Brandywine Realty Trust Announces Fourth Quarter, Full Year 2019 Results and Maintains 2020 Guidance

Philadelphia, PA, January 29, 2020 - Brandywine Realty Trust (NYSE:BDN) today reported its financial and operating results for the three and twelve-month periods ended December 31, 2019.

Management Comments

"We completed 2019 accomplishing many of our business key plan objectives," stated Jerry Sweeney, President and Chief Executive Officer of Brandywine Realty Trust. "Our markets continue to improve which allowed us to achieve our 2019 speculative revenue target and generate strong rental rate growth throughout the year. Turning to 2020, we have already achieved 73% of our speculative revenue target and our 2020 business plan anticipates continued strong rental rate growth throughout our portfolio. In addition to strong market fundamentals, we continue to look for development opportunities and have two planned starts for 2020 that will accelerate our growth over the next several years. Based on the fourth quarter activity and our outlook for 2020, we are maintaining our current FFO guidance range of \$1.41 to \$1.51."

Fourth Quarter 2019 Highlights

Financial Results

- Net income allocated to common shareholders; \$16.7 million, or \$0.09 per diluted share.
- Funds from Operations (FFO); \$67.0 million, or \$0.38 per diluted share.

Fourth Quarter Portfolio Results

- Core Portfolio: 93.0% occupied and 95.5% leased.
- New and renewal leases signed: 567,000 square feet.
- Tenant Retention Ratio: 41% in fourth guarter and 66% for 2019.
- Rental Rate Mark-to-Market: 10.0% on a GAAP basis and 3.1% on a cash basis.

Transaction Activity

Dispositions

• On October 29, 2019, the PJP Ventures, three real estate ventures, in which we own a 25%-30% interest, each sold their sole operating office properties totaling 204,000 square feet in Charlottesville, VA at a gross sales price of \$51.0 million. We received net cash proceeds of \$9.1 million after closing costs and related debt payoffs. Our share of the gain on the real estate venture transaction and loss on the early extinguishment of debt were \$8.0 million and \$0.3 million, respectively.

Finance Activity

As previously announced, on October 3, 2019, we priced a \$200.0 million underwritten public offering consisting of \$100.0 million of our 4.100% guaranteed notes due 2024 (the "2024 Notes") and \$100.0 million of our 4.550% guaranteed notes due 2029 (the "2029 Notes" and, together with the 2024 Notes, the "Notes").

The net proceeds of the offering, after deducting underwriting discounts and estimated transaction expenses

related to this offering and excluding accrued interest paid by the purchasers of the 2024 Notes and the 2029 Notes, were approximately \$214.3 million. We used the net proceeds of the offering to reduce outstanding borrowings under our unsecured revolving credit facility and general corporate purposes.

- We have no outstanding balance on our \$600.0 million unsecured revolving credit facility as of December 31, 2019.
- We have \$90.5 million of cash and cash equivalents as of December 31, 2019.

Forward-Looking Statements

Estimates of future earnings per share. FFO per share, common share dividend distributions and certain other statements in this release constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause our and our affiliates' actual results, performance, achievements or transactions to be materially different from any future results, performance, achievements or transactions expressed or implied by such forward-looking statements. Such risks, uncertainties and other factors relate to, among others: our ability to lease vacant space and to renew or relet space under expiring leases at expected levels; competition with other real estate companies for tenants; the potential loss or bankruptcy of major tenants; interest rate levels; the availability of debt, equity or other financing; risks of acquisitions, dispositions and developments, including the cost of construction delays and cost overruns; unanticipated operating and capital costs; our ability to obtain adequate insurance, including coverage for terrorist acts; dependence upon certain geographic markets; and general and local economic and real estate conditions, including the extent and duration of adverse changes that affect the industries in which our tenants operate. The declaration and payment of future dividends (both timing and amount) is subject to the determination of our Board of Trustees, in its sole discretion, after considering various factors, including the Company's financial condition, historical and forecast operating results, and available cash flow, as well as any applicable laws and contractual covenants and any other relevant factors. The Company's practice regarding payment of dividends may be modified at any time and from time to time. Additional information on factors which could impact us and the forwardlooking statements contained herein are included in our filings with the Securities and Exchange Commission, including our Form 10-K for the year ended December 31, 2018. We assume no obligation to update or supplement forward-looking statements that become untrue because of subsequent events except as required by law.

Non-GAAP Supplemental Financial Measures

We compute our financial results in accordance with generally accepted accounting principles (GAAP). Although FFO and NOI are non-GAAP financial measures, we believe that FFO and NOI calculations are helpful to shareholders and potential investors and are widely recognized measures of real estate investment trust performance. At the end of this press release, we have provided a reconciliation of the non-GAAP financial measures to the most directly comparable GAAP measure.

Funds from Operations (FFO)

We compute FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which may not be comparable to FFO reported by other REITs that do not compute FFO in accordance with the NAREIT definition, or that interpret the NAREIT definition differently than us. NAREIT defines FFO as net income (loss) before non-controlling interests and excluding gains (losses) on sales of depreciable operating property, impairment losses on depreciable consolidated real estate, impairment losses on investments in unconsolidated real estate ventures and extraordinary items (computed in accordance with GAAP); plus real estate related depreciation and amortization (excluding amortization of deferred financing costs), and after similar adjustments for unconsolidated joint ventures. Net income, the GAAP measure that we believe to be most directly comparable to FFO, includes depreciation and amortization expenses, gains or losses on property sales, extraordinary items and non-controlling interests. To facilitate a clear understanding of our historical operating results, FFO should be examined in conjunction with net income (determined in accordance with GAAP) as presented in the financial statements included elsewhere in this release. FFO does not represent cash flow from operating activities (determined in accordance with GAAP) as an indication of our financial performance or to be an alternative to cash flow from operating activities (determined in accordance with GAAP) as a measure of our liquidity, nor is it indicative of funds available for our cash needs, including our ability to make cash distributions to shareholders.

Net Operating Income (NOI)

NOI is a financial measure equal to net income available to common shareholders, the most directly comparable GAAP financial measure, plus corporate general and administrative expense, depreciation and amortization, interest expense, non-controlling interest in the Operating Partnership and losses from early extinguishment of debt, less interest income, development and management income, gains from property dispositions, gains on sale from discontinued operations, gains on early extinguishment of debt, income from discontinued operations, income from unconsolidated joint ventures and non-controlling interest in property partnerships. In some cases we also present NOI on a cash basis, which is NOI after eliminating the effects of straight-lining of rent and deferred market intangible amortization. NOI presented by us may not be comparable to NOI reported by other REITs that define NOI differently. NOI should not be considered an alternative to net income as an indication of our performance or to cash flows as a measure of the Company's liquidity or its ability to make distributions. NOI is a useful measure for evaluating the operating performance of our properties, as it excludes certain components from net income available to common shareholders in order to provide results that are more closely related to a property's results of operations. NOI is used internally to evaluate the performance of our operating segments and to make decisions about resource allocations. We concluded that NOI provides useful information to investors regarding our financial condition and results of operations, as it reflects only the income and expense items incurred at the property level, as well as the impact on operations from trends in occupancy rates, rental rates, operating costs and acquisition and development activity on an unlevered basis.

Core Portfolio

Our core portfolio is comprised of our wholly-owned properties, excluding any properties currently in development, re-development or re-entitlement.
