluntary employee benefit associations, supplemental unemployment benefit trusts, and qualified group legal services plans exempt from U.S. federal income taxation under sections 501(c)(7), (c)(9), (c)(17) and (c)(20) of the Code, respectively, are subject to different UBTI rules, which generally will require them to characterize distributions from us as UBTI.

In certain circumstances, a pension trust (1) that is described in Section 401(a) of the Code, (2) is tax exempt under section 501(a) of the Code, and (3) that owns more than 10% of our shares could be required to treat a percentage of the dividends from us as UBTI if we are a “pension-held REIT.” We will not be a pension-held REIT unless (1) either (A) one pension trust owns more than 25% of the value of our shares, or (B) a group of pension trusts, each individually holding more than 10% of the value of our shares, collectively owns more than 50% of such shares and (2) we would not have qualified as a REIT but for the fact that Section 856(h)(3) of the Code provides that shares owned by such trusts shall be treated, for purposes of the requirement that not more than 50% of the value of the outstanding shares of a REIT is owned, directly or indirectly, by five or fewer “individuals” (as defined in the Code to include certain entities). Certain restrictions on ownership and transfer of our shares should generally prevent a tax-exempt entity from owning more than 10% of the value of our shares, or us from becoming a pension-held REIT.

Tax-exempt U.S. Shareholders are urged to consult their tax advisor regarding the U.S. federal, state, local and foreign tax consequences of the acquisition, ownership and disposition of our shares.

### **Taxation of Non-U.S. Shareholders**

The rules governing United States federal income taxation of non-U.S. Shareholders are complex and no attempt will be made herein to provide more than a summary of such rules. Prospective non-U.S. Shareholders should consult with their own tax advisors to determine the impact of federal, state and local income and estate tax laws with regard to an investment in our shares, including any reporting requirements.

### **Ordinary Dividends**

The portion of Ordinary Dividends received by non-U.S. Shareholders that are not attributable to gain from sales or exchanges by us of United States real property interests and which are not effectively connected with a U.S. trade or business of the non-U.S. Shareholder will generally be subject to a withholding tax equal to 30% of the gross amount of the distribution unless an applicable tax treaty reduces or eliminates that tax. Under some treaties, however, the lower rates generally applicable to dividends do not apply to dividends from REITs. We intend to withhold United States income tax at the rate of 30% on the gross amount of any such Ordinary Dividends paid to a non-U.S. Shareholder unless (1) a lower treaty rate applies and the non-U.S. Shareholder files a W-8 BEN (or applicable substitute form) claiming the benefits of the lower treaty rate or (2) the non-U.S. Shareholder files an IRS Form W-8 ECI with us claiming that the distribution is effectively connected with a U.S. trade or business.

In general, non-U.S. Shareholders will not be considered to be engaged in a U.S. trade or business solely as a result of their ownership of our shares. If income from the investment in our shares is treated as effectively connected with the non-U.S. Shareholder's conduct of a United States trade or business, the non-U.S. Shareholder generally will be subject to a tax at graduated rates, in the same manner as U.S. Shareholders are taxed with respect to such distributions (and may also be subject to the 30% branch profits tax in the case of a shareholder that is a foreign corporation).

### **Non-Dividend Distributions**

Unless our shares constitute a U.S. real property interest ("USRPI"), any Non-Dividend Distributions will not be taxable to a non-U.S. Shareholder to the extent that such distributions do not exceed the adjusted basis of the shareholder's shares, but rather will reduce the adjusted basis of the shareholder in such shares. To the extent that Non-Dividend Distributions exceed the adjusted basis of a non-U.S. Shareholder's shares, such distributions will give rise to tax liability if the non-U.S. Shareholder would otherwise be subject to tax on any gain from the sale or disposition of its shares, as described below (See -- Taxation of Non-U.S. Shareholders -- Dispositions of our Shares). If it cannot be determined at the time a distribution is made whether or not such distribution will be in excess of current and accumulated earnings and profits, the distributions will be subject to withholding at the same rate as Ordinary Dividends. Because we generally cannot determine at the time we make a distribution whether or not the distribution will exceed our current and accumulated earnings and profits, we normally will withhold tax on the entire amount of any distribution at the same rate as we would withhold on Ordinary Dividends. However, amounts thus withheld are refundable to the non-U.S. Shareholder if it is subsequently determined that such distribution was, in fact, in excess of our current and accumulated earnings and profits.

If our shares constitute a USRPI, as described below (See -- Taxation of Non-U.S. Shareholders -- Dispositions of our Shares), Non-Dividend Distributions by us in excess of the non-U.S. Shareholder's adjusted tax basis in our shares will be taxed under the Foreign Investment in Real Property Tax Act of 1980 ("FIRPTA") at the rate of tax, including any applicable capital gains rates, that would apply to a U.S. Shareholder of the same type (*e.g.*, an individual or a corporation, as the case may be), and the collection of the tax will be enforced by a refundable withholding at a rate of 10% of the Non-Dividend Distribution.

### **Capital Gain Distributions**

Except as discussed below with respect to 5% or less holders of regularly traded classes of shares, distributions that are attributable to gain from sales or exchanges by us of United States real property interests will be taxed to a non-U.S. Shareholder under the provisions of FIRPTA. Under FIRPTA, distributions attributable to gain from sales of United States real property interests are taxed to a non-U.S. Shareholder as if such gain were effectively connected with a United States business. Individuals who are non-U.S. Shareholders will be required to report such gain on a U.S. federal income tax return and such gain will be taxed at the normal capital gain rates applicable to U.S. individual shareholders (subject to applicable alternative minimum tax and a special alternative minimum tax in the case of nonresident alien individuals). Also, distributions subject to

FIRPTA may be subject to a 30% branch profits tax in the hands of a foreign corporate shareholder not entitled to treaty relief. Brandywine is required by applicable Treasury Regulations to withhold 35% of any distribution that could be designated by us as a capital gains dividend. The amount is creditable against the non-U.S. Shareholder's U.S. tax liability.

However, distributions attributable to gain from sales or exchanges by us of United States real property interests are treated as ordinary dividends (not subject to the 35% withholding tax under FIRPTA) if the distribution is made to a non-U.S. Shareholder with respect to any class of shares which is "regularly traded" on an established securities market located in the United States and if the non-U.S. Shareholder did not own more than 5% of such class of shares at any time during the taxable year. Such distributions will generally be subject to a 30% U.S. withholding tax (subject to reduction under applicable treaty) and a non-U.S. Shareholder will not be required to report the distribution on a U.S. tax return. In addition, the branch profits tax will not apply to such distributions. See "Taxation of Non-U.S. Shareholders - Ordinary Dividends."

### **Dividends Paid in Common Shares**

A recent IRS revenue procedure allows us to satisfy the REIT distribution requirements with respect to certain taxable years by distributing up to 90% of our dividends in the form of common shares rather than cash. In the event that we pay a portion of a dividend in common shares, we may be required to withhold U.S. tax with respect to such dividend, including in respect of all or a portion of such dividend that is payable in common shares.

### **Dispositions of our Shares**

Unless our shares constitutes a USRPI, gain recognized by a non-U.S. Shareholder upon a sale of shares generally will not be taxed under FIRPTA. Our shares will not be treated as a USRPI if Brandywine is a "domestically controlled REIT," defined generally as a REIT in which at all times during a specified testing period less than 50% in value of the shares of beneficial interest was held directly or indirectly by foreign persons. It is currently anticipated that we will be a "domestically controlled REIT," and therefore the sale of shares by a non-U.S. Shareholder will not be subject to taxation under FIRPTA. However, because the shares may be traded, we cannot be sure that we will continue to be a "domestically controlled REIT." Further, even if we are a domestically controlled REIT, pursuant to "wash sale" rules under FIRPTA, a non-U.S. Shareholder may incur tax under FIRPTA to the extent such non-U.S. Shareholder disposes of our shares within a certain period prior to a capital gain distribution and directly or indirectly (including through certain affiliates) reacquires our shares within certain prescribed periods.

However, a non-U.S. shareholder will not incur tax under FIRPTA on a sale of common or preferred shares if (1) our preferred shares or common shares are "regularly traded" on an established securities market within the meaning of applicable Treasury regulations and (2) the non-U.S. Shareholder did not actually, or constructively under specified attribution rules under the Code, own more than 5% of our preferred shares or common shares at any time during the shorter of the five-year period preceding the disposition or the holder's holding period.

Even if our common or preferred shares were not regularly traded on an established securities market, a non-U.S. Shareholder would not be subject to taxation under FIRPTA as a sale of a U.S. real property interest if such non-U.S. Shareholder's common or preferred shares had a fair market value on the date of acquisition that was equal to or less than 5% of our regularly traded class of shares with the lowest fair market value. For purposes of this test, if a non-U.S. Shareholder acquired shares of common or preferred shares and subsequently acquired additional shares at a later date, then all such shares would be aggregated and valued as of the date of the subsequent acquisition.

If gain on the sale of our shares is subject to taxation under FIRPTA, the non-U.S. Shareholder will be subject to the same treatment as a U.S. Shareholder with respect to such gain, subject to applicable alternative minimum tax and a special alternative minimum tax in the case of non-resident alien individuals, and the purchaser of the shares could be required to withhold 10% of the purchase price and remit such amount to the IRS. Gain not subject to FIRPTA will nonetheless be taxable in the United States to a non-U.S. Shareholder if (1) investment in the shares is effectively connected with the non-U.S. Shareholder's United States trade or business, in which case the non-U.S. Shareholder will be subject to the same treatment as U.S. Shareholders with respect to such gain or (2) the non-U.S. Shareholder is a nonresident alien individual who was present in the United States for 183 days or more during the taxable year, in which case the nonresident alien individual will be subject to a 30% tax on the individual's capital gains.

### ***Information Reporting and Backup Withholding Applicable to non-U.S. Shareholders***

We must report annually to the IRS and to each non-U.S. Shareholder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required. Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which the non-U.S. Shareholder resides under the provisions of an applicable income tax treaty.

Payments of dividends or of proceeds from the disposition of stock made to a non-U.S. Shareholder may be subject to information reporting and backup withholding unless such holder establishes an exemption, for example, by properly certifying its non-United States status on an IRS Form W-8 BEN or another appropriate version of IRS Form W-8. Notwithstanding the foregoing, backup withholding may apply if either we or our paying agent has actual knowledge, or reason to know, that a non-U.S. Shareholder is a United States person.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against the shareholder's income tax liability, provided the required information is furnished to the IRS.

### ***State, Local and Foreign Tax Consequences***

Brandywine, the Operating Partnership, the Subsidiary Partnerships and Brandywine's shareholders may be subject to state, local and foreign taxation in various jurisdictions, including those in which it or they transact business or reside. The state, local and foreign tax treatment of Brandywine, the Operating Partnership, the Subsidiary Partnerships and Brandywine's shareholders may not conform to the federal income tax consequences discussed above. Any foreign taxes incurred by us would not pass through to shareholders as a credit against their U.S. federal income tax liability. Prospective shareholders should consult their own tax advisors regarding the effect of state, local and foreign tax laws on an investment in our shares.

### ***Legislative or Other Actions Affecting REITs***

The rules dealing with U.S. federal income taxation are constantly under review by persons involved in the legislative process and by the IRS and the U.S. Treasury Department. No assurance can be given as to whether, when, or in what form, the U.S. federal income tax laws applicable to us and our shareholders may be enacted. Changes to the U.S. federal tax laws and interpretations of U.S. federal tax laws could adversely affect an investment in our shares.

### **Taxation of Holders of Debt Securities**

This section describes the material United States federal income tax consequences of owning the debt securities that Brandywine Realty Trust or Brandywine Operating Partnership may offer. This summary is for general information only and is not tax advice. The tax consequences of owning any particular issue of debt securities will be discussed in the applicable prospectus.

As used herein, a "U.S. Holder" means a beneficial owner of our debt securities, who is, for U.S. federal income tax purposes:

- a citizen or resident of the U.S. as defined in section 7701(b) of the Code,
- a corporation (or other entity treated as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S. or any state thereof or the District of Columbia,
- an estate the income of which is subject to U.S. federal income taxation regardless of its source or
- a trust if it (a) is subject to the primary supervision of a court within the U.S. and one or more U.S. persons have the authority to control all substantial decisions of the trust or (b) has a valid election in effect under applicable U.S. Treasury regulations to be treated as a U.S. person.

As used herein, a "non-U.S. Holder" means a beneficial owner of our debt securities that is not a "U.S. Holder," and that is not a partnership (or other entity treated as a partnership for U.S. federal income tax purposes).

If a partnership holds debt securities, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding debt securities, you should consult your tax advisors.

## Taxation of U.S. Holders

### Interest

The stated interest on debt securities generally will be taxable to a U.S. Holder as ordinary income at the time that it is paid or accrued, in accordance with the U.S. Holder's method of accounting for United States federal income tax purposes.

### Original Issue Discount

If you own debt securities issued with original issue discount ("OID"), you will be subject to special tax accounting rules, as described in greater detail below. In that case, you should be aware that you generally must include OID in gross income in advance of the receipt of cash attributable to that income. However, you generally will not be required to include separately in income cash payments received on the debt securities, even if denominated as interest, to the extent those payments do not constitute "qualified stated interest," as defined below. If we determine that a particular debt security will be an OID debt security, we will disclose that determination in the prospectus relating to those debt securities.

A debt security with an "issue price" that is less than the "stated redemption price at maturity" (the sum of all payments to be made on the debt security other than "qualified stated interest") generally will be issued with OID if that difference is at least 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity. The "issue price" of each debt security in a particular offering will be the first price at which a substantial amount of that particular offering is sold to the public. The term "qualified stated interest" means stated interest that is unconditionally payable in cash or in property, other than debt instruments of the issuer, and the interest to be paid meets all of the following conditions:

- it is payable at least once per year;
- it is payable over the entire term of the debt security; and
- it is payable at a single fixed rate or, subject to certain conditions, based on one or more interest indices.

If we determine that particular debt securities of a series will bear interest that is not qualified stated interest, we will disclose that determination in the prospectus relating to those debt securities.

If you own a debt security issued with "*de minimis*" OID, which is discount that is not OID because it is less than 0.25% of the stated redemption price at maturity multiplied by the number of complete years to maturity, you generally must include the *de minimis* OID in income at the time principal payments on the debt securities are made in proportion to the amount paid. Any amount of *de minimis* OID that you have included in income will be treated as capital gain.

Certain of the debt securities may contain provisions permitting them to be redeemed prior to their stated maturity at our option and/or at your option. OID debt securities containing those features may be subject to rules that differ from the general rules discussed herein. If you are considering the purchase of OID debt securities with those features, you should carefully examine the applicable prospectus and should consult your own tax advisors with respect to those features since the tax consequences to you with respect to OID will depend, in part, on the particular terms and features of the debt securities.

If you own OID debt securities with a maturity upon issuance of more than one year you generally must include OID in income in advance of the receipt of some or all of the related cash payments using the "constant yield method" described in the following paragraphs. This method takes into account the compounding of interest.

The amount of OID that you must include in income if you are the initial United States holder of an OID debt security is the sum of the "daily portions" of OID with respect to the debt security for each day during the taxable year or portion of the taxable year in which you held that debt security ("accrued OID"). The daily portion is determined by allocating to each day in any "accrual period" a pro rata portion of the OID allocable to that accrual period. The "accrual period" for an OID debt security may be of any length and may vary in length over the term of the debt security, provided that each accrual period is no longer than one year and each scheduled payment of principal or interest occurs on the first day or the final day of an accrual period. The amount of OID allocable to any accrual period is an amount equal to the excess, if any, of:

- the debt security's "adjusted issue price" at the beginning of the accrual period multiplied by its yield to maturity, determined on the basis of compounding at the close of each accrual period and properly adjusted for the length of the accrual period, over
- the aggregate of all qualified stated interest allocable to the accrual period.

OID allocable to a final accrual period is the difference between the amount payable at maturity, other than a payment of qualified stated interest, and the adjusted issue price at the beginning of the final accrual period. Special rules will apply for calculating OID for an initial short accrual period. The "adjusted issue price" of a debt security at the beginning of any accrual

period is equal to its issue price increased by the accrued OID for each prior accrual period, determined without regard to the amortization of any acquisition or bond premium, as described below, and reduced by any payments made on the debt security (other than qualified stated interest) on or before the first day of the accrual period. Under these rules, you will generally have to include in income increasingly greater amounts of OID in successive accrual periods. We are required to provide information returns stating the amount of OID accrued on debt securities held of record by persons other than corporations and other exempt holders.

Floating rate debt securities are subject to special OID rules. In the case of an OID debt security that is a floating rate debt security, both the “yield to maturity” and “qualified stated interest” will be determined solely for purposes of calculating the accrual of OID as though the debt security will bear interest in all periods at a fixed rate generally equal to the rate that would be applicable to interest payments on the debt security on its date of issue or, in the case of certain floating rate debt securities, the rate that reflects the yield to maturity that is reasonably expected for the debt security. Additional rules may apply if either:

- the interest on a floating rate debt security is based on more than one interest index; or
- the principal amount of the debt security is indexed in any manner.

This discussion does not address the tax rules applicable to debt securities with an indexed principal amount. If you are considering the purchase of floating rate OID debt securities or securities with indexed principal amounts, you should carefully examine the prospectus relating to those debt securities, and should consult your own tax advisors regarding the United States federal income tax consequences to you of holding and disposing of those debt securities.

You may elect to treat all interest on any debt securities as OID and calculate the amount includible in gross income under the constant yield method described above. For purposes of this election, interest includes stated interest, acquisition discount, OID, *de minimis* OID, market discount, *de minimis* market discount and unstated interest, as adjusted by any amortizable bond premium or acquisition premium. You must make this election for the taxable year in which you acquired the debt security, and you may not revoke the election without the consent of the IRS. You should consult with your own tax advisors about this election.

### **Market Discount**

If you purchase debt securities, other than OID debt securities, for an amount that is less than their stated redemption price at maturity, or, in the case of OID debt securities, their adjusted issue price, the amount of the difference will be treated as “market discount” for United States federal income tax purposes, unless that difference is less than a specified *de minimis* amount. Under the market discount rules, you will be required to treat any principal payment on, or any gain on the sale, exchange, retirement or other disposition of, the debt securities as ordinary income to the extent of the market discount that you have not previously included in income and are treated as having accrued on the debt securities at the time of their payment or disposition. In addition, you may be required to defer, until the maturity of the debt securities or their earlier disposition in a taxable transaction, the deduction of all or a portion of the interest expense on any indebtedness attributable to the debt securities. You may elect, on a debt security-by-debt security basis, to deduct the deferred interest expense in a tax year prior to the year of disposition. You should consult your own tax advisors before making this election.

Any market discount will be considered to accrue ratably during the period from the date of acquisition to the maturity date of the debt securities, unless you elect to accrue on a constant interest method. You may elect to include market discount in income currently as it accrues, on either a ratable or constant interest method, in which case the rule described above regarding deferral of interest deductions will not apply. Your election to include market discount in income currently, once made, applies to all market discount obligations acquired by you on or after the first taxable year to which your election applies and may not be revoked without the consent of the IRS. You should consult your own tax advisor before making this election.

### **Acquisition Premium and Amortizable Bond Premium**

If you purchase OID debt securities for an amount that is greater than their adjusted issue price but equal to or less than the sum of all amounts payable on the debt securities after the purchase date other than payments of qualified stated interest, you will be considered to have purchased those debt securities at an “acquisition premium.” Under the acquisition premium rules, the amount of OID that you must include in gross income with respect to those debt securities for any taxable year will be reduced by the portion of the acquisition premium properly allocable to that year.

If you purchase debt securities (including OID debt securities) for an amount in excess of the sum of all amounts payable on those debt securities after the purchase date other than qualified stated interest, you will be considered to have purchased those debt securities at a “premium” and, if they are OID debt securities, you will not be required to include any OID

in income. You generally may elect to amortize the premium over the remaining term of those debt securities on a constant yield method as an offset to interest when includible in income under your regular accounting method. In the case of debt securities that provide for alternative payment schedules, bond premium is calculated by assuming that (a) you will exercise or not exercise options in a manner that maximizes your yield, and (b) we will exercise or not exercise options in a manner that minimizes your yield (except that we will be assumed to exercise call options in a manner that maximizes your yield). If you do not elect to amortize bond premium, that premium will decrease the gain or increase the loss you would otherwise recognize on disposition of the debt security. Your election to amortize premium on a constant yield method will also apply to all debt obligations held or subsequently acquired by you on or after the first day of the first taxable year to which the election applies. You may not revoke the election without the consent of the IRS. You should consult your own tax advisor before making this election.

### **Sale, Exchange and Retirement of Debt Securities**

A U.S. Holder of debt securities will recognize gain or loss upon the sale, exchange, retirement, redemption or other taxable disposition of such debt securities in an amount equal to the difference between:

- the amount of cash and the fair market value of other property received in exchange for such debt securities, other than amounts attributable to accrued but unpaid stated interest, which will be subject to tax as ordinary income to the extent not previously included in income; and
- the U.S. Holder's adjusted tax basis in such debt securities.

A U.S. Holder's adjusted tax basis in a debt security generally will equal the cost of the debt security to such holder (A) increased by the amount of OID or accrued market discount (if any) previously included in income by such holder and (B) decreased by the amount of any payments other than qualified stated interest payments and any amortizable bond premium taken by the holder.

Any gain or loss recognized will generally be capital gain or loss, and such capital gain or loss will generally be long-term capital gain or loss if the debt security has been held by the U.S. Holder for more than one year. Long-term capital gain for non-corporate taxpayers is subject to reduced rates of United States federal income taxation (20% maximum federal rate). The deductibility of capital losses is subject to certain limitations.

If a U.S. Holder recognizes a loss upon a subsequent disposition of our debt securities in an amount that exceeds a prescribed threshold, it is possible that the provisions of Treasury Regulations involving "reportable transactions" could apply, with a resulting requirement to separately disclose the loss generating transactions to the IRS. While these regulations are directed towards "tax shelters," they are written broadly, and apply to transactions that would not typically be considered tax shelters. Significant penalties apply for failure to comply with these requirements. You should consult your tax advisors concerning any possible disclosure obligation with respect to the receipt or disposition of our debt securities, or transactions that might be undertaken directly or indirectly by us. Moreover, you should be aware that we and other participants in transactions involving us (including our advisors) might be subject to disclosure or other requirements pursuant to these regulations.

### **Medicare Tax on Investment Income**

Certain U.S. Shareholders and U.S. Holders who are individuals, estates or trusts and whose income exceeds certain thresholds must pay a 3.8% Medicare tax on "net investment income" which includes, among other things, dividends on shares, interest on debentures and capital gains from the sale or other disposition of shares or debentures, subject to certain exceptions. Prospective investors should consult their tax advisors regarding the effect, if any, of this legislation on their ownership and disposition of our common shares, preferred shares or debentures.

### **Taxation of Tax-Exempt Holders of Debt Securities**

Assuming the debt security is debt for tax purposes, interest income accrued on the debt security should not constitute unrelated business taxable income to a tax-exempt holder. As a result, a tax-exempt holder generally should not be subject to U.S. federal income tax on the interest income accruing on our debt securities. Similarly, any gain recognized by the tax-exempt holder in connection with a sale of the debt security generally should not be unrelated business taxable income. However, if a tax-exempt holder were to finance its acquisition of the debt security with debt, a portion of the interest income and gain attributable to the debt security would constitute unrelated business taxable income pursuant to the "debt-financed property" rules. Tax-exempt holders should consult their own counsel to determine the potential tax consequences of an investment in our debt securities.

### **Taxation of Non-U.S. Holders of Debt Securities**

The rules governing the U.S. federal income taxation of a Non-U.S. Holder are complex and no attempt will be made herein to provide more than a summary of such rules. Non-U.S. Holders should consult their tax advisors to determine the effect of U.S. federal, state, local and foreign tax laws, as well as tax treaties, with regard to an investment in the debt securities.

#### **Interest**

Interest (including OID) paid to a non-U.S. Holder of debt securities will not be subject to United States federal withholding tax under the “portfolio interest exception,” provided that:

- interest paid on debt securities is not effectively connected with a non-U.S. Holder’s conduct of a trade or business in the United States;
- the non-U.S. Holder does not actually or constructively own 10% or more of the capital or profits interest in the Operating Partnership (in the case of debt issued by the Operating Partnership), or 10% or more of the shares of Brandywine (in the case of debt issued by Brandywine);
- the non-U.S. Holder is not
  - a controlled foreign corporation that is related to the Operating Partnership or Brandywine, as applicable, or
  - a bank that receives such interest on an extension of credit made pursuant to a loan agreement entered into in the ordinary course of its trade or business; and
- the beneficial owner of debt securities provides a certification, which is generally made on an IRS Form W-8BEN or a suitable substitute form and signed under penalties of perjury, that it is not a United States person.

A payment of interest (including OID) to a non-U.S. Holder that does not qualify for the portfolio interest exception and that is not effectively connected to a United States trade or business will be subject to United States federal withholding tax at a rate of 30%, unless a United States income tax treaty applies to reduce or eliminate withholding.

A non-U.S. Holder will generally be subject to tax in the same manner as a U.S. Holder with respect to payments of interest (including OID) if such payments are effectively connected with the conduct of a trade or business by the non-U.S. Holder in the United States and, if an applicable tax treaty provides, such gain is attributable to a United States permanent establishment maintained by the non-U.S. Holder. In some circumstances, such effectively connected income received by a non-U.S. Holder which is a corporation may be subject to an additional “branch profits tax” at a 30% base rate or, if applicable, a lower treaty rate.

To claim the benefit of a lower treaty rate or to claim exemption from withholding because the income is effectively connected with a United States trade or business, the non-U.S. Holder must provide a properly executed IRS Form W-8BEN or IRS Form W-8ECI, or a suitable substitute form, as applicable, prior to the payment of interest. Such certificate must contain, among other information, the name and address of the non-U.S. Holder.

Non-U.S. Holders are urged to consult their own tax advisors regarding applicable income tax treaties, which may provide different rules.

#### **Sale or Retirement of Debt Securities**

A non-U.S. Holder generally will not be subject to United States federal income tax or withholding tax on gain realized on the sale, exchange or redemption of debt securities unless:

- the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the sale, exchange or redemption, and certain other conditions are met; or
- the gain is effectively connected with the conduct of a trade or business of the non-U.S. Holder in the United States and, if an applicable tax treaty so provides, such gain is attributable to a United States permanent establishment maintained by such holder.

Except to the extent that an applicable tax treaty provides otherwise, a non-U.S. Holder will generally be subject to tax in the same manner as a U.S. Holder with respect to gain realized on the sale, exchange or redemption of debt securities if such gain is effectively connected with the conduct of a trade or business by the non-U.S. Holder in the United States and, if an

applicable tax treaty provides, such gain is attributable to a United States permanent establishment maintained by the non-U.S. Holder. In certain circumstances, a non-U.S. Holder that is a corporation will be subject to an additional “branch profits tax” at a 30% rate or, if applicable, a lower treaty rate on such income.

### **U.S. Federal Estate Tax**

Your estate will not be subject to U.S. federal estate tax on the debt securities beneficially owned by you at the time of your death, provided that any payment to you on the debt securities, including OID, would be eligible for exemption from the 30% U.S. federal withholding tax under the “portfolio interest” rule described above, without regard to the certification requirement.

### ***Information Reporting and Backup Withholding Applicable to Holders of Debt Securities***

#### **U.S. Holders**

Certain U.S. Holders may be subject to information reporting requirements on payments of principal and interest (including OID) on debt securities and payments of the proceeds of the sale, exchange, or redemption of debt securities, and backup withholding, currently imposed at a rate of 28%, may apply to such payment if the U.S. Holder:

- fails to furnish an accurate taxpayer identification number, or TIN, to the payor in the manner required;
- is notified by the IRS that it has failed to properly report payments of interest or dividends; or
- under certain circumstances, fails to certify, under penalties of perjury, that it has furnished a correct TIN and that it has not been notified by the IRS that it is subject to backup withholding.

#### **Non-U.S. Holders**

A non-U.S. Holder is generally not subject to backup withholding with respect to payments of interest (including OID) on debt securities if it certifies as to its status as a non-U.S. Holder under penalties of perjury or if it otherwise establishes an exemption, provided that neither we nor our paying agent has actual knowledge or reason to know that the non-U.S. Holder is a United States person or that the conditions of any other exemptions are not, in fact, satisfied. Information reporting requirements, however, will apply to payments of interest (including OID) to non-U.S. Holders where such interest is subject to withholding or exempt from United States withholding tax pursuant to a tax treaty. Copies of these information returns may also be made available under the provisions of a specific treaty or agreement to the tax authorities of the country in which the non-U.S. Holder resides.

The payment of the proceeds from the disposition of debt securities to or through the United States office of any broker, United States or foreign, will be subject to information reporting and possible backup withholding unless the owner certifies as to its non-United States status under penalties of perjury or otherwise establishes an exemption, provided that the broker does not have actual knowledge or reason to know that the non-U.S. Holder is a United States person or that the conditions of any other exemption are not, in fact, satisfied.

The payment of the proceeds from the disposition of debt securities to or through a non-United States office of a non-United States broker that is not a “United States related person” generally will not be subject to information reporting or backup withholding. For this purpose, a “United States related person” is:

a controlled foreign corporation for United States federal income tax purposes;

a foreign person 50% or more of whose gross income from all sources for the three-year period ending with the close of its taxable year preceding the payment, or for such part of the period that the broker has been in existence, is derived from activities that are effectively connected with the conduct of a United States trade or business; or

a foreign partnership that at any time during the partnership’s taxable year is either engaged in the conduct of a trade or business in the United States or of which 50% or more of its income or capital interests are held by United States persons.

In the case of the payment of proceeds from the disposition of debt securities to or through a non-United States office of a broker that is either a United States person or a United States related person, the payment may be subject to information reporting unless the broker has documentary evidence in its files that the owner is a non-U.S. Holder and the broker has no knowledge or reason to know to the contrary. Backup withholding will not apply to payments made through foreign offices of a broker that is a United States person or a United States related person, absent actual knowledge that the payee is a United States person.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules from a payment to a Holder will be allowed as a refund or a credit against such Holder's United States federal income tax liability, provided that the requisite procedures are followed.

Holders of debt securities are urged to consult their tax advisors regarding their qualification for exemption from backup withholding and the procedure for obtaining such an exemption, if applicable.

### **FATCA Withholding**

U.S. tax legislation ("FATCA") enacted in 2010 and subsequent guidance provides that a 30% withholding tax will be imposed on payments of dividends on shares and interest on debt securities made after June 30, 2014 and payments of gross proceeds from the sale, exchange or other disposition of shares or debt securities made after December 31, 2016 to a foreign entity if such entity fails to satisfy certain new disclosure and reporting rules. In general, these new disclosure and reporting rules require that (i) in the case of a foreign financial entity, the entity identify and provide information in respect of financial accounts with such entity held (directly or indirectly) by U.S. persons and U.S.-owned foreign entities, and (ii) in the case of a non-financial foreign entity, the entity identify and provide information in respect of substantial U.S. owners of such entity. Additionally, various requirements and exceptions are provided under FATCA and additional or different requirements and exceptions may be provided in subsequent guidance. Prospective investors should consult their tax advisors regarding the possible implications of this legislation on their investment in common shares or preferred shares of Brandywine or debt securities of the Operating Partnership.
